MEMORANDUM FOR:

John P. Torres

Director (Acting)

Office of Detention and Removal

FROM:

b6,

Deportation Officer

Los Angeles Field Office

SUBJECT:

Monterey Park City Jail Annual Detention Review

The LOS Field Office, Office of Detention and Removal conducted a detention review of the Monterey Park City Jail on June 19, 2006. This review was conducted by Deportation Officer b6, b7c This facility is used for detainees requiring housing less than 72 hours.

#### Type of Review:

This review is a scheduled Operational Review to determine general compliance with established Immigration and Customs Enforcement (ICE) National Detention Standards. The last review of this facility was on July 25, 2005.

#### **Review Summary:**

The Monterey Park city Jail has been used by ICE for housing less than 72 hours since August of 1998. The facility is not currently accredited. No other inspections by State or local entities have occurred during the previous 12 months.

#### **Review Findings:**

The following information summarizes those standards <u>not</u> in compliance. Each standard is identified and a short summary provided regarding standards or procedures not currently in compliance.

Compliant - 24
Deficient - 1
At-Risk - 0
Non-Applicable - 3

Subject: Annual Detention iew Report

Page 2

### **Standards Summary Findings:**

#### Medical Care - Deficient

• There are no trained medical personnel within the jail, which resulted in the deficient rating. However, there are several factors which mitigate the impact of this finding. First, all detainees are pre-screened by the Public Health Service while in the LOS Staging facility. If a detainee is identified as needing medical care, they are not sent to the Monterey Park City Jail. Second, all jail staff are trained in and maintain certification for first aid and CPR in the event of emergencies. Third, there is a hospital with an ER approximately a mile away, and the fire department/paramedics are physically located in an adjoining building, immediately next door to the jail and can repond rapidly.

#### **RIC Observations:**

The Monterey Park facility is used infrequently and usually houses only one or two ICE adult male detainees at a time. When the June 19, 2006 inspection was performed, the facility was empty of ICE detainces.

#### RIC Issues and Concerns

Upon receipt of the Significant Incident Summary Worksheet, the reviewer noted that there were no incidents in any category during the year. This was discussed with the staff and it was determined that the information provided was correct. The facility is utilized by ICE on an infrequent basis and for short term only. It is also utilized to house low level criminals without evidence of violent behavior. The facility limits the number and level of detainee housed. Because of this, incidents have not occurred within the past review year.

#### Recommended Rating and Justification:

It is the Reviewer in Charge recommendation that the facility receive a rating of "Acceptable". It is the recommendation of the RIC that no plan of action is required and this review should be closed.

#### RIC Assurance Statement:

All findings of this review have been documented on Form G-324B and are supported by the written documentation contained in the review file.

Comments: I, 66, 67c Reviewer in Charge of the Monterey Park City Jail Inspection summarize the inspection with the following information:

The Monterey Park City Jail has been in use since August of 1998. Previous reviews have been conducted, and the jail has been rated as acceptable.

Officer b6, b7c the jail adminstrator, was advised of the deficient area, Access to Medical Care. There are no trained medical personnel within the jail, which resulted in the deficient rating. However, there are several factors which mitigate the impact of this finding. First, all detainees are pre-screened by the Public Health Service while in the LOS Staging facility. If a detainee is identified as needing medical care, they are not sent to the Monterey Park City Jail. Second, all jail staff are trained in and maintain certification for first aid and CPR in the event of emergencies. Third, there is a hospital with an ER approxiamtely a mile away, and the fire department/paramedics are physically located in an adjoining building, immediately next door to the jail and can repond rapidly.

Overall the jail is acceptable.
