Members of the service must always carefully follow all safety procedures when handling and/or transporting fireworks. The improper storage, transportation or handling of fireworks could result in serious injury or even death. Caution must be maintained throughout the entire procedure from seizure to disposal. The following precautions must be adhered to for reasons of personnel safety:

- a. *No smoking within fifty feet of any fireworks.*
- b. *Handle all bags and boxes containing fireworks with care.*
- c. *The Bomb Squad should be contacted from the scene whenever large seizures are made, whenever an unusual problem arises regarding fireworks or when any question regarding safety arises.*

All fireworks are to be delivered to the Bomb Squad range facility as soon as practical, or as directed by the Bomb Squad after making the required notification as indicated in step "19" above. Small amounts of fireworks can safely be stored prior to transport by avoiding placement near any source of excessive heat such as radiators and portable heaters.*

- f. *As a general rule, no more than four bags of fireworks should be transported in an RMP. When fireworks are transported in an RMP, they should be placed in the rear seat as this is away from any source of heat or spark. Within Department passenger vans, fireworks should also be placed on the rear bench seats in accordance with the general rule of no more than four bags per seat.*
- g. *When transporting fireworks in a Department vehicle all windows should be opened a minimum of two inches to avoid toxic fumes. Fireworks should not be placed in the trunk of a vehicle.*
- h. *As a general rule, no more than twenty-five sealed bags or boxes of fireworks should be transported in a Department cargo van.*

DELIVERY OF GASOLINE TO FUEL DISPENSING STATIONS			
DATE ISSUED: 08/01/13	DATE EFFECTIVE: 08/01/13	REVISION NUMBER:	PAGE: 1 of 2

PURPOSE To determine the amount of fuel on hand prior to, and after the delivery of, gasoline to a Department fuel dispensing facility.

PROCEDURE When an employee of a fuel company arrives at a Department fuel dispensing facility to deliver gasoline.

DESK OFFICER 1. Assign member of the service to supervise fuel delivery.

NOTE *The person assigned to security at those Department facilities other than precincts, e.g., Outdoor Range, Central Repair Shop, Police Headquarters, etc., that dispense fuel, will perform the duties designated to be performed by the desk officer throughout this procedure.*

ASSIGNED MEMBER

2. Determine amount of gasoline in storage tank by using the electronic tank monitor (TLS 350), which is located at the desk area in most commands with fuel tanks.
3. Press appropriate button on electronic tank monitor (TLS 350) and advise the delivery driver of the ninety percent (90%) ullage amount. (This is the amount that can safely be added to the storage tank.)
4. Ascertain meter reading on gasoline vendor's truck prior to pumping fuel into storage tank.
 - a. Inspect and initial blank vending invoice prior to delivery of gasoline.
 - b. Verify the same invoice is returned after completion of delivery.

NOTE *Amount of gasoline is determined from the meter on the vendor's truck. Assigned member must ensure that the meter is reset to zero (0) before pumping commences. If vendor is on-site and delivery cannot be made, a uniformed member of the service in the rank of sergeant or above must sign the vending invoice stating that the tank was full, or the tank was blocked by another vehicle (indicate vehicle plate number), or that no keys were available to unlock storage tank.*

5. Use the electronic tank monitor (TLS 350) to verify delivery amount.
 - a. Press print button and verify new volume (storage balance) reflects the delivery amount.
6. Report delivery amounts to desk officer/counterpart.

DESK OFFICER

7. Enter in Command Log the following information concerning receipt of fuel:
 - a. Amount of gasoline received
 - b. Invoice number (verify that vendor's invoice was initialed by assigned member)
 - c. Vendor's name
 - d. Name of member of the service verifying receipt.

219-12	08/01/13		2 of 2

DESK OFFICER 8. Notify Fuel Control Unit of the delivery reading and number of gallons
(*continued*) delivered by vendor.

NOTE *To eliminate an unnecessary shut down, it is imperative that Fuel Control Center be notified as soon as delivery has been completed.*

9. Forward one copy of Vendor's Invoice to Audits and Accounts Unit on day after receipt of gasoline.
 - a. File remaining copy of Invoice.

ADDITIONAL DATA *The Computerized Fuel System is programmed to shut down fuel pumps at a dispensing facility when the level of fuel, as determined by the computer, reaches a predetermined cut off point.*

Gasoline is ordered automatically by Fuel Control Center personnel. However, engine oil must be monitored by fuel dispensing facility personnel and reordered from the Fleet Services Division when necessary.

Commanding officers of commands that are equipped with Department fueling sites will have a sensor report generated each month to comply with federal leak detection requirements under 40 C.F.R. 280.40. The electronic tank monitor (Veeder-Root TLS 350) will be used to conduct this test. Members concerned will press the print button to generate a sensor and inventory report. The member will then attach the report to the page in the assigned logbook, which will be subject to inspection by the Environmental Protection Agency. If tank monitor is malfunctioning and will not print a report, or is out of paper, commands will notify the Fuel Control Unit. The Fuel Control Unit will be responsible to repair the tank monitor.

ASSIGNED MEMBER OF THE SERVICE 4. Verify that the vendor delivery ticket has been signed by a Department of Citywide Administrative Services (D.C.A.S.) inspector prior to the commencement of pumping operations.
 a. If the ticket has not been signed by a D.C.A.S. inspector **DO NOT ACCEPT DELIVERY**.

NOTE *In commands accepting delivery of #4 or #6 oil, the member of the service assigned to supervise the pumping will verify that the vendor has a vendor delivery ticket and a Department of Citywide Administrative Services certificate. NOTE *Commands accepting delivery of #4 and #6 oil will attach the "Department" copy of the D.C.A.S. certificate to the vendor delivery ticket and forward both to Audits and Accounts Unit. USE OF PATROL KITS			
DATE ISSUED: 08/01/13	DATE EFFECTIVE: 08/01/13	REVISION NUMBER:	PAGE: 1 of 4

PURPOSE

To provide instructions to members of the service in the proper maintenance, utilization, and disposal of Patrol Kit items.

SCOPE

A Patrol Kit is a collection of personal protective equipment (PPE) items housed in a white plastic first-aid type carrying case. The case bears the NYPD logo and is marked with the words "Patrol Kit" on its cover. Each Patrol Kit consists of two disposable gowns, two disposable eye/mouth shields, two pairs of heavy duty gloves, two pairs of disposable shoe covers, ten antiseptic wipes, and a disposal "biohazard" bag for use against contact with blood or other potentially infectious materials (OPIM). OPIM includes semen, vaginal secretions, and fluid from the brain, spine, chest cavity, stomach, heart and joints. Saliva or urine not visibly contaminated with blood is not considered to be OPIM. Disposable gloves and Patrol Kit items must be properly disposed of after being utilized to protect one's hands, skin and clothing from direct contact with blood, OPIM, dead human bodies, and animals which may have infectious diseases. Contaminated or damaged personal protective equipment will not be reused and will be discarded in biohazard receptacles at designated Department facilities or hospitals.

PROCEDURE

Maintain and utilize disposable gloves and Patrol Kit items as follows:

VEHICLE OPERATOR

1. Ensure that the Patrol Kit carry case is present and secure in the trunk of assigned/designated Department auto at beginning of tour.
2. Inspect contents of case to verify that all required Patrol Kit items, as listed in the SCOPE statement, are present in the quantities indicated.
 - a. Also ensure that an adequate supply of disposable gloves are available in the Department auto.
3. Make **ACTIVITY LOG (PD112-145)** entry indicating results of inspection.
 - a. Report missing/damaged Patrol Kit items to the patrol supervisor and promptly replace them.

NOTE

Adequate supplies of Patrol Kit items/disposable gloves should be maintained at commands at all times and stored where they will be readily accessible for use. At least one carrying case containing a Patrol Kit is to be affixed to a wall in a conspicuous, accessible location at each precinct, transit district, police service area, court section, medical district, Aviation, Crime Scene, Harbor, Mounted Unit and Highway District location.

MEMBER OF THE SERVICE

4. Utilize disposable plastic gloves and Patrol Kit items when necessary to handle persons, animals or items in a safe, sanitary manner.

NOTE

Biohazard waste liners should be closed prior to removal from the receptacle in order to prevent spillage. If the outside of a liner or container becomes contaminated, it must be placed within a second suitable liner or container. The regulated infectious waste liners must be transported in a covered, leakproof container with a biohazard label prominently displayed on the outside of the container. The Medical Division messenger shall be appropriately trained in the use of Patrol Kit items/disposable gloves and infection control procedures. Biohazard labels are available from the Quartermaster Section.

DESK OFFICER/ CENTRAL BOOKING SUPERVISOR (continued)

15. Make a Command Log entry of facts regarding removal of biohazard waste by Medical Division messenger.

ADDITIONAL DATA

Emergency situations, circumstances, and time constraints may hinder or prevent a member from properly donning Patrol Kit items/disposable gloves, thereby making the member more vulnerable to contamination from blood or other potentially infectious materials. Members who have any contact with hazardous materials, blood, or OPIM will immediately comply with P.G. 205-10, "Exposure of Members of the Service to Infectious Diseases or Hazardous Materials." In the event that a uniform item becomes significantly contaminated (e.g. soaked through with blood or OPIM), the item(s) in question will be removed as soon as possible and placed in the disposable red biohazard liner contained in the Patrol Kit. The member of the service will be allowed to shower as soon as possible.

A uniform item contaminated with small splatters of blood which have not soaked through the item may be machine washed with a non-chlorine bleach separately from other household laundry. A second wash/rinse cycle should then be used to rinse the inside of the washing machine.

Non-disposable uniform items (nameplates, shields, etc.) may be effectively decontaminated with a freshly mixed solution of one part bleach to ten parts water.

Members seeking reimbursement to replace damaged uniform items will refer to P.G. 204-07, "Lost Or Damaged Uniform."

If an Emergency Medical Service ambulance is present at the scene of an incident where members of the service have soiled Patrol Kit items/disposable gloves, such items may be disposed of in the contaminated waste container located in the body of the ambulance. However, Emergency Medical Service ambulances are not to be called to the scene merely for the disposal of soiled Patrol Kit items/disposable gloves. In cases where no ambulance is present, or a private ambulance not under the jurisdiction of Emergency Medical Service is present, or ambulance personnel refuse to allow disposal, Patrol Kit item/disposable gloves should be secured in the plastic bags supplied for such purpose and transported to the precinct/command of occurrence for disposal.

The Health and Hospitals Corporation has granted permission for members of the service to dispose of used Patrol Kit items/disposable gloves in the contaminated waste containers in the emergency rooms of designated municipal hospitals in those situations where Patrol Kit items/disposable gloves have been worn while transporting a patient to that hospital for treatment. These designated hospitals are:

EMERGENCY POWER OUTAGES			
DATE ISSUED: 08/01/13	DATE EFFECTIVE: 08/01/13	REVISION NUMBER:	PAGE: 1 of 3

PURPOSE

To address emergency power outages in a timely and efficient manner, and to ensure that non-essential equipment is removed from emergency electrical receptacles when a power outage occurs.

SCOPE

The Building Maintenance Section is responsible to test, maintain and repair the Department’s emergency generator systems (Housing and Transit Bureau facilities will be maintained by the Housing and Transit Authorities as per existing Memorandums of Understanding). Each command’s generator system is tested and preventive maintenance performed by the Building Maintenance Section on a regular basis.

PROCEDURE

When a Department facility loses electrical power (regardless of whether or not the emergency generator system is activated):

DESK OFFICER /SUPERVISORY OFFICER

1. Immediately notify the Building Maintenance Section, twenty-four hours a day, seven days a week.
 - a. Record notification in Telephone Record.

NOTE

If necessary, the Building Maintenance Section will dispatch generator mechanics and electricians to correct any conditions and monitor the system. Only qualified Building Maintenance Section personnel should attempt to start or repair the emergency generator system. Absent exigent circumstances, other members of the service or personnel from outside agencies are not permitted to start or repair the generator system without the approval of a Building Maintenance Section supervisor.

IF THE EMERGENCY GENERATOR HAS BEEN ACTIVATED:

DESK OFFICER /SUPERVISORY OFFICER

2. Immediately survey the command to ensure that only essential emergency equipment and critical computer systems are operating on emergency power.
3. Have all non-essential equipment disconnected from emergency electrical receptacles.

NOTE

All non-essential equipment (air conditioners, vending machines, refrigerators, microwaves, etc.) should be immediately disconnected from emergency electrical receptacles. Emergency electrical receptacles are commonly identified by a red cover plate over the receptacle or raised lettering on the outlet receptacle.

ADDITIONAL DATA

If a command has a single fuel tank for both the heating system and the emergency generator, it is the command’s responsibility to maintain the proper fuel level. Commands that have a single fuel tank (see Appendix “A”) will ensure that the fuel level remains above the fifty percent level. Commands with two fuel tanks (separate tanks for the heating system and emergency generator system) are responsible for maintaining the fuel level in the tank that supplies the heating system. The Building Maintenance Section will be responsible for maintaining the proper fuel level in the emergency generator fuel

tank. If command personnel require training on how to properly determine the fuel level of the command's fuel tank, a work order should be submitted to the Building Maintenance Section via the on-line work order system. Include in the request for training a contact person, contact phone number and times when the member of the service will be available.

Commanding officers are responsible to conduct a quarterly survey to ensure that all generator rooms, mechanical rooms, and electrical rooms are being utilized only for their intended purpose and not as locker rooms, storage rooms, etc. Items placed within these locations may create a fire hazard, which could endanger all members of the command.

When a member of the service applies for a Restricted Parking Permit, it is permissible to have a Post Office (P.O.) box listed on the member's driver's license, registration and/or insurance card. However, in all cases the member of the service's address of record with the DMV for his/her license and registration, as well as the address on record with the insurance company for the auto insurance all must match the primary residence the member of the service has on record with the Department.

If the mailing address on the registration of the vehicle is a P.O. box, the requesting member MUST attach to the application proof that the insurance policy of the vehicle is issued to the same address as the member's primary residence on record with the Department.

Commands will continue to maintain a command Parking Permit Log with appropriate captions as outlined in Patrol Guide 202-15, “Command Integrity Control Officer.”

Each member will be responsible to secure his/her permit while off duty and NOT display it for any reason other than to park in a designated self-enforcement zone while on duty.

Any permit without a license plate number displayed on its face will be deemed invalid.

Any violation of this procedure will result in the member’s vehicle being summonsed and possibly towed. Furthermore, the offending member of the service may be subject to disciplinary action.

A permit is deemed invalid if the license plate number displayed on the face of the permit does not match the vehicle registration plate number.

**ADDITIONAL
DATA
(continued)**

If the vehicle which the Restricted Parking Permit was originally assigned to is subsequently changed, the member will notify his/her commanding officer within thirty days. Members will be allowed to use another vehicle not on file with the Internal Affairs Bureau for a maximum of thirty days if the vehicle they use to commute is unavailable (e.g., mechanic, change in ownership, etc).

A member of the service can only use the Restricted Parking Permit for another vehicle (in above situation) if that substitute vehicle is owned by the requesting member of the service, a person related by blood or marriage, or the requesting members' registered NYS domestic partner. The residence of the substitute vehicles' registered owner (member of the service, relative or NYS domestic partner) must be the same residence the requesting member of the service has on file with the Department.

Members of the service are reminded that there is no valid verifiable defense for parking their vehicle (with or without a Restricted Parking Permit) under the following conditions:

- a. Double Parking*
- b. Fire Hydrant or Fire Zone*
- c. Bus Stop*
- d. Sidewalk*
- e. Crosswalks and Driveways*
- f. Obstruct Traffic*
- g. No Standing Zones (except "No Standing Except Truck Loading and Unloading")*
- h. Snow Emergency*
- i. No Parking – Taxi Stand*
- j. Within No Permit Zone – as indicated on rear of vehicle identification plates.*

Members of the service will be held strictly accountable for the permit issued to them. Furthermore, the use of these permits is restricted to the member of service to which it is assigned and therefore non-transferable to anyone else.

The Restricted Parking Permit must be properly displayed within the vehicle (i.e., face up with entire serial number and license plate visible) otherwise the permit will be considered invalid. When displayed, no part or portion of the Restricted Parking Permit will be covered with any item or be obstructed in anyway.

A RESTRICTED PARKING PERMIT MAY NOT BE PHOTOCOPIED OR REPRODUCED IN ANY MANNER. ANY MEMBER IN VIOLATION WILL BE SUBJECT TO DISCIPLINARY ACTION.

Section: Department Property		Procedure No: 219-31	
LICENSE PLATE READER DEVICES			
DATE ISSUED: 08/01/13	DATE EFFECTIVE: 08/01/13	REVISION NUMBER:	PAGE: 1 of 3

PURPOSE

To provide for control, use, maintenance and accountability of License Plate Reader (LPR) devices installed in selected Department vehicles.

DEFINITIONS

LICENSE PLATE READER DEVICE (LPR) - A specialized camera and computer that is capable of quickly capturing license plate numbers on passing vehicles and then converting them into text that is automatically compared against a “hot list” of license plates of interest (e.g., stolen, wanted, suspended registration or insurance coverage, etc.). An LPR device can identify a target plate within seconds. LPR devices operate while Department vehicles are traveling at normal speeds, reading each license plate passed and alerting the LPR operator when there is a match to the “hot list.”

HOT LIST - A list of targeted license plate numbers and partial plate numbers that are stored locally on a vehicle’s mobile digital terminal (MDT). Due to the speed of the LPR system, the volume of license plates being read and the fact that the system must notify the LPR operator of an alarm within seconds, in order to be useful, the method of using a locally stored database is utilized rather than relying on real-time communications with state or federal data sources. The LPR device is not automatically connected to NYSPIN, is not programmed to scan the state of registration on a license plate and will activate upon a partial scan match. Therefore, it is absolutely essential that the LPR operator verify the current status of a vehicle through NYSPIN prior to initiating any law enforcement action (e.g., arrest, summons, etc.).

PROCEDURE

When a License Plate Reader (LPR) device is installed in selected Department vehicles of assigned command:

MEMBER UTILIZING LPR SYSTEM

1. Inspect LPR device for operability and serviceability in assigned vehicle at beginning of tour and report results to desk officer.
2. Activate LPR device and record in **ACTIVITY LOG (PD112-145)** the last time LPR device received an updated “hot list.”

NOTE

If the system has not received an updated “hot list” within the last twenty-four hours, the LPR operator will immediately report to a designated download site in order to receive a new update.

Under no circumstances will an LPR device be utilized if it has not been updated within the last twenty-four hours.

3. Notify patrol supervisor and desk officer if LPR system becomes inoperable during tour.

- DESK OFFICER**
4. Account for the condition of each LPR device in Department vehicles assigned to the command at beginning of each tour.
 - a. Record results of member's inspection for each LPR device in the Command Log.
 5. Enter on **ROLL CALL (PD406-144)** the assignment of each Department vehicle equipped with an LPR device assigned to the command (e.g., sector "A," conditions, anti-crime, etc.).
 6. Notify operations coordinator when LPR device becomes inoperable and requires repair or maintenance.
- OPERATIONS COORDINATOR**
7. Contact vendor twenty-four hours a day, seven days a week, for repairs and maintenance to an LPR device, when required.

UPON THE ACTIVATION OF AN ALARM FROM THE LPR SYSTEM

- MEMBER UTILIZING LPR SYSTEM**
8. Verify by checking NYSPIN through radio dispatcher that alarm or vehicle status remains active.

NOTE

The LPR device is not automatically connected to NYSPIN, is not programmed to scan the state of registration on a license plate and will activate upon a partial scan match. Therefore, it is absolutely essential that the LPR operator verify the current status of a vehicle through NYSPIN prior to initiating any law enforcement action.

9. Take necessary law enforcement action (e.g., arrest, summons, Rotation Tow, etc.).
 - a. Members shall be guided by P.G. 212-39, "Vehicle Pursuits," whenever they are in pursuit of a vehicle due to activation of an alarm from the LPR system.

ADDITIONAL DATA

The LPR system allows for the proactive entry of license plate numbers and partial plate numbers, enabling the system to activate when the wanted vehicle's license plate has been read by the LPR device. If the New York State Police activate an Amber Alert, the Communications Section will instruct all LPR operators of selected Department vehicles equipped with LPR's to manually enter the Amber Alert vehicle's license plate number into the "hot list." This will enable selected vehicles to immediately begin canvassing for an Amber Alert wanted vehicle rather than reporting to a designated download site in order to receive a new update for the "hot list." This feature is useful when canvassing for wanted vehicles that have not been classified as stolen and do not already appear on the LPR system's "hot list."

The Real Time Crime Center can be contacted to conduct a search of past records of license plate numbers searched.

LPR devices are intended to provide access to stolen and wanted files and may also be used in furtherance of a criminal investigation. The use of an LPR device for any other purpose is strictly prohibited.

**ADDITIONAL
DATA
(continued)**

The camera lens of an LPR device may be cleaned only with a glass cleaner that is applied with a soft cloth. Other types of maintenance or manipulation by members of the Department are strictly prohibited.

If the LPR is inoperable or requires maintenance, the vendor will be contacted to make the repair. A Department vehicle does not have to be placed out of service while waiting for the repair of the LPR device.

CIMS: ORGANIZATIONAL STRUCTURE			
DATE ISSUED: 08/01/13	DATE EFFECTIVE: 08/01/13	REVISION NUMBER:	PAGE: 1 of 2

PURPOSE

To outline the CIMS Organizational Structure.

SCOPE

The CIMS organizational structure begins with the establishment of a Command Element. The Command Element must create an incident management organization that will successfully resolve the incident. Because the CIMS organizational structure is modular, it may be expanded as necessary by the Command Element to manage any type of incident or planned event, irrespective of its nature, size, scope, duration, location or complexity. Consequently, the incident management organization may be very small, e.g., the Command Element and several Single Resources; or, it may be very large, e.g., the Command Element, three Command Staff positions and five General Staff Sections.

As the number and complexity of the tasks / functions that the Command Element must perform and / or manage increases, the Command Element will begin establishing an incident management organization. The Command Element may activate the appropriate Sections to manage the major CIMS functional areas, i.e., Operations, Planning, Logistics, Finance / Administration and optional Intelligence / Investigations, and designate Section chiefs. The Command Element may also activate the appropriate Command Staff positions.

Section chiefs may delegate management authority for their assigned functions / tasks, as required. The Operations Section chief may activate Sectors and / or Groups, and if necessary, Branches. The Intelligence / Investigations Section chief may activate Groups. The Logistics Section chief may activate Units, and if necessary, Branches. The Planning Section chief and Finance / Administration Section chief may activate Units.

COMMAND ELEMENT

In determining how to structure the incident management organization, the Command Element should consider the following:

1. Observe recommended Span of Control guidelines.
2. When necessary, delegate authority and assign personnel to **perform** one or more incident related tactical and / or support tasks / functions.
3. When necessary, delegate authority and assign personnel to General Staff Sections and / or Command Staff positions to **manage** the performance of the tasks / functions that have been delegated and supervise the personnel to whom the tasks were assigned.
4. When determining whether to activate a General Staff Section or Command Staff position, activate and staff only the organizational elements that are necessary to manage the required functions / tasks;
 - a. If one individual can simultaneously **manage** all major functions / tasks, no further organization is required.

COMMAND ELEMENT (continued)

- b. If one or more of the functions / tasks requires independent management, an individual or individuals are assigned to manage those functions / tasks.
- 5. Deactivate organizational elements no longer required.
- 6. The functions / tasks of any non-activated or deactivated subordinate organizational element will be managed by the overhead supervising organizational element.

CIMS: AGENCY CORE COMPETENCIES AND UNIFIED OPERATIONS SECTION			
DATE ISSUED: 08/19/13	DATE EFFECTIVE: 08/19/13	REVISION NUMBER:	PAGE: 1 of 3

PURPOSE

To define and describe Agency Core Competencies at an incident.

DEFINITIONS

CIMS AGENCY “CORE COMPETENCIES” AND UNIFIED OPERATIONS SECTION -

Core Competencies are functional areas of expertise that are implemented at incidents, and relate specifically to tactical operations that are managed by the Operations Section; or if not activated, the Command Element.

Core Competencies have been identified for agencies with incident management responsibilities identified in the Primary Agency Matrix. **Although multiple agencies may be capable of performing similar tactical operations, CIMS assigns the Core Competency to only one specific agency.**

Agencies have the authority to direct tactical operations related to their Core Competencies at incidents. **If more than one agency is capable of performing the same tactical operations at an incident, the agency with the Core Competency will give tactical direction, by the ranking officer, to other agencies performing operations within that Core Competency.**

In a Unified Command-Command Element, Agency Incident Commanders from the Primary Agencies with tactical operations responsibility and a relevant “Core Competency” will each designate an Agency Operations Section chief to direct tactical operations in a Unified Operations Section. However, if Agency Incident Commanders agree, they may select one single Operations Section chief to direct tactical operations.

If there is a Single Command – Command Element at a CBRN / HazMat incident, the NYPD Incident Commander; and FDNY Supporting Agency / Agency Representative; and DEP Supporting Agency / Agency Representative; and DOHMH Supporting Agency / Agency Representative will **each** designate an Agency Operations Section chief to direct tactical operations in a Unified Operations Section. However, if the NYPD Incident Commander; and FDNY Supporting Agency / Agency Representative; and DEP Supporting Agency / Agency Representative; and DOHMH Supporting Agency / Agency Representative agree, they may select one single Operations Section chief to direct tactical operations.

CIMS: AGENCY ROLES			
DATE ISSUED: 08/01/13	DATE EFFECTIVE: 08/01/13	REVISION NUMBER:	PAGE: 1 of 1

PURPOSE To define and describe CIMS Agency Roles.

PROCEDURE When responding to an incident, Agency Roles will be defined and described as follows:

DEFINITIONS PRIMARY AGENCY - Based upon the incident type, the CIMS Primary Agency Matrix will designate one agency as the Primary Agency to command a Single Command - Command Element. The Primary Agency will designate one single Incident Commander who will have overall command responsibility for managing the incident.

NOTE *The Primary Agency, Incident Commander will designate the Operations Section chief. However, for a CBRN / HazMat incident there will be a Unified Operations Section. In a Unified Operations Section the NYPD Incident Commander, the FDNY Supporting Agency / Agency Representative, the DEP Supporting Agency / Agency Representative, and the DOHMH Supporting Agency / Agency Representative will each designate an Agency Operations Section chief. However, the NYPD Incident Commander and the FDNY and DEP and DOHMH Supporting Agency / Agency Representatives may all agree to designate only one Operations Section chief.*

The Primary Agency, Incident Commander will coordinate with the Supporting Agencies to successfully achieve the Incident Objectives.

PRIMARY AGENCIES - Based upon the incident type, the CIMS Primary Agency Matrix will designate more than one Primary Agency, called Primary Agencies, to command a Unified Command - Command Element. Each of the Primary Agencies will designate an Agency Incident Commander. All Agency Incident Commanders will **co-locate and remain** at one single Incident Command Post, will jointly set Incident Objectives and create one single Incident Action Plan.

NOTE *The Agency Incident Commanders in the Unified Command – Command Element will each designate an Agency Operations Section chief. However, the Agency Incident Commanders may all agree to designate only one Operations Section chief. The Agency Incident Commanders in the Unified Command – Command Element will coordinate with the Primary Agencies and the Supporting Agencies to successfully achieve the Incident Objectives.*

POTENTIAL PRIMARY AGENCIES - Potential Primary Agencies are state and federal Agencies that have functional, political, or geographic / administrative jurisdictional authority / responsibility at an incident under specific conditions. For example, incidents occurring at airports, national parks, railway facilities, military facilities; or, terrorism related incidents; or, aviation incidents. If these state and federal Agencies have jurisdictional authority / responsibility, they will be included in the Unified Command – Command Element and the Unified Operations Section.

SUBJECT MATTER EXPERT AGENCIES – Agencies that do not have personnel deployed to tactical assignments involving an incident; but, do have specific scientific, engineering or other technical expertise involving incident related tactical operations.

PURPOSE

To outline the duties of the Command Element in CIMS.

PROCEDURE

Upon arriving at the scene of an incident, the responsibilities of the Command Element are:

COMMAND ELEMENT

1. Assume responsibility for overall incident management; and, assume command of all strategic, tactical, investigative and support incident management functions, operations, activities, etc.
 - a. In a Single Command – Command Element, assume the position of Incident Commander.
 - b. In a Unified Command – Command Element, assume the position of Agency Incident Commander for the NYPD; and, work collaboratively with the other Agency Incident Commander(s) designated by each of the Primary Agencies that have command responsibility in the Unified Command – Command Element.
 - c. If there is a CBRN / HazMat incident, until the NYPD determines that there is no actual or suspected criminal activity or terrorism, assume the position of Incident Commander in a Single Command – Command Element. If the NYPD determines that there is no actual or suspected criminal activity or terrorism then assume the position of Agency Incident Commander for the NYPD in a Unified Command – Command Element. When determining if there is actual or suspected criminal activity or terrorism, comply with the appropriate Department procedures.
2. Obtain complete briefing from previous Command Element when applicable; assess the situation; make a preliminary determination regarding the nature, scope, complexity, location, size, duration, boundaries, etc., of the incident; and notify:
 - a. Desk Officer, Precinct of occurrence.
 - b. Patrol Borough Office, Borough of occurrence.
 - c. Operations Unit.

5. Establish incident management priorities including Life Safety Operations (**immediate** #1 priority); Site Management Operations; Investigative Operations and Recovery / Restoration Operations.
6. Ensure Life Safety Operations, Site Management Operations, Investigative Operations, Recovery / Restoration Operations and any other necessary operations, activities, functions, etc., are expeditiously and properly conducted in a coordinated manner; and, are implemented and conducted concurrently and / or consecutively in whatever sequence is deemed appropriate.
 - a. Life Safety Operations are the immediate #1 priority. Absent extraordinary emergency circumstances, Life Safety Operations supersede all other incident management operations.
 - b. Ensure the first properly trained and equipped emergency responder personnel assess / evaluate the incident and, if capable, initiate Life Safety and Site Management Operations.
 - c. Consult with the Primary Agency(ies), Supporting Agency(ies) and Coordinating Agency regarding the implementation of Site Management Operations.
 - d. If approved by the Command Element, Investigative Operations may be initiated concurrently with Life Safety Operations.
 - e. In order to avoid interfering with Investigative Operations, particularly the processing of Crime Scenes and Investigative Scenes, Recovery / Restoration Operations usually will not be commenced until Investigative Operations have concluded. However, if approved by the Command Element, Recovery / Restoration Operations may be initiated concurrently with Investigative Operations and / or Life Safety Operations.
 - f. Depending upon the circumstances, different incident management operations / activities may be initiated and conducted concurrently and / or consecutively in whatever sequence is deemed appropriate by the Command Element.
7. Utilize “Management by Objectives” principles, and determine Incident Objectives, Strategies and Tactical Direction.
 - a. The Incident Objectives identify what must be accomplished in order to successfully resolve the incident.
 - (1) All Incident Objectives must be:
 - (a) Attainable considering the existing incident management related limitations and constraints.
 - (b) Measurable in order to determine whether they are being effectively, efficiently and expeditiously achieved.
 - (c) Adaptable / flexible to provide for alternative Strategies and Tactical operations.
 - (2) The time required to successfully resolve the incident and the length of the Operational Period(s) should be considered when determining the Incident Objectives.

COMMAND ELEMENT (continued)

- b. Strategy describes the general method or methods that should be used, either singly or in combination and either consecutively or simultaneously, to effectively, efficiently and expeditiously achieve the Incident Objectives. One or more appropriate Strategies should be identified for each Incident Objective; and if possible, there should be an alternative Strategy(ies) for each Incident Objective. Strategies should be feasible, practical, effective, efficient and ensure safety / security. When identifying Strategies, the time required to successfully resolve the incident and the length of the Operational Period(s) should be considered.
- c. Tactical Direction is provided by the Command Element. However, the Operations Section chief, if that position has been activated, is responsible for formulating and executing the specific tactical operations / activities required to accomplish the Incident Objectives. Tactical Direction involves:
 - (1) Identifying the tactics / actions appropriate to the selected Strategy(ies) that must be performed in order to achieve the Incident Objectives.
 - (2) Identifying the required resources / support and determining availability.
 - (3) Ensuring there is sufficient logistics service and support.
 - (4) Deploying the required resources and maintaining appropriate reserves.
 - (5) Monitoring the performance of the organization and the resources in order to measure whether the Incident Objectives are being effectively, efficiently, and expeditiously achieved.
 - (6) Identifying and implementing necessary modifications.
 - (7) Considering the time required to successfully resolve the incident and the length of the Operational Period(s).
8. Determine the required number, *Kind* and *Type* of resources; and, request that those resources promptly respond to the appropriate location, i.e., Staging Area(s).
9. Ensure arriving resources, and resources that initially responded directly to the incident scene, properly “Check-In”, and are appropriately organized, e.g., Single Resources, Resource Teams, Special Response Teams.
10. Ensure arriving resources, and resources that initially responded directly to the incident scene are assigned and deployed to appropriate incident related tactical, investigative, support, supervisory, etc., operations, functions and activities; and / or, are retained at the Staging Area(s) in an “*Available*” status awaiting assignment.
 - a. Ensure there are adequate reserves maintained.
11. Work collaboratively and coordinate with the Primary Agency(ies), Supporting Agency(ies), Coordinating Agency; and, other appropriate governmental agencies, non-governmental organizations, private entities /individuals.

- a. The NYC Office of Emergency Management (OEM) is New York City’s Coordinating Agency. OEM may respond to multi-agency incidents and participate in a Unified Command or Single Command incident management organization.
 - b. **Do NOT wait for a representative from OEM to arrive on the scene to begin inter-agency coordination. The Command Element must immediately begin coordinating the activities of all of the involved governmental agencies, non-governmental organizations, private entities / individuals, etc.**
12. Select an appropriate location and establish the Incident Command Post (ICP). If there is a Unified Command - Command Element, Agency Incident Commanders will jointly select an appropriate location to establish the Incident Command Post.
- a. Initially, the Incident Command Post will be wherever the Command Element is located.
 - b. The Incident Command Post can be any type of facility that is available and appropriate, e.g., vehicle, trailer, tent, open area, room in a building. The Incident Command Post should be large enough to provide adequate work space for the assigned personnel. The Incident Command Post should contain situation information and resource status displays and other planning related information.
 - c. **There is only one single Incident Command Post for an incident** irrespective of whether there is a Single Command - Command Element or a Unified Command – Command Element. The Incident Command Post will be identified by the name of the incident.
 - d. Choose a location that is a reasonable and appropriate distance from the incident; and, will provide for safety, health, security and force protection; and, will provide easy and expeditious access and egress; and, is sufficiently large and will allow for expansion; and, will permit continuous operations; and, will provide adequate workspace and utility / communications service. Generally, the Incident Command Post will be located within the Site Access Control / Outer Perimeter.
 - e. Ensure adequate safety, health, security and force protection measures are implemented regarding the Incident Command Post.
 - f. Whenever possible, the Incident Command Post should not be relocated. However, it may be necessary to relocate the Incident Command Post if the incident evolves / progresses and circumstances or conditions change. For example, during the initial stages of an incident the situation may rapidly change and the Incident Command Post may have to be relocated one or more times; or, the Incident Command Post may have to be relocated if an Operations Section Post is activated; or, a change in incident size / location may require relocation of the Incident Command Post in order to improve command, operations, communications, etc.; or, relocation of the Incident Command Post may be required in order to resolve safety, health, security or force protection issues.

 - h. Request Incident Command Post flag, banner, beacon, sign or other distinctive marker.
 - i. Request Incident Command Post vehicle(s), if required.
13. Manage the incident from the Incident Command Post (ICP).
- a. The Incident Command Post is the location where the Command Element, i.e., Single Command, Incident Commander or Unified Command, Agency Incident Commanders, will remain and perform the command function. The Incident Command Post provides a central coordination point from which the Command Element, Command Staff, each appropriate Supporting Agency / Agency Representative, Coordinating Agency, General Staff planning functions and certain General Staff support functions will normally operate.
 - b. The Command Element, necessary members of the Command Staff, necessary members of the General Staff, each required Supporting Agency / Agency Representatives and Coordinating Agency, will report to the Incident Command Post as soon as possible; **remain together**; develop the Incident Objectives, Strategies, Tactical Direction, tactics, assignments, priorities, etc.; and, **formulate one single Incident Action Plan**.
 - c. Depending upon the nature, size, complexity, location, duration, etc., of the incident, some members of the General Staff and Command Staff may be situated / operating at other locations. However, they will attend planning meetings conducted at the Incident Command Post and will remain in close contact with the Command Element.
14. Establish an appropriate organizational structure and continuously monitor the operation and effectiveness of that organization. In determining how to structure the incident management organization, the Command Element should consider the following:
- a. Comply with recommended Span of Control principles.
 - b. When necessary, delegate authority and assign personnel to **perform** one or more incident related tactical and / or support tasks / functions.

 - f. The functions / tasks of any non-activated or deactivated subordinate organizational element will be managed by the overhead supervising organizational element.
15. Perform the duties and retain responsibility for the functions of any General Staff Sections and Command Staff positions that are not activated or are deactivated.
16. When appropriate, activate required Command Staff positions i.e., Public Information, Safety, Liaison, other required position(s); and designate qualified personnel as Command Staff “officers”.
- a. May assign one person to more than one Command Staff position. However, do not combine the functions of different Command Staff positions into a “hybrid” Command Staff position.
 - b. The number of Assistants assigned to a particular Command Staff position will be determined by the respective Command Staff officer after conferring with the Command Element, and will depend upon the nature, size, complexity, location, duration, etc., of the incident.
 - c. Based upon the nature, complexity, location, size, duration, etc., of the incident; and, the specific capabilities, limitations, needs, requirements, etc., of the Command Element, additional Command Staff positions other than the Public Information, Safety, and Liaison positions may be activated; and, qualified personnel may be designated as the additional Command Staff officers, e.g., Attorney-Legal officer, Epidemiologist-Medical officer, Structural Engineer-Engineering officer, Chemist-Science officer.
 - d. If there is a Unified Command – Command Element, all of the Agency Incident Commanders will jointly designate the one Public Information officer and the one Liaison officer. However, the Mayor’s Press Office has the authority and may designate the one Public Information officer; and, the NYC Office of Emergency Management (OEM) has the authority and may designate the one Liaison officer.
 - e. When the NYPD is one of the Primary Agencies in a Unified Command – Command Element, if the Liaison officer position and / or the Public Information officer position is activated, absent unusual circumstances, the NYPD Agency Incident Commander should make every effort to have a member of the NYPD designated as the Liaison officer and have a member of the NYPD designated as the Public

 - i. If there is a Single Command – Command Element at a CBRN / HazMat incident, the NYPD Incident Commander; and FDNY Supporting Agency / Agency Representative; and DEP Supporting Agency / Agency Representative; and DOHMH Supporting Agency / Agency Representative will each designate an Agency Safety officer. However, if the NYPD Incident Commander; and FDNY Supporting Agency / Agency Representative; and DEP Supporting Agency / Agency Representative; and DOHMH Supporting Agency / Agency Representative all agree, they may jointly designate one Safety officer.

- e. If there is a Unified Command – Command Element, all of the Agency Incident Commanders will jointly designate one Section chief for each activated General Staff Section with the exception of the Operations Section. When the NYPD is one of the Primary Agencies in a Unified Command – Command Element, absent unusual circumstances, the NYPD Agency Incident Commander should make every effort to have a member of the NYPD designated as the one Section chief for each activated General Staff Section; or if that is not possible, have a member of the NYPD designated as a Deputy to each non NYPD General Staff Section chief.
18. Activate a “Unified Operations Section” when there is a Single Command – Command Element at a CBRN / HazMat incident; or, anytime there is a Unified Command – Command Element.
- a. If there is a Unified Command – Command Element, the Agency Incident Commanders from each of the Primary Agencies with tactical operations responsibility and a relevant “Core Competency” will each designate an Agency Operations Section chief to direct tactical operations in a Unified Operations Section. However, if all of the Agency Incident Commanders agree, they may jointly designate one Operations Section chief.
 - b. If there is a Single Command – Command Element at a CBRN / HazMat incident, the NYPD Agency Incident Commander; and FDNY Supporting Agency / Agency Representative; and DEP Supporting Agency / Agency Representative; and DOHMH Supporting Agency / Agency Representative will each designate an Agency Operations Section chief to direct tactical operations in a Unified Operations Section. However, if the NYPD Incident Commander; and FDNY Supporting Agency / Agency Representative; and DEP Supporting Agency / Agency Representative; and DOHMH Supporting Agency / Agency Representative all agree, they may jointly designate one Operations Section chief.
 - c. Core Competencies are functional areas of expertise that are implemented at incidents, and relate specifically to tactical operations that are managed / directed by the Operations Section, or the Command Element if the Operations Section has not been activated. Core Competencies have been identified for Agencies with incident management responsibilities identified in the Primary Agency Matrix. Although multiple Agencies may be capable of performing similar tactical operations, CIMS assigns the Core Competency to one single Agency.
 - d. Agencies have the authority to direct tactical operations related to their Core Competencies at incidents. If more than one agency is capable of performing the same tactical operations at an incident, the agency with the Core Competency will give tactical direction, by the ranking officer, to other agencies performing operations within that Core Competency.

20. Ensure tactical assignments are based upon the responding Agencies' functional capabilities, e.g., resources, expertise, training, experience skills; and, legal / jurisdictional authority, mission and responsibilities.
21. Coordinate and direct the activities of the Command Staff and General Staff.
22. When necessary, implement an appropriate organizational structure, i.e., incident management "Expansion Option," to manage an extremely complex, severe and extensive incident; or, more than one incident; or, one extremely large incident. Incident Management Expansion Options include:

When appropriate, coordinate incident management operations and activities with other associated incident management organizations, entities, systems, facilities, etc., i.e., Area Command, Multi-Agency Coordination (MAC) Group, Emergency Operations Center (EOC) and / or Joint Information Center (JIC).
24. Continually monitor/evaluate the incident management organizational structure; and, the performance of the Deputy(ies), General Staff Section "chiefs," Command Staff "officers," and as appropriate, other incident management personnel.
 - a. Make appropriate modifications when necessary.
25. Ensure that Command Staff and General Staff understand:
 - a. They may interact and communicate with any position within the incident management organization.

In unusual situations, when the Intelligence / Investigations function is not a considerable component of the management or resolution of an incident, it may be organized as a Branch or Group within the Operations Section rather than as a separate General Staff Section. In extremely unusual situations when the Intelligence / Investigations function is minimal, it may be organized as a Command Staff position or Planning Section / Situation Unit function.

ADDITIONAL DATA

The Command Element may be structured in one of two ways:

1. Single Command:
 - a. *When the CIMS “Primary Agency Matrix” specifies a Single Command - Command Element, **the one Primary Agency in the Single Command - Command Element will designate one single Incident Commander.***
 - (1) *A Primary Agency is defined as the Agency authorized by CIMS to have overall responsibility for an incident, including overall management of strategic and tactical operations.*
 - b. *The designated Incident Commander has overall incident management responsibility; develops the Incident Objectives; formulates and implements one single Incident Action Plan; manages all operational and support activities; and, approves all requests pertaining to the ordering and release of incident resources. The Incident Commander is responsible for working collaboratively with the Supporting Agency(ies) and Coordinating Agency.*

2. Unified Command:
 - a. *When the CIMS “Primary Agency Matrix” specifies a Unified Command - Command Element, **each of the Primary Agencies in the Unified Command - Command Element will designate an “Agency Incident Commander.”***
 - (1) *Incidents managed by a Unified Command - Command Element will have more than one Primary Agency called Primary Agencies.*
 - b. *The Agency Incident Commanders will co-locate and **remain** at one single Incident Command Post and jointly establish a common set of Incident Objectives, Strategies, Tactical Direction and priorities. They will manage one integrated organizational structure, a joint planning process and a joint resource management process. The Agency Incident Commanders will formulate and implement one single Incident Action Plan that includes an inter-agency integrated Communications Plan. They will jointly execute integrated tactical operations, implement interoperable communications technological and procedural measures when required and maximize the use of assigned resources. The Agency Incident Commanders are responsible for working collaboratively with the Primary Agencies, Coordinating Agency and Supporting Agency(ies).*
 - c. *When a Unified Command - Command Element is established, all Agency Incident Commanders are at an equal level of authority in the Command Element regardless of their designated Agency rank, i.e., Fire Captain, Police Sergeant, EMS Lieutenant, etc.*

CIMS: INTELLIGENCE / INVESTIGATIONS SECTION CHIEF			
DATE ISSUED: 08/01/13	DATE EFFECTIVE: 08/01/13	REVISION NUMBER:	PAGE: 1 of 7

SCOPE

ORGANIZATION OF INTELLIGENCE / INVESTIGATIVE FUNCTIONS

The investigative and intelligence aspects of incident management are significantly different from the tactical aspects and are not adequately addressed by the traditional Incident Command System (ICS) organizational model. Therefore, when there is a considerable investigative or intelligence component to the management or resolution of an incident, the Command Element should activate an Intelligence / Investigations Section as part of the General Staff.

In unusual situations, when the Intelligence / Investigations function is not a considerable component of the management or resolution of an incident, it may be organized as a Branch or Group within the Operations Section rather than as a separate General Staff Section. In extremely unusual situations when the Intelligence / Investigations function is minimal, it may be organized as a Command Staff position or Planning Section / Situation Unit function.

The Intelligence / Investigations function should be organized as a Section when the NYPD is the Primary Agency in a Single Command – Command Element, or when the NYPD is one of the Primary Agencies in a Unified Command – Command Element.

CIMS: COORDINATING AGENCY			
DATE ISSUED: 08/01/13	DATE EFFECTIVE: 08/01/13	REVISION NUMBER:	PAGE: 1 of 1

PURPOSE To understand the role of the Coordinating Agency in CIMS.

SCOPE The New York City Office of Emergency Management (OEM) is the designated Coordinating Agency. OEM may respond to multi-agency incidents and participate in a Unified Command or Single Command incident management organization.

PROCEDURE At multi-agency incidents OEM will:

- OFFICE OF EMERGENCY MANAGEMENT**
1. Ensure a CIMS incident management organization is implemented.
 2. Coordinate resources supplied by Agencies involved in incident related response and recovery operations, functions and activities.
 3. Provide information to the OEM Emergency Operations Center and to the Mayor.
 4. Support logistics and communications needs.
 5. Obtain subject matter expertise.
 6. Facilitate transition of command.
 7. Facilitate resolution of interagency differences.
 8. Coordinate and support Recovery / Restoration Operations.

ADDITIONAL DATA ***DO NOT wait for a representative from OEM to arrive at the incident site to begin inter-agency coordination.***

In complex incidents where the Primary Agency designation is unclear, or the incident is not listed in the Primary Agency Matrix, or the Primary Agency designation changes as some or all of the Incident Objectives are achieved, OEM, based upon the CIMS Protocol, will identify the appropriate Primary Agency or Agencies.

CIMS: INTEGRATED COMMUNICATIONS			
DATE ISSUED: 08/01/13	DATE EFFECTIVE: 08/01/13	REVISION NUMBER:	PAGE: 1 of 2

PURPOSE

To ensure proper communications integration takes place between this Department and other agencies at an incident.

SCOPE

Effective, efficient, integrated communications are essential in order to successfully resolve emergency incidents. Agencies participating in emergency response in New York City have implemented several procedural and technological measures to ensure that effective, efficient and integrated on-scene inter-agency communications can be achieved. Agencies will continue to evaluate communications best practices and evolving voice, image, text and data communications technologies to improve tactical and citywide inter-agency communications.

MEASURES

Procedural Measures

1. Ensuring that all ranking Agency members manage the incident from one single Incident Command Post;
2. Ensuring that Agency personnel operating at an incident use clear text for inter-agency communications, i.e., no agency-specific codes or jargon; and, communicate using standard CIMS terminology;
3. Ensuring that all incident personnel observe strict radio / telephone communications discipline and limit communications to essential information only;
4. Establishing criteria for implementing Borough / Citywide “repeated” interoperable radio frequencies and tactical “point-to-point” interoperable radio frequencies for coordination at the incident scene.

Technological Measures

1. Ensuring that all Agencies participating in emergency responses in NYC may utilize the NYC Agencies’ Citywide “repeated” interoperable 800 MHz radio frequency;
2. Ensuring that first responder Agencies have other first responder Agencies’ Borough / Citywide “repeated” interoperable radio frequencies in their command vehicles and their aviation and marine assets; and, that the Borough / Citywide “repeated” interoperable radio frequencies are appropriately utilized.
3. Utilizing tactical “point-to-point” interoperable radio frequencies for coordination at the incident scene; and
4. Deploying radio / mobile phone interconnect systems to incidents requiring additional support to ensure interoperable / shared communications.

MEASURES (continued)

Communications Plan

The Command Element will implement a Communications Plan that will identify the tactical “point-to-point” interoperable radio frequencies and Borough / Citywide “repeated” interoperable radio frequencies that will be used to manage the incident. The plan may be written or verbal depending upon the nature, location, size, complexity and duration of the incident.

The Communications Plan will be part of the Incident Action Plan for each Operational Period and will be disseminated / distributed to all Agencies participating in the response. When applicable, CIMS ICS form 205 may be used to assist in the formulation of the Communications Plan.

CIMS: TRANSFER OF COMMAND			
DATE ISSUED: 08/01/13	DATE EFFECTIVE: 08/01/13	REVISION NUMBER:	PAGE: 1 of 2

PURPOSE To describe the formal Transfer of Command process at an incident.

PROCEDURE Upon arriving at the scene of an incident, the ranking member of the service will either:

- RANKING MEMBER OF THE SERVICE**
1. Assume command if there is no Command Element; or,
 2. Assume command from the current Command Element; or,
 3. Make no change regarding the current Command Element; or,
 4. Designate a third party to assume command from the current Command Element

NOTE *When there is a change in the Command Element, there must be a formal Transfer of Command process.*

- TRANSFER OF COMMAND**
5. “*Transfer of Command*” may take place:
 - a. When a higher ranking person arrives at the scene and elects or has been appropriately designated to assume command. This is often associated with an expanding incident that recently occurred and is still in its initial stages of development. In this situation, because of the outgoing Command Element’s specific knowledge / experience regarding the incident, the incoming Command Element may assign the outgoing Command Element to perform / manage a different incident related function, e.g., Operations Section chief.
 - b. By transferring command to a less senior or less experienced person when an incident is stabilized, or has been reduced in size or severity, or is close to final mitigation, or will demobilize after a short period of time.
 - c. When needed because personnel have been appropriately designated to assume command for a new Operational Period(s).
 - d. To allow the Command Element to be dismissed at the end of the designated tour.
 6. Over the course of an incident, as emergency conditions change or Incident Objectives are completed, the Primary Agency designation may also change and there may be a *Transfer of Command* from one or more Primary Agencies to a different Primary Agency or Agencies. The Primary Agency Matrix will be used to identify the appropriate Agency or Agencies to which command will be transferred.
 7. *Transfer of Command* also involves the replacement of the General Staff Section chiefs and Command Staff officers, e.g., Operations Section chief, Planning Section chief, Public Information officer.

TRANSFER OF COMMAND (continued)

Transfer of Command Process

8. The *Transfer of Command* process must include a briefing that captures all of the essential information required to ensure continuing effective and efficient command. This information should be recorded and displayed for easy retrieval and subsequent briefings.
9. A *Transfer of Command* checklist should be used and it should include at least the following:
 - a. Has an appropriate CIMS incident management organization been implemented, and is appropriate CIMS terminology being used at the incident?
 - b. Has one single Incident Command Post been established?
 - c. If possible, will *Transfer of Command* take place face-to-face?
 - d. If possible, will the incoming Command Element personally perform a detailed assessment of the incident situation with the outgoing Command Element?
 - e. Will the outgoing Command Element provide a comprehensive briefing to the incoming Command Element?
 - f. Has an appropriate time been chosen for the formal *Transfer of Command* to occur?
 - g. Has the incoming Command Element formally accepted command?
 - h. Have notifications been made to the appropriate entities, i.e., General Staff, Command Staff, Primary Agencies, Coordinating Agency, Supporting Agencies, Communications Division dispatcher and / or supervisor, all incident supervisors, etc.?
10. The *Transfer of Command* briefing should include:
 - a. Concise history of the incident.
 - b. Current incident situation status.
 - c. Incident Objectives, Strategy and priorities.
 - d. Incident Action Plan.
 - e. Current organizational structure.
 - f. Resource assignments.
 - g. Resources enroute, ordered and / or required.
 - h. Status of current and planned tactical operations / activities.
 - i. Status of current and planned investigative operations / activities.
 - j. Current incident related intelligence including any threat information and / or risk assessments.
 - k. Status of Incident Facilities.
 - l. Status of communications and Communications Plan.
 - m. Any operational constraints or limitations.
 - n. Current concerns, problems, issues, etc.
 - o. Estimate / prediction of the future progress of the incident and potential concerns, problems, issues, etc.
 - p. "Delegation of Authority" issues.

CIMS: INCIDENT SEQUENCE			
DATE ISSUED: 08/01/13	DATE EFFECTIVE: 08/01/13	REVISION NUMBER:	PAGE: 1 of 3

PURPOSE To describe the general CIMS Incident Sequence.

PROCEDURE When responding to an incident, generally, the following Incident Sequence will occur:

- CIMS INCIDENT SEQUENCE**
1. Depending upon the incident type, one or more Agencies will respond. The first arriving units assess the scene and, if capable, initiate Life Safety and Site Management Operations. The Command Element (Single or Unified) is established with the Primary Agency or Agencies determined by the Primary Agency Matrix. The Command Element assumes overall incident management responsibility; establishes an Incident Command Post at a safe and secure location near the incident site; and establishes General Staff Sections (Operations, Planning, Logistics, etc.) and / or Command Staff positions as needed.
 2. If an Operations Section is activated, an Operations Section Post is established to direct tactical operations including Life Safety Operations and Site Management Operations.
 3. If a Unified Command - Command Element is managing the incident, then a Unified Operations Section is established. At every CBRN / HazMat incident a Unified Operations Section will be established.
 4. If there is a CBRN / HazMat incident, until the NYPD determines that there is no actual or suspected criminal activity or terrorism, the NYPD will be the Primary Agency and will establish a Single Command – Command Element. If the NYPD determines that there is no actual or suspected criminal activity or terrorism, then a Unified Command – Command Element will be established, and the NYPD will designate an Agency Incident Commander. When determining whether there is actual or suspected criminal activity or terrorism, comply with the procedures contained in Patrol Guide 212-101, “Processing Unknown Substances Suspected of Being Chemical, Biological, Radiological, Nuclear (CBRN) / Hazardous Materials Evidence.”
 5. Absent extraordinary emergency circumstances including unacceptable personnel safety risks, operating personnel will continue rescue operations to completion, or until relief is required due to fatigue, equipment failure or need for additional resources.

NOTE *The Coordinating Agency will ensure that the Incident Command Post and Operations Section Post are established and appropriately staffed.*

**CIMS
INCIDENT
SEQUENCE
(continued)**

6. Investigative Operations may be initiated concurrently with Life Safety Operations. However, absent extraordinary emergency circumstances, life safety concerns will take precedence over investigative considerations until Life Safety Operations are concluded.
7. During Investigative Operations, Recovery / Restoration Operations may be delayed to minimize disturbance to Investigative Scenes, Crime Scenes and other investigative / intelligence operations, activities, functions, etc. However, with the approval of the Command Element, in consultation with the Investigating Agency, Recovery / Restoration Operations may be initiated concurrently with Investigative Operations.
8. As part of Site Management Operations, the NYPD will consult with the Primary Agency(ies) directing Life Safety Operations and / or Investigative Operations. Based upon that consultation, the NYPD will establish appropriate perimeters as needed, and will exclude non-essential personnel from the incident site.
9. Recovery / Restoration Operations include final mitigation of the incident, and a return to non-emergency conditions. Recovery / Restoration Operations can be initiated concurrently with Life Safety and / or Investigative Operations with the approval of the Command Element.

NOTE

The Coordinating Agency will facilitate and support Recovery / Restoration Operations.

10. Upon completion of Recovery / Restoration and Site Management Operations, the Operations Section Post and the Incident Command Post are demobilized and the incident is concluded.

**ADDITIONAL
DATA**

In practice, there may be further overlap between the various phases of the incident. For example, some Recovery / Restoration activities, such as restoration of power or telephone service, may begin concurrently with Life Safety and Investigative Operations, provided that the Recovery / Restoration Operations support and do not conflict with other incident site operations.

CIMS: INCIDENT FACILITIES			
DATE ISSUED: 08/01/13	DATE EFFECTIVE: 08/01/13	REVISION NUMBER:	PAGE: 1 of 5

PURPOSE

To define and describe CIMS Incident Facilities.

PROCEDURE

When responding to an incident where CIMS has been implemented, Incident Facilities will be defined and described as follows:

DEFINITIONS

INCIDENT COMMAND POST

The Incident Command Post is the location where the Command Element, i.e., Single Command, Incident Commander or Unified Command, Agency Incident Commanders, will **remain** and perform the command function. The Incident Command Post provides a central coordination point from which the Command Element, Command Staff, each appropriate Supporting Agency / Agency Representative, Coordinating Agency, General Staff planning functions and certain General Staff support functions will normally operate.

The Command Element, necessary members of the Command Staff, necessary members of the General Staff, each required Supporting Agency / Agency Representative and Coordinating Agency, will report to the Incident Command Post as soon as possible; **remain together**; develop the Incident Objectives, Strategies, Tactical Direction, tactics, assignments, priorities, etc.; and, formulate one single Incident Action Plan.

Depending upon the nature, size, complexity, location, duration, etc., of the incident, some members of the General Staff may be situated / operating at other locations. However, they will attend planning meetings conducted at the Incident Command Post and will remain in close contact with the Command Element.

There is only one single Incident Command Post for an incident irrespective of whether there is a Single Command – Command Element or a Unified Command – Command Element. The Incident Command Post will be identified by the name of the incident.

The Command Element will select an appropriate location to establish the Incident Command Post (ICP). If there is a Unified Command - Command Element, Agency Incident Commanders will jointly select an appropriate location to establish the Incident Command Post.

Initially, the Incident Command Post will be wherever the Command Element is located. The Incident Command Post can be any type of facility that is available and appropriate, e.g., vehicle, trailer, tent, open area, room in a building. The Incident Command Post should be large enough to provide adequate work space for the assigned personnel. The Incident Command Post should contain situation information and resource *status* displays and other planning related information. Adequate safety, health, security and force protection measures will be implemented regarding the Incident Command Post.

DEFINITIONS (continued)

The Incident Communications Center is often located within or adjacent to the Incident Command Post.

A location will be chosen for the Incident Command Post that is a reasonable and appropriate distance from the incident site; and, will provide for safety, health, security and force protection; and, will provide easy and expeditious access and egress; and, is sufficiently large and will allow for expansion; and, will permit continuous operations; and, will provide adequate workspace and utility / communications service. Generally, the Incident Command Post will be located within the Site Access Control / Outer Perimeter.

Whenever possible, the Incident Command Post should not be relocated. However, it may be necessary to relocate the Incident Command Post if the incident evolves / progresses and circumstances or conditions change. For example, during the initial stages of an incident the situation may rapidly change and the Incident Command Post may have to be relocated one or more times; or, the Incident Command Post may have to be relocated if an Operations Section Post is activated; or, a change in incident size / location may require relocation of the Incident Command Post in order to improve command, operations, communications, etc.; or, relocation of the Incident Command Post may be required in order to resolve safety, health, security or force protection issues.

Outside of NYC, under NIMS ICS, the Incident Command Post may be located at the Incident Base. However, absent extraordinary circumstances, in NYC an Incident Base will not be established.

Once the Incident Command Post is established, appropriate notifications will be made regarding the location of the Incident Command Post. Additionally, a flag, banner, beacon, sign or other distinctive marker will be used to identify the location of the Incident Command Post.

OPERATIONS SECTION POST

The Operations Section Post is the location where the Operation Section chief / Agency Operations Section chiefs, Deputy(ies) and appropriate staff will remain and manage / direct all of the tactical functions, operations and activities.

If there is a Unified Operations Section, Agency Operations Section chiefs will jointly select an appropriate location to establish the Operations Section Post

The Operations Section Post can be any type of facility that is available and appropriate, e.g., vehicle, trailer, tent, open area, room in a building. Adequate safety, health, security and force protection measures will be implemented regarding the Operations Section Post.

Generally, the Operations Section Post will be located within the Site Access Control / Outer Perimeter.

If necessary, the Operations Section Post may be relocated.

INTELLIGENCE / INVESTIGATIONS SECTION POST

The Intelligence / Investigations Section Post is the location where the Intelligence / Investigations Section chief, Deputy(ies) and appropriate staff will remain and manage / direct all of the intelligence and investigative functions, operations and activities.

The Intelligence / Investigations Section Post can be any type of facility that is available and appropriate, e.g., vehicle, trailer, tent, open area, room in a building. Adequate safety, health, security and force protection measures will be implemented regarding the Intelligence / Investigation Section Post.

DEFINITIONS (continued)

INCIDENT BASE

Absent extraordinary circumstances, an Incident Base will not be activated in NYC. However, an Incident Base might be activated during an extremely large incident that will continue for an extended period of time.

Outside of NYC, under NIMS ICS, the Incident Base is the central location where all incident primary logistic service and support activities are situated and performed. Normally, the Incident Base is the facility where all uncommitted *Out-of-Service* personnel, equipment and tactical resources are located; and, support operations are situated.

If activated, there is only one Incident Base established for an incident. Adequate safety, health, security and force protection measures will be implemented regarding the Incident Base. The Incident Base will be identified by the name of the incident.

Absent unusual circumstances, the Incident Base will not be relocated.

When appropriate, the Incident Base may be deactivated.

If an Incident Base is activated, an Incident Base Manager will be designated. The Incident Base Manager will ensure that appropriate sanitation and facility management services are being provided at the Incident Base; and, that adequate safety, health, security and force protection measures have been implemented regarding the Incident Base.

The Incident Base Manager reports to the Facilities Unit Leader, or if that position is not activated, to the Logistics Section chief.

CAMP

Absent extraordinary circumstances, a Camp(s) will not be activated in NYC. However, one or more Camps might be activated during an extremely large incident that will require incident personnel to be lodged for an extended period of time in the vicinity of the incident.

Outside of NYC, under NIMS ICS, a Camp is a temporary location within the general incident area that is equipped and staffed to provide food, water, sanitation, shower and related lodging services to incident personnel. A Camp is separate and distinct from and will not be located at the Incident Base. However, all CIMS functional Unit activities that may be performed at the Incident Base may also be performed at a Camp.

There may be more than one Camp. If activated, each Camp will be identified by a geographic name or a number. Adequate safety, health, security and force protection measures will be implemented regarding each of the Camps.

DEFINITIONS (continued)

A Camp(s) may be at the same location for several days or for the entire duration of the incident. When necessary and depending upon the circumstances of the incident, a Camp(s) may be relocated.

When appropriate, a Camp(s) may be deactivated.

If activated, each Camp will have a Camp Manager assigned. Each Camp Manager is responsible for managing the activities occurring in the Camp, providing non-technical coordination, and coordinating the actions of all of the organizational Units situated within the Camp. Additionally, each Camp Manager will ensure that adequate safety, health, security and force protection measures have been implemented regarding the Camp.

One or more Logistics Section Units may be situated at one or more Camps. If a Logistics Section Unit(s) is situated at a Camp(s), it would be managed by an Assistant. Initially, personnel required to staff one or more Logistics Section Units situated at one or more Camps will be determined by the General Staff based upon the nature, size, complexity, location, duration, etc., of the incident and anticipated operations at the involved Camp(s). However, after a Camp(s) is activated, additional required personnel and support will be determined by the Camp Manager.

The Camp Manager(s) reports to the Facilities Unit Leader, or if that position is not activated, to the Logistics Section chief.

OTHER INCIDENT FACILITIES

Depending upon the circumstances, other additional Incident Facilities may be activated and situated within the incident area. These other additional Incident Facilities may be used for:

1. Conducting appropriate support and / or service functions and activities, e.g., Mass Care (Triage / Treatment / Transportation), Mass Casualty Management, Mass Fatality Management / Temporary Morgue, Family Assistance, Mass Decontamination.
2. Providing food, water, lodging, shower, sanitation, etc., services to incident personnel.

CIMS: INCIDENT FACILITIES - STAGING AREA			
DATE ISSUED: 08/01/13	DATE EFFECTIVE: 08/01/13	REVISION NUMBER:	PAGE: 1 of 4

PURPOSE To define and describe CIMS Incident Facilities – Staging Area.

PROCEDURE When responding to an incident where CIMS has been implemented, Incident Facilities - Staging Area will be defined and described as follows:

DEFINITIONS **STAGING AREA**

A Staging Area is a temporary location / facility for situating and organizing resources that are in *Available status* and may be deployed to incident assignments. It may contain temporary fueling and sanitation facilities.

NOTE *A Staging Area was formerly referred to as a Mobilization Point.*

Pursuant to CIMS, there may be more than one Staging Area. However, absent unusual circumstances, there should be only one NYPD Staging Area for NYPD resources. Nevertheless, there may be more than one NYPD Staging Area if:

1. Specialized units, personnel, vehicles, equipment or other specialized resources are required at the incident, e.g., Emergency Services Unit, Mounted Unit, Highway District; or,
2. The incident area is extraordinarily large; or,
3. An extremely large number of personnel, vehicles, equipment or other resources are required at the incident; or,
4. A significant amount of large specialized equipment is required at the incident; or,
5. Confidential / sensitive resources are required at the incident; or,
6. There have been several Operational Periods and the incident has not been resolved and incident operations will continue for a prolonged period of time; or,
7. There are other circumstances that require the activation of more than one Staging Area.

Pursuant to CIMS, depending upon the circumstances, different Agencies may have one or more separate Staging Areas; or, different functional / Core Competency Branches may have one or more separate Staging Areas.

If more than one Staging Area is required then the Operations Section chief, or Command Element if the Operations Section is not activated, will ensure that an appropriate number of Staging Areas are activated; and, that the activities / functions occurring at each of the Staging Areas are performed in a coordinated manner.

DEFINITIONS (continued)

Resources situated at a Staging Area(s) may be in *Available status* awaiting a tactical and / or investigative assignment, and should be prepared for assignment / deployment within three minutes. A Staging Area(s) should be used to organize Single Resources into Resource Teams and / or Special Response Teams. *Out-of-Service* resources should not be situated at a Staging Area(s). Logistics functions should not be performed at a Staging Area(s).

A Staging Area(s) can be situated at any appropriate location in the incident area. The following factors should be considered when choosing a location to situate a Staging Area(s):

1. The need to be a reasonable and appropriate distance from the incident.
2. The need to have staged resources prepared for expeditious deployment to the incident and / or area of expected assignment. Absent unusual conditions and depending upon the circumstances of the incident, generally, a Staging Area(s) should be located approximately five minutes travel time to an area of anticipated need, assignment, deployment, etc.
3. The need to have a sufficiently large area in order to accommodate the responding resources and the required reserves; and, to have sufficient space to allow for expansion; and, if possible, to have sufficient space for expansion in order to accommodate a Level 3 or Level 4 mobilization.
4. The need to provide adequate workspace and utility / communications service.
5. The need to permit continuous operations.
6. The need to have sufficient access and egress routes and to be easily accessible.
7. The ability to effectively and efficiently implement safety, health, security and force protection measures.

When a Staging Area(s) is activated it must be clearly marked and be readily identifiable. Adequate safety, health, security and force protection measures will be implemented regarding the Staging Area(s).

A Staging Area(s) will be given a name that describes its general location.

A Staging Area(s) may be in the vicinity of or adjacent to other Incident Facilities; but, must have its own separate location and name.

The initial boundaries of the Staging Area(s) should be identified and communicated to the Command Element, Communications Section dispatcher and / or supervisor, Command Staff positions, General Staff Sections and each appropriate Supporting Agency / Agency Representative. Additionally, response routes / directions to the Staging Area(s) should be communicated to the responding resources by the Communications Section dispatcher and / or supervisor; or, when necessary, directly by the appropriate incident management organizational element / personnel; or, in any other appropriate manner.

CIMS: INCIDENT FACILITIES - AIR OPERATIONS			
DATE ISSUED: 08/01/13	DATE EFFECTIVE: 08/01/13	REVISION NUMBER:	PAGE: 1 of 6

PURPOSE

To define and describe CIMS Incident Facilities – Air Operations.

PROCEDURE

When responding to an incident where CIMS has been implemented, Incident Facilities – Air Operations will be defined and described as follows:

DEFINITIONS

HELIBASE

The main location within the general incident area that will be utilized for:

1. Parking, fueling, repairing, servicing, storing, maintaining, safeguarding / securing, etc., helicopters; and,
2. Loading and unloading helicopters with personnel, equipment, supplies and / or other resources required for incident operations, functions and activities; and,
3. Filling helicopters with water, insecticides, retardants, pesticides, chemicals and / or other substances required for incident operations, functions and activities.

The NYPD will activate and manage all Helibases. Absent extraordinary circumstances, only one Helibase will be activated; and, it will be situated at the NYPD Special Operations Division, Aviation Unit facility located at Floyd Bennett Field, Brooklyn. However, pursuant to CIMS and depending upon the circumstances, more than one Helibase may be activated, e.g., very large incidents; incidents with a significant number of aviation / aircraft resources; incidents that require a substantial number of tactical and logistical / support air operations. The NYPD will ensure that an appropriate number of Helibases are activated; and, that the activities / functions occurring at each Helibase are performed in a coordinated manner. The NYPD will ensure that each Helibase is properly situated at an appropriate location and that adequate health, safety, security and force protection measures are implemented regarding each Helibase.

If more than one Helibase is activated, usually each additional Helibase will be situated at a location that is pre-designated and approved by the NYPD Aviation Unit, e.g., JFK airport, LaGuardia airport, Police Academy Firearms and Tactics Section Rodmans Neck Range facility, Brooklyn Navy Yard Development Corporation facilities. However, if more than one Helibase is activated, each additional Helibase may be situated at any appropriate location approved by the NYPD Aviation Unit that will:

1. Provide easy and expeditious approach, departure, landing and takeoff helicopter flight paths / routes that do not intrude into or over sensitive, restricted, prohibited, unsafe, etc., areas / airspace; and,
2. Provide safe, flat, clean, unobstructed, conspicuous, etc., landing and takeoff areas; and,

PURPOSE

To describe the “*Check In*” process at an event.

PROCEDURE

When responding to an incident, the following “*Check In*” process will be followed:

DEFINITION

“CHECK-IN” PROCESS-

1. The “*Check-In*” process formally records personnel and equipment as being present at and assigned to the incident; and, provides important basic information that will be used for tracking the number, location and *status* of the resources. The *Check-In* process assists the Command Element by enhancing the incident management organization’s ability to easily:
 - a. Ensure resource accountability.
 - b. Track and identify the number, location and *status* of resources.
 - c. Assign and reassign resources.
 - d. Locate personnel for emergency notifications.
 - e. Prepare accurate time and overtime records.
 - f. Plan for demobilization.
 - g. Demobilize and release resources.

2. The Resources Unit will perform the *Check-In* function at designated incident locations. If the Resources Unit has not been activated, the Planning Section chief will perform the *Check-In* function. If the Planning Section has not been activated, the Command Element will perform the *Check-In* function.

3. A “*Check-In Recorder*” will be assigned to each location where Resources will *Check-In*. The *Check-In Recorder*:
 - a. Must have an adequate supply of *Check-In* forms / **DETAIL ROSTER / ASSIGNMENT SHEETS (PD406-141)**, or other appropriate *Check-in* forms, logs, records, etc.
 - b. Must be informed regarding the frequency and schedule for providing / reporting *Check-In* information to the Resources Unit.
 - c. Should determine if resources that *Check-In* can be electronically recorded / documented.

4. Within NYC pursuant to CIMS, there are four locations where *Check-In* may occur:
 - a. Staging Area(s)
Resources should *Check-In* with the Resources Unit at the Staging Area(s). If the Resources Unit is not activated, resources should *Check-In* with the Staging Area Manager.

PATROL GUIDE

PROCEDURE NUMBER:	DATE EFFECTIVE:	REVISION NUMBER:	PAGE:
220-24	08/01/13		2 of 2

DEFINITION (continued)

- b. Incident Command Post
Resources should *Check-In* with the Resources Unit at the Incident Command Post.
 - c. When applicable, Intelligence / Investigations Section Post.
When applicable, investigative resources will *Check-In* at the Intelligence / Investigations Section Post with the Resources Unit that will be co-located with the Investigative Support Group, if activated. If the Resources Unit is not activated, investigative resources will *Check-In* at the Intelligence / Investigations Section Post with the Investigative Support Group, if activated, if neither the Resource Unit nor the Investigative Support Group are activated, investigative resources should *Check-In* with the Intelligence / Investigations Section chief.
 - d. Helibase(s)
In NYC, *Check-In* may be performed at a Helibase(s); however absent extraordinary circumstances, *Check-In* will not occur at a Helibase(s).
5. Outside NYC, under NIMS ICS, there are an additional two locations where *Check-In* may occur:
 - a. Incident Base
Absent extraordinary circumstances an Incident Base will not be activated in New York City.
 - b. Camp(s)
Absent extraordinary circumstances a Camp(s) will not be activated in New York City.
 6. Pursuant to CIMS, absent extraordinary circumstances, resources must formally *Check-In* before reporting to the Operations Section or Sectors or Groups or Branches for assignment.

CIMS: RESOURCES			
DATE ISSUED: 08/01/13	DATE EFFECTIVE: 08/01/13	REVISION NUMBER:	PAGE: 1 of 5

PURPOSE

To define and describe CIMS Resources.

PROCEDURE

When responding to an incident, Resources will be defined and described as follows:

DEFINITIONS

RESOURCES - personnel, teams, equipment, supplies, vehicles, aircraft, watercraft and facilities that are available or potentially available for assignment or allocation to support incident management and emergency response activities.

NOTE

Non-law enforcement resources, particularly firefighting resources, have been formally categorized by “Kind” and “Type.” Law enforcement resources have NOT been formally categorized by “Kind” and “Type.” However, an effort currently is underway to develop appropriate metrics and to formally categorize law enforcement resources by Kind and Type.

- a. “Kind”: Kind refers to broad classes that characterize similar resources, such as teams, personnel, equipment, supplies, vehicles, watercraft, facilities and aircraft. The term may also be used to specifically categorize a particular resource, e.g., marked patrol car, unmarked car, nondescript car, undercover car, van, truck, tractor trailer, two wheeled scooter, three wheeled scooter or motorcycle.
- b. “Type”: Refers to the level of resource capability based upon its power, size or capacity. Resource *Type* is designated by a Roman numeral with I representing the greatest capability and IV representing the least capability. The *Type* assigned to a resource or a Component is based on a minimum level of capability described by the identified metric(s) for that resource. In some cases, a resource may have less than or more than four *Types*; and, additional *Types* will be identified or the *Type* will be described as “not applicable.”

Resources are categorized as:

SINGLE RESOURCE – A Single Resource may perform a particular assignment and includes:

Single resources include:

- a. A single vehicle including the operator / crew;
- b. A single watercraft including the operator / crew;
- c. A single aircraft including the operator / crew;
- d. A single item of equipment including the operator / crew;
- e. Single personnel;
- f. Single personnel and an animal, i.e., dog, horse;
- g. A formally pre-designated “team” of two or more personnel, including an identified work supervisor, i.e., “Squad”, “Mobile Field Force.”

1. **Assigned:** Resources (personnel that have *Checked-In* and equipment that has been receipted for) assigned to an incident that are performing work tasks at the incident under the direction of a supervisor; or, in the case of equipment and facilities, resources that are performing a function supporting incident operations.
2. **Available:** Resources (personnel that have *Checked-In* and equipment that has been receipted for) assigned to an incident that are ready for an assignment / deployment; or, in the case of equipment and facilities,

Section: Citywide Incident Management		Procedure No: 220-26	
CIMS: RESOURCE ASSIGNMENTS			
DATE ISSUED: 08/01/13	DATE EFFECTIVE: 08/01/13	REVISION NUMBER:	PAGE: 1 of 2

PURPOSE

To specify where arriving resources will initially be assigned at an incident.

PROCEDURE

After formal "Check In", arriving resources will initially be assigned to the following locations at an incident:

STAGING AREA

Assignment to a Staging Area(s)

1. After formal *Check-In*, incoming resources may be assigned to a Staging Area(s) for the following reasons:
 - a. Resources may be assigned / deployed during the current Operational Period.
 - b. Resources are needed to provide a reserve.
 - c. Single Resources may be organized into Special Response Teams and / or Resource Teams prior to assignment / deployment.
2. As part of the planning process, the Operations Section chief will decide what number, *Kinds* and *Types* of resources will be situated at the Staging Area(s). This decision is based upon the need to retain and maintain adequate reserves to meet current needs and / or anticipated demands and / or unanticipated contingencies.
3. The Operations Section chief will brief the Staging Area Manager(s) regarding how the Staging Area(s) should be managed. This briefing should include:
 - a. The number, *Kinds* and *Types* of resources that will be responding to the Staging Area(s).
 - b. Communications procedures, devices, frequencies and measures that will be used.
 - c. Minimum number of resources and specific *Kinds* and *Types* of resources that must be retained and maintained as reserves.
 - d. Procedures for ordering / requesting additional resources.
 - e. Estimated length of time the Staging Area(s) will be activated / utilized.
 - f. Procedures for ordering / requesting logistics service and support.
4. The Staging Area Manager(s) must monitor the *status* of resources in the Staging Area(s), and inform the Operations Section chief :
 - a. When minimum levels of resources are about to be reached;
 - b. If any additional resources should be requested / ordered.
5. The Operations Section chief must be concerned about the cost, morale, and political implications of retaining and maintaining resources for long periods of time at one or more Staging Areas. This is particularly true regarding expensive equipment and personnel that have been rented / leased from private entities and resulting significant costs may possibly be incurred.

PATROL GUIDE

PROCEDURE NUMBER:	DATE EFFECTIVE:	REVISION NUMBER:	PAGE:
220-26	08/01/13		2 of 2

STAGING AREA (continued)

6. After Check-In at a Staging Area, Single Resources will often be organized into Resource Teams and / or Special Response Teams, and deployed / assigned to incident related functions, operations and activities. The number, composition and deployments / assignments of the Resource Teams and Special Response Teams may continue for the entire incident, or they may change based upon incident needs.
7. Resource Teams and Special Response Teams created / organized at the incident should always be disassembled prior to release from the incident. In order to ensure proper resource accountability, each resource should be demobilized and leave the incident with the same resource designation, configuration and organization that the resource had upon arrival.

SECTORS OR GROUPS

Assignment to Sectors or Groups or Branches

1. After formal *Check-In*, during rapidly expanding incidents, tactical resources may immediately be assigned to the Operations Section; or, if activated, Sectors or Groups or Branches. In these situations, the tactical resources must always immediately report to the Operations Section chief or a designated Sector Supervisor or designated Group Supervisor or designated Branch Director to be given a specific assignment.
2. Outside of NYC, under NIMS ICS, during rapidly expanding incidents, prior to formal *Check-In*, tactical resources may be assigned directly to the Operations Section; or, if activated, directly to Sectors or Groups or Branches. In these situations, the tactical resources must report directly to a designated Sector Supervisor or designated Group Supervisor or designated Branch director to be given a specific assignment; and, formal *Check-In* will occur at a later time when the resource is assigned to a Staging Area or is in *Out-of-Service status*. NIMS ICS acknowledges that this is not the preferred way of deploying arriving additional resources.

INCIDENT BASE

Assignment to the Incident Base

1. Absent extraordinary circumstances, an Incident Base will not be activated in New York City.
2. Outside of NYC, under NIMS ICS, after formal *Check-In*, tactical resources are often assigned to the Incident Base when the resources are not scheduled for use during the current Operational Period.
3. Outside of NYC, under NIMS ICS, for resources that have traveled a significant distance, are assigned to the Incident Base in an *Out-of-Service status* in order to provide time for briefings and rest / rehabilitation prior to being deployed to an assignment during the subsequent Operational Period.

CITYWIDE INCIDENT MANAGEMENT SYSTEM (CIMS) - 201 INCIDENT BRIEFING FORM (ICS FORM 201)			
DATE ISSUED: 08/01/13	DATE EFFECTIVE: 08/01/13	REVISION NUMBER:	PAGE: 1 of 7

PURPOSE

To properly document the response and summarize the actions taken at the scene of an emergency incident in which the Citywide Incident Management System (CIMS) has been implemented.

SCOPE

Proper preparation of the **CIMS 201 Incident Briefing Form** (see Appendix “A” and form attached) provides basic information regarding the emergency incident and the resources allocated to the emergency incident. The Form will serve as a reference document for the initial emergency incident response, summarize the actions taken at the scene and will be the source document that will be used to prepare a written Incident Action Plan (IAP), if a written IAP is necessary. The Incident Briefing Form will not be a component of the IAP for preplanned events.

PROCEDURE

When managing an emergency incident under *Patrol Guide 220 Series, “Citywide Incident Management System”*:

INCIDENT COMMANDER

 - c. The response to emergency incident exceeds four hours and results in the allocation of significant resources and or personnel
 - d. A Unified Command-Command Element is established
 - e. The NYPD is the Incident Commander in a Single Command-Command Element; and several Supporting Agencies are significantly involved in the emergency incident management efforts
 - f. An Incident Management Team (IMT) is activated to manage the emergency incident.
2. Attach a copy of the **CIMS 201 Incident Briefing Form** to the **UNUSUAL OCCURRENCE REPORT (PD370-152)** or **Typed Letterhead**, if prepared.
 - a. If **UNUSUAL OCCURRENCE REPORT** or **Typed Letterhead** is not prepared, file **CIMS 201 Incident Briefing Form** at the precinct of occurrence.

NOTE

The information from the CIMS 201 Incident Briefing Form can be used as a reference or source document for the preparation of a written Incident Action Plan (IAP).

The following describes how the four pages of the CIMS 201 Incident Briefing Form can be used in future forms or documents:

P.G. 200-01 Foreword

Date Effective: 01-01-00

As the Police Department approaches a new century, we face fresh and more difficult challenges every day. The knowledge, skills and abilities of every member of the Department will be tested as we strive to provide superior police services to all communities throughout the City of New York. As we progress, we will continue to raise the standards of performance even higher, to maintain the gains we have recently achieved, and set new goals and objectives for the future. The development and publication of this newly revised PATROL GUIDE will provide a strong foundation to support a more dynamic law enforcement agency with the ability to recognize emerging crime problems and properly react to them.

The new DEPARTMENT MANUAL will consist of updated and revised copies of the ORGANIZATION GUIDE, PATROL GUIDE, and ADMINISTRATIVE GUIDE. The publication of the new Organization Guide and Patrol Guide mark the completion of Phase I. Existing editions of the Administrative Guide will remain in effect for an interim period, pending completion of Phase II of this project.

The Department Manual serves as a guide for ALL members of the service. Every member is expected to be familiar with its contents, and to remain current with all new and revised procedures. All supervisors are expected to be even more knowledgeable to facilitate their ability to lead, train, supervise and discipline subordinates. The Manual does not contain distinct instructions for every situation that may be encountered in the field. Procedures contained in the Manual provide additional guidance on the most common practices of the Department, and serve as performance expectations. Members are expected to perform their duties in accordance with the legal requirements of their position and the extensive training they have received. Members are also required to conform their conduct with their oath of office, and to the mission, values, strategies, objectives, policies, procedures and legal requirements of the Police Department. All members of the Department will be accountable for their actions and should maintain the highest professional standards.

Your ability to implement the policy and procedural guidelines provided by the Department make a very important impact on the lives of all New Yorkers. When we fulfill our duties with Courtesy, Professionalism and Respect, we strengthen the bonds between the police and the community. I know I can rely upon your commitment to our important mission, which must be achieved within the framework of our legal obligations. The reputation of "New York's Finest" must be earned every day.

POLICE COMMISSIONER

2. Do not consume intoxicants to the extent that member becomes unfit for duty.

ADDITIONAL DATA

All members of the service are required to remain fit for duty as specified above, and are reminded of their absolute responsibility to remain fit for duty while in possession of their firearms.

Any misconduct involving a Member's misuse of a firearm while unfit for duty due to excessive consumption of, and intoxication from, alcohol will result in that member's termination from the Department. Exceptional cases will be determined by the Police Commissioner, on a case by case basis.

Furthermore, any misconduct involving members who are found to be unfit for duty due to excessive consumption and intoxication from alcohol, while armed with a firearm, will result in the inclusion of the charge of "Unfit For Duty While Armed," in Departmental disciplinary proceedings. In addition to those penalties imposed as a result of all other charges stemming from the misconduct, strict punitive sanctions will be imposed for any member upon whom the charge has been substantiated.

Additionally, a uniformed member of the service who refuses to submit to chemical testing in connection with an alleged violation of section 1192 of the New York State Vehicle and Traffic Law (Driving While Intoxicated) will be charged with violating Patrol Guide procedure 203-10, page 1, step 5 "Engaging in conduct prejudicial to the good order, efficiency, or discipline of the Department."

Members of the service are also reminded of the Department's commitment to the many counseling and assistance programs available for a wide variety of problems. Members who are experiencing problems related to alcohol, or know of any other member who may be experiencing problems related to alcohol, are strongly encouraged to call HELPLINE, in order to achieve confidential assistance.

DEPARTMENT POLICY STATEMENT CONCERNING THE OPERATION OF A MOTOR VEHICLE UNDER THE INFLUENCE OF ALCOHOL

- i. Patrol Guide procedure 203-04, "Fitness For Duty" mandates the following:
 - a. Be fit for duty at all times, except when on sick report.
 - b. Do not consume intoxicants to the extent that member becomes unfit for duty.

Consistent with the above, any uniformed member of the service who causes serious physical injury to another person while operating a motor vehicle and is determined to be unfit for duty due to the consumption of alcohol will be terminated from the New York City Police Department, absent exigent

circumstances.

ii. Any negotiated penalty in a Department disciplinary proceeding, involving a uniformed member of the service who is determined to have been operating a motor vehicle while unfit for duty due to the consumption of and/or intoxication from alcohol shall include a period of Dismissal Probation. Additionally, uniformed members of the service involved in incidents either on or off duty where alcohol is deemed a contributing factor, and where pursuant to a negotiated penalty in a Department disciplinary proceeding are required to submit to ordered breath testing, the negotiated penalty may also include a period of Dismissal Probation. Further, any such negotiation shall include the subject officer's agreement to submit to ordered breath testing for the presence of alcohol while on duty or off duty, during the period of probation, or other agreed upon time period. Should member be found unfit for duty or refuse to submit to breath testing, this will result in additional disciplinary action against the subject officer which may include termination.

iii. Members of the service whose alcohol consumption has caused problems for them or others are urged to self-report before they are responsible for a serious incident and the above disciplinary action becomes necessary. They can do so in complete confidence by calling the Counseling Service Unit. Additionally, members who are experiencing problems related to alcohol, are strongly encouraged to call HELPLINE or the Police Organization Providing Peer Assistance, (POPPA). POPPA is a joint labor-management cooperative effort involving the implementation of a union-operated, alternative employee assistance program. Both HELPLINE and POPPA offer confidential services.

iv. Members of the service with alcohol-related problems may also be referred to the Counseling Services Unit by supervisors, other Department units, or as the result of an alcohol related incident. However, the Department's objective, at all levels, is early detection and referral of personnel for evaluation and treatment before drinking causes problems in work performance or worse.

v. The Counseling Services Unit maintains strict standards of confidentiality as set forth in Title 42 of Federal guidelines governing alcoholism programs, and it does not act as part of the Department's disciplinary system. CSU's mission is to assist in recovery and return to full and productive service those members of the Department who are experiencing problems with alcohol. The unit operates 24 hours a day, seven days a week, and will help assess the extent of the problem, and make the appropriate referrals for treatment. Treatment can range from detoxification and inpatient rehabilitation to outpatient rehabilitation and the participation in self-support groups. Counseling is available to members of the service, their families and retirees.

vi. The Police Department's policy is to encourage members of the service to seek help in a supportive, confidential environment before the consequences of alcohol abuse require the Department to take disciplinary action. In addition, to assist those members of the service experiencing alcohol related problems, all New York City Police Department personnel are encouraged to refer those with problems to any of the counseling/assistance providers indicated in number "iii" of this procedure.

vii. Members participating in these programs will not jeopardize their promotional opportunities. In addition, their current assignments will not ordinarily be changed because of their participation in these programs unless,

due to the nature of the assignment, a change is deemed to be in the best interests of all parties concerned. However, participation in these programs will not exempt a member of the service from disciplinary action for specific acts of misconduct and the consequences of such disciplinary actions.

Exceptional circumstances will be determined by the Police Commissioner on a case by case basis.

Examples of circumstances in which false statements may arise include, but are not limited to, lying under oath during a civil, administrative, or criminal proceedings or in a sworn document; lying during an official Department interview conducted pursuant to Patrol Guide 206-13, "Interrogation of Members of the Service" or an interview pursuant to Patrol Guide 211-14, "Investigations by Civilian Complaint Review Board;" and lying in an official Department document or report. The Department will not bring false official statement charges in situations where, as opposed to creating a false description of events, the member of the Department merely pleads not guilty in a criminal matter, or merely denies a civil claim or an administrative charge of misconduct.

P.G. 203-11 Use Of Force

Date Effective: 08/01/13

USE OF FORCE

All uniformed members of the service are responsible and accountable for the proper use of force under appropriate circumstances. Members of the service are reminded that the application of force must be consistent with existing law and with New York City Police Department Values, by which we pledge to value human life and respect the dignity of each individual. Depending upon the circumstances, both federal and state laws provide for criminal sanctions and civil liability against uniformed members of the service, when force is deemed excessive, wrongful or improperly applied.

The primary duty of all members of the service is to preserve human life. Only that amount of force necessary to overcome resistance will be used to effect an arrest or take a mentally ill or emotionally disturbed person into custody. Deadly physical force will be used ONLY as a last resort and consistent with Department policy and the law.

At the scene of a police incident, many members of the service may be present and some members may not be directly involved in taking police actions. However, this does not relieve any member present of the obligation to ensure that the requirements of the law and Department regulations are complied with. Members of the service are required to maintain control or intervene if the use of force against a subject clearly becomes excessive. Failure to do so may result in both criminal and civil liability. EXCESSIVE FORCE WILL NOT BE TOLERATED.

All members of the service at the scene of a police incident must:

- a. Immediately establish firearms control
- b. Use minimum necessary force
- c. Employ non-lethal alternatives, as appropriate.

Members of the New York City Police Department will NOT use chokeholds. A chokehold shall include, but is not limited to, any pressure to the throat or windpipe, which may prevent or hinder breathing or reduce intake of air. Whenever it becomes necessary to take a violent or resisting subject into custody, responding officers should utilize appropriate tactics in a coordinated effort to overcome resistance (for example see [P.G. 216-05](#), "Aided Cases-Mentally Ill or Emotionally Disturbed Persons"). The patrol supervisor, if present, should direct and control all activity. Whenever possible, members should make every effort to avoid tactics, such as sitting or standing on a subject's chest, which may result in chest compression, thereby reducing the subject's ability to breathe.

Persons taken into custody (i.e., arrest, mentally ill, emotionally disturbed, etc.) shall be rear cuffed at the earliest opportunity to reduce the potential for resistance, which may cause injuries. In addition, alternate restraining devices (Velcro straps, mesh restraining blankets, etc.) shall be used, at the earliest opportunity, to restrain or further restrain a subject whose actions or behavior may cause injury to himself/herself or others.

After an individual has been controlled and placed under custodial restraint using handcuffs and other authorized methods, the person should be positioned so as to promote free breathing. The subject should not be maintained or transported in a face down position.

The member assuming custody of the subject should closely observe him or her for any apparent injuries. If the area is dark, a flashlight or other source of illumination should be used to maintain a clear view of the subject at all times.

If a person appears to be having difficulty breathing or is otherwise demonstrating life-threatening symptoms, medical assistance will be requested immediately. The patrol supervisor will direct that alternate means to maintain custody be utilized, if appropriate.

The use of restraints to "hog-tie" (restraining person by connecting or tying rear cuffed hands to cuffed or shackled ankles or legs) subjects and the transportation of subjects in a face down position within any vehicle are prohibited.

P.G. 203-12 Deadly Physical Force

Date Effective: 08-01-13

DEADLY PHYSICAL FORCE

The New York City Police Department recognizes the value of all human life and is committed to respecting the dignity of every individual. The primary duty of all members of the service is to preserve human life.

The most serious act in which a police officer can engage is the use of deadly force. The power to carry and use firearms in the course of public service is an awesome responsibility. Respect for human life requires that, in all cases, firearms be used as a last resort, and then only to protect life. Uniformed members of the service should use only the minimal amount of force necessary to protect human life. Where feasible, and consistent with personal safety, some warning, such as "POLICE - DON'T MOVE," should be given. Deadly force is never justified in the defense of property. Above all, the safety of the public and uniformed members of the service must be the overriding concern whenever the use of firearms is considered.

DEFINITION

PROFESSIONAL JUDGEMENT - judgment based not only upon experience as an individual but taking into account the knowledge, experience, and training gained through employment as a police officer.

GUIDELINES FOR THE USE OF FIREARMS

UNIFORMED MEMBERS OF THE SERVICE

a. Police officers shall not use deadly physical force against another person unless they have probable cause to believe they must protect themselves or another person present from imminent death or serious physical injury.

b. Police officers shall not discharge their weapons when, in their professional judgment, doing so will unnecessarily endanger innocent persons.

c. Police officers shall not discharge their firearms in defense of property.

d. Police officers shall not discharge their firearms to subdue a fleeing felon who presents no threat of imminent death or serious physical injury to themselves or another person present.

e. Police officers shall not fire warning shots.

f. Police officers shall not discharge their firearms to summon assistance except in emergency situations when someone's personal safety is endangered and unless no other reasonable means is available.

g. Police officers shall not discharge their firearms at or from a moving vehicle unless deadly physical force is being used against the police officer or another person present, by means other than a moving vehicle.

h. Police officers shall not discharge their firearms at a dog or other

animal except to protect themselves or another person from physical injury and there is no other reasonable means to eliminate the threat.

i. Police officers shall not, under any circumstances, cock a firearm. Firearms must be fired double action at all times.

4. Purchasing city-owned real property through negotiated sale, EXCEPT a city-owned residential building of six units or less, may be purchased through negotiated sale. Violation subjects member to fine, suspension or dismissal and member may be prosecuted for a misdemeanor.
5. Purchasing real estate for rental purposes within precinct of assignment.

7. Selling or issuing tickets, invitations or any other writing or device for the purpose of admission to functions held by religious, line or fraternal organizations within this Department, and any placards, invitations, circulars or other similar instrument advertising these affairs bearing the words "POLICE DEPARTMENT - CITY OF NEW YORK" or similar term indicating an affiliation with the Police Department without the approval of the Chief of Internal Affairs.

NOTE: The officers and committee members taking part in the arrangement, operation or conduct of authorized affairs under the auspices of religious, line or fraternal organizations of this Department will ensure that Department standards are maintained.

8. Authorizing use of photograph in uniform or mentioning rank, title or membership in Department for commercial advertisement.
9. Accepting testimonial award, gift, loan or thing of value to defray or reimburse any fine or penalty, or reward for police service except:

11. 12. Soliciting or accepting loans from merchants, firms or persons doing business located or residing in area of assignment.

13. Entering into a business or financial transaction with another member of the service who is your superior or subordinate where the superior has the power to direct the subordinate's work or has the power to affect the terms and conditions of the subordinate's employment. This means, but is not limited to, circumstances where the superior has direct supervision of the subordinate or instances where in the course of conducting police related business, there is a likelihood that the superior will be in a position to supervise or affect the assignment of the subordinate. Accordingly, members of the service who do not work in the same command but who do work within the same bureau/patrol borough should carefully consider, before entering into a business or financial transaction with each other, whether the above superior/subordinate relationship presently exists. Members of the service should also be aware that changes in assignments that affect the superior/subordinate relationship may make a pre-existing business or financial relationship an impermissible conflict of interest. The Office of the Deputy Commissioner, Legal Matters should be contacted if questions arise regarding these issues.

14. Using your position with the Department for the benefit of yourself or associate, through micropurchases made on behalf of the Department (purchases up to \$20,000 that may be made without competition).

a. "Associate" is defined in Chapter 68 of the City Charter as a spouse, domestic partner, child, parent, or sibling of a public servant; a person with whom a public servant has a business or other financial relationship; and each firm in which a public servant has a present or potential interest.

The Conflicts of Interest Board has determined that it is a violation of the conduct described in step 13 for a superior to solicit charitable contributions from, or to offer to sell products of any amount or value to a subordinate. The Board has specifically ruled, however, that a subordinate may sell products for profit or charitable purposes, or solicit donations for charitable purposes from a superior if the amount involved is de minimis. The Board has defined de minimis to be \$25.00 or less.

P.G. 203-14 Financial Restrictions - Prohibited Interests

Date Effective: 08-01-13

FINANCIAL RESTRICTIONS - PROHIBITED INTERESTS

1. No Department employee may have a position in a firm that the employee knows, or should know, is engaged in business dealings with the Department.
2. No Department employee may have a position in a firm that the employee knows, or should know, is engaged in business dealings with the City, unless such position is in a firm whose shares are publicly traded.

NOTE: For purposes of steps 1 and 2 above, a position with a firm includes, but is not limited to an officer, director, manager, employee, trustee, attorney, agent, broker or consultant to the firm. The definition of "firm" includes an individual seeking business on his/her own behalf, and as a sole proprietor.

3. In addition to the prohibitions outlined above, a Department employee may not have an ownership interest in a firm that is engaged in business dealings with the Department or have an ownership interest in a firm whose shares are not publicly traded, that is engaged in business dealings with the City.

4. If a Department employee has an ownership interest prohibited in step 3 above, the employee must, within ten days of learning that such ownership interest is prohibited:

- a. Terminate such ownership in the firm, OR
- b. Disclose the prohibited ownership interest to the Conflicts of Interest Board.

NOTE: For purposes of steps 3 and 4 above, an ownership interest means an interest held by a Department employee, the employee's spouse or unemancipated child, that is greater than five percent of the firm or an investment equivalent to \$32,000.00.

If a Department employee has an interest in a firm, whose shares are publicly traded, that has business dealings with the City (which would be permitted), but is not sure whether that firm has business dealings with the Department (which would not be permitted), the employee may make written request to the Police Commissioner, through channels, for a determination on whether that firm does business with the Department.

Any Department employee who believes they may be covered by these provisions should immediately contact the Conflicts of Interest Board for further instructions.

An employee may have an interest otherwise prohibited above if written approval is obtained from the Police Commissioner and the Conflicts of Interest Board approves.

To inform all off duty members of the service of the guidelines to be complied with when attending or taking part in parades, funerals, memorial services, and other Department-oriented or law enforcement events.

SCOPE

All members of the service are strictly accountable for their conduct at all times, whether on or off duty, inside or outside New York City. Conduct which brings discredit to the Department, or conduct in violation of law is unacceptable and will result in appropriate disciplinary measures. Additionally, all members of the service are subject at all times to the provisions of the Patrol Guide, other Department regulations, and all local, state, and federal laws.

PROCEDURE

When attending or taking part in parades, funerals, memorial services, and other Department-oriented or law enforcement-oriented events, the following will be complied with:

e. Under no circumstances will any member wear his/her uniform off duty or attend any parties, dinners, fund raising events, etc., in uniform, without the permission of his/her commanding officer or designee. This includes social

events that take place after a parade, funeral, etc., has ended.

All members of the service are reminded to comply with [P.G. 203-06](#), "Performance On Duty - Prohibited Conduct," which prohibits the consumption of intoxicants when in uniform whether on or off duty. Members will not, under any circumstances, allow alcoholic beverages to be brought into Department facilities or vehicles except in performance of duty.

g. All Department-oriented and law enforcement-oriented events that members of the service attend, wherever they take place, will be monitored by ranking officers from overhead commands. In selected cases, as specifically directed by the Police Commissioner, First Deputy Commissioner, or Chief of Department, the Internal Affairs Bureau will conduct such monitoring.

h. Members are reminded of the provisions of [P.G. 204-08](#), "Firearms -General Regulations," which states that off duty members are to be unarmed at their own discretion when engaged in any activity of a nature whereby it would be advisable NOT to carry a firearm, especially those events at which alcoholic beverages are consumed. In addition, off duty members are reminded that they may only carry the regulation service revolver or pistol, authorized off duty revolver, or authorized special weapons.

i. Members, when out of state for a parade, funeral, memorial ceremony, or any other Department-oriented or law enforcement-oriented event, may not carry any firearms without the permission of the Police Commissioner, First Deputy Commissioner or Chief of Department even when such an event takes place in a state which allows police officers from other jurisdictions to carry their weapons.

P.G. 203-16 Guidelines For Acceptance Of Gifts And Other Compensation By Members Of The Service

Date Effective: 08/01/13

PURPOSE

To provide guidance to members of the service relating to acceptance of gifts and other compensation.

POLICY

It is the policy of the Department that members of the service may not accept any reward, gratuity, gift or other compensation for any service performed as a result of or in conjunction with their duties as public servants. All exceptions must be in accordance with Chapter 68 of the New York City Charter and the Police Department Board of Ethics rulings. This policy applies regardless of whether the service was performed while said members of the Department were on or off duty. Members of the service also shall not solicit any gift, gratuity, loan, present, fee or reward for personal gain.

SCOPE

Members of the service may be offered gifts, awards, and other things of value by private citizens, institutions, etc., in appreciation for their police service. It is not unethical or illegal for a member of the service to accept gifts that are commonly offered as tokens of appreciation, i.e., plaques, pen and pencil sets, etc. However, cash rewards and personal gifts, such as wristwatches, etc., are strictly forbidden. To insure that the general public does not misinterpret the justification for these gifts, the following procedure has been established.

ADDITIONAL DATA

New York City local law requires civilian members of the service, who entered City service on or after September 1, 1986, to become a City resident within ninety days of appointment. Civilian members of the service who were permanently appointed to City service before this date may reside outside the City; however, such civilian members who accept either provisional, non-competitive, or exempt positions must establish City residence within one year.

Notwithstanding the general requirement of City residency, Local Law No. 48 of 2009, allows civilian members of the service who have completed two years of service to reside, in addition to the five boroughs of New York City, in Westchester, Rockland, Orange, Putnam, Nassau or Suffolk Counties. However, civilian members of the service with special patrolman designation status must reside within the five boroughs of New York City regardless of years of service. Traffic Enforcement Agents Level IV, School Safety Agents and Evidence/Property Control Specialists who have special patrolman status are exempt under the State Public Officers Law and after completing two years of employment with the City may reside, in addition to the five boroughs of New York City, in Westchester, Rockland, Orange, Putnam, Nassau or Suffolk Counties.

This amendment will not affect administrative or judicial actions taken to enforce residency requirements which were in effect prior to the change.

All allegations of non-compliance with this law will be referred to the Personnel Bureau's Investigations Unit, regardless of the civilian member's permanent assignment within the Department. Sole investigative responsibility will rest with the Investigations Unit. Results of the investigation will be reviewed by the Assistant Commissioner, Employee Management Division. If an investigation does identify a civilian member in violation of this requirement, the civilian member of the service will be given an opportunity to rebut the investigation's findings. Civilian members of the service, in fact, not in compliance with this requirement are subject to termination. A Department trial will not be conducted.

Employees with questions regarding civilian residency requirements may contact the Employee Management Division.

a. Uniformed and civilian members of the service must complete the "Location During Absence" section on the LEAVE OF ABSENCE REPORT including each country, with the city/town or province where the member will be staying, date(s) of departure and date of return, unless on military leave or leave of absence without pay thirty calendar days or more

b. If member will remain at their residence, member will enter "residence" and include location and dates

ADDITIONAL DATA

If an emergency situation arises and a uniformed member of the service requests an emergency excusal day (E-Day) for his/her next scheduled tour of duty, the requesting uniformed member of the service must receive approval from the desk officer on duty at the time of the request.

Members of the service may only request an E-Day during the interval between the member's last tour of duty performed and the start of their next scheduled tour of duty.

All other requests for a leave of absence, that does not fall under the guidelines for an E-Day, will be submitted on a LEAVE OF ABSENCE REPORT to the member's commanding officer/supervisory head.

Once a decision has been rendered regarding the E-Day request, the desk officer will make an entry on the Roll Call Adjustment (Misc. 3084). The entry will consist of the requesting member's rank, name and whether the E-Day request was granted or denied. If the E-Day has been granted, the desk officer will ensure a LEAVE OF ABSENCE REPORT is prepared for the requesting member.

A denial of an E-Day by the desk officer is a final decision. If the request is denied, members are prohibited from attempting to receive approval of the same request from another supervisor and may be subject to disciplinary action.

Commanding officers will ensure that supervisors are aware of the command's criteria for the granting of E-Days. This includes, but is not limited to, the reason for requested excusal, number of emergency day requests made by the member, and the operational impact on the command.

P.G. 203-21 Integrity Monitoring File

Date Effective: 10-16-13

PURPOSE

To identify locations where there is potential for members of the service to engage in corrupt practices or misconduct.

DEFINITION

DESIGNATED OFF-LIMITS LOCATION - a location operating legitimately that a commanding officer may place off-limits because of some police misconduct related activity, and the need to avoid the appearance of impropriety by members of the command (see Additional Data).

UNLAWFUL LOCATIONS - premises, whether in a member's command or elsewhere, that are involved in illegal activities which would preclude the presence of a member of the service, except in the line of duty (see Additional Data).

COOPING PRONE LOCATIONS - locations or premises where members of the service may engage in unauthorized interrupted patrol (see Additional Data).

PROCEDURE

When a premises or location has been identified as a "Designated Off-Limits Location", "Unlawful Location", or a "Cooping Prone Location" in a command under the jurisdiction of the Patrol Services, Housing, or Transit Bureaus:

COMMANDING OFFICER

1. Direct integrity control officer to maintain an Integrity Monitoring File.
2. Document and have on file for review the reason(s) for including a location in the Integrity Monitoring File.

NOTE: Documentation should include, but not be limited to criminal history, arrests, summonses, reports to the State Liquor Authority, organized crime information, corruption, Civilian Complaint Review Board/community complaints, etc. Dates of reports and serial numbers should be included. For further information to be maintained for off-limits and unlawful locations see "Additional Data."

3. Determine schedule to be utilized by commanding officer, executive officer, and integrity control officer when making visits to Designated Off-Limits Locations.

- a. Patrol supervisors will make observations, but not visits, to all locations as directed by the integrity control officer.

4. Direct preparation and maintenance of an Integrity Monitoring Log for the recording of observation and visits to subject locations. INTEGRITY CONTROL OFFICER

5. Maintain Integrity Monitoring file.

6. Maintain Integrity Monitoring Log and record all visits and observations,

as well as police action directed at identified locations.

NOTE: The Integrity Monitoring Log will be in a Department record book divided equally into three separate sections entitled:

- a. "Designated Off-Limits Locations"
- b. "Unlawful Locations"
- c. "Cooping Locations"

Each section will be captioned across a double page as follows:

FIRST PAGE

DATE	TIME	LOCATION	ACTIVITY OBSERVED (IF ANY)
------	------	----------	----------------------------

SECOND PAGE

MEMBER MAKING OBSERVATION	ACTION TAKEN (Summons, arrest, Intelligence Div. notification, etc)	REMARKS
---------------------------	---	---------

COMMANDING OFFICER

7. Evaluate, every six months, the command's Integrity Monitoring File for accuracy and relevance.

8. Add/delete locations by forwarding a report, on Typed Letterhead, to overhead bureau concerned, through channels.

- a. Indicate reason for addition/deletion.
- b. Include an updated Integrity Monitoring File with report.

9. Prepare three copies of updated Integrity Monitoring File on March 1st each year, and forward to overhead bureau concerned, through channels.

a. An accompanying report will be prepared indicating that the commanding officer concerned has reviewed the file and the locations on each list are in conformance with this procedure.

BUREAU COMMAND

10. Review reports (both interim and annual) submitted by subordinate commands.

a. forward copy of report to the Investigation Review Section, Office of the Chief of Department. b. forward copy of report to the Internal Affairs Bureau.

ADDITIONAL DATA The Investigation Review Section will act as the central repository for Designated Off-Limits Locations, Unlawful Locations, and Cooping Prone Locations. Annually, the Investigation Review Section shall forward an updated citywide list of these locations to the Operations Unit and the Office of the Chief of Department. Furthermore, the Quality Assurance division shall conduct audits of precincts, transit districts, police service areas and borough command counterparts to ensure updated lists are maintained in accordance with the provisions of this procedure.

If it becomes necessary for a uniformed member of the service to enter a location listed in the Integrity Monitoring File because of assignment by competent authority, i.e. radio dispatcher/serious police emergency, the member concerned will immediately notify the patrol supervisor. The patrol supervisor will respond and make an ACTIVITY LOG (PD112-145) entry of the circumstances.

The duties performed by units in Transit Bureau, The [I.O. 1 s 11] Chief of Transportation and the Special Operations Division my present integrity hazards that are unique to their specialties, i. e., marinas, riding academies, parking garages, etc.

Therefore, commanding officers of each unit will identify such locations, and, using the criteria below, compile a Designated Off-Limits Location list for their unit's Integrity Monitoring File. Furthermore, they will obtain, and personally review off-limits locations within other commands where their members perform patrol. These locations will be included in their own lists of locations considered integrity hazards for their personnel. CRITERIA FOR INCLUSION IN INTEGRITY MONITORING FILE

DESIGNATED OFF-LIMITS LOCATION

a. Some documented police misconduct-related activity, such as:

- (1) Any substantial acts of misconduct, or
- (2) The failure of integrity tests, or
- (3) The commanding officer's professional judgment after review of corruption allegations, or
- (4) Intelligence from the Organized Crime Control Bureau or the Intelligence Bureau, particularly at locations involving organized crime, or
- (5) The location's past history of repeated crimes or violations.

PLUS

b. Illegal conditions associated with locations, or the inference or appearance of preferential treatment.

Conditions listed in paragraphs a or b above are both required in order for a location to be included in the "Designated Off-Limits Locations" portion of the Integrity Monitoring File.

Members of the service are prohibited from entering all Designated Off-Limits Locations within their command of assignment, whether on or off duty. Because of these limitations, commanding officers will be very judicious when designating a location off-limits. In addition, they must be able to articulate the reasonable basis used for selecting each location. Additionally, they should avoid listing general areas such as entire streets, plazas, parks, etc., unless there are some extraordinary circumstances that would justify the off-limits provisions of this procedure.

The following information should be included in interim or annual reports regarding Designated Off-Limits Locations:

(1)Date declared off-limits

(2)Number of visits/observations by commanding/executive/integrity control officers or other supervisors

(3)Notifications to investigations unit concerned

(4)Any disciplinary/criminal action taken against members of the service re: location concerned (including results)

(5)Date location closed or business sold

(6)Date removed from list and reason (passed integrity test, etc.)

UNLAWFUL LOCATION

a. Premises (licensed or unlicensed) where a member of the service MUST be suspended for having an interest in, associating with or patronizing as indicated in Patrol Guide procedure 206-07, "Cause For Suspension Or Modified Assignment", step 2, subdivision "f" OR,

b. Unlicensed premises (neighborhood tavern or restaurant with an expired/suspended license) where the sale of alcohol is the only apparent illegal activity and a member of the service may be suspended or placed on modified assignment for patronizing such a location as per Patrol Guide procedure 206-07, "Cause For Suspension Or Modified Assignment", step 3, subdivision "e".

The following information should be included in interim or annual reports regarding Unlawful Locations

(1)Date declared unlawful

(2)Number of visits/observations by commanding/executive/integrity control officers or other supervisors

(3)Any notifications made to Internal Affairs Bureau or any unit/agency relative to vice enforcement, narcotics, civil enforcement, etc.

(4)Any disciplinary/criminal action taken against members of the service re: location concerned (including results)

(5)Date business sold

(6)Date location closed and reason (civil enforcement, vacated business, fire, etc.)

If a member of the service becomes involved in an incident in an Unlawful Location, outside of his/her command, and upon investigation it is discovered that the location has been previously deemed unlawful, and is still carried as such in the command's Integrity Monitoring File, the commanding officer/duty captain will determine whether or not the member involved should have been aware of the unlawful status of the location in question.

COOPING PRONE LOCATIONS

Consideration for designating a location as cooping prone should be based on past history of allegations of cooping, or locations where, in the commanding

officer's judgment, there is likelihood that members will engage in interrupted patrol. Cooping prone locations apply to on-duty members only. However, members will not be prohibited from performing authorized patrol within such locations, when necessary.

Date Effective: 08/01/13

COMMANDING OFFICER, PERSONNEL BUREAU INVESTIGATIONS UNIT

1. Maintain a listing (including duty charts, vacation selections and complete contact information such as home phone numbers, cellular phone numbers, beeper numbers and e-mail addresses) of all uniformed members who have been placed on Dismissal Probation, or have been the subject of other disciplinary action, and have agreed to submit to ordered breath testing for the presence of alcohol as a result of a negotiated penalty in a Department disciplinary proceeding.

NOTE: Subject members have signed a Negotiated Settlement which contains the following wording: "I agree to submit to and to make myself available, on or off duty, for ordered breath testing for the presence of alcohol during a probationary period or other agreed upon time period pursuant to Patrol Guide 203-04, "Fitness for Duty." I understand that this will entail unannounced visits to my personal residence. In addition, I am fully aware that if said testing of my blood alcohol level is .04 or more that I shall be presumed unfit for duty. I also understand that should I be found unfit for duty or should refuse such testing I will be subject to further disciplinary action up to and including summary termination. I acknowledge that I have received and understand the provisions within Patrol Guide 203-04, "Fitness for Duty" and Patrol Guide 203-23, "Conducting Ordered Breath Testing of Uniformed Members of the Service for the Presence of Alcohol."

2. Schedule each member whose name appears on the listing to be periodically tested during each quarterly period during which the member is subject to ordered breath testing. For the purposes of this procedure, the calendar year will be divided into four quarterly periods as follows: January through March, April through June, July through September and October through December. Nothing in this procedure shall preclude a subject member from being tested more than once during a quarter. However, at least one of the tests conducted during the year must be conducted during the subject member's off duty hours.

NOTE: If the period that the member is subject to ordered breath testing begins on February 15th, for example, the initial testing of the subject member will commence during the quarterly period that runs from January 1st through March 31st.

3. Ensure that all supervisors assigned to the Personnel Bureau Investigations Unit and the Medical Division's Absence Control & Investigations Unit have been trained by the Highway District in the operation of the hand-held Portable Breath Test (PBT) device.

4. Arrange for a supervisor assigned to the Personnel Bureau Investigations Unit or the Medical Division's Absence Control & Investigations Unit to conduct a breath test using a PBT device whenever a subject member is scheduled to be tested. Both units will assist each other in the testing process as necessary.

NOTE: If the subject member is a ranking member of the Department, a supervisor of an appropriate rank assigned to one of the sub-units of the

Personnel Bureau will be designated to assist with the administration of the breath test.

5. Maintain a database that tracks the results of all on duty as well as all off duty ordered Breath tests and the number of members tested.

6. Submit a quarterly report to the Chief of Personnel listing all subject members, the starting and ending dates during which they are subject to ordered breath testing, the dates on which they were tested, whether they were tested on duty or off duty, and the results.

NOTE: The probationary period will be extended by any period of time that the subject member is on suspension, modified assignment, restricted duty, limited duty, sick leave, leave of absence (military, educational, etc.) or annual leave. As such, the Employee Management Division will be contacted to ascertain the exact date that the probationary period ends.

ON DUTY ORDERED BREATH TESTING (Steps 7-14)

DESIGNATED SUPERVISOR, PERSONNEL BUREAU INVESTIGATIONS UNIT/MEDICAL DIVISION'S ABSENCE CONTROL & INVESTIGATIONS UNIT

7. After being designated to conduct an ordered breath test of an on duty member of the service, the breath test will be conducted at the Medical Division's offices on the 16th Floor of One Lefrak City Plaza in Corona or at the Personnel Bureau Investigations Unit at 49-51 Chambers Street, 14th Floor, on a date and time when the subject member is regularly scheduled to work.

NOTE: The Medical Division's Drug Screening Unit must ensure that the records maintained in regard to random drug testing do not in any manner include members who were notified to appear for ordered breath testing.

8. Notify the commanding officer/desk officer at the subject member's command to have the subject member transported by a higher-ranking member to the Medical Division or the Personnel Bureau Investigations Unit in an expeditious fashion.

9. Respond to the Medical Division, or the Personnel Bureau Investigations Unit, as appropriate, on the date and time that the subject member was notified to appear.

NOTE: All times relating to the testing process will be carefully documented.

10. Advise the subject member that he or she may be tested by a number of different means, such as the PBT device and the Intoxilyzer.

11. Direct the subject member to prepare an Ordered Breath Test Questionnaire form.

a. The Ordered Breath Test Questionnaire form will be retained in the subject member's file maintained at the Personnel Bureau Investigations Unit office. As some of the information contained on the form may be considered medical records under the Americans with Disabilities Act, the form must be handled and maintained in a confidential manner.

NOTE: If the subject member answers "YES" to either of the following two questions listed on the form: "Do you require medical treatment now?" or " Do

you desire an ambulance to be summoned?" or is unable to answer these questions, the supervisor concerned shall summon an ambulance.

12. Conduct a breath test using a PBT device in a private setting at the Medical Division's Lefrak City facility or at the Personnel Bureau Investigations Unit at 49-51 Chambers Street, 14th floor.

NOTE: The supervisor concerned must observe the subject member for at least 20 minutes prior to initiating the test to ensure that the subject member does not engage in any activity that may skew the test results (e.g., eating, drinking, smoking, vomiting, regurgitating, belching).

13. If the reading on the PBT device is less than .02 and there are no related indicia of intoxication (see Additional Data Statement for a listing), no further action is required at this time.

a. If the reading on the PBT device is less than .02 and the subject member appears to be intoxicated (i.e., there are related indicia of intoxication) or under the influence of a prohibited substance, the supervisor concerned will confer with the Commanding Officer, Personnel Bureau Investigations Unit who will notify the Office of the Chief of Personnel in regard to obtaining authorization to test the subject member using the Intoxilyzer, or to conduct a drug screening test for cause under the procedures contained in P.G. 205-30, "Administration of Drug Screening Test for Cause."

14. If the reading on the PBT device is .02 or greater, immediately notify Highway I.D.T.U. to respond to the Medical Division to test the subject member using the Intoxilyzer that is maintained at the Medical Division facility. (It should be emphasized that the Intoxilyzer test at the Medical Division will be conducted by an I.D.T.U. technician.) In the event that alternate arrangements must be made, the Intoxilyzer test will be conducted at the closest I.D.T.U. facility. In such a case, the subject member will not be permitted to transport him/herself to the I.D.T.U. facility. Depending upon circumstances, the supervisor concerned may be aided by one or more members of the service in transporting the subject member to the I.D.T.U. facility.

a. The I.D.T.U. technician will utilize a specially developed form, entitled Ordered Breath Test Instruction Sheet to interview the subject member and a specially developed checklist, entitled Intoxilyzer Operational Checklist to conduct the test. The entire Intoxilyzer testing process, including the reading of the test results, will be videotaped by a member of the Highway District. In cases in which there is an Intoxilyzer reading of .02 or greater, a copy of the videotape will be provided to the supervisor concerned, who will follow all applicable Departmental procedures to safeguard the tape for evidentiary purposes.

NOTE: The I.D.T.U. technician conducting the test must observe the subject member for at least 20 minutes prior to initiating the test to ensure that the member does not engage in any activities that may skew the test results.

b. The supervisor concerned shall carefully record and then take into account the Intoxilyzer reading along with any other related indicia of intoxication in coming to a conclusion that the subject member is apparently unfit for duty. As part of this process, the supervisor should use a blood alcohol level of .04 or greater on the Intoxilyzer as the threshold for a presumption of lack of fitness for duty.

c. If the supervisor concerned has reason to conclude that the subject

member is apparently unfit for duty, the supervisor will notify the Commanding Officer, Personnel Bureau Investigations Unit, who will notify the Office of the Chief of Personnel. In addition, the supervisor will be guided by the procedures contained in P.G. 206-12, "Removal of Firearms from Intoxicated Uniformed Member of the Service."

NOTE: If the subject member is determined to be unfit for duty, the I.A.B. Command Center will be notified and a log number will be obtained.

OFF DUTY ORDERED BREATH TESTING (Steps 15-23)

NOTE: Home visits related to off duty ordered breath testing will be conducted in a similar fashion to home visits by the Medical Division to uniformed members of the service who are on sick leave. Breath testing of off duty members of the service will normally be conducted from 0900 hours to 2100 hours, including weekends. However, subject members who are tested off duty will be entitled to overtime compensation.

15. After being designated to conduct an ordered breath test of an off duty member of the service, ascertain whether the subject member is on sick report. If the member is not on sick report, respond to the member's residence to conduct to breath test. (If the member is on sick report, the breath test will not be conducted until the member is no longer on sick report.)

NOTE: The designated supervisor will be accompanied by at least one other supervisor/member of the Personnel Bureau Investigations Unit or the Medical Division's Absence Control & Investigations Unit.

a. If the subject member does not answer the door, leave a Notification Card under the door with instructions that the member is to immediately contact you upon his/her receipt of the card.

NOTE: All times relating to the testing process will be carefully documented.

b. Attempt to contact the subject member number via alternative means (telephone numbers that have been provided to the Department, cellular phones, beeper, etc.) if necessary.

NOTE: Attempts by the subject member to evade contact may result in further disciplinary action and possible termination.

c. Once the subject member is located, direct the member to remain at his/her current location pending your arrival. The subject member will neither be requested nor permitted to drive until the breath testing has been completed and the member's fitness for duty has been determined.

16. Once personal contact is made with the subject member on an initial visit, request member's identification card in order to confirm member's identity.

17. Proceed to conduct the testing process in a private setting (e.g., subject member's residence, Department auto being used by the supervisor concerned) in a dignified, respectful fashion. The subject member's input should be solicited in regard to where he/she would feel most comfortable having the test conducted.

18. Advise the subject member that he or she may be tested by a number of different means, such as the PBT device and the Intoxilyzer.

19. Direct the subject member to prepare an Ordered Breath Test Questionnaire form.

a. The Ordered Breath Test Questionnaire form will be retained in the subject member's file maintained at the Personnel Bureau Investigations Unit office. As some of the information contained on the form may be considered medical records under the Americans with Disabilities Act, the form must be handled and maintained in a confidential manner.

NOTE: If the subject member answers "YES" to either of the following two questions listed on the form, "Do you desire medical treatment now?" or "Do you desire an ambulance to be summoned?" or is unable to answer these questions, the supervisor concerned shall summon an ambulance.

20. Conduct a breath test using a PBT device.

NOTE: The supervisor concerned must observe the subject member for at least 20 minutes prior to initiating the test to ensure that the subject member does not engage in any activities that may skew the test results (e.g., eating, drinking, smoking, vomiting, regurgitating, belching).

21. If the reading on the PBT device is less than .02 and there are no related indicia of intoxication (see Additional Data Statement for a listing) no further action is required at this time.

a. If the reading on the PBT device is less than .02 and the subject members appears to be intoxicated (i.e., there are related indicia of intoxication) or under the influence of a prohibited substance, the supervisor concerned will confer with the Commanding Officer, Personnel Bureau Investigations Unit who will notify the Office of the Chief of Personnel in regard to obtaining authorization to test the subject member using the Intoxilyzer, or to conduct a drug screening test for cause under the procedures contained in [P.G. 205-30](#), "Administration of Drug Screening Test for Cause."

22. If the reading on the PBT device is .02 or above, the subject member will be transported expeditiously to the Medical Division's Lefrak City facility and an immediate notification will be made to Highway I.D.T.U. to respond to the Medical Division to test the subject member using the Intoxilyzer that is maintained at the Medical Division. (It should be emphasized that the Intoxilyzer test at the Medical Division will be conducted by an I.D.T.U. technician.) In the event that alternate arrangements must be made, the Intoxilyzer test will be conducted at the closest I.D.T.U. facility.

a. The I.D.T.U. technician will utilize a specially developed form, entitled Ordered Breath Test Instruction Sheet to interview the subject member and a specially developed checklist, entitled Intoxilyzer Operational Checklist to conduct the test. The entire Intoxilyzer testing process, including the reading of the test results, will be videotaped by a member of the Highway District. In cases in which there is an Intoxilyzer reading of .02 or greater, a copy of the videotape will be provided to the supervisor concerned, who will follow all applicable Departmental procedures to safeguard the tape for evidentiary purposes.

NOTE: The I.D.T.U. technician conducting the test must observe the subject member for at least 20 minutes prior to initiating the test to ensure that the member does not engage in any activities that may skew the test results.

b. The supervisor concerned shall carefully record and then take into account the Intoxilyzer reading along with any other related indicia of intoxication in coming to a conclusion that the subject member is apparently unfit for duty. As part of this process, the supervisor should use a blood alcohol level of .04 or greater on the Intoxilyzer as the threshold for a presumption of lack of fitness for duty.

c. If the supervisor concerned has reason to conclude that the subject member is apparently unfit for duty, the supervisor will notify the Commanding Officer, Personnel Bureau Investigations Unit, who will notify the Office of the Chief of Personnel. In addition, the supervisor will be guided by the procedures contained in P.G. 206-12, "Removal of Firearms from Intoxicated Uniformed Member of the Service."

NOTE: If the subject member is determined to be unfit for duty, the I.A.B. Command Center will be notified and a log number will be obtained.

23. Ensure that the subject member is transported back to his/her residence after all testing, administrative and related matters have been completed.

ADDITIONAL DATA

Since most members of the service who will be subject to the provisions of this procedure will be on full duty status with no driving restrictions, the Performance Monitoring Unit will institute procedures to remind the concerned members' Commanding Officers of the importance of remaining particularly alert to the members' fitness for duty during the members' dismissal probation period or the agreed upon period during which the member will be subject to ordered breath testing.

P.G. 203-25 Department Policy Prohibiting Racial Profiling

Date Effective: 08-01-13

1. In order to reemphasize existing law and Department regulations, an updated Department policy is hereby published entitled, "Department Policy Prohibiting Racial Profiling."

2. Members of the service are reminded that the New York City Police Department is committed both to the impartial enforcement of law and the protection of Constitutional rights. To reinforce these commitments and to endure all members of the service engage only in constitutionally sound policing practices, the Department prohibits the use of racial profiling in law enforcement actions. Racial profiling is defined as the use of race, color, ethnicity, or national origin as the determinative factor for initiating police action. Members are also reminded that the use of other characteristics such as religion, age, gender, gender identity, or sexual orientation as the determinative factor for taking police action is prohibited.

3. All police-initiated enforcement actions, including, but not limited to, arrests, stop and questions, and motor vehicle stops, will be based on the standards required by the Fourth Amendment of the U.S. Constitution, Article I, Section 12 of the New York State Constitution, Administrative Code section 14-151, and other applicable laws. The law confers on police officers the authority to stop, question, and if warranted, frisk an individual whom a member reasonably suspects has committed, is committing, or is about to commit a felony or Penal Law misdemeanor. Members must be able to articulate the factors which led them to take enforcement action, in particular those factors leading to reasonable suspicion for a stop and question and any subsequent frisk, or probable cause for an arrest.

4. Responding to suspected criminal behavior by stopping and questioning an individual and, if warranted, conducting a frisk is part of a police officer's job and plays a critical role in reducing and preventing crime. Conducting stops in an unbiased manner fosters and strengthens relationships between police officers and members of the community, and inspires confidence in, and support for, policing efforts.

5. While performing their duties, members are reminded that it is not racial profiling to take into account the reported race, color, ethnicity, national origin, religion, age, gender, gender identity, or sexual orientation of a specific subject in the same way the member would use pedigree information, e.g., height, weight, age, etc., about specific subjects.

6. Commanding officers will continue to ensure that self-inspections are conducted within their commands regarding stop, question, and frisk activity. The Quality Assurance Division will continue to monitor compliance with self-inspection protocols in all of its command inspections and will continue to audit stop, question, and frisk activity Department-wide. The proper exercise of the authority to conduct stop, question, and frisk activity will continue to be included in CompStat review.

7. Operations Order 11, series 2002, is REVOKED.

RELATED PROCEDURE

Protective Vest - Use/Maintenance and Reserve Supply ([P.G. 204-19](#))

P.G. 204-19 Protective Vest - Use/Maintenance And Reserve Supply

Date Effective: 08/01/13

PURPOSE

To provide instructions on how to obtain a loan vest from a reserve supply and the proper maintenance and care of protective vests.

SCOPE

Members of the service are required to maintain, store and properly care for bullet resistant vests either owned by them or issued to them by this Department. Members will be guided by the use and care instructions contained in the ADDITIONAL DATA statement of this procedure, as well as any specific instructions provided by the manufacturer of the vest.

NOTE: Members are advised to inspect their Department issued or personally owned vests regularly. Any concerns relative to fit or serviceability should be brought to the attention of the member's supervisor. The supervisor concerned will confer with the commanding officer and, if needed, direct member to report to the Police Academy Vest Unit for inspection of the vest.

PROCEDURE

When a member of the service is issued or purchases a protective vest:

UNIFORMED MEMBER OF THE SERVICE

2. Properly care for and maintain protective vest possessed.
 - a. Do not modify vest or carrier.
3. Inspect vest regularly for signs of wear or lack of serviceability.
 - a. Notify immediate supervisor if vest is perceived to be unserviceable.

NOTE: When a protective vest appears to be damaged, frayed, worn, or has excessive curling or creasing, it shall be brought to the attention of the member's supervisor, who will inspect the protective vest, confer with the Police Academy Vest Unit for guidance, notify the member's commanding officer and direct member to present the vest, along with a report on Typed Letterhead, to the Police Academy Vest Unit.

SUPERVISOR CONCERNED

4. Inspect vest.
5. Confer with Police Academy Vest Unit for guidance.
6. Notify commanding officer and direct member to present vest along with a report on Typed Letterhead to the Police Academy Vest Unit for inspection if concerns about serviceability exist.

WHEN A UNIFORMED MEMBER OF THE SERVICE REQUESTS A PROTECTIVE VEST FROM THE RESERVE SUPPLY STORED AT EACH PATROL BOROUGH COMMAND:

DESK OFFICER

7. Direct uniformed member of the service that requires a protective vest from the reserve supply to contact the patrol borough command concerned. When a reserve supply is not present at a patrol borough command, uniformed members of the service will be directed to contact the Police Academy Vest Unit to obtain a reserve vest.

NOTE: Members of the service assigned to Housing, Transit, or any other bureau will contact the patrol borough located in the area of assignment to obtain a loan vest from the reserve supply. Uniformed members of the service must wear a protective vest outside a Department facility when performing duty in uniform and when performing enforcement duty in civilian clothes. For further guidelines regarding the wearing of protective vests see [P.G. 204-18](#), "Protective Vests."

PATROL BOROUGH/ POLICE ACADEMY MEMBER CONCERNED

8. Make entry in command log indicating date/time out, tour, rank, name, shield, command, vest serial number, date/time returned, and remarks, each time a reserve vest is utilized.

NOTE: Utilize last page of command log for a list of serial numbers and sizes of all reserve vests assigned to command.

REQUESTING MEMBER

a. Expenditures for laundering will be funded from contingency expense funds or on credit basis with local vendor, as appropriate.

ADDITIONAL DATA When a uniformed member of the service is struck by a bullet on the protective vest and is apparently uninjured, he/she must be examined by a doctor to ascertain if blunt body trauma or internal injury has occurred.

When a protective vest is struck by a bullet or sharp instrument it shall be brought to the Police Academy Vest Unit for inspection along with an official report describing the circumstances before being worn by any member of the service.

A protective vest should not be worn when soaking wet since water may act as a lubricant permitting a projectile to penetrate. Uniformed members of the service will make every effort to prevent vests from getting soaking wet during rainstorms or in situations where member may enter water, i.e., rescue attempts, etc.

When a uniformed member of the service is properly fitted for a protective vest in the standing position, the front and rear panels should just meet, and no excessive gaps should exist. From a seated position, there should be no excessive gap between the bottom edge of the vest and the duty belt. The opening of the armor must not ride up into the wearer's neck. Whenever a uniformed member of the service is issued a new protective vest, they will sign a fit certification report attesting to the fact that the protective vest fits properly at the time of issuance. Uniformed members of the service will still retain the right to return the protective vest for a two-day period after receiving it.

The following instructions should be complied with when putting on a protective vest:

- a. Some type of undergarment should be worn under the vest to protect it from absorbing perspiration and body oils.
- b. Protective vests should be worn under uniform shirt or civilian attire if in plain clothes.
- c. Take a deep breath and expand the chest cavity. Hold breath while closing Velcro straps.
- d. Do not pull the Velcro straps too tight. Leave a little room for ventilation and comfort.
- e. Side panels should just meet if the vest is properly worn. No excessive gaps should exist.

Bullet resistant vests should be cared for as outlined in the instructions provided with the vest, with particular attention to the following points:

- a. When possible, the vest should be stored flat, with the ballistic panels smoothed out.
- b. In the event that flat storage of vests is impractical, vests should be hung with a clip type hanger, alternating the direction of hanging at regular intervals. That is, vests should be hung right side up, then upside down, alternately. When utilizing a clip type hanger, the clip must be affixed to both the carrier and the ballistic panel. This will reduce the possibility of curling and prevent the stretching of the elastic straps.
- c. The vest should never be stored long term in a vehicle, particularly in the trunk of a vehicle due to temperature extremes.
- d. The vest should never be stored where any abrasive surface could degrade either the carrier or the ballistic panel.
- e. The vest should be stored out of sunlight, which can fade the carrier and possibly damage the ballistic material. f. When putting on or taking off the vest, exercise care not to crush the ballistic panel excessively. The Velcro fasteners must be opened and the vest should be put on and taken off over the head.

Uniformed members of the service are reminded to follow the washing instructions attached to the label of the protective vest, especially the following:

a. Remove ballistic filler inserts from the front and back of outer-shell vest (carrier) PRIOR TO WASHING OUTER SHELL.

b. DO NOT USE BLEACH on ballistic panels.

c. DO NOT MACHINE WASH ballistic panels.

d. Make certain outer-shell carrier is completely dry before inserting ballistic panels.

e. Ballistic panels should be washed using a low sudsing detergent and a damp sponge.

f. Protective vests shall not be submerged in water.

g. Ballistic panels should not be dried in sunlight or a dryer. They should be put on a flat surface and allowed to dry in a cool dark place.

h. Outer shell Velcro straps should be secured prior to washing.

Protective vests that become worn or damaged due to negligence in care or storage, ill fitting due to a member of the service's weight gain or loss, or lost due to a member's negligence, shall be replaced by member concerned using annual uniform allowance funds. When vests are lost or damaged in the performance of duty, follow [P.G. 204-07](#), "Lost or Damaged Uniform."

P.G. 205-10 Exposure Of Members Of The Service To Infectious Diseases Or Hazardous Materials

Date Effective: 08-19-13

PURPOSE

To provide instructions and minimize risk to members of the service (uniformed and civilian) or auxiliary police officers who have contact with or handle an animal or person who may have an infectious disease, or who have contact with or handle hazardous materials.

DEFINITIONS

INFECTIOUS DISEASE - as used in this procedure, includes diseases capable of being transmitted by contact with an infected animal's saliva or central nervous system tissue, or with an infected individual's blood or body fluids.

HAZARDOUS MATERIAL - as used in this procedure, includes any chemical, biological, or radiological substance which is a health hazard. Chemical health hazards include carcinogens, toxic agents, irritants, corrosives, or agents which damage the lungs, skin, eyes, or mucous membranes, etc. Chemical physical hazards include flammable or combustible liquids, compressed gas, or explosive or reactive substances, etc.

EXPOSURE TO AN INFECTIOUS DISEASE - as used in this procedure, includes those situations where a member of the service is exposed by airborne transmission or direct contact to an individual suspected of having a disease, or where a member comes in contact with the blood or body fluids of an individual suspected of having an infectious disease, or, where a member of the service is injured as the result of a human or animal bite, or hypodermic needle puncture, or other contaminated sharp instrument, or where a member of the service is exposed to an animal suspected of having an infectious disease, or where a member comes in contact with the saliva or central nervous system tissue of an animal suspected of having an infectious disease.

EXPOSURE TO A HAZARDOUS MATERIAL - as used in this procedure, includes those situations where a member of the service is exposed to a hazardous material whether through inhalation, ingestion, skin contact, or parenteral contact.

UNIVERSAL PRECAUTIONS - as used in this procedure, is an approach to infection control. According to this approach, all human blood and certain body fluids are to be treated as if they are known to be infectious for human immunodeficiency virus (HIV), hepatitis B virus (HBV), or other bloodborne pathogens; and in addition, all animal saliva and central nervous system tissue are to be treated as if they are known to be infectious for rabies. All efforts to avoid contact with these potentially infectious materials should be taken as well as utilizing whatever protective equipment is available.

DESIGNATED OFFICER - an individual designated under 42 U.S.C. 300ff-86 by the Public Health Officer of the State involved (42 U.S.C. 300ff-76) to execute provisions of Section 411 of the Ryan White Comprehensive AIDS Resources Emergency Act regarding emergency response employees who request a determination whether they were exposed to an infectious disease.

NOTE: To avoid unnecessary exposure, control of the aided/collision victim,

or prisoner will be assigned to an officer at the scene who has already had contact with a person suspected of having an infectious disease. The assigned officer will be responsible for completing the processing of the individual. If there are numerous individuals involved, the patrol supervisor at the scene will be responsible for the coordination of information and documenting the name, etc., of the members of the service involved. This Department is offering certain members of the service the opportunity to receive, free of charge, pre-exposure, a series of three inoculations of the vaccine against Hepatitis B; and free of charge, post-exposure inoculation. This Department is offering certain members of the service the opportunity to receive, free of charge, pre-exposure, a routine annual or biannual, Mantoux (PPD) skin test against tuberculosis (based on a determination of a significant occupational exposure); and, free of charge, post-exposure, a Mantoux (PPD) skin test against tuberculosis (based on a determination of a significant exposure).

PROCEDURE

MEMBER OF THE SERVICE

1. Comply with the guidelines listed in "ADDITIONAL DATA" statement of this procedure, when possible.
2. Notify desk officer, precinct of occurrence.

NOTE: When exposure involves an actual injury, the member of the service concerned will be transported to the hospital for treatment and [P.G. 205-05](#), "Line Of Duty Injury or Death Occurring within the City", or 205-06, "Line Of Duty Injury or Death Outside City in Residence Counties," will be complied with as appropriate. When exposure does not involve an actual injury and the exposure is related to tuberculosis, the member of the service concerned should consider this Department's offer of Mantoux (PPD) skin testing which is free of charge. When tested and the results are positive, notify Unit Safety Officer to initiate entry on State of New York - Department of Labor Log and Summary of Occupational Injuries and Illnesses (DOSH 900). Tuberculosis infection and tuberculosis disease are both recordable on DOSH 900 logs. A code (e.g., maiden name pseudonym) may be used to substitute for the description of injury or illness (column [F]).

DESK OFFICER

3. Notify Medical Division, Sick Desk (718) 760-7600, and obtain exposure report number.
4. Make Command Log entry of information
 - a. Include Exposure Report number in Log entry.
5. Notify designated Department surgeon of the facts involved.

DEPARTMENT SURGEON

NOTE: By telephoning this Department's designated officer at the Medical Division, Hazmat Unit (718) 760-7644 or 760-7653, emergency response employees, such as a law enforcement officer or auxiliary police officer, may submit a request for a determination whether they were exposed to a specific infectious disease when a victim of an emergency who was aided by the emergency response employee was transported to a medical facility. If it is determined that the emergency response employee may have been exposed to an infectious disease, a signed written request, along with the facts collected, must be sent by the designated officer to the medical facility to which the victim (or patient), i.e., aided or prisoner, was transported. After receiving a notification from the medical facility, to the extent practicable, the designated officer must immediately notify the member or members concerned. Whenever the designated officer discloses information related to Human Immunodeficiency Virus (HIV) to an emergency response employee, redisclosure by the emergency response employee is prohibited when not in conformance with state law.

8. Make ACTIVITY LOG (PD 112-145) entry of facts involved.

a. Include Exposure Report number.

ADDITIONAL DATA

EXPOSURE TO INFECTIOUS DISEASES GUIDELINES

a. Confer with Emergency Medical Service personnel, the individual's family, friends, neighbors, doctor, or appropriate agency as to the source individual's medical conditions, when circumstances permit.

b. Wear disposable gloves if contact with individual's blood or body fluids is a possibility; and if a member who is routinely engaged in the capture or seizure of suspected rabid animals, wear heavy duty disposable rubber gloves if contact with animal's saliva or central nervous system tissue is a possibility.

c. Wash hands with soap and water (disinfectant soap, if possible), after removing disposable gloves. Glove kits containing antiseptic wipes, gloves, and disposable bag should be used when hand-washing facilities are not available.

d. Immediately and thoroughly wash hands or other unprotected body parts if they come in contact with individual's blood or body fluids, or if bitten, scratched, abraded, by an animal, or if there is contact between the member and the animal's saliva or nervous system tissue. Use disinfectant soap, if possible.

e. Remove and machine wash (hot cycle), or have dry cleaned, as soon as possible, any part of uniform/civilian clothes that come in contact with an individual's blood or body fluids and promptly clean any equipment other than that made of fabric.

f. Use extraordinary care to avoid accidental puncture wounds from needles which may be contaminated with potentially infectious material.

g. Affix Biohazard Label to any property, evidence, or waste which may be contaminated.

ACCIDENTAL SPILLS OF BLOOD OR BODY FLUIDS.

A supply of household bleach will be maintained at all precinct/psa/district commands, emergency service units, borough court section facilities, and other appropriate sites. Accidental spills of blood or body fluids on floors, cells, RMP's or on other surfaces, other than clothing, or fabric may be cleaned by applying a FRESHLY MIXED solution of one part household bleach with ten parts water. It is imperative that the preceding mixture be carefully followed. Household bleach is not to be mixed with any solution other than water and it must be freshly mixed for each use.

Members of the service (uniformed and civilian) are reminded that this mixture of bleach and water will cause damage if used to clean uniforms. Uniform items soiled with blood or body fluids can be effectively cleaned by routine laundering or dry cleaning procedures. Bleach should not be used to cleanse hands. In addition, bleach mixed with any substance other than water may cause a toxic gas. Therefore, disposal of bleach or bleach dilutions should be performed only in a sink (not a urinal or toilet since they sometimes contain chemical deodorizers). When preparing a bleach dilution, the container used for the diluted solution must be cleaned with water and free of any other solution.

To prevent injury/infection when handling or forwarding hypodermic needles/syringes to the Property Clerk, members of the service will place such items in a hypodermic needle/syringe container by utilizing a one-handed "scoop" technique which uses the needle itself to pick up the hypodermic needle/syringe container. (By using one hand to hold the hypodermic syringe while moving the hypodermic needle toward the hypodermic needle/syringe container, the member of the service is moving the needle away from himself/herself. Members should not hold the container and move their hand toward the needle). The container will be capped, if possible. However, if the syringe extends beyond the container, it will be secured with tape. UNDER NO CIRCUMSTANCES SHOULD A MEMBER OF THE SERVICE ATTEMPT TO REMOVE, DISLodge, OR BEND A NEEDLE FROM A HYPODERMIC SYRINGE.

6. Using the most recent Payroll Management System Leave Balances Report (711), determine the number of military work days the member has available.

If necessary, commanding officers are to prepare and forward a written request to the appropriate county Commissioner of Jurors on Department letterhead explaining the conflict and reason for excusal from jury duty. The explanation should be accompanied by proof of member's unavailability for jury duty, such as a subpoena from the District Attorney's office. If the Department is unable to resolve the conflict, the matter will be referred to the District Attorney's office for further attention.

5. Comply with the directives of the court concerning your next jury duty appearance when placed on ALERT. If activated, members shall immediately notify their command and be scheduled according to the provisions of paragraph 1 through 4 of this order.

6 Notify command and/or Medical Division, if required, and the appropriate court, if reporting sick while on jury duty. Normal sick leave procedures shall apply regarding performance of police duty, however, members on sick leave who are directed to appear at jury duty will notify the Medical Division. The Medical Division will carry the member in the "Out of Residence Log," when such member is performing jury duty. Members are required to notify the Medical Division immediately upon returning to their residence from jury duty.

ADDITIONAL DATA

Uniformed members shall be guided by the rules of the courts concerning carrying of their off-duty firearms while on jury duty.

Fees rendered for jury duty will be processed in the same manner for uniformed members as for civilian members as listed in A.G. 319-22, "Civilian Employee - Reimbursement to City for Jury Service."

Any questions concerning the contents of this procedure should be referred to the Office of Labor Relations at (212) 374-5060.

P.G. 205-27 Pregnancy Related Guidelines For Uniformed Members Of The Service

Date Effective: 08/01/13

PURPOSE

To notify the Department when a female uniformed member of the service receives a positive result from a pregnancy test conducted by her private physician.

DEFINITION

PREGNANCY STATUS - A female uniformed member of the service who is placed on non-enforcement duties by her district surgeon due to her pregnancy condition. This status is similar to restricted duty.

PROCEDURE

When a uniformed member of the service is informed by her private physician that she is pregnant:

UNIFORMED MEMBER OF THE SERVICE

1. Notify district surgeon by telephone of pregnancy condition.
2. Send follow-up notification, indicating confirmation of pregnancy and due date via:
 - a. FAX AND:
 - b. Department mail (send original documentation from private physician).

NOTE: Pregnant members of the service will not have to personally visit their district surgeon to report their positive pregnancy condition.

DISTRICT SURGEON CONCERNED

3. Place member of the service on "pregnancy status" after receiving telephonic, mail and FAX notification.
4. Send member's medical records to the Pregnancy Medical District.
5. Send a note to member's private physician explaining Department guidelines concerning pregnancy assignment and sick policy, when necessary and appropriate.

UNIFORMED MEMBER OF THE SERVICE

6. Comply with [P.G. 205-01](#), "Reporting Sick," when unable to perform duty due to illness or other physical condition.
 - a. Report to Pregnancy Medical District any time it is necessary to see a surgeon.
7. Comply with [P.G. 204-03](#), "Uniforms," as it relates to the wearing of the

uniform.

PREGNANCY MEDICAL DISTRICT SURGEON

8. Commence sick leave for pregnant member of the service approximately four weeks before the expected date of delivery.

9. Terminate sick leave approximately six weeks following delivery.

NOTE: In some circumstances, pregnant members of the service will commence sick leave prior to the fourth (4th) week before their expected date of delivery. These decisions will be made on a case by case basis by the Pregnancy Medical District Surgeon.

UNIFORMED MEMBER OF THE SERVICE

10. Telephone the Pregnancy Medical District Surgeon on the following two occasions:

a. To confirm actual delivery date - this should be done within ten days of said date.

b. During the fifth (5th) post-delivery week to allow the Pregnancy Medical District Surgeon to determine the member's return to duty date.

(1) Provide the Pregnancy Medical District Surgeon with documentation, if additional sick time is required.

NOTE: The continuance of sick leave and the determination of the member's status will be made by the Pregnancy Medical District Surgeon.

PREGNANCY MEDICAL DISTRICT SURGEON

11. Reassign medical records of members of the service back to her original medical district after her return to full duty status.

ADDITIONAL DATA

The Pregnancy Medical District located at 1 Lefrak City Plaza, 59-17 Junction Boulevard, Corona, New York, will include a specifically designated surgeon and a nurse exclusively assigned. Additionally, when required to see the Pregnancy Medical District Surgeon, pregnant members will be seen in a separate area or at a separate time to avoid possible exposure to illness.

Once placed on "pregnancy status," by the district surgeon, the member may be reassigned to another command which performs non-enforcement duties. (e.g., the Medical Division, etc.) or may remain within the permanent command depending upon the needs of the Department.

Pregnant uniformed members of the service will no longer be required to make routine pregnancy visits to the surgeon.

Recurring pregnancy related illness will be counted as one sick report, if the member provides proper documentation from her private physician and with the approval of the Pregnancy Medical District Surgeon. Repeated "undocumented" and "unapproved" sick leaves can lead to a "chronic sick" designation. The following conditions, if minor, will not automatically be valid reasons for pregnancy related absence:

- a. Nausea (morning sickness)
- b. Lower back pain
- c. Mild leg swelling
- d. Fatigue
- e. Other conditions limited to a few days duration.

The above listed conditions are considered by the medical profession to be a normal part of pregnancy. If a member of the service reports sick for these minor conditions, the sick report will not be valid for consolidation as an absence related to pregnancy illness.

A pass MAY be granted, if the Pregnancy Medical District Surgeon determines that the issuance of such a pass would not adversely affect the member's health. The pre-delivery pass becomes void after hospitalization.

Pregnancy status does not preclude a member of the service from being promoted. Pregnant members of the service, as well as members on restricted duty/limited capacity, assigned to "Investigative Track Units" may appeal any deductions of investigative time earned, while on "pregnancy status," if they were performing normal investigative duties during that time period. (see A.G. 320-35, "Promotion to Third Grade Detective (Investigator).")

When a pregnant member is required to appear in court, before a Grand Jury or other government agency, she may appear in business attire or uniform.

Pregnant members are not required to attend the Firearms and Tactics qualification cycles.

Any extended leave of absence without pay may effect health benefits. Members on leave of absence will, however, be able to purchase health insurance for a limited period of time at a group rate. Questions may be referred to the Health Insurance Section at (646) 610-5122.

P.G. 205-29 Random Drug Screening

Date Effective: 08/01/13

RANDOM DRUG SCREENING

PURPOSE

To randomly screen uniformed members of the service (other than those assigned to the Organized Crime Control Bureau, the Internal Affairs Bureau, or probationary police officers in training at the Police Academy) for illegal drug/controlled substance usage.

SCOPE

The Department's goal is to ensure that uniformed members of the service do not use illegal drugs/controlled substances, maintain high standards of performance, and are afforded an opportunity to work in a drug-free environment.

NOTE: Uniformed members of the service assigned to the Organized Crime Control Bureau, Internal Affairs Bureau and probationary police officers in training at the Police Academy will be subject to separate random drug screening procedures.

PROCEDURE

To randomly identify uniformed members of the service for illegal drug/controlled substance screening:

C.O., MEDICAL DIVISION

1. Direct Management Information Systems Division (MISD) to identify uniformed members of the service for automated random screening by utilizing the department's personnel database.

a. Individual members selected for random screening will be identified by social security number.

2. Direct members selected for random screening to appear at the Medical Division at appropriate date and time.

UNIFORMED MEMBER OF THE SERVICE SELECTED FOR SCREENING

3. MUST report to Medical Division when notified, except if member is on:

- a. Sick report
- b. Regularly scheduled day off
- c. Military leave
- d. Annual vacation
- e. Terminal leave

f. Bereavement leave.

NOTE: Members previously scheduled for individual days off (other than regular days off) may be excused from the test with the approval of the bureau chief concerned. Members scheduled for court or training on the 8x4 tour will appear for testing immediately upon completion of court or training session. Members scheduled for a 12x8 tour on the testing day will appear for testing immediately upon completion of their scheduled 12x8 tour. Members reporting sick on the testing date will be required to visit a Department Surgeon and obtain approval for excusal from the test.

4. MUST submit to a hair analysis drug screening test. Refusal to submit to test will result in suspension from duty and will be grounds for dismissal from the Department.

5. Prepare form listing all medications ingested or prescribed in the last ninety days, prior to testing.

6. Present shield and IDENTIFICATION CARD (PD416-091) at the testing location to insure proper individual has reported for testing.

7. Comply with instructions received at testing location.

ADDITIONAL DATA

Three hair samples will be collected, cut as close to the skin as possible. The samples should be collected from the same body area, preferably the head. The samples will be individually placed in separate laboratory supplied "Sample Acquisition Cards," and sealed by the collector in the presence of the test subject. These cards will be placed in separate plastic bags, sealed by the collector, and initialed and dated by the test subject. Two hair samples will be forwarded to the contracted laboratory for analysis. The third hair sample will be safeguarded at the Medical Division for use in retesting should the test of the first two hair samples reveal positive results for illegal drugs/controlled substances. Appropriate chain of custody will be maintained at all times.

Privacy and dignity will be protected. Except in unusual circumstances, hair samples will be taken at a facility operated by the Medical Division, or at another health care facility. The hair samples will be collected under maximum feasible privacy.

In the event that the member concerned is unable to provide adequate hair samples as required in this procedure, a Department surgeon will be contacted. The Department surgeon, upon conferral with the supervising chief surgeon or designee, may authorize the collection of alternate specimen(s) to complete the drug screening test. Failure to comply with an order by a Department surgeon will be considered a refusal of the test and grounds for dismissal.

One or more scientifically accepted initial screening tests will be employed in analysis. A positive report will be made only after final confirmation testing has been conducted. Negative test results will not be maintained; instead they will be destroyed.

Positive test samples will be maintained by the analyzing laboratory in a secure area, and will remain confidential unless and until Department disciplinary Charges and Specifications are served. A member whose test is positive may, within sixty days of notification of such result, submit a

written request to the Department Advocate's Office for further (independent) retesting of the collected third hair sample by a laboratory certified by the State of New York Department of Health to conduct forensic drug testing of hair specimens. All retesting expenses, including chain of custody, will be paid by the affected member of the service. The results of the retest will be forwarded by the independent laboratory to the Medical Division. The Medical Division will then forward the results to the Department Advocate's Office. The affected member/counsel will be notified of the results by the Department Advocate's Office.

Testing will be conducted only for illegal drugs and controlled substances. No other substances will be screened. The testing dates will not be announced in advance. Positive test results, which indicate illegal or illicit drug use, will result in Department Charges and Specifications and suspension from duty.

P.G. 205-30 Administration Of Drug Screening Tests For Cause

Date Effective: 08/01/13

PURPOSE

To investigate and detect illegal drug / controlled substance useage by members of the service (uniformed and civilian).

SCOPE

The administration of drug screening tests for cause is a procedure utilized by this Department to detect the presence of drugs in the hair and urine of members of the service suspected of illegal drug / controlled substance usage. To balance the public's interest in having a drug-free Police Department against the individual employee's right to privacy, drug screening tests for cause will be administered when there is a reasonable suspicion to believe that a member of the service (uniformed or civilian) is illegally using drugs / controlled substances. When reasonable suspicion does exist, the member suspected of illegally using drugs / controlled substances MUST provide the drug-screening hair and urine samples when directed. Refusal will result in immediate suspension from duty and subsequent service of charges and specifications.

PROCEDURE

When a member of the service suspects that another member (uniformed or civilian) may be illegally using drugs / controlled substances:

MEMBER OF THE SERVICE

1. Immediately notify commanding officer / duty captain or Internal Affairs Bureau Command Center ([212] 741-8401).

- a. Provide rank, name and command of suspected member.

COMMANDING OFFICER / DUTY CAPTAIN

2. Notify Internal Affairs Bureau Command Center and obtain a log number.

SUPERVISOR DIRECTED TO CONDUCT INVESTIGATION

SUPERVISOR CONDUCTING INVESTIGATION

3. Determine if a REASONABLE SUSPICION has been established indicating illegal drug / controlled substance useage.

NOTE: Reasonable Suspicion - Exists when evidence or information, which appears reliable, is known to the police supervisor and is of such weight and persuasiveness as to make the supervisor, based upon his / her judgment and experience, reasonably suspect that a member of the service is illegally using drugs / controlled substances. Reasonable suspicion that a member is illegally using drugs / controlled substances must be supported by specific articulable facts from which rational inferences may be drawn. Reasonable suspicion cannot be based upon mere "hunch" or solely upon poor work performance.

4. Prepare INVESTIGATING OFFICER'S REPORT (PD313-153) and record observations and other pertinent data.

NOTE: If reasonable suspicion of illegal drug / controlled substance use is based on observation of the suspected member's physical appearance, at least two supervisors must make observations.

5. Prepare a case folder for documentation of all aspects of investigation.

6. Confer with own immediate supervisor if reasonable suspicion has been established that member is illegally using drugs / controlled substances.

7. Contact bureau chief / counterpart / borough commander, upon completion of investigation to obtain approval for drug screening tests.

a. If circumstances indicate drug screening samples must be obtained expeditiously, immediately contact bureau chief / counterpart / borough commander for approval.

BUREAU CHIEF/COUNTERPART/BOROUGH COMMANDER

8. Approve request for drug screening test ONLY after carefully determining that supervisor conducting investigation has established reasonable suspicion.

9. Direct that member being tested be placed on modified assignment pending results of test, unless other circumstances warrant suspension from duty.

NOTE: Approval of bureau chief / counterpart / borough commander must be obtained prior to administration of the drug screening tests. If bureau chief / counterpart / borough commander is not available, executive officer concerned or duty chief may be contacted for approval.

SUPERVISOR CONDUCTING INVESTIGATION

10. Contact Medical Division ([718] 760-7609) when approval is received for administration of drug screening tests and obtain Medical Division's drug screening serial numbers.

a. Obtain Medical Division's drug screening serial numbers even if member refuses tests.

b. Include Medical Division's drug screening serial numbers in case folder along with all other documentation.

NOTE: If the Medical Division is closed, contact the Sick Desk supervisor ([718] 760-7606).

11. Advise member suspected of illegal drug / controlled substance usage that refusal to provide hair and urine samples will result in immediate suspension from duty.

12. Notify the Department Advocate's Office that drug screening tests has been ordered, provide all pertinent information and obtain identity of member notified.

a. Notify Medical Division to make entry in "Drug Screening Test Log" under caption "DEPARTMENT ATTORNEY NOTIFIED."

13. Inform supervisor conducting investigation where hair and urine samples will be taken and procedure to be followed.

14. Maintain "Drug Screening Test Log" in an appropriate Department record book, captioned across a double page, as follows:

First Page

Drug Screening Test#	Date Time	Name of Member Tested	Tax Registry Number	Command	Member Requesting Test	Command
----------------------	-----------	-----------------------	---------------------	---------	------------------------	---------

Second Page

Department Attorney Notified	Witness to Test	Results of Test	Remarks
------------------------------	-----------------	-----------------	---------

ADDITIONAL DATA

A Department surgeon, specifically a medical doctor employed by the Department, may order a drug screening test without securing the prior approval of the bureau chief / counterpart / borough commander concerned. However, when a Department surgeon orders a test for a member of the service he / she suspects of illegal drug / controlled substance usage, the Department surgeon will first confer with the supervising chief surgeon or designee, if feasible.

The investigator's case folder will be sealed to protect the employee's right to privacy in those cases in which the result of the drug screening test do not indicate the presence of an illegal drug / controlled substance. The folder will not be unsealed without the written authorization of the Deputy Commissioner-Legal Matters. The case folder will be filed in the appropriate borough Investigations Unit with a copy to the Internal Affairs Bureau. Furthermore, any reference to the administration of the drug screening test in the personal folder of the member concerned will be expunged.

[I.O. 10-1, s. 06] An investigating supervisor finding controlled substances / contraband, such as drugs or instruments used to administer drugs (e.g., hypodermic syringes / needles, crack pipes, etc.) on or in the vicinity of a member of the service (uniformed or civilian) suspected of illegal drug / controlled substance usage will have such items invoiced on PROPERTY CLERK INVOICE (PD521-141) as "Investigatory Evidence" and comply with the pertinent provisions of [P.G. 218-24](#), "Processing Controlled Substances / Marijuana Contraband Stored at Station House" and [P.G. 218-25](#), "Processing Controlled Substances / Marijuana Contraband Not Stored at Station House". In addition, the investigating supervisor will have the following statement entered in capital letters in the "Remarks" section of the INVOICE:

"NOT TO BE DESTROYED WITHOUT APPROVAL OF THE DEPARTMENT ADVOCATE'S OFFICE."

Three hair samples will be collected, cut as close to the skin as possible. The samples should be collected from the same body area, preferably the head. The samples will be individually placed in separate laboratory supplied "Sample Acquisition Cards," and sealed by the collector in the presence of the test subject. These cards will be placed in separate plastic bags, sealed by the collector, and initialed and dated by the test subject. Two hair samples will be forwarded to the contracted laboratory for analysis. The third hair sample will be safeguarded at the Medical Division for use in retesting should the test of the first two hair samples reveal positive results for illegal

drugs / controlled substances. Appropriate chain of custody will be maintained at all times.

Two urine samples will also be collected, each in a separate vial. Prior to testing, the drug screening serial number assigned by the Medical Division and date of test will be affixed to each vial. The serial number will be logged separately with the member's name and maintained at the Medical Division. The member being tested and the witness will then initial the vial stickers. The vials will be sealed in the member's presence after the urine samples have been collected. Appropriate chain of custody will be maintained at all times.

Privacy and dignity will be protected. The hair and urine samples will be collected under maximum feasible privacy. Except in unusual circumstances, only one person of the same sex will be present with the test subject to observe the urine sample being provided. For chain of custody purposes, that same person will also collect the hair samples.

One or more scientifically accepted initial screening tests will be employed in analysis. A positive report will be made only after final confirmation testing has been conducted.

Positive test samples will be maintained by the analyzing laboratory in a secure area, and remain confidential unless and until Department disciplinary Charges and Specifications are served. A member whose tests are positive may, within sixty days of notification of such results, submit a written request to the Department Advocate's Office for further (independent) retesting of the collected samples by a laboratory certified by the State of New York Department of Health to conduct the particular type of forensic drug testing (i.e., urine or hair) being requested. All retesting expenses, including chain of custody, will be paid by the affected member of the service. The results of the retest will be forwarded by the independent laboratory to the Medical Division. The Medical Division will then forward the results to the Department Advocate's Office. The affected member/counsel will be notified of the results by the Department Advocate's Office.

Positive test results, which indicate illegal drug / controlled substance use, will result in Department Charges and Specifications, and suspension from duty.

SCOPE

The Department and individual members assigned to Organized Crime Control Bureau and Internal Affairs Bureau have a substantial interest in ensuring that uniformed members of the service assigned to these bureaus do not use illegal drugs/controlled substances. The procedure is not adversarial, but is a means of finding a mutually acceptable end to the parties' differences. This process is voluntary and the parties must mutually agree to the outcome. If the parties cannot agree upon a resolution, the matter will be referred back to the Office of Equal Employment Opportunity for appropriate action. If a resolution is reached after mediation, no notations concerning the matter will be made on the respondent's Central Personnel Index record.

After receiving the notice and copy of the complaint, the respondent has the right to respond in writing. If the Deputy Commissioner, Equal Employment Opportunity concludes, on the basis of the investigation, that the allegation of discrimination is substantiated, the Deputy Commissioner shall recommend appropriate corrective action.

The Police Commissioner will review the report prepared by the Deputy Commissioner, Equal Employment Opportunity and make a final determination regarding the Office of Equal Employment Opportunity investigation and any recommendation for corrective action. Disciplinary action shall be taken in accordance with any applicable provisions of law, rules and regulations, and collective bargaining agreements.

Following the endorsement by the Police Commissioner of a recommendation by the Deputy Commissioner, Equal Employment Opportunity that a complaint is substantiated, in whole or in part, the O.E.E.O. will require the commanding officer of the involved command, or other appropriate person, to appear at its office to discuss the final report with the Commanding Officer, O.E.E.O., or his/her designee. The commanding officer or other appropriate person shall take action as may be directed by the O.E.E.O. to address the issues raised therein. The meeting as well as a record of action taken shall be documented in the O.E.E.O. file.

The commanding officer or other appropriate person shall take action as may be directed by the O.E.E.O. to address the issues raised therein. The meeting, as well as a record of action taken, shall be documented in the O.E.E.O. file.

If the Deputy Commissioner, Equal Employment Opportunity concludes, as a result of either an O.E.E.O. or field investigation, that an act of employment discrimination or retaliation has occurred but cannot identify the person(s) responsible, the O.E.E.O. may require the commanding officer/unit head of the command/unit of occurrence, or other appropriate person, to appear at the O.E.E.O. to discuss the final report with the Commanding Officer, O.E.E.O., or his/her designee. The meeting as well as a record of action taken shall be documented in the O.E.E.O. file.

At the discretion of the Deputy Commissioner, Equal Employment Opportunity, portions of the report may be redacted prior to any such meeting.

When charges and specifications are pending against a member of the service, an allegation of discriminatory treatment raised as a defense to the charges by the respondent member of the service shall vest in the exclusive jurisdiction of the Deputy Commissioner, Trials until the charges and specifications have been resolved. Date Effective: 08/01/13

PURPOSE

To eliminate the display of offensive sexual, ethnic, racial, religious, or other discriminatory material throughout the Department.

SCOPE

It is the goal of the Department to ensure, to the extent possible, a discrimination free work environment. In furtherance of this goal, the Department prohibits the display of offensive sexual, ethnic, racial, religious, or other discriminatory material.

One form of job discrimination, which may create a hostile work environment, is the display of sexually explicit material in the workplace. Other forms of hostile work environment can occur through the display of offensive ethnic, racial, religious, or other discriminatory materials or graffiti, whether they deface Department property or not. Such displays might be in the form of, but are not limited to tattoos, graffiti drawn on Department property (e.g., lockers, vehicles, in toilet facilities, ACTIVITY LOGS [PD112-145], Notice of Parking Violations, summonses, or any other Department forms, etc.), posters, (e.g. centerfolds of magazines, etc.), or an adult movie/program or other offensive material, shown through the use of a video cassette or DVD or received through an adult channel from a cable or satellite company, or an audio recording or broadcast, or an e-mail communication, or through any electronic or other device.

No form of defacement of Department property or display of offensive materials or sexually explicit television programs or videotapes, or derogatory e-mail communications, or voice mail communications, in or using Department facilities or resources, is acceptable. Commanding officers and unit heads shall keep their work sites free from such displays etc.

PROCEDURE When a display of offensive material is detected:

- [REV 05-02] d. Equal Employment Opportunity Liaison

NOTE: As indicated, members of the service have the option of filing a

complaint with Equal Employment Opportunity Liaisons. Trained Equal Employment Opportunity Liaisons have been designated throughout the Department to provide assistance to complainants, witnesses and others regarding any Equal Employment Opportunity matter. A complete list of Equal Employment Opportunity Liaisons is located in the "Appendix" of the annual Equal Employment Opportunity Policy Book.

ADDITIONAL DATA

It will be incumbent upon all supervisors, and in particular the operations coordinator and the desk officer, when they make their daily inspections as provided for in [P.G. 202-11](#), "Operations Coordinator" and [P.G. 202-14](#), "Desk Officer", to ensure that no form of offensive material is displayed. Also, all Department vehicles will be inspected by the operator, prior to use, to ensure

that there is no graffiti or any other form of offensive sexual, ethnic, racial, religious, or other discriminatory material displayed. Should any such material be found in a Department vehicle, the procedures detailed above will be followed.

After business hours and on weekends, O.E.E.O. receives messages via office voice mail and will make return phone calls on the next business day.

In addition to reporting the observation to O.E.E.O, corrective action may take the form of removing the offensive material if it is a magazine or poster, etc., or having a WORK ORDER (PD176-161) prepared and forwarded, if necessary.

In addition, the following rules regarding audio recordings and broadcasts, cable television services or the use of video cassette recorders (VCR's) and tapes in Department facilities will be adhered to:

a. Sexually explicit audio broadcasts, television programs or videotapes shall not be listened to, shown or viewed in Department facilities, unless necessary as part of a documented, on-going, official investigation.

DEFINITION

WHISTLEBLOWERS LAW - An Administrative Code provision which encourages City employees to report improper conduct, i.e., corruption, criminal activity, conflict of interest, gross mismanagement or abuse of authority, within their respective agencies. This law protects City employees who report such wrongdoing from any form of retaliation, i.e., dismissal, demotion, suspension, disciplinary action, negative performance evaluation, any action resulting in loss of staff, office space or equipment or other benefit, failure to appoint, failure to promote, or any transfer or assignment or failure to transfer or assign against the wishes of the affected employee.

ADDITIONAL DATA

GUIDELINES:

The following guidelines apply to ALL off duty employment:

a. Off duty employment MUST BE:

(1) Performed outside regular hours of police duties.

(2) Approved prior to starting or changing employment, AND for EACH EXTRA job or change of job for the same employer.

(3) Approved in writing from the Chief of Patrol, (Commanding Officer, Movie/Television Unit), IF employment involves working as a technical advisor for motion picture or television productions.

b. A uniformed member of the service may engage in off duty employment WITHOUT prior approval:

(1) During the period of suspension without pay, OR

(2) While on continuous vacation and/or terminal leave immediately after filing an application for retirement. During a period of suspension without pay or vacation/terminal leave pending retirement, the member concerned remains officially a member of the service and, as such, may NOT engage in any type of employment or activity which, by existing law, is prohibited to police officers, or which may constitute a conflict of interest or create the appearance thereof (see GENERAL PROHIBITIONS).

c. Excessive sick leave or other evidence indicating off duty employment impairs ability to perform assigned police duties is cause for revocation of approval to engage in off duty employment.

d. A request for permission to work while off duty may be DISAPPROVED even though it does NOT SPECIFICALLY fall within the "PROHIBITIONS" section or violate the "GUIDELINES" sections contained herein.

e. A member of the service (uniformed or civilian) seeking part time employment in another city agency, or in ANY other governmental jurisdiction or agency MUST prepare "Certification of Compatibility or Dual Employment" (DP1021), in QUADRUPLICATE; ALL FOUR COPIES of the form, which are available at the Employee Management Division, will be forward to the Employee Management Division for processing.

f. Uniformed members of the service engaging in or seeking off duty employment are reminded that law prohibits certain types of employment. Some members while engaging in bona-fide occupations, may unknowingly, in the normal pursuit of their particular off duty occupation, be violating one of these statutes.

[Rev 2-00] g. Section 2604(a)(1) of the New York City Charter prohibits public servants from taking a position in a firm which the public servant knows, or should know, is engaged in business dealings with the City. "Position" is broadly defined and includes an officer, director, manager, employee, trustee, attorney, agent, broker or consultant to the firm. The definition of "firm" includes an individual seeking business on his/her own behalf, and as a sole proprietor. "Business dealings" are defined as any transaction involving the sale, purchase, rental, or disposition of any goods, services, or property; any license, permit, grant or benefit; and any performance of or litigation with respect to any of the above. It is quite possible that a member not completely familiar with these provisions could find himself/herself in violation of the law. For example, if a member has been approved as a vending machine salesperson or dealer, he/she would be violating this statute if he/she were to take a position with a firm or enter into a contractual agreement with any City agency or representative thereof, to place a vending machine in any building or upon property owned or leased by the City of New York or any of its agencies.

h. The Charter prohibits members from engaging in any business, transaction or private employment which is in conflict with the proper discharge of their

official duties; using, or attempting to use their position to obtain any financial gain, or other benefit, including employment for themselves or any person "associated" with them ("associated" is defined to include a spouse, domestic partner, child, parent or sibling and a person with whom a member has a business or financial relationship); and disclosing any confidential information which is obtained as a result of a member's official duties or using such confidential information for any financial gain or other benefit.

i. A uniformed member of the service is prohibited from holding any position or engaging in business dealings which involve the manufacture, sale or recommendation of any alcoholic beverage. However, employment is permitted in a premises licensed to sell beer at retail for off-premises consumption (supermarkets and grocery stores). Also see [P.G. 203-10](#), "Public Contact - Prohibited Conduct."

j. A member may not accept any valuable gift from any person or firm which the member knows or should know, has or intends to have business dealings with the city. A "valuable gift" means any gift which has a value of \$50.00 or more, whether in the form of money, service, loan, travel, entertainment, hospitality, thing of promise, of any form.

k. Members are also prohibited from working, owning, selling goods or services or obtaining licenses relating to horse racing activities, race horses, tracks or firms either owning or dealing in the racing of horses.

l. Uniformed members of the service may write fiction or non-fiction books and articles on their own time and receive compensation provided that the restrictions contained in [P.G. 212-76](#), "Information Concerning Official Business of Department" are adhered to. OFF DUTY EMPLOYMENT APPLICATION should be submitted in this regard to the extent that members of the service are being paid for their writing.

It may also be permissible for members of the service to be employed as technical or background consultants by television and film production companies.

The consulting position may relate either to a particular incident (e.g., a homicide, robbery, rescue effort, etc.) or to a specialized field of expertise (e.g., arson, explosives, aviation, etc.). Again, the restrictions contained in [P.G. 212-77](#) "Release Of Information To News Media" and [212-76](#) "Information Concerning Official Business of Department" MUST be adhered to, OFF DUTY EMPLOYMENT APPLICATION must also be submitted for these positions. In addition, prior to entering into any contractual relationship of this nature, members of the service are advised to seek private legal counsel.

The sale of exclusive proprietary rights, based on the involvement of an individual in a particular incident, is strictly prohibited. For example, a member of the service assigned to the Aviation Unit can be retained as a consultant or advisor on general technical matters or for background on a particular incident; he or she cannot sell exclusive "rights" to a production company for the story of the officer's role in that incident.

[Rev 2-00] m. Many of the off duty employment prohibitions and guidelines involve conflict of interest related issues as addressed in Chapter 68 of the New York City Charter. Each member of the service should be familiar with those provisions. In certain limited circumstances, a member of the service may hold an otherwise prohibited position with written approval of the Police Commissioner, and a determination by the Conflicts of Interest Board that the

position would not conflict with the purposes and interest of the City. Conflict of interest questions or questions regarding waivers may be directed to the Deputy Commissioner, Legal Matters.

GENERAL PROHIBITIONS:

a. Member is a probationary police officer with less than one year aggregate service who has not completed Entry Level Training in the Police Academy.

[Rev 2-00] PROHIBITIONS FOR ATTORNEYS ENGAGED IN OFF DUTY EMPLOYMENT

In addition to complying with any other relevant Department policy, procedure, or prohibition, members engaging in off duty employment as attorneys will also adhere to the following:

a. Members shall not represent private interests for compensation before any City agency or appear anywhere, directly or indirectly, on behalf of private interests in matters involving the City.

b. Members shall not appear as attorney or counsel against the interests of the City in any litigation in which the City or other government agency is a party, or in any action or proceeding in which the City or other government agency is a complainant.

c. Members shall not serve as an attorney, or represent any party in any manner in negligence cases or criminal cases.

d. In addition to the general prohibition against superiors and subordinates entering into any business or financial relationship (see [P.G. 203-13](#), "Financial Restrictions - Prohibited Acts"), members shall not appear as attorneys or counsel for, or represent in any manner, a higher ranking or lower ranking member of the service in/assigned to their same command. The Conflicts of Interest Board has determined that a "business or financial relationship" exists when an attorney performs legal services whether or not the attorney receives compensation.

GUIDELINES FOR SECURITY RELATED OFF DUTY EMPLOYMENT:

a. In addition to complying with the Guidelines and General Prohibitions, uniformed members accepting off duty employment in the private security field are advised that:

(1) Uniformed members of the service who accept off duty employment in the private security field must be aware that they will not, in most instances, be

entitled to or receive legal representation and/or indemnification from the city. Those benefits of city employment are afforded to municipal employees only when they act within the scope of their employment and in discharge of official duties.

(2) An off duty uniformed member of the service employed in the private security field does not, by virtue of that employment, relinquish the power and authority conferred by the laws of the State of New York as a police officer. However, when an officer effects an arrest in furtherance of the private employer's interest he is acting primarily on behalf of that employer, not in discharge of his duties as a police officer.

Uniformed members of the service in their private capacity may not investigate crimes for private employers and ordinarily should be the complainant and not the arresting officer for off duty situations which arise (for example: trespass and burglary situations) unless the exigencies of the circumstance require that they act in an arresting capacity.

(3) Because the city will not ordinarily indemnify uniformed members of the service against claims brought by individuals for action taken in connection with off duty employment, it is recommended that uniformed members of the service ascertain whether their private employer maintains liability insurance covering the off duty employment and affords legal representation and indemnification for acts or omissions occurring during off duty employment and in furtherance of employer's interests.

(4) All rules and regulations established by the Police Commissioner must be complied with fully.

(5) All court time, both arraignment and follow-up appearances directly related to any duties and responsibilities in the off duty employment may not be performed on Police Department time nor may overtime compensation be received for such time from the City of New York. Accordingly, OVERTIME REPORTS should not be submitted in connection therewith. Further, it is the uniformed member's responsibility to see that the off duty employer/client has Workmen's Compensation on coverage for guards to cover any injury or disability received in his employment. It is also understood that the City has a claim on any monies paid by Workmen's Compensation that would duplicate paid sick leave by the City.

(6) OFF DUTY EMPLOYMENT APPLICATION must be submitted to the Employee Management Division for each specific client, location and company of employment. For each new assignment, even if for the same employer, a new request for approval must be submitted, with the employer's name, and new location of person or premises to be protected.

(7) Members may NOT work in off duty employment as security guards at a location where a strike or labor dispute is ongoing.

(8) If a uniformed member of the service's firearm is discharged or member is injured as the result of an assault, while employed off duty in a security related capacity in New York City only, the precinct of occurrence must be notified immediately by the uniformed member involved. The FIREARM DISCHARGE/ASSAULT REPORT (PD424-151) must be completed and verified for all such incidents occurring in New York City (see [P.G. 212-29](#) "Firearms Discharge And Assaults Involving Uniformed Members Of The Service"). Incidents occurring outside the City of New York require immediate notification to the Operations Unit.

b. To expedite processing, a member requesting permission to engage in off duty employment in the security field is authorized to personally deliver the completed OFF DUTY EMPLOYMENT APPLICATION to the Employee Management Division.

GUIDELINES FOR WATCHGUARD LICENSE:

In addition to complying with the Guidelines, General Prohibitions and Guidelines for Security Related Employment, uniformed members of the service will comply with the following re: Watchguard License:

a. If the uniformed member intends to form a corporation and employ any other person in a Watchguard Service capacity, then the requirements of New York State laws regarding watchguard licensing must be complied with. "Watch, guard or patrol agency" as defined by the General Business Law (Article 7 Section 71, sub. 2) shall mean and include the business of watch, guard or patrol agency and shall also mean and include, separately or collectively, the furnishing, for hire or reward, of watchmen or guards or private patrolmen or other persons to protect persons or property or to prevent the theft or misappropriation or concealment of goods, wares or merchandise, money, bonds, stocks, choses in action, notes or other valuable documents, papers, and articles of value, or to procure the return thereof or the performing of the service of such guard or other person for any of said purposes. The foregoing shall not be deemed to include the business of persons licensed by the industrial commissioner under the provisions of section twenty-four-a or subdivision three-b of section fifty of the Workmen's Compensation Law or representing employers or groups of employers insured under the Workmen's Compensation Law in the State Insurance Fund, nor persons engaged in the business of adjusters for insurance companies nor public adjusters licensed by the superintendent of insurance under the Insurance Law of this State.

b. Uniformed members of the service employed in a Watchguard Service shall comply with all rules, regulations, guidelines and prohibitions, regarding off duty employment. In addition, members will comply with Department directives, regarding integrity monitoring procedures.

c. Uniformed members of the service applying for a Watchguard License must comply with the following:

1) Prepare required Affidavit at Employee Management Division after OFF DUTY EMPLOYMENT APPLICATION has been prepared and approved.

2) Submit a list of all clients or prospective clients of Watchguard Service, including names, addresses and specific location of business, to the Intelligence Bureau and Identification Section for records check.

(a) If member has no clients at time of making APPLICATION, the Affidavit will state that fact and may be approved, if the member applying agrees to submit the identifying data of prospective clients prior to entering an employment agreement with such clients.

3) Maintain an updated and unified list of all clients, locations, etc., which must be made available for Departmental inspection.

(a) The Employee Management Division will maintain a separate folder for each approved Watchguard License containing a list of clients, locations and copies of approved OFF DUTY EMPLOYMENT APPLICATIONS of all uniformed members of the service employed by such Watchguard Service.

4) That the corporation or the member concerned will not have a client who is the subject of a criminal investigation or a premises licensed by the Alcoholic Beverage Control Board or a diplomat, or any other client that the Police Commissioner may disapprove on the grounds that such employment would not be in the best interests of the Department.

5) Will not have any client located within precinct of assignment, that is, if the off duty employment is of a premises, it may not be located in the precinct. If the off duty employment involves the security of an individual, he may not reside within the precinct of assignment.

6) The corporation or the member concerned will not provide services to clients who are then engaged in active labor strikes.

7) The corporation or member concerned will not advertise or represent that its employees are members of the New York City Police Department or that it operates under its auspices.

8) Will not employ a uniformed member of the service of any rank assigned within Watchguard Licensee's immediate command or employ any member of higher rank.

9) Provide Employee Management Division with names, addresses of all employees, both uniformed members of the service and others.

10) Do not employ other members of the service until such members present approved OFF DUTY EMPLOYMENT APPLICATIONS.

P.G. 205-46 Counseling Services Unit

Date Effective: 08-01-13

PURPOSE

To ensure that all members of the service are informed about the Counseling Services Unit.

DEPARTMENT COUNSELING GUIDELINES

SCOPE

The primary function of the Counseling Services Unit is to assist in the recovery and return to full and productive service those members of the service who are experiencing difficulties with alcohol, prescription medication, gambling or finances. The Department's objective, at all levels, is the early detection and referral of its personnel for evaluation and treatment, either as a self-referral or through a direct supervisory referral. The Counseling Services Unit is not a disciplinary unit, nor a sanctuary for misconduct. To afford confidentiality to members of the service who utilize this program, the Counseling Services Unit is located in a non-Department facility located at: 189 Montague Street, 7th Floor, Brooklyn, New York 11201, Monday through Friday between 0700-1800 hours. During non-business hours the Counseling Services Unit may be contacted through the Sick Desk Supervisor.

Alcoholism is a primary, chronic disease with genetic, psychosocial and environmental factors influencing its development and manifestations. Untreated, the disease is often progressive and fatal. It is characterized by continuous or periodic impaired control over drinking, preoccupation with the drug alcohol, use of alcohol despite adverse consequences, and distortions in thinking, most notably denial. Alcoholism is a fully treatable disease, especially when intervention occurs in the early stages. Self-referral, before the condition results in personal tragedy or misconduct, is ideal. However, it must be emphasized that denial and cover-up are inherent components of this disease. Therefore, supervisors are a vital link to the process of early detection, referral, treatment and recovery. A supervisor may contact the Counseling Services Unit and request that a member be evaluated.

Federal law and regulations governing confidentiality prohibit disclosure of any information or record pertaining to substance abuse treatment. The Counseling Services Unit may not disclose any information that identifies a member as a participant except under the following circumstances:

- a. Written consent from the member concerned
- b. Valid subpoena and U.S. District Court Order
- c. Suspected child abuse
- d. Danger to self or another

Records maintained by the Counseling Services Unit are absolutely confidential and not duplicated or forwarded anywhere within the Department. In non-disciplinary cases, when a supervisor officially refers a member, no report will be prepared and no record of the referral will be noted in the

member's personnel folder. Supervisors making referrals will only be advised as to the level of cooperation and only on a need to know basis.

Members participating in this program will not jeopardize their assignments or promotional opportunities. In addition, their current assignments will not ordinarily be changed because of their participation in this program unless, due to the nature of the assignment, a change is deemed to be in the best interests of all parties concerned. However, participation in this program will not exempt a member of the service from disciplinary action for specific acts of misconduct and the consequences of such disciplinary action.

The services of the Counseling Services Unit are NOT available to members of the service for illegal drug use. All members of the service are mandated by provisions of "Administration of Drug Screening Tests for Cause," ([P.G. 205-30](#)) to make official notification to the commanding officer/duty captain, or Internal Affairs Bureau/Command Center when illegal drug use is suspected.

Prior to final adjudication of a disciplinary matter, in all misconduct cases in which the use of alcohol is indicated, an alcoholism assessment by the Counseling Services Unit must be conducted. In addition, in appropriate cases, a final adjudication of the disciplinary matter will be held in abeyance pending completion of treatment for alcoholism. The Department Advocate's Office or the Office of the Special Prosecutor, as appropriate, will ensure that these steps are taken.

22. Certify evaluation process as complete by "finalizing" PERFORMANCE EVALUATION.

COMMANDING OFFICER/REVIEWER

23. Prepare interim PERFORMANCE EVALUATION if significant change occurs in ratee's performance or as otherwise directed.

a. If a ratee receives an overall evaluation of below competent (2.5 or lower) or is rated extremely competent (5.0), the reviewer must be in the rank of captain or above, or selected civilian managerial titles.

b. If ratee is in any Performance Monitoring Program, the reviewer must be the commanding officer. The commanding officer will consult with all appropriate supervisors prior to making any comments.

24. Review delinquent PERFORMANCE EVALUATIONS recapitulation on the NYPD Intranet Home Page (Evaluations Due) frequently to determine status of overdue PERFORMANCE EVALUATIONS (see "ADDITIONAL DATA").

ADDITIONAL DATA

PERFORMANCE EVALUATIONS and guidebooks for the ranks of police officer through captain, and civilian sub-managerial employees may be found by accessing the Online Evaluation System via the Department Intranet. Commanding officers will ensure additional copies of guidebooks are made available in the command reference library.

Probationary members of the service do not receive annual PERFORMANCE EVALUATIONS. An annual PERFORMANCE EVALUATION will be prepared during the next rating period after a member attains permanent rank.

Uniformed members of the service who are in rank on probation (e.g., entry-level probationary police officers, probationary sergeants, etc.) and civilian members of the service who have not completed their probationary period or have served less than two years in a provisional status are not permitted to appeal their PERFORMANCE EVALUATION.

All newly promoted sergeants, lieutenants and captains are on probation in rank for a period of twelve months unless cause exists to extend such period for an additional six months. Extension of probation beyond twelve months may be authorized on a case-by-case basis.

A waiver of probation may be requested after six months. This request must be made by the probationary member's commanding officer and accompanied by the fourth month PERFORMANCE EVALUATION. All requests are to be forwarded through channels to the Employee Management Division.

Members of the service are reminded that appraisal of subordinates' performance is a continuous process. The use of an annual evaluation system DOES NOT relieve supervisors of their responsibility to monitor and document subordinates' performance throughout the rating period. The "Evaluations Due" web page provides a roster of annual and probationary PERFORMANCE EVALUATIONS that are due for specific personnel. Certain commands are required to provide additional PERFORMANCE EVALUATIONS (i.e., investigative track commands and requests due to monitoring). The Online Evaluation System does not preclude commands from providing additional PERFORMANCE EVALUATIONS when necessary.

When preparing a PERFORMANCE EVALUATION, the rater will take into account the ratee's performance concerning equal employment opportunity (EEO) issues. EEO factors having a bearing on the rating in that category will include, but not be limited to, whether the member has engaged in conduct that violates provisions of the Department Manual, Title VII, other applicable equal employment opportunity laws, or the Department's equal employment opportunity policy.

In addition, raters will ensure that recognition is given to members who utilize their language proficiency for translation and interpretation in the

performance of their regular duties, or as part of the volunteer language initiative. The use of this skill shall be afforded the same recognition as any other special skill needed by the Department. Any experience gained while serving as a translator/interpreter in criminal investigations will be included in the Overall Rater's Comments of the PERFORMANCE EVALUATION. Commanding officers will ensure that evaluations of volunteer members are not negatively affected by their assignment to translation/interpretation duties. These tasks shall be evaluated as a proportionate part of their assigned duties.

When a sub-managerial civilian member is transferred, the commanding officer/supervisory head will direct that the PERFORMANCE EVALUATION is completed online and the form is forwarded to the Employee Management Division and to the new command. The ratee will be given a copy of the form. The immediate supervisor in the new command will prepare a new Task and Standards of the ratee's new assignment via the Online Evaluation System.

If excessive absence, tardiness or poor performance is cited as a reason(s) for a BELOW STANDARDS or WELL BELOW STANDARDS rating, include a copy of the appropriate form including: ABSENCE AND TARDINESS RECORD (PD433-145), CIVILIAN RECORD OF SUPERVISORY CONFERENCES (SUB-MANAGERIAL) (PD433-1411), CIVILIAN LATENESS/WARNING NOTIFICATION (PD449-122), or CIVILIAN UNSATISFACTORY PERFORMANCE WARNING (PD439-012), when appropriate.

P.G. 205-49 Evaluation Of Probationary Police Officers

Date Effective: 08/01/13

PURPOSE

To insure proper evaluation of probationary police officers.

PROCEDURE

Before a probationary police officer is permanently assigned to a command:

COMMANDING OFFICER, POLICE ACADEMY

1. Ensure preparation of two copies of RECRUIT EVALUATION (PD439-1412), prior to permanent assignment.
2. Forward original to permanent command.
3. Forward duplicate to Employee Management Division upon assignment to permanent command.

COMMANDING OFFICER/SUPERVISOR CONCERNED (PERMANENT COMMAND)

4. Evaluate continuously, the conduct and performance of probationary police officers.
5. Evaluate probationary police officers via Online Evaluation System available on the Department's Intranet, three times during their probationary period: the tenth (10th), sixteenth (16th) and twenty-second (22nd) month.

NOTE: The first sixteen months of a probationary police officer's field assignment is a critical phase in the training and maturation of a new police officer. Supervisors must conscientiously evaluate probationary police officers to ensure that members who are unable to satisfactorily perform their duties are identified.

In addition to evaluation reports, commanding officers will submit the following reports during the probationary period as they occur, on Typed Letterhead.

- a. Request for Charges and Specifications to First Deputy Commissioner.
- b. Report of any matter that may bear upon the fitness of probationer to Chief of Personnel in a sealed envelope.

COMMANDING OFFICER (PERMANENT COMMAND)

6. Ensure that twenty-second (22nd) month evaluation specifically recommends "Permanent Appointment," "Extension of Probation" or "Termination of Services," in reviewer's comments area.
 - a. Notify the Performance Analysis Section whenever a probationary police officer receives an overall evaluation less than 3.0.
7. Forward completed PERFORMANCE EVALUATIONS via Department Intranet by

finalizing the PERFORMANCE EVALUATION on line.

a. Ensure a signed copy of the PERFORMANCE EVALUATION is printed out and forwarded to Probationary Monitoring Unit, One Police Plaza, Room 1000.

NOTE: When recommending "Termination of Services" or "Extension of Probation" a detailed report to Chief of Personnel, including all pertinent facts related to the probationary police officer's performance, will be forwarded with a copy of the PERFORMANCE EVALUATION. If warranted, these recommendations may also be forwarded at any time during the probationary period, prior to the twenty-second (22nd) month anniversary.

ADDITIONAL DATA

The probationary period should be utilized to closely scrutinize the member's performance to assess his or her abilities as a police officer. The entry level probationary period may be extended an additional six months, if necessary, to allow the Department more time to further review and evaluate a probationer's suitability to remain a police officer. When a probationary officer is transferred to a command, his or her performance from the previous command must be reviewed. Interim evaluations should be prepared when it is apparent there is a problem with an officer's performance. The rater will discuss the probationary evaluation with the ratee. This will make the probationary officer aware of his or her performance and also place those probationary officers with a "below standards" evaluation on notice that their performance must show an improvement. When a commanding officer becomes aware that a probationary officer's performance may be below standards, supervisors should be instructed to carefully document the member's performance by utilizing the minor violations log, command discipline, and when appropriate, charges and specifications. The probationer will be notified of the observed performance deficiencies and instructed on proper Department procedure. Written documentation that the probationer was instructed and counseled will be maintained in the officer's personnel folder.

1. Evaluate probationary captains three times during probationary period, on the 4th, 10th, and 16th month, if necessary, using the PERFORMANCE EVALUATION CAPTAIN (PD439-1518).

NOTE: All newly promoted captains are on probation for a period of twelve months unless cause exists to extend such period for an additional six months. Extension of probation beyond twelve months may be authorized on a case-by-case basis. Interim PERFORMANCE EVALUATIONS are to be submitted when necessary (e.g., change in the ratee's performance etc). Raters must conscientiously evaluate probationary captains to ensure that members who are unable to satisfactorily perform their duties are identified. Those members in the rank of captain who are on probation, yet are serving in the capacity of commanding officer, may be rated on PERFORMANCE EVALUATION CAPTAIN THROUGH DEPUTY CHIEF (PD439-1517). The bureau chief concerned will make the determination of which evaluation instrument is best suited to the ratee.

2. Evaluate permanent captains through deputy chiefs, as well as police surgeons and deputy chief surgeons using the PERFORMANCE EVALUATION CAPTAIN THROUGH DEPUTY CHIEF.

NOTE: This evaluation instrument is based on a Management By Objectives (MBO) system. This system is flexible, allowing changes to be made to each Key Result Area as circumstances dictate. This allows raters and ratees to better address actual problems and priorities as they arise.

3. Discuss and define five Key Result Areas (KRAs) with the ratee at the beginning of the rating period.

4. Discuss and define the "Performance Expectations" for each KRA and the "Action Plans" by which to attain results.

5. Record the KRAs and "Performance Expectations" on page 2 of the PERFORMANCE EVALUATION CAPTAIN THROUGH DEPUTY CHIEF.

6. Record the actual "Performance Achievements" on the form at the end of the rating period.

7. Discuss and measure the individual's performance during the post-appraisal interview, using the predetermined criteria.

REVIEWER

8. Review and sign EVALUATION.

RATER

9. Forward a copy of PERFORMANCE EVALUATION CAPTAIN THROUGH DEPUTY CHIEF to Director, Employee Management Division at beginning of rating period (July 1st.).

ADDITIONAL DATA

Captains assigned as precinct commanders will be rated by patrol borough operations commander and the patrol borough commander will serve as the reviewing officer. Deputy Inspectors and above assigned as precinct commanders will be rated by the patrol borough adjutant and the patrol borough commanding officer will serve as the reviewing officer. Rater will use PERFORMANCE EVALUATION CAPTAIN for captains that are on probation. Rater will use PERFORMANCE EVALUATION CAPTAIN THROUGH DEPUTY CHIEF for all other captain evaluations.

MANAGERIAL PERFORMANCE EVALUATION (PD439-1521)

P.G. 205-56 Police Officer's Annual Evaluation Utilizing The Monthly/Quarterly Performance Review And Rating System

Date Effective: 08/01/13

PURPOSE

To ensure that the Annual Overall Evaluation rating assigned to a police officer on the annual PERFORMANCE EVALUATION POLICE OFFICER - DETECTIVE SPECIALIST (Online Evaluation System) corresponds to the annual total of quarterly points awarded under the Police Officer's Monthly/Quarterly Performance Review and Rating System.

PROCEDURE

When preparing annual evaluations of police officers and detective specialists:

RATER

1. Examine POLICE OFFICER'S MONTHLY PERFORMANCE REPORTS (PD439-1414) prepared during the rating period for each police officer assigned to patrol duties being evaluated in enforcement commands.

NOTE: The POLICE OFFICER'S MONTHLY PERFORMANCE REPORTS and the Monthly/Quarterly Performance Review and Rating System should be the primary basis and documentation for the annual evaluation of police officers.

2. Assign Overall Evaluation using the following chart that illustrates the expected correlation between total annual points earned and the assignment of the annual Overall Evaluation.

TOTAL ANNUAL POINTS	OVERALL EVALUATION
60-68	4.5 TO 5.0
55-59	4.0 TO 4.5
48-54	3.5 TO 4.0
40-47	3.0
BELOW 40	2.5 AND BELOW

NOTE: In assigning quarterly points during the year, supervisors must expect to avoid any inconsistency between the sum of quarterly points to be totaled at the end of the year for a police officer and the rating designation in the Overall Evaluation category on the PERFORMANCE EVALUATION.

REVIEWER

3. Ensure that raters accurately and fairly assign Overall Evaluations and that such Overall Evaluations reflect actual performance as measured by the Monthly / Quarterly Performance Review and Rating System.

NOTE: The Monthly Quarterly Performance Review and Rating System, when used properly, will provide an indication of the appropriate Overall Evaluation. There will, however be exceptions to this general rule. When there is a manifest difference between a police officer's annual total of quarterly points and the Overall Evaluation, the rater must explain and justify this imbalance in the Overall Rater's Comments section of the PERFORMANCE

EVALUATION. Reviewers must ensure that such discrepancies are justified. If there is no clear explanation, the PERFORMANCE EVALUATION will be rejected by the Employee Management Division and the form will require re-examination at the command level.

A uniformed member of the service on sick report in any of the above categories (subdivisions "a" through "e") may be given a sixteen hour pass. Permission to leave residence should be denied or revoked only if a violation of the guidelines takes place or if activities requested would hinder recovery. The Sick Desk supervisor shall notify the district surgeon at the next office hours, when such permission is granted, to ensure that leaving residence is not inconsistent with the member's medical condition and/or had not previously been denied by the surgeon. District surgeons are responsible for notifying the Supervising Chief Surgeon and Commanding Officer, Medical Division, of the identities of members granted:

P.G. 206-07 Cause For Suspension Or Modified Assignment

Date Effective: 08/01/13

PURPOSE

To describe those actions for which uniformed or civilian members of the service may be suspended or, for which uniformed members of the service may be placed on modified assignment.

- a. Refuses to perform assigned duties at roll call or during tour of duty

(The principal of the school where the school safety agent is assigned will be notified of the suspension). Suspension by a ranking officer, by a Traffic Manager or an Administrative School Safety Manager, other than a captain and above, is by authority of the First Deputy Commissioner. Prior conferral or approval of the First Deputy Commissioner is NOT required.

3. A captain or above may place a uniformed member of the service on modified assignment or suspension when a member:

ADDITIONAL DATA

In all cases in which the investigating commanding officer/duty captain is contemplating changing the duty status of a member of the service (i.e., suspension, modification or restricted duty pending evaluation of duty status), he/she should confer with the Internal Affairs Bureau Command Center to ascertain any relevant information pertaining to the member(s) of the service, PRIOR to making this decision. This conferral is to obtain background information that may assist in the investigation. All decisions regarding the investigation, as well as any resulting determination regarding the member's duty status, remain the responsibility of the commanding officer/duty captain concerned.

In appropriate cases, a captain or above may assign a uniformed member of the service to administrative duties in the next higher command without placing the member on suspension or modified assignment, when there is no disciplinary action contemplated and facts or circumstances indicate such assignment would be in the best interests of the Department.

The Office of Deputy Commissioner - Legal Matters will be available for questions related to law and the Department Advocate's Office will be available for advice on procedures for suspension or modified assignment. However, the decision to suspend or place a uniformed member of the service on modified assignment will rest with the field commander.

"I wish to advise you that you are being questioned as part of an official investigation by the Police Department. You will be asked questions specifically directed and narrowly related to the performance of your duties. Complaints

P.G. 207-01 Complaint Reporting System

Date Effective: 08-19-13

DEFINITIONS

ON LINE COMPLAINT SYSTEM (OLCS) - A software program installed on Local Area Network (LAN) workstations designed to permit information from a complaint to be entered and stored on Department computers configured accordingly. This data is stored locally and centrally in the Department's mainframe databases for subsequent crime analysis, mapping and auditing purposes.

COMPLAINT - An allegation of an unlawful or improper act or omission, or other condition that necessitates investigation to determine if any unlawful act or omission occurred.

PICK-UP ARREST - An arrest for an offense or juvenile delinquency not previously reported.

CONTINUOUS EVENT - occurs when an offense or multiple offenses were committed against a complainant, during an ongoing situation that occurs in different precincts and/or boroughs.

SCOPE

Proper complaint reporting is essential for statistical analysis, discovery of crime patterns and trends, efficient deployment of resources, and uniform crime reporting. Every member of the service involved in this process has a responsibility and obligation to ensure the integrity of this vital, strategic resource.

WHERE RECORDED

Complaints shall be recorded in the precinct of occurrence except as follows:

a. Complaints received from a member or members of the community regarding Vice, Narcotics, or Organized Crime related offenses (see [P.G. 207-08](#), "Preliminary Investigation of Vice Related, Narcotics, or Organized Crime Related Complaints") shall be recorded at the Investigative Support Division, Organized Crime Control Bureau, EXCEPT:

(1) pick-up arrests for such offenses will be recorded at the precinct of arrest;

(2) found controlled substances or drug paraphernalia IN A BUILDING shall be recorded in the precinct of occurrence;

(3) found controlled substances two ounces or less (NOT IN A BUILDING), or found marijuana two pounds or less, requiring investigation will be recorded in the precinct of occurrence.

b. Complaints of missing New York City residents shall be recorded at the missing person's resident precinct.

c. Complaints occurring on piers, bulkheads, or dead human bodies found in navigable waters will be recorded at the precincts in which such piers or

bulkheads are located or bordering the navigable waters where such bodies were found.

d. Complaints occurring on waterways or islands inaccessible to patrol precinct personnel will be recorded in the precincts of record after investigation by Harbor Unit personnel.

e. Complaints of lost property will be recorded in the precinct where complainant first discovered loss, if actual place of occurrence is unknown.

f. Overdue leased/rented vehicle will be recorded either in the precinct where the vehicle was leased/rented or at the precinct where the vehicle is expected to be returned.

g. A complaint involving multiple offenses occurring from a continuous ongoing event, in which the initial offense occurred in one precinct, and one or more of the additional offenses occurred in another precinct, will be recorded in the precinct in which the initial offense was committed EXCEPT:

h. For a continuous event, the complaint will be recorded in the precinct in which the initial offense was committed unless the continuous event includes a homicide or Rape 1st Degree or a Criminal Sexual Act 1st Degree.

(1) If the continuous event includes a homicide, the complaint will be recorded in the precinct where the homicide occurred, if known. If the location of occurrence is unknown, the homicide will be recorded in the precinct where the victim was discovered.

(2) If the continuous event involves a Rape 1st Degree or a Criminal Sexual Act 1st Degree, the complaint will be recorded as follows:

[a] If the location of the rape/criminal sexual act is KNOWN, the complaint will be recorded in the precinct where the rape/criminal sexual act occurred.

NOTE: If the rape/criminal sexual act occurred in more than one precinct, the incident will be recorded in the precinct where the initial rape/criminal sexual act occurred.

[b] If the location of the rape/criminal sexual act is UNKNOWN, but the location of the initial offense is KNOWN, e.g., abduction prior to rape, the complaint will be recorded in the precinct where the initial offense occurred.

[c] If the location of the rape/criminal sexual act is UNKNOWN, and the location(s) of all other associated offenses are UNKNOWN, the complaint will be recorded in the precinct where the complainant reports the incident.

NOTE: The guidelines above will also apply in determining the appropriate jurisdiction code to be assigned to the COMPLAINT REPORT (i.e. NYPD -"00", Transit -"01", Housing -"02").

HOUSING BUREAU INCIDENTS:

In a continuous event that begins on-development but ends off-development, or vice versa, the jurisdictional determinant will be the location where the incident originally started. For example, a continuous event that starts on a housing development but ends off-development, will be recorded as being under the jurisdiction of the NYPD Housing Bureau.

TRANSIT BUREAU INCIDENTS:

Complaints under the jurisdiction of the Transit Bureau, that occur on a moving train, will be recorded as occurring at the next (very first) station where the train stops, regardless of precinct or borough boundaries. In a continuous event that begins on-transit system but ends off-transit system, or vice versa, the jurisdictional determinant will be the location where the incident originally started. For example, a continuous event that starts on a subway train but ends in the street, will be recorded as being under the jurisdiction of the NYPD Transit Bureau.

13. A complaint of a missing person will be recorded on both an On Line COMPLAINT REPORT (WORKSHEET is not required) and a MISSING/UNIDENTIFIED PERSON REPORT (PD336-151) using the same complaint number for both reports.

ADDITIONAL DATA

When multiple offenses have occurred, for crime reporting purposes, the incident will be classified based on the "top," or most serious offense under the hierarchy generally known as the "Seven Major Felony Rule." The order of offenses under that rule, beginning with the most serious, is as follows:

- a. Murder and Non-Negligent Manslaughter
- b. Forcible Rape/Rape 1st
- c. Robbery
- d. Felonious Assault
- e. Burglary
- f. Grand Larceny
- g. Grand Larceny, Motor Vehicle (a grand larceny motor vehicle coupled with a grand larceny from the vehicle will be classified as a Grand Larceny, Motor Vehicle).

The attempt to commit any of the above offenses will be counted as the completed offense, except Attempted Murder, which will be counted as a Felonious Assault.

Under this Seven Major Felony Rule, a murder/robbery is classified as Murder; a rape 1st/robbery, or rape 1st/felonious assault, or rape 1st/burglary is classified as Rape 1st. Any of the seven major felonies coupled with any other offense not within the seven major felony category will be classified as the appropriate major felony. For example:

- a. Murder/kidnapping will be classified as Murder;
- b. Rape 1st/kidnapping will be classified as Rape 1st;
- c. Robbery/criminal sexual act 1st will be classified as a Robbery;
- d. Robbery/kidnapping will be classified as a Robbery.

If any of the reported offenses are not one of the seven major felonies, the crime classification will be determined in the following order:

- a. Sort by CATEGORY - Felony before misdemeanor before violation;
- b. Sort by CLASSIFICATION - If all felonies: Select "A" before "B" before "C", etc. If all misdemeanors: Select "A" before "B" before "Unclassified";
- c. Sort by DEGREE - If all offenses are "B" felonies, select "1st degree" before "2nd degree" before "3rd degree", etc.
- d. Sort by PENAL LAW ARTICLE AND SECTION - If all offenses are 2nd degree "B" felonies, select Article 140, before Article 150, etc.

The OLCS will automatically assign a complaint number to each complaint.

Proper preparation of Complaint Reporting System forms requires that when space is insufficient to complete entries, additional forms will be prepared as follows:

FORM BEING PREPARED	ADDITIONAL FORM TO BE USED
COMPLAINT REPORT WORKSHEET	COMPLAINT REPORT WORKSHEET
COMPLAINT FOLLOW-UP (blue)	COMPLAINT FOLLOW-UP SECOND SHEET
COMPLAINT FOLLOW-UP	COMPLAINT FOLLOW-UP
INFORMATIONAL (pink)	INFORMATIONAL SECOND SHEET

The following situations are applicable to the above:

a. Space is insufficient in the "Property" area of the COMPLAINT REPORT WORKSHEET or COMPLAINT FOLLOW-UP (blue). "Property" information may also be continued in the "Details" area of the COMPLAINT FOLLOW-UP (blue), providing sufficient room exists and entries are clearly distinguishable from other "Details" information.

b. Space is insufficient in the "Details" area of the forms.

For COMPLAINT REPORT WORKSHEETS only, when required to record additional victims, witnesses, vehicles, property, and/or perpetrators that do not fit in the captions on the worksheet, use another WORKSHEET and not the details area. DO NOT enter basic information in details section but utilize appropriate captions on form(s). Use as many worksheets as is necessary (e.g., 10 victims then use 10 forms; 10 perpetrators then use 5 forms).

A SEPARATE COMPLAINT REPORT WILL BE PREPARED FOR:

- a. EACH homicide victim (victim is complainant)
- b. EACH perpetrator of a crime who is killed
- c. EACH individual killed, seriously injured and likely to die, or critically injured as a result of a motor vehicle/bicycle collision
- d. EACH victim of a sex offense
- e. EACH victim of an assault EXCEPT if incidental to a sex offense or robbery
- f. EACH additional person injured in an arson (assault by fire/explosive).

A new COMPLAINT REPORT will be prepared and a separate serial number assigned to record Criminal Possession of Stolen Property when the person arrested is NOT charged with the original crime (e.g., burglary, larceny, grand larceny - auto, etc.).

In cases where more than two wanted or arrested persons are being reported on a COMPLAINT FOLLOW-UP (blue) or COMPLAINT FOLLOW-UP INFORMATIONAL (pink), another such form, not a SECOND SHEET, will be used.

The additional forms prepared must be securely stapled to the basic document before forwarding, and the following captions on the forms will be completed:

- a. Page _____ of _____ pages
- b. PRECINCT
- c. COMPLAINT NUMBER
- d. DATE

Certain time limits are necessary to maintain the integrity of the crime reporting system. Therefore, COMPLAINT REPORTS must be reviewed and finalized within 24 hours of taking the report. Desk officers must transmit complaints by the conclusion of each tour. Commanding Officers will ensure that desk officers/counterparts are reviewing and transmitting all complaints entered into the OLCS as per these guidelines.

ALL FOLLOW-UP reports are not currently processed via OLCS. Therefore, the COMPLAINT FOLLOW-UP (blue) must be forwarded to the Data Integrity Unit and COMPLAINT FOLLOW-UP INFORMATIONAL (pink) must be forwarded to the Criminal Records Section and prepared for manual electronic storage. Staples should NOT be used as they hamper the storage processing. These reports must be forwarded to the appropriate units within 24 hours of preparation.

Regarding taxicab robberies or attempts, enter in caption "OFFENSES, if any," Robbery/medallion or non-medallion taxicabs, as appropriate. Make a notation under "DETAILS" whether or not taxi was equipped with a partition or had any other safety devices installed and location from where passenger was picked up.

COMPLAINT REPORT WORKSHEET and appropriate copies of COMPLAINT FOLLOW-UP (blue), or COMPLAINT FOLLOW-UP INFORMATIONAL (pink), if any, must be preserved, even if the information is later transferred word for word to permanent records. Such forms/reports will be attached to the precinct file copy of the relevant COMPLAINT REPORT.

When using the OLCS for any reason, the MOS utilizing the system must use his/her own authorization (password).

NOTE: When an arrest has been made exclusively for the offenses listed in items 'a' through 'j' above, the On Line Complaint System will reject the COMPLAINT REPORT.

When the above offenses involve multiple arrests stemming from the same incident, enter the letter "C" in the COMPLAINT NUMBER BOX (Line 28) of the ON LINE BOOKING SYSTEM ARREST WORKSHEET and C-1, C-2 for each subsequent arrest, e.g., C-7 would indicate eight persons have been arrested.

P.G. 207-03 Voiding Complaint Reports

Date Effective: 08-01-13

PURPOSE

To eliminate complaints which were improperly recorded.

PROCEDURE

To VOID COMPLAINT REPORT (PD313-152) after assignment of a precinct serial number by the OLCS:

DESK OFFICER

1. Determine if complaint should be voided. A complaint should be voided if:

- a. The complaint is a duplicate of a previously reported incident, or
- b. The incident occurred within the confines of another precinct, or
- c. The incident occurred outside the confines of New York City, or

d. A COMPLAINT REPORT was prepared for a complaint which should have been recorded in another manner e.g., an allegation of corruption against an MOS; a precinct complaint number was used for a complaint which should receive an OCCB number; a precinct complaint number was used for an incident/condition which should have been recorded via [P.G. 212-12](#), "Citywide Intelligence Reporting System", etc.

2. Determine if COMPLAINT REPORT has been finalized (i.e., signed-off) in the OLCS.

IF COMPLAINT REPORT HAS NOT BEEN FINALIZED:

COMMAND CLERK

3. Enter reason(s) for voiding complaint under "Details" on COMPLAINT REPORT WORKSHEET.

4. Have COMPLAINT REPORT WORKSHEET filed chronologically in rear of precinct complaint file.

5. Utilize VOID function on the OLCS menu to properly document the VOIDED complaint in the OLCS.

IF COMPLAINT REPORT HAS BEEN FINALIZED:

DESK OFFICER

6. Have command clerk prepare COMPLAINT FOLLOW-UP (PD313-081).

COMMAND CLERK

7. Reclassify original offense to "VOIDED."

8. Enter under "Details" on COMPLAINT FOLLOW-UP:

a. The specific reason for voiding the original complaint.

(1) If complaint referred to another command indicate the new command and new OLCS serial number from that command.

(2) If the complaint is a duplicate of a previously reported complaint, indicate the reason for voiding as "Duplicate Report" and the original complaint serial number.

9. Attach precinct of record copy of COMPLAINT FOLLOW-UP to precinct file copy of voided COMPLAINT REPORT.

DESK OFFICER

10. Ensure that COMPLAINT FOLLOW-UP is distributed in same manner as voided COMPLAINT REPORT.

NOTE: After a COMPLAINT REPORT has been finalized, a complaint serial number (voided or not) cannot be changed or reused in the OLCS.

Any notifications made prior to voiding complaint will be amended after the COMPLAINT REPORT is voided.

ADDITIONAL DATA

There is a distinction between voided complaints and unfounded complaints. A voided complaint is one in which the COMPLAINT REPORT should not have been prepared. An unfounded case is one in which the report should have been prepared but subsequent information leads to the determination that the case should be classified as unfounded (e.g., a voided case is one in which a JUVENILE REPORT SYSTEM WORKSHEET (PD377-159A) rather than a COMPLAINT REPORT should have been prepared; an unfounded case is one in which a vehicle is reported stolen by a complainant and later a tow company informs the precinct that the vehicle was legally towed).

P.G. 207-04 Reporting Of Complaints Occurring In Another Command

Date Effective: 08-01-13

PURPOSE

To refer certain complaints occurring in another command.

SCOPE

Complaint data entered into the OLCS from a command LAN terminal will automatically be made available via computer to a transit district covered by that precinct. Conversely, complaint data entered into the OLCS from a transit district LAN terminal will automatically be made available via computer to a precinct covered by that district. This on-line process will NOT occur if the precinct and transit district boundaries do not overlap. Therefore, when a member of the service in a precinct takes a complaint pertaining to an incident that occurred within a transit district covering that precinct, the complaint will be entered into the OLCS by that precinct's personnel and will be finalized by the transit district desk officer. Similarly, when a member of the service in a transit district takes a complaint pertaining to an incident that occurred within a precinct covering that district, the complaint will be entered into the OLCS by that district's personnel and will be finalized by the precinct desk officer. Transit desk officers will be responsible for finalizing ALL complaints under their jurisdiction (i.e., code 01). In any event, the procedure below MUST be followed for ALL complaints occurring in another command even where the automated transfer of data takes place in order to allow the precinct/district concerned to review COMPLAINT REPORT WORKSHEET (PD313-152A) prior to finalization.

PROCEDURE

If COMPLAINT REPORT WORKSHEET is faxed (not telephoned) to precinct/transit district of record, the precinct/district of record will retain and file the faxed copy, i.e., the fax is NOT to be discarded.

7. Enter precinct and/or transit district of record and title/rank, name of member of the service receiving complaint at precinct/transit district of record under "Details" on COMPLAINT REPORT WORKSHEET.

PROCEDURE

When assigned to investigate a complaint:

4. Determine if complaint should be closed or referred for further investigation.

NOTE: The main criteria for referring a complaint is the need for further investigation that cannot be conducted by the field investigator, or the need of a specialist. If doubt exists as to whether a complaint should be closed or not, or whether the service of a specialist may be required, consult with patrol supervisor or desk officer.

5. Notify and refer the case to the detective squad when further investigation is required for the following:

a. Verify that required notifications and proper referral of active cases have been made.

NOTE: Complaints of robbery/attempted robbery and homicide/attempted homicide of drivers of medallion taxicabs, non-medallion for-hire vehicles, and delivery trucks require a notification to the Central Robbery Division. Desk officers will fax the COMPLAINT REPORT (PD313-152) 24 hours a day, 7 days a week, to the Central Robbery Division. A member from the Central Robbery Division will then make a follow-up notification, Monday - Friday, 0700-2300 hours, to the desk officer of the reporting command and assign a Central Robbery Division, Taxi Squad serial number to the complaint. This serial number and the name of the Central Robbery Division, Taxi Squad member will be entered under "Details" of the COMPLAINT REPORT. When preparing the COMPLAINT REPORT WORKSHEET, reporting members will include home and work telephone numbers of the victim. Also include the vehicle's status (i.e. medallion taxi or non-medallion, for-hire vehicle), the presence or lack of a partition between the driver and passenger compartments, the location where the perpetrator was picked up and, if possible, the route traveled.

b. Ensure proper jurisdiction code is indicated.

c. The offense is classified properly.

NOTE: When multiple offenses have occurred, the incident will be classified based upon the "top" (most serious) offense. Generally, the "seven major rule" is applied for serious felonies. This means that a murder/robbery will be classified as Murder; a Forcible Rape/Burglary will be classified as Forcible Rape; etc. based on the hierarchy below. The "seven major rule" order of offenses, starting with the most serious, is as follows:

- (1) Murder and Non-Negligent Manslaughter
- (2) Forcible Rape (Rape 1st degree only)
- (3) Robbery
- (4) Felonious Assault

(5) Burglary

(6) Grand Larceny

(7) Grand Larceny Motor Vehicle (A grand larceny motor vehicle coupled with a grand larceny from the vehicle will be classified as a grand larceny motor vehicle). (The attempt to commit any of the above will be counted as the completed offense, EXCEPT attempted murder which will be counted as felonious assault).

If the reported offenses are not within the "seven major offenses," the incident crime classification will be determined in the order that follows:

(1) Sort by category:

Felony before misdemeanor before violation. Therefore, an incident involving a felony criminal mischief to a motor vehicle with a petit larceny (misdemeanor) theft of property from within the vehicle will be classified as a Felony Criminal Mischief.

(2) Sort by classification:

If all offenses are felonies:

"A" felony before a "B" felony before a "C" felony, etc.

If all offenses are misdemeanors:

"A" misdemeanor before a "B" misdemeanor before an "Unclassified" misdemeanor

(3) Sort by degree

For example, if all offenses are "B" felonies:

"1st degree" before "2nd degree" before "3rd degree"

(4) Sort by Article and Section Number

For example, if all offenses are 2nd degree, "B" felonies, in the Penal Law, select 120.25, before 125.25, before 165.25.

12. Sign COMPLAINT REPORT WORKSHEET and have command clerk enter complaint into the OLCS. The OLCS will automatically assign next complaint number.

COMMAND CLERK

13. Enter information into OLCS from COMPLAINT REPORT WORKSHEET.

DESK OFFICER

14. Carefully examine the completed COMPLAINT REPORT and make certain that necessary captions have been completed. Take corrective action as necessary.

15. Finalize (i.e., sign-off) the COMPLAINT REPORT utilizing the OLCS if REPORT is accurate and complete.

COMMAND CLERK

16. Distribute copies of COMPLAINT REPORT.

a. Attach "ADA Copy" of PROPERTY CLERK INVOICE (PD521-141), if prepared, to copy of COMPLAINT REPORT forwarded for investigation.

b. In cases closed by the reporting member, a copy of the COMPLAINT REPORT will be forwarded to the detective squad.

Investigation Review Section personnel will send a copy of the request to the Parking Violations Bureau and file the other copy. When a reply is received, it will be forwarded to the requesting member in a sealed envelope. The file copy of the request will be removed from the file and destroyed. In an extreme emergency, the Commanding Officer, Investigation Review Section may establish personal liaison with the Parking Violations Bureau to expedite an investigation.

This includes not only Orders of Protection involving persons defined under the family/household - expanded definition, but also all individuals who are either the defendant or petitioner of an Order of Protection from any New York City based court. This new database is designed to verify that an Order of Protection was issued and to provide a copy of the actual order directly at the command level. When a uniformed member of the service has cause to investigate a suspected drug laboratory, an immediate notification will be made to the desk officer, precinct of occurrence. The desk officer will notify the Police Laboratory without delay, requesting a chemist be dispatched to the scene immediately. Certain substances in a laboratory are highly volatile, therefore, ALL members

of the service will follow these safety guidelines:

- a. Ventilate the laboratory by opening doors and windows.
- b. DO NOT turn on lights or use flashlights until the area is well ventilated. If necessary to enter prior to the room being ventilated, a flashlight should be turned on BEFORE entering the area.
- c. DO NOT smoke at the scene.
- d. Use your nose. If vapors are very strong or there is any odor of bitter almonds, remain outside and await arrival of the laboratory chemist.
- e. DO NOT use Department radios while inside the laboratory.
- f. DO NOT disturb flasks or containers that are being heated or cooled. Direct the attention of the chemist to such items.

When a search warrant has been obtained for a suspected drug laboratory, the Police Laboratory will be notified and the chemist will accompany the unit executing the warrant.

THREE CARD MONTE GAMES

Precinct/Transit Bureau/Police Service Area commanders, when conditions warrant, will designate members of their commands assigned to duty in civilian clothes, i.e., conditions, plainclothes, and/or anti-crime units, to respond to complaints of "three card monte" games. The Commanding Officer, Communications Section, will direct that all complaints of "three card monte" games received at 911 be referred by the 911 Operator, directly to the telephone switchboard operator, precinct/transit district/police service area of occurrence. The telephone switchboard operator will enter the information in the TELEPHONE DISPATCH LOG (PD112-143) and notify appropriate personnel at precinct/transit district/police service area concerned.

P.G. 207-09 Follow-Up Investigation Of Complaints Already Recorded

Date Effective: 08-01-13

PURPOSE

To report additional information concerning a previously recorded complaint.

PROCEDURE

Upon receiving additional information concerning a reported complaint after the COMPLAINT REPORT (PD313-152) has been FINALIZED in the OLCS:

MEMBER OF THE SERVICE

1. Prepare COMPLAINT FOLLOW-UP (blue) (PD313-081) ONLY when additional information falls into any of the following categories:

- a. Crime classification change, e.g., assault to homicide.
- b. Information which will amend the previously recorded P.D. code (crime sub-classification), e.g., time of day for a burglary.
- c. Case clearance, i.e., initial arrest only, exceptional clearances, unfounded.
- d. Voiding a complaint after finalization in the OLCS.
- e. Recovered property not previously reported.
- f. Additional stolen property not previously reported.
- g. Serial numbers obtained for property previously reported.
- h. Dead human is identified and property has been invoiced to the Property Clerk or Public Administrator.

NOTE: There is a distinction between voided complaints and unfounded complaints. A voided complaint is one in which the COMPLAINT REPORT should not have been prepared. An unfounded case is one in which the report should have been prepared but subsequent information leads to the determination that the case should be classified as unfounded (e.g., a voided case is one in which a JUVENILE REPORT SYSTEM WORKSHEET (PD377-159A) rather than a COMPLAINT REPORT should have been prepared; an unfounded case is one in which a vehicle is reported stolen by a complainant and later a tow company informs the precinct that the vehicle was legally towed).

As with COMPLAINT REPORTS, proper recording of property values on a COMPLAINT FOLLOW-UP (blue) is essential for accurate entry into the FBI Uniform Crime Reporting (UCR) System. Values must be properly consolidated in the "Value Stolen" and "Value Recovered" columns of the Property Summary Section. In addition, the person preparing the report must examine previous reports related to the complaint (i.e., COMPLAINT REPORT, previously prepared COMPLAINT REPORT FOLLOW-UPS) to ensure that property values are not being reported more than once. Only additional information with respect to property

values are to be recorded. Arrests or other information concerning a complaint received BEFORE the original COMPLAINT REPORT is finalized will be entered on the original COMPLAINT REPORT.

MEMBER OF THE SERVICE

2. Prepare COMPLAINT FOLLOW-UP INFORMATIONAL (pink) (PD313-081A) for information of any other type, e.g., case closed - no results, case progress reports, results of interviews, canvass, additional arrest on a complaint, etc.
3. Notify detective squad concerned, if necessary.
4. Submit COMPLAINT FOLLOW-UP (blue) and/or COMPLAINT FOLLOW-UP INFORMATIONAL (pink) to the desk officer or detective supervisor, as appropriate.

NOTE: Second sheets will be used when space is insufficient for required entries on COMPLAINT FOLLOW-UP or COMPLAINT FOLLOW-UP INFORMATIONAL (see [P.G. 207-01](#), "Complaint Reporting System").

DESK OFFICER/DETECTIVE SUPERVISOR

5. Review for accuracy and sign.

ADDITIONAL DATA

These reports must be forwarded to the appropriate units within 24 hours of preparation.

Desk officers will ensure that the following areas of these reports are appropriately completed:

- * "Jurisdiction" and "Reporting Agency" codes are properly recorded
- * "Complaint Report Number," "Precinct of Report" and "Date of Original Report" are properly recorded
- * "Previous Classification" and "Classification Changed To" captions are properly completed (for COMPLAINT FOLLOW-UP REPORTS only)
- * "Precinct of Arrest" and "Arrest Numbers" captions on a COMPLAINT FOLLOW-UP REPORT are completed if an arrest clearance is requested OR indicated in the "Details" section of a COMPLAINT FOLLOW-UP INFORMATIONAL in cases where an additional arrest(s) is made
- * Property Section is fully completed in lost or stolen property cases. Ensure property values are itemized and consolidated in the "Value Stolen" and the "Value Recovered" columns, as appropriate, in the Property Summary Section (for COMPLAINT FOLLOW-UP REPORTS only)
- * Ensure that the "Details" supplied on the report provides adequate grounds to change the original offense listed in the "Previous Classification" caption (for COMPLAINT FOLLOW-UP REPORTS offense reclassification requests).

The following agencies or commands are required to receive a duplicate copy of a COMPLAINT FOLLOW-UP when reporting additional or recovered property, classification changes, and clearances, when these changes are initiated by this Department. The member of the service preparing the form will enter the

name of the agency or command receiving the duplicate copy under "Additional copy for" and also send the duplicate copy of the report as follows:

MEMBERS OF THE SERVICE WILL NOT, UNDER ANY CIRCUMSTANCES, SIMPLY ATTACH COMPLAINANT'S REPORT OF LOST OR STOLEN PROPERTY/IDENTITY THEFT (or a copy of it) to COMPLAINT FOLLOW-UP and forward to the Data Integrity Unit. The COMPLAINANT'S REPORT OF LOST OR STOLEN PROPERTY/IDENTITY THEFT must be attached to the command's file copy of the COMPLAINT FOLLOW-UP.

Each precinct will maintain a Complaint Reclassification Log to ensure proper and timely documentation of COMPLAINT FOLLOW-UPS involving a change of crime classification. COMPLAINT FOLLOW-UPS of this type prepared by Housing, Transit and investigative commands (e.g. precinct detective squads) will also be entered and verified in the same manner.

ADDITIONAL DATA

If immediate action is indicated on a stolen vehicle complaint, the desk officer will direct the telephone switchboard operator to alert uniformed members of the service on patrol in advance of the alarm being transmitted by the precinct.

All complainants will be required to complete and sign the VEHICLE THEFT PRELIMINARY INVESTIGATION REPORT and VEHICLE THEFT SUPPORTING DEPOSITION when reporting their vehicles stolen.

IF AN ARREST IS EFFECTED WHICH INVOLVES A VEHICLE THAT WAS REPORTED STOLEN WITHIN NEW YORK CITY:

The arresting officer will be required, for affidavit preparation, to make two complainant notification attempts at reasonable intervals. If the arresting officer is unable to notify the complainant, the desk officer concerned will attempt to make a third notification. All notification attempts, dates and

times are to be recorded in the narrative section of the ON LINE BOOKING SYSTEM ARREST WORKSHEET (PD244-159). If unable to notify the complainant, the arresting officer will request the precinct of occurrence (where the vehicle was reported stolen) to fax a copy of the VEHICLE THEFT SUPPORTING DEPOSITION and COMPLAINT REPORT to the precinct of arrest. Upon receipt of the completed VEHICLE THEFT SUPPORTING DEPOSITION and COMPLAINT REPORT, the arresting officer will then fax copies of these forms to the assigned assistant district attorney for affidavit preparation.

In situations where it is not feasible to either transport or meet a complainant at the location of a reported vehicle theft (e.g., when the date of theft and the reporting date may be days or weeks apart) the need for an RMP canvass will be left to the discretion of the desk officer.

A stolen vehicle complaint made in a precinct, which is not the precinct of occurrence, will be accepted and processed as outlined in [P.G. 207-04](#), "Recording Of Complaints Occurring In Another Command." In this instance, the canvass will be completed by personnel assigned to the precinct of record (i.e., the precinct assigning the OLCS complaint number).

The commitment to perform a preliminary canvass/investigation in regards to a past larceny of an auto should not be allowed to negatively impact on patrol strength. The desk officer has the discretion to utilize resources such as SP10, scooter personnel, etc., to complete the canvass/investigation.

a. Efforts made to locate lessee at residence or place of employment

- b. Certified letter mailed to lessee demanding the return of the vehicle

8. Record action taken on COMPLAINT FOLLOW-UP (PD313-081) unless such information is contained on original COMPLAINT REPORT.

ADDITIONAL DATA

In complaints of overdue rental vehicles, all the facts must be examined to determine if a criminal action can be supported. In many instances, the retention of a rental vehicle amounts to a breach of a civil contract ONLY, and the rental agency can seek redress in civil court.

A criminal action involving overdue rental vehicles can be supported ONLY if there is a "GROSS DEVIATION" from the rental agreement and the rental agency concerned has served or attempted service of a "NOTICE," in person or by certified mail, at the address indicated in the rental agreement, stating the time and date the vehicle was to be returned; that the agency does not consent to continued retention of the vehicle by the lessee; and that further retention of the vehicle may constitute a Class "A" Misdemeanor.

A "GROSS DEVIATION" may occur when, but is not limited to, a lessee who has legal custody of a vehicle for fifteen days or less, pursuant to a written rental agreement, intentionally retains such vehicle for at least seven days beyond the expiration date of the rental agreement and continues such possession for more than two days after service or attempted service of the above mentioned "NOTICE" from the rental agency.

d. Fully describe the incident and reconstruct the elements of the offense(s) if any, and in addition, record the following information in the "Details" section of the COMPLAINT REPORT WORKSHEET:

ADDITIONAL DATA

All members of the service are reminded that a clear distinction exists between the "Jurisdiction" code and the "Reporting Agency" code listed on a COMPLAINT REPORT WORKSHEET/COMPLAINT REPORT FOLLOW-UP (PD313-081).

The "Jurisdiction" code refers to the bureau, division or agency having the primary patrol responsibility over the location of occurrence. The Transit Bureau (Jurisdiction code "01") has primary responsibility to patrol the New York City subway, subway stations and elevated train lines and the Transit Bureau District offices only. Accordingly, complaints not under the jurisdiction of the NYPD Transit Bureau shall NOT be classified as "01" (Transit Bureau).

Some stairways, street stairways, passageways and ramps are the property of other transportation facilities such as the LIRR (code "06"), PATH (code "03"), AMTRAK (code "07"), or Metro-North (code "15"). Complaints alleged to have occurred at these locations are considered off the NYC Transit System and the appropriate jurisdiction code MUST be entered by the member of the service preparing a COMPLAINT REPORT WORKSHEET/COMPLAINT REPORT FOLLOW-UP.

The Pattern Identification Module (PIM) Transit Bureau Liaison assigned to each Patrol Services Bureau Borough command will thoroughly review all complaints, regardless of jurisdictional code, to ensure that all transit-related crimes have been reported to the appropriate transit district of record.

The "Reporting Agency" code refers to the specific assignment of the member of the service who is preparing the COMPLAINT REPORT WORKSHEET/COMPLAINT REPORT FOLLOW-UP or who effected the recorded arrest, as follows:

Code "00" NYPD MOS (not assigned to Transit Bureau or Housing Bureau)
Code "01" NYPD Transit Bureau MOS
Code "02" NYPD Housing Bureau MOS
Codes "03 through 15" Other Agency Officers

P.G. 207-33 Recording Enforcement Incidents

Date Effective: 09-06-13

PURPOSE

To clarify the boundaries within which police service area/transit district/precinct commands will record enforcement incidents as being "ON-DEVELOPMENT" or within the jurisdiction of the New York City Housing Authority.

DEFINITIONS

ENFORCEMENT INITIATIVE - For the purpose of this procedure, is considered to be:

- a. A complaint as defined in [P.G. 207-01](#), "Complaint Reporting System," OR
- b. An arrest as defined in [P.G. 208-03](#), "Arrests General Processing," OR

- d. Any situation which requires the preparation of a JUVENILE REPORT SYSTEM WORKSHEET (PD377-159A) or a YOUTH REFERRAL (PD377-153).

ON-DEVELOPMENT - An "enforcement incident" will be classified "ON-DEVELOPMENT" if it occurred at any of the following locations:

MEMBER OF THE SERVICE

1. Ensure that the Housing Authority jurisdiction code "02" is entered, in the appropriate captions on COMPLAINT REPORTS (PD313-152), ON LINE BOOKING SYSTEM ARREST WORKSHEETS (PD244-159), and other appropriate reports prepared, for enforcement incidents occurring on Housing Authority locations.

P.G. 207-34 Complaints Involving Identity Theft

Date Effective: 02-18-14

PURPOSE

To outline the duties and responsibilities of a member of the service when made aware of a complaint involving Identity Theft.

DEFINITION

A person is guilty of Identity Theft when he or she knowingly and with intent to defraud assumes the identity of another person by presenting himself or herself as that other person, or by acting as that other person or by using personal identifying information of that other person and thereby: obtains goods, money, property or services or uses credit in the name of such other person or causes financial loss to such person or to another person (NYS Penal Law 190.77-190.80).

SCOPE

Complaints involving Identity Theft can be complex in nature stemming from a myriad of variables and permutations. The member of the service encountering such a complaint must realize the possibility that such a complaint can potentially encompass numerous crimes. As a result, the Crime Complaint Reporting System Reference Guide (Rev. 6/11) will be used to classify Identity Theft related crimes. Significant clarifications and changes have been made to the Crime Complaint Reporting System Reference Guide to instruct the member of the service in the proper classification of Identity Theft related crimes. It must be noted that the "Seven Major Felony Rule" [P.G. 207-01](#), "Complaint Reporting System" will still be applicable.

PROCEDURE

When a member of the service is made aware of a complaint involving Identity Theft:

MEMBER OF THE SERVICE ASSIGNED

1. Determine whether the complainant is a victim of Identity Theft.
2. Ascertain where the complainant/victim resides (i.e. inside or outside NYC).
3. Instruct and assist the complainant/victim in preparing pages 1 and 2 of the COMPLAINANT'S REPORT OF LOST OR STOLEN PROPERTY/IDENTITY THEFT (PD313-1516) if the complaint meets the criteria outlined in the Crime Complaint Reporting System Reference Guide.
 - a. Ensure complainant signs BOTH waivers on pages 1 and 2.
 - b. If necessary, assist complainant in contacting credit card issuer for required information (e.g. address where card was sent etc.).

NOTE: A refusal by the complainant/victim to prepare or sign the COMPLAINANT'S REPORT OF LOST OR STOLEN PROPERTY/IDENTITY THEFT form does not

preclude the requirement to prepare a COMPLAINT REPORT. Any refusal by the complainant to prepare or sign a COMPLAINANT'S REPORT OF LOST OR STOLEN PROPERTY/IDENTITY THEFT form will be noted in the details section of the COMPLAINT REPORT.

4. Prepare COMPLAINT REPORT (PD313-152).

a. Utilize the Crime Complaint Reporting System Reference Guide as well as the charts on the cover sheet of the COMPLAINANT'S REPORT OF LOST OR STOLEN PROPERTY/IDENTITY THEFT to classify COMPLAINT REPORT.

5. Forward completed COMPLAINT REPORT and COMPLAINANT'S REPORT OF LOST OR STOLEN PROPERTY/IDENTITY THEFT to Desk Officer for review.

DESK OFFICER

6. Review COMPLAINT REPORT and COMPLAINANT'S REPORT OF LOST OR STOLEN PROPERTY/IDENTITY THEFT for accuracy and completeness.

7. Ensure COMPLAINANT'S REPORT OF LOST OR STOLEN PROPERTY/IDENTITY THEFT is attached to precinct file copy of COMPLAINT REPORT.

a. Ensure that copies of the COMPLAINT REPORT and COMPLAINANT'S REPORT OF LOST OR STOLEN PROPERTY/IDENTITY THEFT are forwarded to the precinct detective squad.

8. Refer complainant/victim to the precinct detective squad for further investigation and preparation of IDENTITY THEFT PRELIMINARY INVESTIGATION REPORT (PD313-0847), if detective squad member is available.

9. Ensure notification is made to the Financial Crimes Task Force for complaints involving Identity Theft related larcenies and loss is valued at \$5,000 or more.

a. Ensure time, date, and name of member notified are included in the "Details" section of the COMPLAINT REPORT.

DETECTIVE SQUAD MEMBER

10. Interview complainant and prepare IDENTITY THEFT PRELIMINARY INVESTIGATION REPORT.

11. Review COMPLAINT REPORTS daily for Identity Theft cases and conduct follow-up investigations on all cases not previously referred for investigation.

ADDITIONAL DATA

If a COMPLAINT REPORT was initially taken for lost/stolen property or related offenses (Robbery, Burglary, etc.) and the complainant/victim subsequently becomes a victim of Identity Theft resulting from the initial complaint, the member of the service will prepare a COMPLAINT FOLLOW-UP (PD313-081) or COMPLAINT FOLLOW-UP INFORMATIONAL (PD313-081A), as appropriate, and instruct and assist the complainant/victim in preparing pages 1 and 2 of COMPLAINANT'S REPORT OF LOST OR STOLEN PROPERTY/IDENTITY THEFT. The above will be adhered to only after a thorough investigation reveals a nexus between the initial COMPLAINT REPORT and the complainant consequently becoming a victim of Identity Theft. If this criteria is not met, then a new COMPLAINT REPORT will

be generated for the appropriate crime. If the reporting command is not the command of incident, the Desk Officer will ensure the COMPLAINT FOLLOW-UP or COMPLAINT FOLLOW-UP INFORMATIONAL, and COMPLAINANT'S REPORT OF LOST OR STOLEN PROPERTY/IDENTITY THEFT are forwarded to the originating command of incident.

Financial Crimes Task Force will be responsible for the investigation of all cases involving Identity Theft related larcenies where loss is valued at \$5,000 or more, or there is a pattern involving more than one NYPD precinct, or for any case where the expertise, equipment and resources of the Financial Crimes Task Force are most appropriate to the investigation.

Any questions not specifically answered in the Crime Complaint Reporting System Reference Guide may be directed to the Data Integrity Unit, Deputy Commissioner, Strategic PLanning.

P.G. 207-35 Silver Alert System

Date Effective: 08-01-13

PURPOSE

To provide information to the public in the event a person who is:

- a. Sixty-five years of age or older, and
- b. Meets the additional qualifying criteria of a "vulnerable senior," (i.e. a person sixty-five years of age or older with dementia, as a result of Alzheimer's disease or a similar condition) and,
- c. Is reported missing under circumstances indicating he/she is in imminent danger of serious bodily harm or death.

DEFINITIONS

SILVER ALERT - A communication to the public if identifying information concerning a "vulnerable senior" who is reported missing to the Department or other law enforcement agency under circumstances indicating that the person is in imminent danger of serious bodily harm or death. The determination to activate a Silver Alert shall be made by a captain or above assigned to the Detective Bureau.

VULNERABLE SENIOR - A person sixty-five years or older with dementia, as a result of Alzheimer's disease or a similar condition.

PROCEDURE

When responding to a report of a missing person and information received indicates that the case may qualify for a Silver Alert:

UNIFORMED MEMBER OF THE SERVICE

1. Comply with [P.G. 207-23](#), "Missing Persons" and request the response of the patrol supervisor.
2. Notify desk officer of details.

NOTE: The patrol supervisor will implement missing person/special category procedure as necessary, consistent with all available information.

DESK OFFICER

3. Comply with the duties described in [P.G. 207-23](#), "Missing Persons" and ascertain if incident may fit criteria for activation of a Silver Alert.
4. Request Precinct Detective Squad supervisor and commanding officer/duty captain to respond to the scene.

PRECINCT DETECTIVE SQUAD INVESTIGATOR/SUPERVISOR

5. Conduct a preliminary investigation and ascertain if missing person fits the definition of a "vulnerable senior" and is missing under circumstances

indicating that he/she is in imminent danger of serious bodily harm or death.

a. Notify Detective Zone Commanding Officer/Detective Bureau Duty Captain, if missing person meets the criteria for the activation of a Silver Alert.

b. Request Detective Zone Commanding Officer/Detective Bureau Duty Captain respond to the scene.

NOTE: Only a captain or above from the Detective Bureau may activate a Silver Alert. A Silver Alert will NOT be activated unless the "vulnerable senior" is missing under circumstances indicating that the person is in imminent danger of serious bodily harm or death. A person's status as a vulnerable senior alone is normally insufficient to justify a Silver Alert without additional factors that constitute imminent danger (e.g. severe weather, need for immediate medical attention, history of violent or reckless behavior, etc.).

The Detective Zone Commanding Officer/Detective Bureau Duty Captain may activate a Silver Alert for a person under the age of sixty-five who is reported missing under circumstances indicating that the person is in imminent danger of serious bodily harm or death and where such missing person has dementia as a result of Alzheimer's disease, or similar condition, if he/she reasonably believes a Silver Alert will be beneficial in locating the missing person.

DETECTIVE ZONE COMMANDING OFFICER/DETECTIVE BUREAU DUTY CAPTAIN

6. Confer with Precinct Detective Squad investigator/supervisor, patrol supervisor, commanding officer/duty captain, and other personnel on scene regarding the circumstances of the incident and determine if missing person is a "vulnerable senior" and missing under circumstances indicating the person is in imminent danger of serious bodily harm or death.

7. Notify Operations Unit and request the activation of a Silver Alert, if appropriate and provide the following information:

a. Name, age, and detailed physical description (including clothing worn) of the missing person

b. Location and time last scene

c. Description of motor vehicle, if applicable

d. Any type of prescribed medication

e. Probable destination of the missing, if known

f. Probable method of transportation and routes used, if known

g. The action the public should take if they have information regarding the missing person (e.g., call 911, etc.).

8. Direct Precinct Detective Squad member to:

a. Notify Missing Persons Squad

b. Prepare and submit a "Request for Media Attention" form to the Deputy Commissioner, Public Information along with a recent photograph, if available.

NOTE: There are no minimum time limits that must be observed before requesting the activation of a Silver Alert; however, local law requires a Silver Alert be issued within twenty-four hours of the determination that a "vulnerable senior" has been reported missing under circumstances indicating the he/she is in imminent danger of serious bodily harm or death. In most cases, barring exceptional circumstances, the most prudent approach would be to activate a Silver Alert AFTER patrol/field resources have been exhausted and the preliminary search and investigation have yielded negative results. The decision to activate a Silver Alert rests solely with the Detective Zone Commanding Officer/Detective Bureau Duty Captain.

OPERATIONS UNIT

9. Notify Communications Section and have description of missing person disseminated over each Department radio division.

10. Notify Transit Bureau Wheel (subways) and/or Traffic Operations District (buses), as appropriate, if missing may be traveling via public transportation.

11. Notify Deputy Commissioner, Public Information that a Silver Alert has been activated.

12. Notify Traffic Management Center and request a message regarding the Silver Alert be transmitted via Variable Message Signs if a vehicle description and plate number are available regarding the Silver Alert.

13. Prepare and forward Alert Data based on information received from Detective Zone Commanding Officer/Detective Bureau Duty Captain to Office of Emergency Management (OEM) Watch Command.

a. OEM Watch Command will draft a Public Alert and transmit the draft Public Alert to the Operations Unit for approval.

14. Review and approve Public Alert prepared by OEM Watch Command.

a. If a Public Alert is not approved, notify OEM Watch Command to modify alert and provide correct Alert Data.

15. Notify and forward appropriate Public Alert information to Deputy Commissioner, Public Information, as appropriate.

NOTE: Once the Operations Unit approves the Public Alert, it is the responsibility of the OEM Watch Command to transmit the Public Alert to the responding Department Operations Centers, 311, and NYC.gov for informational purposes. The Watch Command will then transmit the Public Alert to the public via Short Messaging System (SMS), email and recorded phone message.

WHEN A MISSING PERSON WHO IS THE SUBJECT OF A SILVER ALERT IS LOCATED:

UNIFORMED MEMBER OF THE SERVICE

16. Verify that person is the subject of a Silver Alert.

17. Render reasonable aid to missing person and request ambulance or doctor, if necessary, as per [P.G. 216-01](#), "Aided Cases - General Procedure."

18. Request supervisor to respond.

PATROL SUPERVISOR

19. Respond to location and verify individual is in fact the subject of a Silver Alert.

20. Notify desk officer and request appropriate Precinct Detective Squad and Missing Persons Squad be notified.

21. Notify Operations Unit and request the cancellation of the Silver Alert.

OPERATIONS UNIT

22. Notify the following that the subject of the Silver Alert has been located:

- a. OEM Watch Command
- b. Notify Deputy Commissioner, Public Information
- c. Traffic Management Center, if appropriate.

ADDITIONAL DATA

The Office of the Deputy Commissioner, Public Information is available twenty-four hours a day, seven days a week concerning cases NOT ELIGIBLE for Silver Alert or as needed by members of the service. The Office of the Deputy Commissioner, Public Information has the ability to simultaneously notify a variety of local and national media outlets in cases where the immediate assistance of or notification to the public is deemed necessary. P.G. 207-37 Operational Guidelines For Processing Complaints/Arrests For Graffiti

Date Effective: 08-01-13

PURPOSE

To establish procedural guidelines to be followed when processing complaints/arrests for graffiti.

DEFINITION

GRAFFITI OR TAGGING- the etching, painting, covering, or otherwise placing a mark upon public or private property, with the intent to damage such property.

SCOPE

In order to maximize the Department's enforcement efforts in combating graffiti crimes, it is essential that all graffiti related information is properly recorded and documented by uniformed members of the service. Whenever a complaint or arrest report is prepared for a graffiti related incident, it is imperative that the graffiti "TAG" information is entered in the details section of the COMPLAINT REPORT WORKSHEET (PD313-152A) and/or the narrative section of the ON LINE BOOKING SYSTEM ARREST WORKSHEET (PD244-159). This information is crucial for monitoring and tracking graffiti recidivists. It is equally important to notify the Citywide Vandals Task Force whenever an arrest is effected for shoplifting that involves the theft of spray paint or paint markers. This information will allow the Citywide Vandals Task Force to monitor graffiti more effectively.

PROCEDURE

Whenever processing complaints/arrest of graffiti:

UNIFORMED MEMBER OF THE SERVICE

1. Prepare COMPLAINT REPORT WORKSHEET (PD313-152A).

a. When the "TAG" is discernible, list all details and include size, color descriptions, etc. (e.g. At time and place of occurrence, complainant observed the graffiti tag "ABC" written in blue and yellow spray paint on a space approximately 3' X 5' on a roll-down gate at location).

b. Enter "TAG" into Nickname/Alias/Maiden Name box of COMPLAINT REPORT WORKSHEET and ON LINE BOOKING SYSTEM ARREST WORKSHEET.

2. Notify the Citywide Vandals Task Force and provide "TAG" information in all graffiti complaint/arrest cases.

a. Obtain e-mail address for forwarding of digital photographs, if applicable.

NOTE: In instances when the Citywide Vandals Task Force is closed, member concerned or designee will leave a voice mail message and notify the Citywide Vandals Task Force during their next business hours.

When a "TAG" is illegible or cannot be deciphered, do not interpret as to what it may be. Misinformation will only serve to corrupt the citywide vandals database. An unreadable graffiti "TAG" must be recorded as such in the details of the report. This "negative" information can sometimes be beneficial to graffiti investigations. Members of the service are encouraged to contact the Citywide Vandals Task Force regarding any questions relating to graffiti, e.g., identifying a TAG or interpreting a TAG's meaning, etc.

3. Photograph graffiti damage, if possible. (Use digital camera. See steps 8 through 11)

a. If photograph is taken, document on rear of photograph:

(1) Date and time of incident

(2) Complaint Report number

(3) Arresting Officer name, shield, command and arrest number, if an arrest is made.

(4) NYSID #, if available.

4. Forward copy of complaint/arrest report to Citywide Vandals Task Force in next outgoing Department mail.

a. Attach copies of photos taken, if applicable.

5. Query Citywide Vandals Task Force database in all arrest cases to ascertain if subject has prior arrests/convictions for any graffiti related offenses.

NOTE: Conducting routine warrant checks of subjects in the database at the command level is encouraged as a means of discovering and apprehending graffiti offenders with active warrants who resides within the precinct of record.

When an investigation during arrest processing reveals that a graffiti offender has prior arrests/convictions, or is a recidivist for any graffiti-related offense, ensure the prosecuting district attorney is apprised of the subject's prior record.

IF DIGITAL CAMERA IS AVAILABLE

COMMANDING OFFICER

6. Ensure digital camera assigned to command is documented as per A.G. 325-02, "Accounting for Department Property."

SPECIAL OPERATIONS LIEUTENANT

7. Ensure that:

a. Uniformed member of the service has access to the Domestic Violence Office computer terminal to transfer digital graffiti photograph(s).

b. Applicable Kodak software program is pre-loaded into the computer and,

c. All graffiti photographs taken in conjunction with a complaint or arrest ONLY are promptly forwarded to the Citywide Vandals Task Force via e-mail.

d. UMOS documents each e-mail of photographs in Telephone Message Log.

NOTE: It has been determined through the Management Information Systems Division (MISD) that currently only the domestic violence computer terminal in each command has the capability of e-mailing digital photographs through the Group Wise Network.

UNIFORMED MEMBER OF THE SERVICE

8. Connect Universal Serial Bus cable to both the digital camera's and the computer's Universal Port.

9. Follow the instructions depicted on the computer screen which will appear after opening the Kodak software program.

10. Forward digital photos (in conjunction with complaints or arrests only) to the Citywide Vandals Task Force.

11. Provide the following information via e-mail, as applicable, with each photo, or photo series when forwarding to the Citywide Vandals Task Force:

- a. Date and time of incident
- b. Precinct of occurrence/arrest
- c. Exact building address where graffiti is located
- d. Exact location on or within building where graffiti is located
- e. Rank, name, tax number of Arresting Officer or UMOS documenting photographs
- f. Any associated ON LINE BOOKING SYSTEM ARREST and/or COMPLAINT REPORT numbers
- g. Pedigree information of defendants(s)

NOTE: Each digital photo "TAG" forwarded must contain the information as outlined above. In instances where multiple perpetrators are involved, it is imperative to indicated which perpetrator is responsible for creating the "TAG" depicted in the photograph.

MEMBER ASSIGNED, CITYWIDE VANDALS TASK FORCE

12. Query the "On Line Booking and Complaint System" on a weekly basis to ensure graffiti related data is being properly disseminated to the Citywide Vandals Task Force in a timely fashion.

ADDITIONAL DATA

Uniformed members of the service are reminded to use the appropriate subdivisions of the New York City Administrative Code 10-117 or the New York State Penal Law in Article 145 "Criminal Mischief and Related Offenses" in graffiti-related arrests. In circumstances where a Penal Law charge or NYC Administrative Code charge are both applicable, the UMOS will charge the appropriate Penal Law offense.

Digital camera photographs may be utilized by commands to demonstrate progress in correcting graffiti conditions at Community Board Meetings, etc. (i.e. before and after pictures).

ADDITIONAL DATA

OBSERVERS AT THE SCENE OF POLICE INCIDENTS

As a rule, when a police officer stops, detains, or arrests a person in a public area, persons who happen to be in or are attached to the area are naturally in position to and are allowed to observe the police officer's actions. This right to observe is, of course, limited by reasons of safety to all concerned, and as long as there is no substantive violation of law. The following guidelines should be utilized by members of the service whenever the above situation exists:

a. A person remaining in the vicinity of a stop or arrest shall not be subject to arrest for Obstructing Governmental Administration (Penal Law section 195.05), unless the officer has probable cause to believe the person(s) is obstructing governmental administration.

b. None of the following constitutes probable cause for arrest or detention of an onlooker unless the safety of officers or other persons is directly endangered or the officer reasonably believes they are endangered or the law is otherwise violated:

- (1) Speech alone, even though crude and vulgar
- (2) Requesting and making notes of shield numbers or names of members of the service
- (3) Taking photographs, videotapes, or tape recordings
- (4) Remaining in the vicinity of the stop or arrest

c. Whenever an onlooker is arrested or taken into custody, the arresting officer shall request the patrol supervisor to the scene, or if unavailable, report the action to the supervisor where the person is taken.

This procedure is not intended in any manner to limit the authority of the police to establish police lines, e.g., crowd control at scenes of fires, demonstrations, etc.

ARRESTEE SURRENDERS AT LAW ENFORCEMENT FACILITY

When a prisoner has surrendered at a law enforcement facility and is accompanied by an attorney, the uniformed member of the service may request authorization from the immediate supervisor not to use handcuffs, after the supervisor and the member have evaluated the following criteria:

- a. Potential threat to the officer, prisoner, and other persons
- b. Possibility of prisoner escaping.

ARRESTS OF PERSONS WITH DISABILITIES

If the prisoner appears to have a disability, which may affect mobility, speech, hearing, or mental ability, appropriate auxiliary aids to facilitate communication shall be used. In addition, a reasonable attempt shall be made to notify a relative or friend. All such attempts will be documented by the arresting or investigating uniformed member of the service.

As soon as practicable, attempt to discern if person being arrested has a disability which may affect mobility, speech, hearing, or mental ability. Where possible, attempt to notify a family member or friend who may provide beneficial assistance regarding the prisoner's background information, previous problems, pedigree data, etc. The arresting / investigating uniformed member of the service shall document all reasonable attempts to notify a relative or friend.

ARRESTS OF JUVENILES

Arresting officers must call the Juvenile Desk prior to beginning the arrest process to ensure that any intelligence regarding the juvenile is obtained before the decision whether to release the juvenile to a parent / guardian or adult relative is made. The Juvenile Desk has specialized databases that can provide vital background information on arrested / detained juveniles and those adults taking custody of a juvenile upon recognizance or release.

In all cases in which a youth is arrested and charged with a violent felony, the precinct detective squad / BRAM will be directed to enhance the arrest. It will also be the responsibility of the precinct detective squad / BRAM to identify, locate, and apprehend any accomplices in gun-related cases or acts of youth violence and attempt to match them to other outstanding crimes. These units will also attempt to identify and apprehend those selling guns to minors.

ARRESTS OF LIMITED ENGLISH PROFICIENT OR HEARING IMPAIRED PERSONS

If the prisoner and/or the parents/guardians of a juvenile in custody appear to have difficulty understanding/communicating in English, the member of the service concerned should comply with [P.G. 212-90](#), "Guidelines for Interaction with Limited English Proficient (LEP) Persons." If the prisoner and/or the parents/ guardians of a juvenile in custody appear to be hearing impaired, the member of the service concerned should comply with [P.G. 212-104](#), "Interaction with Hearing Impaired Persons." The use of a bilingual employee or the Language Initiative Program is the preferential method of interpretation when interacting with a prisoner. It is recommended that certified members of the Language Initiative Program be used for custodial interrogations. Appropriate Command Log entries will be made when interpretation services are utilized.

ARRESTS FOR PUBLIC DISPLAY OF MARIHUANA

To support a charge of Penal Law section 221.10(1), Criminal Possession of Marihuana in the Fifth Degree, the public display of marihuana must be an activity undertaken of the subject's own volition in a public place. Thus, uniformed members of the service lawfully exercising their police powers during a stop may not charge the individual with Penal Law section 221.10(1) if the marihuana recovered was disclosed to public view at an officer's direction.

A "public place" is defined in Penal Law section 240.00 as "any place to which the public or a substantial group of persons has access, and includes, but is not limited to, highways, transportation facilities, schools, places of amusement, parks, playgrounds, and hallways, lobbies, and other portions or apartment houses and hotels not constituting rooms or apartments designed for actual residences."

The desk officer in the facility where the arrest is being processed will question arresting officers on all Criminal Possession of Marihuana in the Fifth Degree arrests to determine if the arrest was made in conformance with Operations Order 49, series 2011, entitled "Charging Standards for Possession of Marihuana in a Public Place Open to Public View" and make a Command Log entry of results. This questioning will occur regardless of the command of the officer making the arrest (e.g., patrol borough task force, Narcotics Division). In addition, the Quality Assurance Division will incorporate an inspection of Command Logs during the command audit cycle to ensure desk officers are making Command Log entries as required.

AVAILABILITY OF PHOTO COPYING MACHINES

To facilitate the duplicating of forms required in step "27", commanding officers will make photo copying machines accessible to arresting officers at all times. In those instances where snap-out forms have the District Attorney or Corporation Counsel as a recipient of a copy of that form, a photocopy is not necessary. The District Attorney/Corporation Counsel copy of the form will

be delivered to the desk officer. In arrests involving multiple COMPLAINT REPORTS or AIDED REPORT WORKSHEETS, a copy of each report will be required. Separate forms with identical information are not required for multiple arrests with a single complainant or a single AIDED REPORT WORKSHEET.

UNDER NO CIRCUMSTANCES WILL ARREST PROCESSING BE UNNECESSARILY DELAYED TO OBTAIN THE DOCUMENTS REQUIRED UNDER STEP "27".

ARREST REPORT PEDIGREE

For booking purposes, a member of the service shall write an arrestee's name and gender as it appears on a driver's license, permit, or non-driver photo identification. If the arrestee uses a Preferred Name, that name shall be listed in the:

- a. "Preferred Name" section of the PRISONER PEDIGREE CARD (PD244- 092)
- b. Next to defendant's name on the Prisoner Movement Slip, prefaced by "Preferred Name:"
- c. "Nickname/Alias/ Maiden Name" section of the ON-LINE BOOKING SYSTEM ARREST WORKSHEET, prefaced by "P-".

Consistent with [P.G. 203-10](#), "Public Contact - Prohibited Conduct", subdivision "a" following step "1", regardless of whether the name on the arrestee's identification coincides with the arrestee's gender identity, the member of the service shall refer to the arrestee by the preferred name, if any, as requested. The member shall use the pronouns consistent with that name in addressing or referring to the arrestee.

ARRESTS BY DEPARTMENT OF ENVIRONMENTAL PROTECTION POLICE

When assisting a Department of Environmental Protection (DEP) police officer during arrest processing, arrest processing officers and desk officers will continue to be guided by the following Patrol Guide provisions: [P.G. 208-02](#), "Arrests - Removal to Department Facility for Processing", [P.G. 208-03](#), "Arrests - General Processing", [P.G. 208-15](#), "Arrest Report Preparation at Stationhouse" and [P.G. 210-03](#), "Hospitalized Prisoners - Arrests by Members of Other Police Agencies."

DEP police personnel will normally be responsible for transporting their own officers and prisoners to the borough Court Section. However, when circumstances permit, the desk officer may direct precinct personnel responding to the borough Court Section facility to also transport the DEP police officer and his / her prisoner. In all other cases, the DEP arresting officer will report to the Complaint Room for affidavit preparation.

P.G. 208-05 Arrests - General Search Guidelines

Date Effective: 08/01/13

ARRESTING OFFICER

1. Comply with the provisions of [P.G. 208-02](#), "Arrests-Removal to Department Facility for Processing," [P.G. 208-03](#), "Arrests-General Processing," [P.G. 208-15](#), "Arrests Report Preparation at Stationhouse" and the following:

SEARCH OF ARRESTED PERSONS

To maximize security and minimize potential hazards to the arresting officer, the arrested person, and other Department personnel, the following guidelines are published for the information of all members of the service:

A. FRISK/FIELD SEARCH

(1) A frisk, performed primarily to ensure the personal safety of the arresting officer, is a methodical external body examination of the arrested person conducted immediately after apprehension to find weapons, evidence, or contraband. The frisk should be conducted before or immediately after the subject is rear handcuffed, depending upon particular circumstances, temperament of the subject, and escape potential. A thorough external body examination is made by sliding the hand over the subject's body, feeling for weapons or other objects, with special attention to the waistband, armpit, collar, and groin areas. If an unusual object is detected, the officer will reach into or under the clothing to remove it.

B. SEARCH AT POLICE FACILITY

(1) Upon arrival at precinct of arrest or other Department facility, the arresting officer (if he/she is of the same gender as prisoner) or another designated member of the same gender as the prisoner, shall conduct a thorough search of the prisoner's person and clothing to ensure the safety of all persons within the facility and to remove weapons, contraband, and evidence not discovered by the frisk. Other items lawfully carried but that are dangerous to life, may facilitate escape, or may be used to damage Department property will also be removed from the subject.

(2) A search at a police facility, which is not the same as a "strip search," includes the removal of outer garments such as overcoats, jackets, sweaters, vests, hats, wigs, ties, belts, shoes and socks, handbags, and wallets. All pockets are to be emptied and all clothing not removed will be examined by grabbing, crushing, and squeezing the garments and by sliding the hands across the body to detect articles that may be underneath or sewn to the clothing.

(3) In order to achieve a balance between the privacy and personal dignity concerns of arrestees, the desk officer or supervisor supervising a search at a police facility shall assign a uniformed member to conduct the search as follows:

a. In situations where an arrestee's gender is not immediately apparent or an arrestee objects to the gender of the member assigned to perform the search, the desk officer or supervisor supervising the search will assign a

uniformed member of the gender requested by the arrestee, consistent with officer safety and resource availability. Consistent with the privacy concerns of the arrestee, only those officers reasonably necessary to conduct the search should be present for the search.

b. Under no circumstances shall members of the service conduct searches for the purpose of determining gender. Additionally, officers shall not ask questions about an arrestee's anatomy without a reasonable basis for doing so. Refer to [P.G. 203-10](#), "Public Contact - Prohibited Conduct."

NOTE: In the event the gender of the officer assigned to conduct the search differs from the gender requested by the arrestee, the desk officer or supervisor supervising the search shall make a detailed entry in the Command Log regarding the factors considered in assigning member(s) to conduct the search and identities of the uniformed member(s) who actually conducts the search.

C. STRIP SEARCH

(1) A strip search is any search in which an individual's undergarments (e.g., bra, underwear, etc.) and/or private areas are exposed or in which an individual's clothing is removed, lifted up, or pulled down to expose undergarments or private areas. A strip search of a prisoner may not be conducted routinely in connection with an arrest. Strip searches may only be conducted with the knowledge and approval of the arresting officer's immediate supervisor or the borough Court Section supervisor. A strip search may only be conducted when the arresting officer reasonably suspects that weapons, contraband or evidence may be concealed upon the person or in the clothing in such a manner that they may not be discovered by the previous search methods.

NOTE: If a strip search is conducted, such information will be entered in the Command Log, arresting officer's ACTIVITY LOG (PD112-145), and also documented on the ON-LINE BOOKING SYSTEM ARREST WORKSHEET (PD244-159) or the ARREST REPORT SUPPLEMENT (PD244-157). A subsequent strip search will not be conducted unless there is reasonable belief that the subject has acquired a weapon or contraband.

(2) The arresting officer requesting authorization to conduct a strip search must describe the factual basis for the request to the officer's immediate supervisor/ borough Court Section supervisor. A supervisor will authorize a strip search only when an arresting officer has articulated a reasonable suspicion that the individual is concealing evidence, contraband, or a weapon. Note, this is a different standard than the probable cause required for the arrest. The immediate supervisor of the arresting officer/borough Court Section supervisor, based on the facts presented, will determine if a strip search should be conducted. The supervisor authorizing the strip search is responsible for ensuring the search is conducted properly.

(3) Other factors that should be considered in determining whether an appropriate basis exists for a strip search include the nature of the crime (i.e., serious violent felony), arrest circumstances, subject's reputation (i.e., extremely violent person), acts of violence, unaccounted "hits" on magnetometers or walk-through metal detectors, and any discoveries or information from previous searches of the same individual or others arrested with him/her.

NOTE: In cases where there is a disagreement between the desk officer and an arresting officer's immediate supervisor from an outside command as to whether

or not to conduct the strip search, the desk officer will notify the precinct/police service area/transit district commanding officer or duty captain. The precinct/police service area/transit district commanding officer or duty captain will make the final decision whether or not to conduct the strip search.

(4) A strip search shall be conducted only by a member of the same gender as the arrested person, in a secure area, in utmost privacy, and in the presence of only those members of the service reasonably necessary to conduct the search. In order to achieve a balance between the privacy and personal dignity concerns of arrestees, the desk officer or supervisor supervising a strip search shall assign a uniformed member to conduct the search as follows:

a. In situations where an arrestee's gender is not immediately apparent or an arrestee objects to the gender of the member assigned to perform the search, the desk officer or supervisor supervising the search will assign a uniformed member of the gender requested by the arrests, consistent with officer safety and resource availability.

b. Under no circumstances shall members of the service conduct searches for the purpose of determining gender. Additionally, officers shall not ask questions about an arrestee's anatomy without reasonable basis for doing so. Refer to [P.G. 203-10](#), "Public Contact - Prohibited Conduct."

NOTE: In the event the gender of the officer assigned to conduct the search differs from the gender requested by the arrestee, the desk officer or supervisor supervising the search shall make a detailed entry in the Command Log regarding the factors considered in assigning member(s) to conduct the search and identities of the uniformed member(s) who actually conducts the search.

It should not be necessary to touch the subject's body, except for the examination of the hair. UNDER NO CONDITIONS SHALL A BODY CAVITY SEARCH BE CONDUCTED BY ANY MEMBER OF THE SERVICE. If pursuant to a strip search, any object or foreign material is visually detected within any body cavity of the suspect, the desk officer will be notified immediately. The object WILL NOT be removed without first obtaining a search warrant. Once the search warrant is obtained, members of the service must seek the assistance of a medical professional in order to remove the object.

(5) A strip search will not be conducted after a decision is made to void an arrest or to release the prisoner immediately upon issuance of a summons.

ARRESTING OFFICER

Comply with the provisions of [P.G. 208-02](#), "Arrests-Removal To Department Facility For Processing", [P.G. 208-03](#), "Arrests-General Processing", [P.G. 208-15](#), "Arrest Report Preparation At Stationhouse", and the following:

TRANSPORTING PRISONERS IN DEPARTMENT VEHICLES

ARRESTING/ESCORTING OFFICER

When a prisoner is transported in a Department vehicle, the prisoner will be rear handcuffed, placed in the rear seat and secured with a seat belt on. Seat belts will be used to secure prisoners, when practical, in non-emergency situations. In Department vehicles equipped with a fiberglass partition, both the operator and recorder will ride in the front seat. If the Department vehicle is not equipped with a fiberglass partition, the recorder will ride in the rear seat, directly behind the operator, with the prisoner seated on the passenger side of the vehicle. Transporting members will ensure that:

- a. The handcuffs are double locked.
- b. The prisoner is placed in a position in the rear seat to allow the recorder to visually monitor the prisoner during transport.
- c. The rear compartment of Department vehicle is examined before and after prisoner transport.
- d. All personal property (e.g., flashlights, batons, briefcases, etc.) is removed prior to placing the prisoner inside the Department vehicle.
- e. When the seat belt is being secured on the prisoner by a member, the other member will remain on the opposite side of the RMP with the rear door open to be tactically able to assist in the event of an unforeseen occurrence.

Prisoners will be transported in an RMP equipped with a safety partition whenever available. In all cases, prisoner (s) will be kept under observation at all times and both the operator and recorder will be physically present at the embarkment/disembarkment point of the vehicle to supervise prisoner entry and exit.

NOTE: Whenever it is necessary to transport/secure prisoners in a marked or unmarked RMP and the vehicle has child safety locks on the rear door, these locks will be engaged. Most passenger vehicles are equipped with child safety locks which, when engaged, will prevent the opening of the rear door from inside the vehicle.

The child safety locks are engaged through the operation of a switch located in the doorjamb area of each rear door. On Ford Crown Victoria vehicles, the switch must be slid to the "Lock On" position. On Chevrolet Impala vehicles, a key or similar device must be inserted into an opening in the doorjamb to move the switch upward. For further clarification or for directions for other passenger vehicles, the respective owner's manual should be reviewed. It is

important to note that when child safety locks are engaged, the doors are operable only from the outside; however, a passenger can reach outside the vehicle through an open window and operate the door. It is further recommended that the child safety locks be disengaged when transporting members of the service.

TRANSPORTING PRISONERS IN TWELVE PASSENGER VANS

The transportation of prisoners in a twelve passenger van or similar vehicle will be avoided whenever a RMP with a safety partition is available.

When it is necessary to utilize a twelve passenger van to transport prisoner (s), the prisoner (s) will be rear handcuffed with handcuffs double locked. The prisoner(s) will be secured on the second bench seat utilizing the seatbelts. The recorder will ride on the 1st bench seat. Normally, no more than three prisoners should be transported at one time (see ADDITIONAL DATA graphic for Seating Plan.)

Select twelve passenger vans are equipped with an electric rear door lock. This lock will be engaged when prisoners are secured in the vehicle.

When it is necessary to utilize a twelve passenger van to transport more than three prisoners, e.g. transporting prisoners from a precinct to court, in addition to the procedures outlined above, leg restraints will be utilized, if available. When members of the service are utilizing leg restraints, the use of transport chains may not be necessary and will not be mandated as in Patrol Guide procedure 210-01, "Prisoners General Procedure." If transport chains are not utilized, prisoners will be rear handcuffed and handcuffs double locked. No more than seven prisoners will be transported in this manner and the prisoners will be secured on the 2nd and 3rd bench seats. The recorder and additional escort officer(s), if assigned, will ride in the 1st bench seat (see ADDITIONAL DATA graphic for Seating Plan.)

When utilizing a twelve passenger van to transport/secure prisoners during SNEU operations, or any other operation where the prisoner (s) may spend protracted periods of time in the van, all of the above security devices will be utilized, i.e. handcuffs, leg restraints, door locks, seatbelts, etc., when available. Prisoners should not be kept in vans for excessive periods of time.

In all cases, the prisoner(s) will be kept under observation at all times and both the operator and recorder will be physically present at the embarkment/disembarkment point of the vehicle to supervise prisoner entry and exit. Whenever prisoners wearing leg restraints are being transported in twelve passenger vans, members of the service will take care to ensure that the prisoners enter and exit the van safely. Because of the height of the vans, and the fact that prisoners wearing leg restraints will generally be rear handcuffed and may have greater difficulty in breaking their fall should they slip, officers will assist prisoners into and out of the vans.

DELIVERING PRISONERS TO DETENTION FACILITY OR PRE-ARRAIGNMENT

Arresting/escorting officers shall notify attendants or Correction Department personnel if prisoner(s) offered resistance, exhibited other threatening or dangerous behavior, attempted suicide or escape. Such notification and behavior will be recorded in the member's ACTIVITY LOG (PD112-145) and noted on the Prisoner Movement Slip, in the "Detention Alert" section.

Leg restraints MUST be used when transporting a prisoner that has refused to

be fingerprinted and for ALL prisoners being transported to a hospital for medical treatment. If the desk officer determines that extenuating circumstances exist that preclude placing leg restraints on a prisoner that has refused to be fingerprinted or is being transported to a hospital for medical treatment, a command log entry will be made detailing the reason why. The use of leg restraints does not replace the requirement to rear handcuff the prisoner. All procedures detailing the use of handcuffs remain in effect. When using leg restraints on a prisoner, the escorting officer is to exercise caution to prevent the prisoner from falling.

Whenever an arresting officer/investigator becomes aware of the need to separate two or more defendants from one another due to threats made by one defendant to another, or due to the potential for one defendant to assault another, a notation will be made at the bottom of each defendant's Prisoner Movement Slip in the "Detention Alert" section under the caption "Other (Explain)." The notation must contain the name and arrest number of the other defendant involved, as well as an indication as to why separation is deemed necessary (e.g., prisoner had a fight with the other prisoner; prisoner was threatened by other prisoner, etc.). If separation is required for confidential or sensitive reasons, such as one prisoner testified against another, enter the name and telephone number of the arresting officer/investigator so that further information can be obtained if necessary, rather than entering the actual reason for the separation. (If detention personnel are unable to contact the arresting officer/investigator for further information, they will continue to keep the affected prisoners separated from one another).

In the event that an arrest processing officer or escorting officer becomes aware that a conflict exists between prisoners requiring their separation, the officer must:

- a. Inform the arresting officer/investigator of the circumstances in order that the latter may make entries on the Prisoner Movement Slips, OR

- b. Personally make entries on the Prisoner Movement Slips which should then be brought to the attention of the Court Section personnel for entry on the courthouse generated movement slips.

The information entered on the Prisoner Movement Slip prepared at the precinct must also be entered on the computerized movement slip generated at the courthouse when the prisoner is photographed. In addition to the notation on the movement slip, the arresting officer/investigator/escorting officer will notify the concerned borough court section supervisor.

Members of the service assigned to prisoner detention functions at the precinct and at the courthouse must examine and be guided by the information contained in the "Detention Alert" caption on each Prisoner Movement Slip regarding separating prisoners, etc.

Department policy prohibits the carrying of firearms within detention facilities. Therefore, when delivering prisoners for pre-arraignment processing, arresting/transporting officers must:

- a. Respond to the appropriate borough court section intake area with required arrest related documents, and enter with prisoner(s) to be processed.

- b. Upon entering facility, immediately secure firearms in designated Department locker as directed by assigned Department personnel.

c. Upon completion of police duties within the detention facility, the uniformed member will retrieve the firearm from the location where it was secured prior to leaving the facility.

When delivering prisoners to the Manhattan Court Section at the rear of 100 Centre Street, uniformed members of the service are to secure their firearms in the Department of Correction security booth located in the intake sally port area.

The court section locations are as follows:

MANHATTAN COURT SECTION - Rear of 100 Centre Street (at Baxter Street)

MIDTOWN COMMUNITY COURT - 314 West 54th Street (Midtown North Pct.)

BROOKLYN COURT SECTION - Rear of 120 Schermerhorn Street (State St.)

QUEENS COURT SECTION - 125-01 Queens Boulevard

BRONX COURT SECTION - 215 East 161st Street

STATEN ISLAND COURT SECTION - 78 Richmond Terrace (120th Pct. 2nd Fl.)

Uniformed members of the service at the scene of an incident at which a prisoner is acting in a deranged, erratic manner apparently caused by a drug overdose, i.e., cocaine psychosis, angel dust, heroin overdose, etc., will request the response of the supervisor on patrol, if an ambulance is not immediately available. The supervisor will determine if prisoner should be removed to the appropriate hospital by utilizing a Department vehicle or await the arrival of an ambulance. The prisoner is not to be brought to a police facility.

Cocaine induced psychosis or other illegal drug usage may cause violent behavior which may be a means of self-defense against imagined persecutors. In addition to paranoia, the individual may experience visual, auditory, or tactile (e.g., bugs crawling under the skin, etc.), hallucinations, high body temperature and seizures. Since sudden death may ensue, uniformed members of the service are reminded to have such person brought to an appropriate hospital facility and NOT TO A POLICE FACILITY.

Absent unusual circumstances, and when an unoccupied detention cell is available, prisoners who are being processed and require the use of toilet facilities will utilize those located within precinct detention cells. Detention cell facilities chosen must be fully operational (e.g., toilets, alarm and cell lock in working condition). Prisoners will be escorted by a uniformed member of the service of the same sex. All Department directives relative to prisoner security guidelines remain in effect.

P.G. 208-09 Rights Of Persons Taken Into Custody

Date Effective: 08/01/13

PURPOSE

To advise persons taken into custody of their constitutional rights.

PROCEDURE

Prior to questioning a person taken into custody:

UNIFORMED MEMBER OF THE SERVICE

1. Inform such person of the following constitutional rights (Miranda Warnings):

a. You have the right to remain silent and refuse to answer any questions. Do you understand?

b. Anything you say may be used against you in a court of law. Do you understand?

c. You have the right to consult an attorney before speaking to the police and to have an attorney present during any questioning now or in the future. Do you understand?

d. If you cannot afford an attorney, one will be provided for you without cost. Do you understand?

e. If you do not have an attorney available, you have the right to remain silent until you have an opportunity to consult one. Do you understand?

f. Now that I have advised you of your rights, are you willing to answer questions?

2. Explain any portion of the rights that the person in custody does not understand.

[I.O. 32 s 11] a. If the person in custody and/or the parents/guardians of a juvenile in custody appear to have difficulty understanding/ communicating in English, the member of the service concerned should comply with [P.G. 212-90](#), "Guidelines for Interaction with Limited English Proficient (LEP) Persons." If the prisoner and/or the parents/guardians of a juvenile in custody appear to be hearing impaired, the member of the service concerned should comply with [P.G. 212-104](#), "Interaction with Hearing Impaired Persons." The use of a bilingual employee or the Language Initiative Program is the preferential method for interpretation when interacting with a prisoner. It is recommended that certified members of the Language Initiative Program be used for custodial interrogations. Appropriate command log entries will be made when interpretation services are utilized.

3. Cease interrogation if subject wants an attorney or wishes to remain silent.

4. Contact attorney for person in custody.

[I.O. 34 s 08] NOTE: Before questioning juveniles, both the juvenile and the parent/guardian must be read Miranda warnings by utilizing MIRANDA WARNINGS FOR JUVENILE INTERROGATIONS (PD244- 1413). The juvenile may be questioned if he/she waives these rights in the presence of the parent/guardian. The parent/guardian does not have to separately waive the rights; they only need to be advised of such rights. If, however, the parent/guardian objects to the questioning or requests an attorney for the juvenile, no questioning should occur, even if the juvenile is willing to answer questions.

DESK OFFICER/SUPERVISOR CONCERNED

5. Inform prisoner of presence of attorney and ask if he wants to see the attorney.

NOTE: If an attorney states that he represents a prisoner but does not know the identity of the prisoner, he will not be permitted to interview him.

6. Permit interview to be conducted in muster room for a reasonable time.

7. Assign uniformed member of the service to keep prisoner and attorney under continuous observation at all times. Ensure that no objects are passed between the prisoner and the attorney.

8. Enter under "Details" of the ON LINE BOOKING SYSTEM ARREST WORKSHEET (PD244-159):

a. Name, address and phone number of attorney and identity of person who retained him

DESK OFFICER/SUPERVISOR CONCERNED

9. Notify the desk officer of precinct of arrest giving required information.

10. Make a Command Log entry of interview and notification.

11. Record information in the ON LINE BOOKING SYSTEM ARREST WORKSHEET or ARREST REPORT - SUPPLEMENT (PD244-157).

IF A REQUEST IS RECEIVED FROM AN ATTORNEY SEEKING THE LOCATION OF A CLIENT WHO HAS BEEN ARRESTED AND IS IN CUSTODY OF THIS DEPARTMENT

MEMBER OF THE SERVICE CONCERNED

12. Record contents of message in Telephone Record including:

a. Time, name, address and phone number of attorney, name of person arrested, and any other facts which may assist in locating prisoner.

DESK OFFICER/SUPERVISOR CONCERNED

14. Determine if prisoner is detained in stationhouse/Department facility.

15. Direct interrogating officers concerned to cease interrogation and permit prisoner to contact attorney, if prisoner is located in precinct/ Department facility.

NOTE: A uniformed member of the service who has information concerning the whereabouts of the prisoner will communicate with the desk officer (or counterpart) of his command. The desk officer will notify the originator of the FINEST message. P.G. 208-10 Alternate Procedure For Arrest Number Generation As A Result Of Computer Failure

Date Effective: 08/01/13

PURPOSE

To set guidelines for arrest number generation when computer system (On Line Booking System) becomes disabled.

PROCEDURE

When the On Line Booking System becomes disabled, uniformed members of the service assigned to commands participating in "local arrest processing" that require an arrest number will:

NOTE: Commands that currently issue arrest numbers for DESK APPEARANCE TICKETS (PD260-121) will not follow this procedure. Instead, arrest numbers for DESK APPEARANCE TICKETS will be issued by commands concerned when On Line Booking System becomes operational.

DESK OFFICER/SUPERVISOR

1. Direct member of the service assigned to input arrest data entries (PF1/PF3), if the On Line Booking System becomes disabled in a command's computer at any time, to:
 - a. Immediately notify the Management Information Systems Division, Help Desk, at (212) 374-3800, to attempt to correct problem.
2. Ascertain from member assigned to Management Information Systems Division, Help Desk, when problem is not correctable:
 - a. If problem is limited to the command or is citywide, AND
 - b. Anticipated period of time that the On Line Booking System will be disabled.

IF ON LINE BOOKING SYSTEM IS DOWN IN COMMAND OF ARREST ONLY:

DESK OFFICER/SUPERVISOR

3. Instruct member assigned to input arrest data to have arrest number generated, via landline, by an adjoining precinct whose system is operational.
 - a. Continue to follow command's current "local arrest processing" procedures.

IF ON LINE BOOKING SYSTEM IS DOWN CITYWIDE:

DESK OFFICER/SUPERVISOR

4. Contact supervisor at borough central booking facility concerned.

IF M.I.S.D. INDICATES THAT THE ON LINE BOOKING SYSTEM IS DOWN CITYWIDE AND RESTORATION OF THE SYSTEM IS NOT IMMINENT:

BOROUGH COURT SECTION SUPERVISOR

5. Institute manual arrest processing mode, which includes:

a. Issuance of arrest numbers from an "arrest log" book to arresting/assigned uniformed members of the service via landline.

NOTE: These arrest numbers are identified as a two hundred thousand (200,000) series, i.e., M97200001.

b. Have notifications made to Division of Criminal Justice Services (DCJS) in Albany to determine next sequential Fax number.

NOTE: Completed Fingerprint Charts are to be issued sequential Fax control numbers indicated by DCJS and sent to Albany for processing.

DESK OFFICER/SUPERVISOR

6. Have information requested on required Fingerprint Charts neatly printed by arresting/assigned uniformed member of the service.

7. Have copy of ON LINE BOOKING SYSTEM ARREST WORK-SHEET (PD244-159) (complete with issued manual arrest number), all completed Fingerprint Charts, Prisoner Movement Slip (Misc. 2011A) and prisoner delivered, without delay, by other than arresting officer, to appropriate facility (e.g., Midtown Community Court, 25th Precinct Hub-Site, etc.,) as indicated in current local arrest processing procedures.

NOTE: Arresting/assigned uniformed members will remain at command and continue to process arrest for affidavit preparation as set forth by existing local arrest processing procedures. Fingerprint charts must be delivered within three hours of arrest.

ADDITIONAL DATA

Precincts of arrest are responsible for back data entry once On Line Booking System comes back on-line. Therefore, a copy of the ON LINE BOOKING SYSTEM ARREST WORKSHEET will be retained and kept available at the desk for entry of arrest data (PF9/PF3), when On Line Booking System becomes operational.

"PF9" data entry is identical to "PF1" but forces On Line Booking System to accept previously issued manual arrest number in lieu of computer generated arrest number.

P.G. 208-11 Arrest Processing-"Livescan" Fingerprinting And Palmprinting

Date Effective: 08/01/13

PURPOSE

To set forth guidelines for the utilization of the "LIVESCAN" computer fingerprinting and palmprinting.

PROCEDURE

In all arrests situations whenever a prisoner is required to be fingerprinted and palmprinted, except bedside arraignment of a hospitalized prisoner, or a hospitalized prisoner who may be eligible for a Desk Appearance Ticket, utilize the "LIVESCAN: computer fingerprinting and palmprinting system and:

NOTE: To maintain a high quality of fingerprints and palmprints, operation of the "LIVESCAN" machine should be performed by the command's designated arrest processing officer, if applicable, or a member of the service appropriately trained to operate the machine. Also, appropriately trained investigators of the NYS Attorney General's Office will be permitted to use the LIVESCAN machine.

ARREST PROCESSING OFFICER/DESIGNATED MEMBER

1. Generate arrest number through the On Line Booking System (OLBS).

a. Ensure proper "ARREST PROCESSING TYPE" code is entered during On Line Booking System data entry.

2. Record the check digit that appears on the On Line Booking System terminal screen at the completion of the PF-3 data entries, onto the top right corner of the ON LINE BOOKING SYSTEM ARREST WORK SHEET (PD244-159).

a. Retrieve the arrest's check digit through the "BADs" computer system if the check digit was not recorded.

NOTE: The check digit is necessary for operation of the "LIVESCAN" computerized fingerprinting system and subsequent transmission of fingerprints/palmprints.

3. Immediately proceed to begin fingerprinting and palmprinting upon completion of On Line Booking System data entries (PF1/PF3), utilizing "LIVESCAN" machine as follows:

a. Ensure both the prisoner's hands and the scanner platens of the "LIVESCAN" machine are clean and dry.

(1) Use "Pre-Scan Pad" to moisten prisoner's fingers and palms, if excessively dry.

b. Enter arrest number with check digit into "LIVESCAN" computer.

NOTE: Once arrest number (with check digit) is entered into the "LIVESCAN" computer, all pertinent arrest information is automatically downloaded to the

"LIVESCAN" computer from original On Line Booking System data entries. If this information is not transferred to "LIVESCAN," information must be re-sent through "BADs" as follows:

- Select #1, "ARREST REPORT PRINTOUTS," from "BADs" main menu.
- Enter arrest number, when prompted.
- Move cursor to caption, "LIVESCAN RESEND," and mark field with an "X" and enter. (Message at bottom of screen will read, " RECORD HAS BEEN TRANSFERRED FOR LIVESCAN.")
- Return to "LIVESCAN" machine and restart process.

c. Fingerprint plain (flat) impressions of the four fingers minus the thumb on large scanner platen and the thumbs on the small scanner platen and press "SCAN."

(1) The four fingers of each hand must be placed on an angle on scanner platen, with special attention to the pinky finger.

(2) Press "SAVE," after plain impression has been completed and hand is removed from scanner platen.

d. Fingerprint individual fingers on small scanner platen centering the core of each finger on the cross lines indicated on the left screen of the "LIVESCAN" machine.

(1) Ensure proper sequence as indicated by left screen prompts.

(2) Roll each finger to one side as indicated by direction arrows on "LIVESCAN" machine and press "SCAN."

(a) INDIVIDUAL FINGERS MUST BE ROLLED.

(3) Press "SAVE," after roll has been completed and finger is removed from scanner platen, if image is acceptable.

(a) Press "SCAN" which erases former image, if image is unacceptable, and print finger again.

e. Palmprint palms (2) and writer's palms on large platen and press "SCAN".

NOTE: Appropriate notations must be entered in "LIVESCAN" computer when fingers or palms are unable to be adequately printed for any reason, (i.e., "MISS," "AMP," "INJ," "SCAR," etc.). This information is to be entered in designated fingerprint box. UNDER NO CIRCUMSTANCES IS A FINGERPRINT BOX TO BE LEFT BLANK.

4. Check transmit queue of "LIVESCAN" computer to ascertain if prints are being transmitted, when completed.

a. The "ACTIVITY LOG" function displays a list of records transmitted for the previous seventy-two hours.

NOTE: Complete "LIVESCAN" processing of a prisoner should not exceed three hours from the time of arrest, unless exigent circumstances exist.

DESK OFFICER/SUPERVISOR, ARREST PROCESSING SITE

5. Authorize any "override" of "LIVESCAN" prints taken.

a. Make appropriate command log entries detailing the reasons for the override.

NOTE: Overrides will only be done AFTER four attempts have been made to roll an acceptable print. When supervisor concurs that the rejected print is the best that can be taken (i.e., finger burnt, disfigured, etc.), the "LIVESCAN" operator will "ANNOTATE" the rejection (ADD NOTE), into the "LIVESCAN" computer system.

WHEN PRISONER REFUSES TO BE FINGERPRINTED/PALMPRINTED OR IS REMOVED TO THE HOSPITAL:

6. Notify the Borough Court Section supervisor concerned immediately if the prisoner refuses to be fingerprinted/palmprinted or is removed to the hospital.

a. Be guided by the instructions of the Borough Court Section supervisor.

7. Provide the Borough Court Section supervisor with the following information:

a. Prisoner's name

b. Prisoner's arrest number

c. Prisoner's fax control number (if available).

d. Date/time of prisoner's refusal to be fingerprinted/palmprinted.

e. Date/time that the prisoner was removed to the hospital.

f. Name of hospital and admission number (where warranted).

8. Note the prisoner's refusal to be fingerprinted/palmprinted as follows:

a. Make entry on the computer generated prisoner movement slip.

b. Prepare REFUSED PRINTS REPORT (PD223-122).

c. Make a command log entry detailing the prisoner's refusal to be fingerprinted/palmprinted.

BOROUGH COURT SECTION SUPERVISOR

9. Instruct the desk officer/supervisor making the notification to:

a. Proceed with the arrest processing.

b. Complete all other arrest related procedures and paperwork.

c. Request prisoner's cooperation to be fingerprinted/palmprinted upon completion of all other arrest related procedures.

DESK OFFICER/SUPERVISOR, ARREST PROCESSING SITE

IF PRISONER COMPLIES:

10. Have prisoner fingerprinted/palmprinted at the command via LIVESCAN.

a. Complete REFUSED PRINTS REPORT and verify.

b. Make additional entries on movement slip and in command log indicating prisoner's decision.

c. Enclose REFUSED PRINTS REPORT with arrest package.

IF PRISONER STILL REFUSES:

11. Proceed as in steps "10a-10c" above.

a. Place leg restraints on prisoner and direct that prisoner be brought directly to the Borough Court Section.

NOTE: Leg restraints MUST be used when transporting a prisoner that has refused to be fingerprinted and palmprinted. If the desk officer determines that extenuating circumstances exist that preclude placing leg restraints on a prisoner that has refused to be fingerprinted and palmprinted, a command log entry will be made detailing the reason why. The use of leg restraints does not replace the requirement to rear handcuff the prisoner. All procedures detailing the use of handcuffs remain in effect. When using leg restraints on a prisoner, the escorting officer is to exercise caution to prevent the prisoner from falling.

WHEN PRISONER THAT REFUSED TO BE FINGERPRINTED/ PALMPRINTED ARRIVES AT THE BOROUGH COURT SECTION:

BOROUGH COURT SECTION SUPERVISOR

12. Question the prisoner and verify that he/she refuses to be fingerprinted/palmprinted.

IF PRISONER COMPLIES:

13. Direct that prisoner be fingerprinted/palmprinted via LIVESCAN.

14. Make an entry indicating compliance:

a. In the command log.

b. On the prisoner movement slip.

c. On the REFUSED PRINTS REPORT and verify.

IF PRISONER CONTINUES TO REFUSE TO BE FINGERPRINTED/ PALMPRINTED:

15. Lodge prisoner at the Borough Court Section throughout the arraignment process.

16. Make command log entry noting the refusal.

17. Complete the REFUSED PRINTS REPORT and verify.

18. Have appropriate "NOTEPAD" data entries and corresponding "UNARRAIGNED DISPOSITION" field entered into "OLPA" computer system immediately.

NOTE: A prisoner who refuses to be fingerprinted and palmprinted will not leave the court section facility and be sent to another command for lodging. However, if such a prisoner is in need of medical attention, he/she may be brought to a health care facility for treatment.

ADDITIONAL DATA

The "LIVESCAN" machine should remain "ON" and the scanner covers of the machine "CLOSED," when not in use. If "LIVESCAN" becomes inoperable, immediately notify the Management Information System Division (MISD) HELP DESK (212) 374-3800, and if necessary be guided by [P.G. 208-12](#), "Alternate Procedures For Fingerprint and Palmprint Processing In The Event of Computer Failure".

The "LIVESCAN" machine must be "recalibrated" at least once per tour to ensure that prints transmitted are acceptable to the Identification Section and the Division of Criminal Justice Services (i.e., not too dark or too light, etc.). Busy commands must "recalibrate" more frequently.

The "LIVESCAN" machine scanner platens must be cleaned after each prisoner is fingerprinted and palmprinted. The "LIVESCAN" machine is to be cleaned only with authorized cleaning materials, (i.e., "Windex with Ammonia D," "Lithopads"). These materials, in addition to "Pre-Scan Pads," may be requisitioned from the Quartermaster Section.

If the "LIVESCAN" computer becomes inoperable because of damage to the machine, particularly to the scanner platen, the vendor will replace the damaged scanner platen and deliver it to the Management Information Systems Division. In circumstances in which there is suspicion of intentional damage, the desk officer will make an entry in the Command Log and initiate an investigation (see [P.G. 202-14](#), "Desk Officer"). Any evidence of intentional damage to any machine will result in an immediate investigation and appropriate action.

Routine operational inquiries concerning "LIVESCAN" and the On Line Booking System should be directed to the borough Court Section concerned, twenty-four hours, seven days a week, OR the Criminal Justice Bureau at (646) 610-5305, during business hours. Technical problems and "LIVESCAN" outages are to be referred to the Management Information Systems Division (MISD) HELP DESK at (646) 610-6473.

PURPOSE

To set guidelines for fingerprint and palmprint processing should the "LIVESCAN" System become disabled.

DEFINITION

"LIVESCAN" System - the electronic transmitting of fingerprints and palmprints via computer.

NOTE: Since "LIVESCAN's" operation is fully dependent on the On Line Booking System (OLBS), if the On Line Booking System becomes disabled, "LIVESCAN" becomes inoperable. Additionally, if the On Line Booking System becomes disabled, uniformed members of the service concerned will comply with the guidelines for arrest number generation (see [P.G. 208-10](#), "Alternate Procedure for Arrest Number, Generation As A Result Of Computer Failure").

PROCEDURE

When the "LIVESCAN" System becomes disabled:

DESK OFFICER/SUPERVISOR

1. Have arresting/assigned officer immediately notify the Management Information Systems Division, Help Desk, at (212) 374-3800, if "LIVESCAN" becomes disabled at any time, to attempt to correct problem.
2. Ascertain from member assigned to Management Information Systems Division, Help Desk, when member concerned indicates that problem is not correctable:
 - a. If problem is limited to the command or is borough/citywide, AND
 - b. Anticipated period of time that the "LIVESCAN" System will be disabled.

IF "LIVESCAN" SYSTEM IS DISABLED COMMAND OF ARREST ONLY:

DESK OFFICER/SUPERVISOR

3. Have uniformed members of the service, other than arresting officer, transport defendant to an adjoining precinct where "LIVESCAN" System is operational and fingerprint/palmprint defendant.

IF "LIVESCAN" SYSTEM IS DISABLED BOROUGH/CITYWIDE:

DESK OFFICER/SUPERVISOR

4. Contact borough Court Section supervisor concerned and be guided by supervisor's instructions.

IF THE DECISION IS MADE TO REVERT TO USING INK TO FINGERPRINT AND PALMPRINT PRISONERS:

NOTE: Decisions to ink print prisoners will be made on a case by case basis by the borough Court Section supervisor concerned in the event that LIVESCAN is disabled borough/citywide for an extended period of time and restoration of the system is not imminent. The supervisor at the Management Information Systems Division, Help Desk and the supervisor at the Criminal Justice Bureau will be conferred with prior to instructing personnel to ink print prisoners. It should be noted that the preferred course of action is to wait until the LIVESCAN System once again becomes operational and then fingerprint and palmprint the prisoner using LIVESCAN.

BOROUGH COURT SECTION SUPERVISOR

5. Instruct desk officer/supervisor, command concerned, to ink print defendant(s) on appropriate fingerprint and palmprint charts.

a. Have fingerprints and palmprint forwarded expeditiously to the borough Court Section concerned for processing.

NOTE: If the On Line Booking System is disabled, instruct desk officer/supervisor concerned to have arresting/assigned officer neatly print required information on the fingerprint and palmprint charts before they are delivered to the borough Court Section concerned for processing.

6. Have Court Section personnel available and ready to process ink fingerprints and palmprints, including:

a. Backing up of fingerprint and palmprint charts, and

b. Transmission of those fingerprints and palmprints to Albany via the court site "Fax-4" machine.

c. Transmission of those fingerprints and palmprints to the Identification Section via the court site "Fax-4" machine.

DESK OFFICER/SUPERVISOR

7. Instruct arresting/assigned officer to ink print defendant(s) on appropriate fingerprint and palmprint charts.

8. Have fingerprint and palmprint charts delivered, by other than arresting/assigned officer, with a copy of the ON LINE BOOKING SYSTEM ARREST WORKSHEET (PD244-159), to Borough Court Section concerned, NO LATER THAN THREE HOURS AFTER THE TIME OF ARREST.

CRIMINAL COURT

Abbreviation	Literal Meaning
W.O.	Warrant Ordered
B.F.W.O.	Bail Forfeited, Warrant Ordered
C.W.O.	Complaint and Arrest Warrant Ordered
P.R.W.O.	Parole Revoked, Warrant Ordered

ADDITIONAL DATA

If C.R.I.M.S. response to inquiry indicates "NO PUBLIC RECORD" or "PURGED CASE" on an "A" or "B" warrant (summons) or "C" warrant (misdemeanor), the warrant has been VACATED.

If same response on any other warrant, verify with the court of issuance. If a response indicates "NO RECORD FOUND," make inquiry with NYSID #, if available.

Additional C.R.I.M.S. instructions are provided in the C.R.I.M.S. Manual BM 633 (10-92) Court Computer Program for Warrant Verification.

Where any doubt exists, a verification should be made directly from the court records or if unable to determine warrant status via C.R.I.M.S. at the precinct level or if there are any operational questions, contact the Warrant Section, Telephone Inquiry Unit. Provide Telephone Inquiry Unit member concerned with: arresting officer's name, shield #, tax registry #, call back telephone number, name of subject, subject's date of birth, warrant OCA #, docket # (if available) and NYSID # (if any). THIS INQUIRY IS TO BE MADE ONLY AFTER A NAME CHECK VIA ADW IS PERFORMED AT A PRECINCT/COMMAND.

If Department Local Area Network (LAN) terminal is inoperative, request the patrol borough to conduct the checks. Should the borough terminal also be inoperative, an adjoining precinct/designated arrest facility will be requested to conduct these checks. If the entire LAN system is out of service for more than twenty minutes, the Central Warrant Unit will be requested by telephone to process and supply the necessary checks.

If system functional problems are encountered, contact the Management Information Systems Division, Help Desk.

P.G. 208-23 Computerized Investigation Card System

Date Effective: 08-01-13

PURPOSE

To ensure that an investigator originating an INVESTIGATION CARD (PD373-163), commonly referred to as I-CARD, is notified when the individual named in INVESTIGATION CARD comes into contact with the police.

PROCEDURE

When processing an arrest or conducting an investigation in non-arrest situations:

ARREST SITUATIONS

ARRESTING OFFICER

1. Follow appropriate arrest processing guidelines.
2. Determine if the prisoner is wanted as the result of an INVESTIGATION CARD having been filed.
 - a. WNAM - search by name and DOB and by ALL "alias" names and dates of birth.
 - b. WNYS - search by prisoner's NYSID number if known. (This inquiry may show prisoner is wanted under different name).

NOTE: Arresting officers MUST ENSURE that prisoners who are wanted as the result of being named on an INVESTIGATION CARD are immediately identified, and the required notifications are made, and appropriate actions are taken. Therefore, the computer inquiries described in step "2" MUST be performed for EVERY prisoner regardless of whether the prisoner is charged with a felony, misdemeanor, violation or traffic infraction; and, regardless of whether the prisoner will be detained until arraignment, or released after being issued a Desk Appearance Ticket or Universal Summons.

If a "hit" is revealed, such "hit" will be circled on the FINEST printout. The caption "Search Completed" will also be circled and signed by the FINEST operator. If there is "no hit," the words "no hit" will be entered adjoining the same caption. If the FINEST system exhibits the prisoner's name followed by an OCA number that begins with the letter "I", the member conducting the inquiry will record the number, clear the screen, enter "INIQ/I" and the nine digit number that follows the letter "I". The arresting officer will telephone the Criminal Intelligence Section and notify the member on duty thereat. The Criminal Intelligence Section will confirm the "hit" and issue appropriate instructions.

3. Make an ACTIVITY LOG (PD112-145) entry regarding the information obtained regarding the INVESTIGATION CARD "hit"; and, include the name of the Criminal Intelligence Section member contacted, and the command originating INVESTIGATION CARD.

CRIMINAL INTELLIGENCE SECTION MEMBER

4. Verify INVESTIGATION CARD "hit"; and, provide the arresting officer with the following information:

a. The involved offense; and,

b. Whether the individual is listed as a "Perpetrator" or "Suspect" or "Witness"; and,

c. All other relevant information and instructions that were listed on the INVESTIGATION CARD by the assigned investigator.

5. Record name, shield number and command of arresting/notifying officer.

6. Notify detective borough "wheel" of details of INVESTIGATION CARD "hit"; and, the name and command of investigator who submitted INVESTIGATION CARD and, the name, tax number and command of member of the service confirming INVESTIGATION CARD "hit"; and, location of the individual; and, that the individual is under arrest for an offense.

7. Record name and tax number of detective borough "wheel" receiving notification.

INDIVIDUAL IS NOT UNDER ARREST FOR AN OFFENSE

MEMBER CONCERNED

8. Comply with steps "2" and "3", and the "NOTE" following step "2".

9. Telephone the Criminal Intelligence Section and:

a. Confirm the INVESTIGATION CARD "hit".

b. Advise the Criminal Intelligence Section member that the individual named in the INVESTIGATION CARD is not under arrest for an offense.

c. Obtain information regarding the involved offense and whether the individual is listed as a "Perpetrator" or "Suspect" or "Witness" on the INVESTIGATION CARD.

d. Obtain all other relevant information and instructions that were listed on the INVESTIGATION CARD by the assigned investigator.

10. If the individual named on the INVESTIGATION CARD is described as "Perpetrator - Probable Cause To Arrest", then detain the person and obtain instructions from the appropriate authority, (e.g., investigator, investigative supervisor, detective captain.)

11. If the individual named on the INVESTIGATION CARD is described as "Suspect Only - No Probable Cause To Arrest", then:

a. DO NOT handcuff or otherwise physically restrain the individual; and,

b. Inform the individual he/she is free to leave at any time; and,

c. If possible, comply with the instructions provided by the investigator in the "Specific Instructions for Apprehending Officers" caption box of the INVESTIGATION CARD; and,

d. If applicable, attempt to get the individual to voluntarily consent to remain until an investigator arrives.

12. If the individual named on the INVESTIGATION CARD is described as "Witness", then:

a. Do NOT handcuff or otherwise physically restrain the individual; and,

b. Inform the individual he / she is free to leave at any time; and,

c. If possible, comply with the instructions provided by the investigator in the "Specific Instructions for Apprehending Officers" caption box of the INVESTIGATION CARD; and,

d. If applicable, attempt to get the individual to voluntarily consent to remain until an investigator arrives

NOTE: When an individual is not under arrest for an offense, the existence of an INVESTIGATION CARD identifying the individual as a "Suspect" or "Witness" is insufficient authority to arrest or involuntarily detain the individual. However, the individual may voluntarily consent to remain.

13. Make ACTIVITY LOG entry of information received on the INVESTIGATION CARD "hit."

14. Notify desk officer of INVESTIGATION CARD "hit" and all pertinent facts.

CRIMINAL INTELLIGENCE SECTION MEMBER

15. Verify INVESTIGATION CARD "hit"; and, provide the member concerned with the following information:

a. The involved offense; and,

b. Whether the individual is listed as a "Perpetrator" or "Suspect" or "Witness"; and,

d. Ensure that, if applicable, an attempt is made to get the individual to voluntarily consent to remain until an investigator arrives.

P.G. 208-24 Identification Lineups/Showups

Date Effective: 08/01/13

PURPOSE

To ensure fair and proper proceedings when lineup/showup identifications are conducted.

DEFINITION

IDENTIFICATION LINEUP - Placing of criminal suspect in lineup with at least five other persons for purpose of identification by victim or witnesses.

IDENTIFICATION SHOWUP - Prompt, on-the-scene presentation of a suspect singly, in a one-to-one display, to an identifying witness, for expeditious identification and/or early release of an innocent suspect.

PROCEDURE

When a criminal suspect in police custody is to be placed in an identification lineup at stationhouse or other place of confinement:

UNIFORMED MEMBER OF THE SERVICE

1. Resolve any doubt concerning need for, or legality of, conducting a lineup or showup by conferring with patrol supervisor/desk officer.

NOTE: Suspect must be arrested before being forced to appear in a lineup. However, an arrest is not necessary if the suspect voluntarily consents to appear in a lineup. Identification procedures ordinarily are not necessary where the witness/victim and the perpetrator are known to each other, including relatives or other close acquaintances OR the perpetrator is apprehended by a police officer in the act of committing the crime.

2. Give suspect Miranda warnings, if he/she is to be interrogated before, during or after lineup.

3. Inform suspect that he/she will appear in lineup for purpose of identification in connection with a crime.

4. Do not advise suspect of the right to an attorney.

5. Inform suspect that he/she does not have a right to a lawyer if an attorney is requested for the lineup.

NOTE: Prior to conducting lineup, detective supervisor concerned or a qualified supervisor of an investigative unit will be consulted and will personally supervise the entire procedure and ensure that LINEUP REPORT (PD373-141) is completed.

6. Permit an attorney who is present at the site of a lineup to observe manner in which lineup is conducted.

a. Attorney may observe lineup from room where it is conducted or from any place where he/she cannot be observed.

7. Inform an attorney who contacts the police and states that he/she represents the suspect and that he/she wishes to be present when lineup is conducted, that the lineup will be delayed for a reasonable time to permit him/her to appear.

NOTE: When determining what is a reasonable delay, the uniformed member conducting the lineup should consider whether the delay would result in a significant inconvenience to the witness OR would undermine the substantial advantages of a prompt identification.

8. Do not permit attorney to talk to witnesses participating in the identification of the suspects.

9. Inform attorney that suggestions concerning the lineup should be directed to the officer conducting the lineup.

10. Do not permit attorney to interfere when conducting a lineup.

a. The uniformed member conducting the lineup may consider suggestions of the attorney to improve the fairness of the lineup if suggestions are reasonable and practical.

DETECTIVE SUPERVISOR

11. Ensure lineup is conducted properly.

12. Have witnesses interviewed separately, prior to lineup.

a. Obtain and record description of suspect.

13. Take precautions to prevent persons participating in lineup from being seen by witnesses prior to lineup.

14. Record the following:

a. Details of procedure utilized

b. Specific utterances of any person, e.g., speaking words used at crime scene

c. Actions of participants required to facilitate identification, e.g., trying on clothing, etc.

d. Responses or statements made by witnesses

e. Names, addresses/commands of all persons present including police and other officials.

15. Prepare diagram with circles to represent position of each person in lineup.

a. Instruct witness not to comment on recognition but indicate circle which represents person recognized.

16. Mark and retain diagram after identification.

17. Have suspect viewed with at least five other persons who are unknown to

witness.

18. Conduct separate lineup for each suspect apprehended.

a. Use different fillers in each lineup.

19. Select lineup participants as follows:

a. Same sex and race as suspect.

b. Approximately same age, height and physical makeup as suspect:

(1) If minors under eighteen years of age are recruited as non-suspect lineup participants:

(a) Obtain written permission of parent or legal guardian on CONSENT FORM - NON-SUSPECT MINOR (PD 377-030), using English or Spanish version, as appropriate, prior to lineup.

(b) Institute measures to isolate minors from harmful influences in area of lineup.

(c) Have precinct youth officer present, if possible.

(d) Prevent photographs of lineup from being used for purposes other than evidence.

c. Similarly clothed.

(1) Prevent wearing of any distinctive part of police uniform by police participants.

(2) Cover unusual or distinctive clothing worn by suspect.

d. Caution non-suspect participants against indicating position of suspect.

e. Permit suspect to select position in lineup or, if refused, place suspect in fair position.

20. Prevent interrogation of suspect while being viewed by witness.

21. Do not require lineup participants to say or do anything unless all participants are required to do the same.

22. Refrain from assisting witness to identify suspect.

23. Prevent witnesses from speaking to each other before, during or after viewing lineup.

a. Separate witnesses after each viewing.

b. Do not indicate to witnesses if identification was or was not made.

24. Have witnesses view lineup separately.

25. Permit witnesses to view lineup from another room or hidden location, if necessary.

a. Consider distance in this type of identification.

26. Allow masking of viewers when necessary.

27. Take color photographs of lineups being viewed by witnesses, when possible. Under no circumstances will black & white film be used.

28. Consult Legal Bureau or District Attorney if difficulties are encountered during lineup.

ADDITIONAL DATA

Emergency identification showups may be conducted when a witness is ill or injured and may die before proper identification procedures can be complied with. However, every effort should be made to institute lineup procedures and safeguards at the hospital.

Criminal suspects may be returned to crime scene or held for viewing by a witness only if:

a. Seizure of a suspect is effected within a reasonable time after the commission of the crime. (Usually, one hour is considered reasonable but facts of case may permit increasing the time period) AND,

b. Seizure of a suspect is effected within an area reasonably near the crime scene. (Consider distance that could reasonably be covered within time period given and under circumstances present) AND,

c. Suspect is shown to witness in a fair and reasonable manner which is not unnecessarily suggestive.

ADDITIONAL DATA

OPERATIONAL CONSIDERATIONS

DAT issuance should never be based solely upon the ONMIFORM system checks. Members of the service must conduct checks required by this procedure prior to entering the ON-LINE BOOKING SYSTEM ARREST WORKSHEET into the OMNIFORM system. OMNIFORM does not conduct the warrant checks required by this procedure.

ISSUANCE OF DAT NUMBERS

DAT serial numbers will consist of a three-digit command code followed by a dash and the next sequential number, beginning with the number one each year. For example, the first DAT serial number issued by the 68 Precinct shall be 068-1.

The desk officer, command processing the arrest (i.e., precinct, police service area, or transit district), will assign all DAT serial numbers for DESK APPEARANCE TICKETS issued at the command, regardless of jurisdiction of arrest, or command of assignment of the arresting officer, etc.

DESK APPEARANCE TICKET GUIDELINES

(2) Arrest for the sale of dangerous fireworks to a person under the age of eighteen (Penal Law 270.00[2][b][ii]); Class "A" Misdemeanor.

* A person arrested for Obstructing Governmental Administration 2nd Degree may be issued a DAT if he/she engaged in uncooperative actions (see "DEFINITIONS") and is otherwise qualified.

A DAT should not be issued to a person who uses mechanical means, i.e., a "sleeping dragon," chaining oneself to a stationary object, etc., to impede his/her removal and arrest processing.

If OMNIFORM DAT Arrest Info Screen indicates that the prisoner has warrants, is on parole/probation, is a recidivist, owes DNA, etc., the system will automatically preclude the desk officer from issuing a DAT.

Under this procedure, a prisoner who is an admitted drug addict, and not undergoing treatment at a Methadone Treatment Center, will continue to be eligible for DESK APPEARANCE TICKET consideration.

Issue DAT to an eligible prisoner who is otherwise considered "special category" as defined in [P.G. 210-17](#), "Arrest Processing of Pre-Arrestment Prisoners Designated as `Special Category'."

IDENTIFICATION STANDARDS

[P.G. 208-28](#), "Identification Standards for Desk Appearance Tickets" describes

a sequential five step identification process to be followed during arrest processing in order to determine a defendant's eligibility for a DESK APPEARANCE TICKET and involves the following components:

- a. Stricter Identification Standards
- b. New York State Probation/Parole Status Inquiry
- c. ADW Warrant Check/OCA Designations
- d. Department of Motor Vehicles Name Check
- e. Beta System Inquiry

ACCOUNTABILITY

The decision to issue a DAT to an eligible prisoner rests solely with the desk officer. UNDER NO CIRCUMSTANCES WILL THE PRISONER BE RELEASED UNTIL THE FINGERPRINT CRIMINAL HISTORY HAS BEEN RECEIVED AND REVIEWED. The desk officer, based upon the information contained in the OMNIFORM system (in addition to the other information obtained during the course of the DAT investigation), will either have a DAT issued to the prisoner or have the arrest processed "on line."

The Borough Administrator is responsible to ensure that all DAT(S) issued and/or delivered by their subordinate commands are completed accurately and in a timely manner according to this procedure.

Any questions regarding arrest or DAT procedures should be directed to the applicable borough court section.

UNLAWFUL POSSESSION OF MARIHUANA ARRESTS

If the only charge against a prisoner is Unlawful Possession of Marihuana (Section 221.05, P.L. - Violation) and the prisoner does not qualify for a summons, the prisoner MUST be processed for a DESK APPEARANCE TICKET. However, normal DESK APPEARANCE TICKET INVESTIGATION verifications do not apply in this type of case. The only disqualifying factors regarding the issuance of a DESK APPEARANCE TICKET are:

- a. Inability to ascertain defendant's identification or address, OR,
- b. Officer reasonably suspects that identification or address given is inaccurate, OR,
- c. Officer believes that prisoner does not reside within the state,
- d. The prisoner owes DNA.

If the only charge is Unlawful Possession of Marihuana (Section 221.05, P.L. - Violation) a field test must be completed in accordance with [P.G. 218-08](#), "Field Testing of Marijuana by Selected Uniformed Members of the Service within the Patrol Services and Housing Bureaus."

In this instance, if the prisoner also does not qualify for a DESK APPEARANCE TICKET, the desk officer must release the prisoner if \$100.00 pre-arraignment bail is posted (see [P.G. 210-09](#), "Bail"). However, the prisoner will not be released if he/she owes DNA.

DELIVERY OF DAT PACKAGES TO BOROUGH COURT SECTION

DAT(S) will only be delivered to the borough court section DAT office, Monday through Friday, on the second platoon. On weekends and court holidays, the Patrol Borough, Housing Borough, and Transit Borough will safeguard the DAT packages for delivery on the next second platoon that court is in session.

WARRANT AND INVESTIGATION CARD CHECKS

Prior to releasing a prisoner who is being issued a DESK APPEARANCE TICKET at the precinct of arrest/designated arrest facility, an INVESTIGATION CARD (PD373-163) check and a warrant name check of local/state/federal files will be conducted in accordance with P.G. 208-22, "Performing Local, State and Federal Warrant Checks."

In all cases, desk officers must review any relevant printout screen or results to ensure that the five step eligibility process was properly conducted. In addition, desk officers shall monitor the OMNIFORM system within their commands to ensure its proper use. If prisoner is released at precinct of arrest/designated arrest facility, or removed to borough court section booking facility, attach any relevant printouts to DESK APPEARANCE TICKET INVESTIGATION. If Department Local Area Network (LAN) terminal is inoperative, request the patrol borough to conduct the checks. Should the borough terminal also be inoperative, an adjoining precinct/designated arrest facility will be requested to conduct these checks. If the entire LAN system is out of service for more than twenty minutes, the Central Warrant Unit will be requested by telephone to process and supply the necessary checks.

DESK APPEARANCE TICKET ELIGIBILITY FOR OUT OF STATE RESIDENTS

When attempting to determine whether to issue a DESK APPEARANCE TICKET to a person who does not reside or work in New York State but is otherwise qualified, the desk officer should consider the distance the arrested person will have to travel on the arraignment date. The person should be questioned concerning his/her ability and willingness to appear in court for arraignment on the scheduled return date. If the desk officer believes that the person will not appear as required, a DESK APPEARANCE TICKET WILL NOT be issued. If the person arrested requests a minor adjustment in the return date and gives an unqualified promise to appear on the revised date, the desk officer must use discretion in determining if the return date should be adjusted and a DESK APPEARANCE TICKET issued.

In unusual circumstances when the ends of justice will be served and undue hardship will be averted by not holding an out of state defendant in custody (e.g., elderly or infirm defendant or defendant accompanied by children, etc.), a short date DESK APPEARANCE TICKET returnable the following day, may be issued. However, if doubt exists concerning attendance of the defendant, a DESK APPEARANCE TICKET WILL NOT be issued.

When a short date DESK APPEARANCE TICKET is issued to an out of state defendant, the desk officer must ensure that the DAT ARREST PACKAGE is sent to the appropriate Patrol Borough, Housing Borough, or Transit Borough. In addition, the desk officer must notify the applicable borough of the short return date. Patrol Borough, Housing Borough, or Transit Borough personnel will ensure the delivery of the DAT ARREST PACKAGE to the borough court section is expedited. Borough Court Section personnel will immediately process the DESK APPEARANCE TICKET related papers to ensure that the Fingerprint

criminal history (RAP) sheet is available when the defendant is arraigned. In all such cases, the arresting officer (if not excused) and the complainant (in appropriate cases) will proceed to the Complaint Room. If the Complaint Room is not open, the officer and/or complainant will report to the Complaint Room as soon as it opens to draw the court complaint.

DESK APPEARANCE TICKET ELIGIBILITY FOR HOSPITALIZED PRISONERS

A DESK APPEARANCE TICKET may be issued to an eligible hospitalized prisoner who is charged with a Class "E" Felony except for those Class "E" Felonies listed as follows:

PENAL LAW SECTION	CHARGE
130.25	Rape, 3rd Degree
130.40	Criminal Sexual Act, 3rd Degree
205.10	Escape, 2nd Degree
205.17	Absconding from Temporary Release, 1st Degree
205.19	Absconding from a Community Treatment Facility
215.56	Bail Jumping, 2nd Degree
195.07	Obstructing Governmental Administration, 1st Degree

Criminal photographs need not be taken of a hospitalized prisoner who is issued a DESK APPEARANCE TICKET for a Class "E" Felony.

PARTICIPATING DEPARTMENT STORE PROGRAM

When an arrest is made by a security officer of a participating department store and the offense is one for which a DESK APPEARANCE TICKET may be issued, the desk officer will direct the arrest processing officer to assist the store security officer in processing the arrest in order to maintain compliance with this procedure.

P.G. 208-28 Identification Standards For Desk Appearance Tickets

Date Effective: 08/01/13

PURPOSE

To establish identification standards and eligibility requirements prior to the issuance of a DESK APPEARANCE TICKET.

SCOPE

The process to be followed during arrest processing in order to determine eligibility for a DESK APPEARANCE TICKET will be sequential. The following is a five- step procedure which shall be implemented by arresting officers in the order listed:

- a. Stricter Identification Standards
- b. New York State Probation/Parole Status Inquiry
- c. ADW Warrant Check/OCA Designations
- d. Department of Motor Vehicles Name Check
- e. Beta System Inquiry.

As each category is checked, if there is a negative result, the inquiry will be brought to the next step. When information is received that will disqualify an individual from DESK APPEARANCE TICKET consideration, further inquiries will cease and the arrest will be processed online. This five-step eligibility process is both comprehensive and labor intensive.

PROCEDURE

When an individual is applying for the issuance of a DESK APPEARANCE TICKET:

ARRESTING OFFICER

1. Establish individual's identification and eligibility for the issuance of a DESK APPEARANCE TICKET by the following:

a. STRICTER IDENTIFICATION STANDARDS - The following forms of identification satisfy the need to properly identify individuals applying for release via DESK APPEARANCE TICKETS:

(1) New York State Driver's License, Permit, or Non-Driver Photo Identification

(2) Valid passport

(3) United States military photo identification

(4) Citizenship or naturalization papers

(5) Resident alien card (Permanent resident card/ Green card)

(6) Driver's License (out of state/country).

b. NEW YORK STATE/U.S. EASTERN DISTRICT FEDERAL PROBATION/ PAROLE STATUS INQUIRY - Inquiry will be made through the FINEST System into the Booking Arraignment Disposition Inquiry System [BADS] to ascertain Probation/Parole status of prisoners seeking release through the DESK APPEARANCE TICKET process. If it is confirmed that the prisoner seeking release on a DESK APPEARANCE TICKET is currently on probation or parole, a DESK APPEARANCE TICKET will NOT be issued to that individual. The process is as follows:

(1) Log into BADS with BADS ID and password

(2) Select Option "5," Defendant Status, by typing "5" and pressing "ENTER"

(3) Type defendant's Last name, First initial (if desired), Sex, and Date of Birth (DOB)

(a) Type "0" in RANGE field for a direct hit on the DOB entered, or a number (1-9) for that range of years before and after the DOB entered, and press "ENTER."

NOTE: The number of possible hits for N.Y.S. Parole, N.Y.C. Probation and Eastern District Federal Probation will be displayed.

(4) To view information, press "1" for N.Y.S. Parole list, "2" for N.Y.C. Probation list and "3" for Eastern District Federal Probation list, then press "ENTER."

(5) When viewing one of the above lists, or to see additional data for an individual, move the cursor to the desired line and press "ENTER."

(a) If the defendant has non-sealed New York City arrests:

(1) Defendant Data, NYSID Profile, and Parole/Probation Data will already be selected

(2) Press "ENTER" to page through the screens.

(b) If the defendant has no non-sealed New York City arrests:

(1) A Parole/Probation record will be displayed

(2) Press "ENTER" to return to the list.

c. ADW WARRANT CHECKS/OCA DESIGNATIONS - A local, state, and federal warrant check will be conducted via the Automated Database for Warrants (ADW) and the FINEST MESSAGE SWITCHING SYSTEM (MSWS) as per P.G. 208- 22, "Performing Local, State and Federal Warrant Checks." The presence of an active warrant from this inquiry will disqualify an individual from receiving a DESK APPEARANCE TICKET. This check will access the Warrant Master File through ADW. Within this file are target groups which are displayed by the presence of an OCA# designation preceded by the letter Q, X, or I. Persons in custody who are categorized by any of the following designations will not be eligible to receive a DESK APPEARANCE TICKET:

(1) OCA designations that begin with letter Q:

Q65000000==> Robbery Recidivist

Q65200000==> Misdemeanor Recidivist

Q65300000==> Firearm Violator

Q65400000==> Armed Career Criminal

(2) OCA designations that begin with the letter X:

This category consists of individuals who are target narcotics violators.

(3) OCA designations that begin with the letter I:

This file contains individuals who are wanted by a particular detective squad for a specific crime, or for questioning relative to a crime. In these cases, a telephone notification is required to the Criminal Intelligence Section (See [P.G. 208-23](#), "Computerized Investigation Card System").

NOTE: In the above OCA designation categories, notifications must be made to the command of origination, including arraignment date and the fact that identification is based on a name check only. Comply with any further instructions which appear on the display screen.

d. DEPARTMENT OF MOTOR VEHICLES NAME CHECK

Name checks will be made through the FINEST System under the NYSPIN/DMV menu headings: NYS Driver Group Search (DGRP) and NYS Driver Inquiry (DLIC). First, use the DGRP command. This will determine if the individual is using multiple or similar names. If so, attempt to match the pedigree information provided on the display screen with the subject who is physically present. Next, enter this data into the DLIC system. If the DLIC system reveals that the subject:

(1) Has three or more license suspension on three or more different dates, or

(2) Is operating a vehicle with a revoked driver's license, or

(3) Has an outstanding federal, state, or local warrant, or

(4) Has ever been the subject of an issued federal, state, or local warrant at any time, or

(5) Is arrested for operating a motor vehicle while having a revoked driver's license, or

(6) Has been convicted of unlicensed operation of a motor vehicle any degree, within the previous eighteen months, or

(7) Has had their operator's license suspended based upon having ever refused to submit to a chemical test for alcohol, or

(8) Has had their operator's license suspended based upon failure to pay child/spousal support as outlined in VTL 510 (4e), then the subject WILL BE DENIED a DESK APPEARANCE TICKET.

e. BETA SYSTEM INQUIRY - An inquiry will be made into Beta System through the FINEST System/MIS to determine DESK APPEARANCE TICKET eligibility based upon the prisoner's past criminal history. Specifically, this inquiry will reveal the presence of aliases, match them to a criminal identification number (NYSID #) and interface with the on-line warrant file, to determine if the subject has been previously issued a warrant. If subject is found to have previous warrant history, then a DESK APPEARANCE TICKET will NOT be issued. The process will be as follows:

(1) Type "NMOS/tax registry number" of requesting officer

(2) Enter in center of screen corresponding reference numbers, i.e., 61 #, arrest #, case #, misc. #

(3) After the caption, "NMCK" enter: Last name/first name/sex/dob - then press "Enter."

NOTE: If NYSID # is ascertained, sign onto ADW as follows:

(1) Select the ADW icon on a Department LAN.

(a) Enter your tax number when prompted.

(2) Select "Queries" at the top of the screen.

(3) Select "NYSID Search."

(a) Enter the NYSID number in the prompt box.

(4) Highlight "Selected Table."

(a) Select "Warrant" and "I Card."

DESK OFFICER

2. Use common sense standards based upon the age and/or physical condition of a prisoner to ensure that the best interests of the Department will be served by not denying the issuance of a DESK APPEARANCE TICKET, in the course of determining eligibility.

INTEGRITY CONTROL OFFICER

3. Ensure that passwords are issued to uniformed members of the command so that access to the various systems is not restricted.

ADDITIONAL DATA

OPERATIONAL CONSIDERATIONS

DAT issuance should never be based solely upon the OMNIFORM system checks. Members of the service must conduct checks required by this procedure prior to entering the ON-LINE BOOKING SYSTEM ARREST WORKSHEET (PD244-159) into the OMNIFORM system. OMNIFORM does not conduct the warrant checks required by this procedure.

IDENTIFICATION STANDARDS

Members should note that these are general guidelines and other valid forms of

identification may be acceptable. Even when an individual possesses identification and a uniformed member of the service has reasonable suspicion with regard to the veracity of the identification presented, the desk officer will make the final determination as to whether the defendant's identity has been ascertained.

FALSE PERSONATION

In addition to producing one of the above valid forms of identification, the prisoner must also provide legitimate, verifiable proof of a valid current address. When attempting to ascertain a prisoner's identity, the uniformed member of the service concerned should inform the prisoner that knowingly misrepresenting his or her actual name, date of birth, or address to a police officer, with intent to prevent a police officer from ascertaining such information, is punishable as a crime. Prisoners who knowingly misrepresent their pedigree information should be charged with Penal Law 190.23 (False Personation, B. Misd.)

The desk officer considering DESK APPEARANCE TICKET eligibility will determine the validity of the prisoner's offered address. If the desk officer is not satisfied that the prisoner has offered proper evidence of a valid current address, the prisoner shall NOT be issued a DESK APPEARANCE TICKET. In order to ensure that the process for determining eligibility for a DESK APPEARANCE TICKET is properly conducted, desk officers will be responsible to have arresting officers bring to the borough court section a copy of any inquiry which eliminated the prisoner from DESK APPEARANCE TICKET consideration. In those cases where eligibility was denied because of unverified identification or address information, a notation will be entered on the ON-LINE BOOKING SYSTEM WORKSHEET under "Details" and initialed by the desk officer.

P.G. 208-36 Family Offenses/Domestic Violence

Date Effective: 02-06-14

PURPOSE

To process family offenses and other offenses that occur between family/household members as per the Family/Household - Expanded Definition.

DEFINITIONS

COMPLAINANT/VICTIM - For purposes of this procedure ONLY, is limited to a person described in subdivisions "a" through "h" below:

FAMILY/HOUSEHOLD (AS DEFINED IN FAMILY COURT ACT) - includes persons who:

- a. Are legally married to one another
- b. Were formerly legally married to one another
- c. Are related by marriage (affinity)
- d. Are related by blood (consanguinity)
- e. Have a child in common regardless of whether such persons have been married or have lived together at any time
- f. Are not related by consanguinity (blood) or affinity (marriage) and who are, or have been, in an intimate relationship regardless of whether such persons have lived together at any time

NOTE: A common sense standard regarding the totality of the circumstances involving the relationship should be used to determine if an "intimate relationship" exists. Factors a member of the service may consider in determining whether a relationship is an "intimate relationship" include but are not limited to: the nature or type of relationship (the relationship between the involved parties does not have to be sexual in nature to be considered "intimate"); the frequency of interaction between persons; and the duration of the relationship. Neither a casual acquaintance nor ordinary fraternization between two individuals solely in a business, educational, or social context shall be deemed to constitute an "intimate relationship." If unable to determine if the relationship in question is an "intimate relationship," the member of the service concerned will request the response of the patrol supervisor.

Additional factors that may assist in determining the intimacy of a relationship include, but are not limited to: amount of time spent together in either a work or leisure related capacity, shared expenses and/or finances, extent of interaction with family members, etc.

All members of the service are reminded that their primary responsibility is to ensure the immediate and future safety of all parties involved in domestic violence incidents."

FAMILY/HOUSEHOLD (NYPD EXPANDED DEFINITION) - includes subdivisions "a" through "f" above, AND persons who:

- g. Are currently living together in a family-type relationship
- h. Formerly lived together in a family-type relationship.

A family/household thus includes: "common-law" marriages, same sex couples, registered NYC domestic partners, different generations of the same family, siblings, in-laws, persons involved in "intimate relationship", and persons who live or have lived together in a family-type relationship.

OFFENSE - Conduct for which a sentence to a term of imprisonment or to a fine is provided (felony, misdemeanor, or violation).

FAMILY OFFENSE - Any act which may constitute the following and is committed by one member of the same family/household, AS DEFINED IN THE FAMILY COURT ACT (subdivisions "a" through "f" above), against another:

- a. Harassment 1st or 2nd degree
- b. Assault 2nd degree or Attempt
- c. Disorderly Conduct (including acts amounting to Disorderly Conduct NOT committed in a public place)
- d. Aggravated Harassment 2nd degree
- e. Assault 3rd degree or Attempt
- f. Reckless Endangerment
- g. Menacing 2nd or 3rd degree
- h. Stalking (1st, 2nd, 3rd, and 4th degrees)

NOTE: The law also adds the crimes of Stalking in the first through fourth degrees to the list of criminal convictions which will subject an offender to automatic suspension or revocation of a pistol license by the Criminal or Family Court.

- i. Sexual Misconduct
- j. Forcible Touching
- k. Sexual Abuse 3rd degree
- l. Sexual Abuse 2nd degree when committed against a victim incapable of a factor other than being less than seventeen years old
- m. Criminal Mischief (all degrees)
- n. Strangulation 1st or 2nd degree
- o. Criminal Obstruction of Breathing or Blood Circulation.
- p. Identity Theft (1st, 2nd and 3rd degrees)
- q. Grand Larceny (3rd and 4th degrees)

r. Coercion 2nd degree (subdivisions 1, 2, 3).

ORDER OF PROTECTION - An order issued by the New York City Criminal Court, New York State Family Court, or the New York State Supreme Court, requiring compliance with specific conditions of behavior, hours of visitation and any other condition deemed appropriate by the court of issuance. An Order of Protection may also be issued by the Supreme Court as part of a separation decree, divorce judgment, annulment, or as part of a court order in a pending separation, divorce, or annulment action.

PROBABLE CAUSE - A combination of facts, viewed through the eyes of a uniformed member of the service, which would lead a person of reasonable caution to believe that an offense is being or has been committed. The "probable cause" standard applied in family offense/domestic violence offenses IS NO DIFFERENT from the standard applied in other offenses and may be met by evidence other than the statement of the complainant/victim.

CONCURRENT JURISDICTION - Concurrent jurisdiction exists when different courts have jurisdiction over the same subject matter within the same territory. Both Criminal Court and Family Court have concurrent jurisdiction when:

- a. A family offense (as defined above) has been committed; AND
- b. A family/household relationship as defined in the Family Court Act "a" through "f" above (and NOT including the NYPD expanded definition) exists between the offender and the victim; AND
- c. The offender is sixteen years of age or older.

NOTE: All three of the above elements must exist for both Family Court and Criminal Court to have jurisdiction at the same time. If either of the first two elements are not met, the complainant MUST go to Criminal Court. If the first two elements are met, but the offender is less than sixteen years of age, the complainant must go to Family Court.

WHEN CONCURRENT JURISDICTION EXISTS:

Advise complainants/victim that:

- a. There is concurrent jurisdiction with respect to family offenses in both Family Court and the Criminal Courts;
- b. A Family Court proceeding is a civil proceeding and is for the purpose of attempting to stop the violence, end the family disruption and obtain protection. Referrals for counseling or counseling services are available through probation for this purpose;
- c. A proceeding in the Criminal Courts is for the purpose of prosecution of the offender and can result in a criminal conviction of the offender;
- d. A proceeding or action subject to the provisions of Family Court Act, Section 812, is initiated at the time of filing of an accusatory instrument or Family Court petition, not at the time of arrest, or request for arrest, if any;
- e. An arrest may precede the commencement of a Family Court or a Criminal Court proceeding, but an arrest is not a requirement for commencing either proceeding; however, that the arrest of an alleged offender shall be made

under the circumstances described in subdivision four of Section 140.10 of the Criminal Procedure Law.

PROCEDURE

When members of the service respond to, or are notified of, any incident involving members of the same Family/Household (NYPD EXPANDED DEFINITION):

UNIFORMED MEMBER OF THE SERVICE

1. Obtain medical assistance if requested or the need is apparent.
2. Ascertain all facts.
 - a. Interview persons involved SEPARATELY.
 - b. Interview and record names of any witnesses present at time of occurrence.
 - c. Collect evidence and record statements of persons present (e.g., admission by offender during dispute).
 - d. Take photographs using the domestic violence digital camera in all cases where a victim has visible injuries and/or damaged property as a result of domestic violence. Photographs will be uploaded into the Domestic Violence Digital Photo Database as per [P.G. 208-39](#), "Family Offenses/Domestic Violence (Digital Photography of Visible Injuries/Damaged Property)." Other domestic violence evidence (i.e., weapons, clothing, etc.) must be vouchered in accordance with [P.G. 218-01](#), "Invoicing Property - General Procedure".

NOTE: If the complainant/victim appears to have difficulty understanding/communicating in English, the member of the service concerned should comply with [P.G. 212-90](#), "Guidelines for Interaction with Limited English Proficient (LEP) Persons." If the complainant/victim appears to be hearing impaired, the member of the service concerned should comply with [P.G. 212-104](#), "Interaction with Hearing Impaired Persons." Members of the service are reminded that family members should not be used to interpret in a domestic incident due to potential partiality. Family members may only be temporarily used for interpretation in domestic incidents in life-threatening situations when there is no other feasible alternative. Once the situation is stabilized, a bilingual member of the service or the telephonic interpretation service should be used to verify the details of the domestic incident. As possible victims or witnesses to an incident, children may be interviewed; however, whenever feasible, children should not be used as an interpreter for any kind of police incident, including domestic violence. The alleged offender in any type of incident, including domestic violence, should not be used as an interpreter.

3. Determine whether:
 - a. Probable cause exists that any offense has been committed
 - b. An Order of Protection has been obtained by complainant/victim
 - c. The offense constitutes a FAMILY OFFENSE
 - d. There are children present in the home who may be victims of neglect, abuse, or maltreatment.

(1) If a member REASONABLY SUSPECTS a child less than eighteen is abused, neglected or maltreated and continued presence in the household presents an imminent risk to the child's physical or mental health, request the patrol supervisor to respond, prepare REPORT OF SUSPECTED CHILD ABUSE OR MALTREATMENT (PD377-154), and notify the State Central Registry as outlined in P.G. 215-03, "Emergency Removals Or Investigation And Reporting Of Abused, Neglected Or Maltreated Children."

NOTE: Willful failure to make such notification is a Class "A" Misdemeanor. Further, civil liability may result for the damages caused by such failure.

(2) If probable cause exists that a crime has been committed against a child, the perpetrator will be arrested, and no DESK APPEARANCE TICKET (PD260-121) or stationhouse bail will be issued.

WHEN OFFENDER HAS DEPARTED SCENE PRIOR TO ARRIVAL OF POLICE:

4. Conduct search of immediate vicinity for offender when:

a. Probable cause exists that a crime has been committed OR an Order of Protection has been violated, AND

b. Uniformed member of the service has reason to believe that such search might yield positive results.

5. Advise complainant/victim to call police when offender returns, if search produces negative results and follow reporting procedures as set forth below.

WHEN COMPLAINANT/VICTIM INDICATES THAT AN ORDER OF PROTECTION HAS BEEN OBTAINED:

6. Request complainant/victim to produce Order of Protection.

a. If Order of Protection cannot be produced, use the Central Records Division intranet database application to do a search for all Orders of Protection issued by a New York City based court. If the computer system is down, or for Orders of Protection issued outside New York City, telephone Central Records Division, Identification Section to verify that an Order of Protection was issued, court of issuance, specific conduct prohibited and the expiration date.

b. If the Identification Section reports that there are no Orders of Protection on file pertaining to the complainant/victim, telephone the precinct of occurrence and request a member of the service authorized to operate the FINEST System to conduct an Order of Protection database inquiry.

c. In the event the precinct of occurrence is unable to conduct the inquiry, request the Communications Section dispatcher to conduct the inquiry.

IF OFFENDER IS PRESENT OR THE SEARCH FOR THE OFFENDER WAS SUCCESSFUL AND THERE IS PROBABLE CAUSE THAT ANY FELONY HAS BEEN COMMITTED OR AN ORDER OF PROTECTION HAS BEEN VIOLATED:

7. Arrest offender even if complainant/victim requests that offender not be arrested.

a. When an Order of Protection is violated and the act that violates the

order is an offense, offender must be charged with that offense in addition to the appropriate charge for the violation of the Order of Protection.

b. In all cases, whether the Order of Protection was issued by Family Court, Supreme Court, or Criminal Court, and whether the violation of the Order of Protection also constitutes an offense or not (e.g., offender in proximity to complainant's residence or place of employment is not an offense in and of itself but does violate an Order of Protection), the violation of the Order of Protection shall be charged as the Penal Law crime of Criminal Contempt, or Aggravated Criminal Contempt, as appropriate, and the offender brought to Criminal Court.

NOTE: Under the federal 1994 Violence against Women Act, Orders of Protection issued by courts of other jurisdictions (other states, U.S. territories, tribal jurisdictions), in cases of domestic violence covered by this procedure, may be enforced in New York State. If the particular out-of-state Order of Protection is available, and otherwise appears to be valid on its face (i.e., not expired, signed by a judge or justice of a court), and there is probable cause to believe that the Order of Protection has been violated, and that the offender had notice of the order and an opportunity to be heard, uniformed members of the service will arrest the offender and charge him or her with either Criminal Contempt in the second degree (Penal Law Section 215.50 (3)), Criminal Contempt in the first degree (Penal Law section 215.51 (b), (c), or (d)), or Aggravated Criminal Contempt (Penal Law section 215.52), as appropriate.

In order to charge any of the criminal contempt charges above, for a violation of either an in-state or out-of-state Order of Protection, there must be a showing that the offender had "notice" of the issuance of the Order of Protection, either because he or she was present in court when the Order was issued or because he or she was duly served with the Order.

In order to establish probable cause that the offender had notice, uniformed members of the service should ask the offender if he or she knew of the Order and if necessary ask the complainant/victim to verify that the offender had knowledge of the Order. Additionally, if such is deemed necessary, uniformed members of the service may call the court that issued the Order during normal business hours to seek further information.

In the case of out-of-state Orders of Protection, there is an additional requirement that the offender has had or will shortly have an opportunity to be heard. This essentially means that the offender was notified of a date to appear in the particular court in order to respond to the issuance of the Order. In order to take enforcement action, probable cause as to any of the following must exist:

a. The offender appeared in court in response to issuance of the Order of Protection,

b. The offender was served with notice to appear, in response to the issuance of the Order of Protection and failed to appear, or

c. The offender was served with an Order of Protection with a notice to appear before the court within thirty days of the issuance of the Order of Protection.

The inquiries set forth in the preceding paragraph may be used to establish the existence of this element of probable cause.

In cases in which the Order of Protection is not produced by the complainant/victim, in addition to the procedure set forth in step six "6," above, uniformed members of the service shall inquire whether a record of the Order exists on the statewide registry of Orders of Protection or the protection order file maintained by the National Crime Information Center (NCIC). However, the presence of the Order on any file shall not be required for enforcement of the order, provided that the uniformed member of the service has probable cause to believe that the Order is in existence through credible information supplied by the complainant/victim or other reliable source.

When an offender is arrested for violating any Order of Protection, his or her arrest will, in ALL cases, be processed in New York City Criminal Court, regardless of the court that issued the order. The offender will be charged with the appropriate criminal contempt charge. The offender will also be charged with any pertinent criminal offense for which probable cause exists. When an arrest is made for violation of a Family Court Order of Protection, the complainant/victim will be advised that he or she has a right to proceed independently in Family Court by filing a petition. However, uniformed members of the service are required to bring the offender before the local criminal court.

WHEN THERE IS PROBABLE CAUSE THAT ANY MISDEMEANOR HAS BEEN COMMITTED, IN OR OUT OF THE UNIFORMED MEMBER'S PRESENCE, OR A VIOLATION HAS BEEN COMMITTED IN THE UNIFORMED MEMBER'S PRESENCE:

8. Arrest offender.

a. Under the Criminal Procedure Law, a uniformed member of the service must arrest the offender, unless the victim specifically states, on his or her own initiative, that he or she does not want the offender arrested. The uniformed member of the service shall not ask the victim if he or she wants to have the offender arrested. The uniformed member of the service retains the discretion to make an arrest in a misdemeanor case, despite the victim's decision not to seek an arrest.

NOTE: The primary considerations when the complainant/victim does not want an arrest are the prevention of further violence and the safety of ALL household members. Factors to be taken into consideration include, BUT ARE NOT LIMITED TO:

a. The past history of the offender and victim (prior arrests, incidents, injuries sustained etc.). If possible, conduct an inquiry through the Precinct Domestic Incident Database.

b. The uniformed member of the service's observations of the scene and victim.

c. Statements of witnesses.

d. Statements made by the offender (especially threats of suicide, homicide or other future violence).

e. Threatened use of weapons, or the presence of or access to weapons by the offender.

f. Mental and physical state of the offender (drug or alcohol intoxication,

etc.).

g. Presence of other household members who may be at risk, including the elderly.

If an officer has any doubts about the continued safety of any household member, AN ARREST SHOULD BE EFFECTED.

9. Make an ACTIVITY LOG (PD112-145) entry if complainant/victim does not want an arrest for a misdemeanor or any violation committed in the uniformed member of the service's presence by family/household member.

a. Request complainant/victim to sign log entry.

b. Enter "Refused Signature" if complainant/victim will NOT sign entry.

IN CROSS COMPLAINT SITUATIONS, WHERE THERE IS PROBABLE CAUSE TO BELIEVE THAT MORE THAN ONE FAMILY OR HOUSEHOLD MEMBER HAS COMMITTED A FAMILY OFFENSE MISDEMEANOR, IN OR OUT OF THE UNIFORMED MEMBER OF THE SERVICE'S PRESENCE IN A SINGLE DOMESTIC INCIDENT:

10. Attempt to identify the primary physical aggressor after considering the following criteria:

a. The comparative extent of any injuries inflicted by and between the parties,

b. Whether any of the parties are threatening or have threatened future harm against another party, family, or household member,

c. Whether any of the parties has a prior history of domestic violence that the uniformed member of the service can reasonably ascertain,

d. Whether any such person acted defensively to protect himself or herself from injury.

NOTE: Where one party has committed a family offense misdemeanor against a family/household member in response to or in retribution for a crime committed against him or her in the past, the responding uniformed members of the service shall not determine who was the "Primary Physical Aggressor" and proceed as required by step "8," above.

11. Confer with the patrol supervisor.

12. Arrest the offender identified as the primary physical aggressor.

a. If complainant/victim requests that offender not be arrested, the uniformed member may still effect the arrest.

NOTE: Where there is reasonable cause to believe that both parties to a particular domestic violence dispute have committed family offense misdemeanors and the responding uniformed members of the service are unable to determine who, if anyone, was the primary physical aggressor, it would be lawful to arrest both parties. Further, even where the responding uniformed members of the service are able to determine who was the primary physical aggressor, both parties may, if appropriate, be arrested. The primary consideration when deciding whether to arrest other persons, in addition to the primary aggressor, is the prevention of further violence and the safety to

ALL household members. Evaluate each complaint separately. Do not base a decision to arrest or not to arrest on the willingness of a person to testify or otherwise participate in a judicial proceeding. If a complainant/offender/victim requests that the offender not be arrested, the uniformed member of the service may still effect an arrest. The primary considerations when the complainant/offender/victim does not want an arrest to be made are the prevention of future violence and the safety of ALL household members. (See NOTE following step "8").

13. Make an ACTIVITY LOG entry of:

a. Factors that resulted in determination or inability to determine that a particular offender was the primary physical aggressor.

b. Fact that the complainant/victim does not want an arrest to be made.

(1) Request complainant/victim to sign ACTIVITY LOG entry

(2) Enter "Refused Signature" if complainant/victim will not sign entry.

WHEN THERE IS PROBABLE CAUSE THAT ANY VIOLATION HAS BEEN COMMITTED, NOT IN THE UNIFORMED MEMBER OF THE SERVICE'S PRESENCE:

14. Refer complainant/victim as follows:

a. Family/Household members, as defined in Family Court Act, AND family offense violation, to:

(1) Family Court

(2) Summons Part - Criminal Court (if concurrent jurisdiction exists, complainant may go to either court or both.)

b. Family/Household - Expanded Definition subdivisions "g" and "h" above and/or non-family offense violations - to Summons Part - Criminal Court.

NOTE: A uniformed member of the service cannot effect an arrest for VIOLATIONS NOT COMMITTED IN HIS/HER PRESENCE, UNLESS such violation is specifically prohibited in a current Order of Protection issued to the complainant/victim. The proper charge is Criminal Contempt in the Second Degree, Penal Law Section 215.50(3), or Criminal Contempt in the First Degree, Penal Law Section 215.51(b [v]) or (c) (see step "7," subdivision "b," above).

WHEN CONCURRENT JURISDICTION EXISTS:

15. Advise complainant/victim of the courts available to them and the purpose of each court as outlined in the "Definitions - Concurrent Jurisdiction" section.

IN ALL CASES:

16. Advise complainant/victim of availability of shelter and other services by providing the 24 hour Domestic Violence Hotline number, as per the NYS Family Court Act.

17. Prepare New York State Domestic Incident Report (DIR) (DCJS 3221-02/2010) in ALL instances in which response to OR becoming apprised of an incident (e.g., altercation, disturbance, conflict, or dispute) involves members of the

same Family/Household-Expanded Definition, or is an allegation of child abuse.

- a. If prepared in response to a radio run include SPRINT job number on form.
- b. List in the "Results of Investigation and Basis of Action Taken" section all factors that resulted in determination or inability to determine that a particular offender was the primary physical aggressor, when applicable.
- c. List any arrest or investigatory evidence invoiced, including photographs uploaded to the Domestic Violence Digital Photo database via PhotoManager, in the appropriate caption of the DIR.

NOTE: In cross complaint situations, a DIR shall be prepared for each complainant/victim. Every attempt should be made to have the complainant complete the "Statement of Allegations/Supporting Deposition" caption, regardless of what language he/she speaks or writes. DO NOT enter in "Statement of Allegations/Supporting Deposition" caption "Refused" or "Same as page 1" if the victim is unable to speak or write in English, unless the victim refuses. Always allow the victim to write in his/her primary speaking language if unable to write in English. If the need for an interpreter/translator arises, members of the service will comply with [P.G. 212-90](#), "Guidelines for Interaction with Limited English Proficient (LEP) Persons" or [P.G. 212-104](#), "Interaction with Hearing Impaired Persons," as appropriate. The member of the service preparing the DIR should note the victim's primary language in the appropriate box in the Victim/Party 1 section of the DIR. In addition, the member of the service should note the identity of any interpreter used in the "Investigation" section of the DIR."

18. Use radio code dispositions to finalize assignment:

- b. 10-90F(2) DIR Prepared/Unfounded
- c. 10-92F Arrest Effectuated/DIR Prepared
- d. 10-93F COMPLAINT REPORT/DIR Prepared.

NOTE: These dispositions MUST be used to finalize any incident involving a Family/Household-Expanded Definition. Communications Section will NOT accept any other disposition code. If the assignment was initially categorized as other than signal 10-52, notify Communications Section dispatcher and use above codes to finalize the assignment.

REPORTING PROCEDURE:

ADDITIONAL DATA

The immediate apprehension of domestic violence offenders is of paramount importance. Joint efforts involving the Precinct Detective Squad and the precinct/PSA Domestic Violence Unit is the most effective way to expeditiously apprehend named perpetrators. Therefore, it is incumbent upon Detective Zone commanding officers and Precinct Detective Squad commanders to coordinate frequent joint operations/sweeps with the precinct/PSA commanding officer, special operations lieutenant and domestic violence unit sergeant to apprehend multiple named perpetrators.

A uniformed member of the service will, when requested by a petitioner, assist in the service of an Order of Protection, summons, or petition. (Orders of Protection issued by the Family Court and delivered directly to the Department will be served according to [P.G. 212-57](#), "Service Of Family Court/Supreme Court Orders Of Protection By Uniformed Members Of The Service").

To avoid unnecessary court appearances by uniformed members of the service who are requested by a petitioner to serve a respondent with an Order of Protection, summons, or petition, uniformed members of the service will prepare STATEMENT OF PERSONAL SERVICE (PD260-152). The uniformed member concerned will sign the STATEMENT OF PERSONAL SERVICE after completing all captions on the form. It is no longer sworn to before a supervisory officer. The original copy (white) will be given to the petitioner and the duplicate copy (blue) will be filed in the precinct of service.

Domestic Incident Reports, are potential Rosario material, and must be maintained at the precinct of occurrence. If an arrest is effected, the arresting officer must ensure that the Assistant District Attorney is provided with a copy of the Domestic Incident Report prepared in regards to the incident. When requested, the domestic violence prevention officer will make all Domestic Incident Reports prepared regarding the person arrested available to an Assistant District Attorney.

In violation cases referred to the Criminal Court - Summons Part, the complainant/victim must have the offender's address available for service of the summons. Misdemeanor cases should NOT be referred to the Criminal Court - Summons Part. The preferred course of action is to advise the complainant/victim to contact the police on the next contact with the offender and request an arrest, presenting the Domestic Incident Report as proof of the previous complaint.

Uniformed members of the service responding to a report of a domestic incident will question persons present about the existence of firearms in the household. Seize ANY firearms (including rifles and shotguns), and licenses/permits, if:

- (1) License holder is arrested, regardless of the charge; or
- (2) An Order of Protection exists against the licensee; or
- (3) When the incident involves physical force or the threat of physical force.

When a uniformed member of the service reasonably believes that the presence of firearms at a location creates imminent risk of physical injury or serious physical injury, the following actions should be taken to remove the weapon from the location:

- (1) Seize illegally possessed firearm(s) and make an arrest.

(2) Seize legally possessed firearm(s) when such weapons create imminent risk of physical injury or serious physical injury.

(3) Voucher legally possessed firearms which are voluntarily surrendered by participants in domestic incidents.

In all incidents involving pistol or permit holders, notify the License Division Incident Section and comply with "[P.G. 212-118](#) Incidents Involving Holders of Handgun Licenses or Rifle/Shotgun Permits".

License/permit holders must immediately notify the License Division, Incident Section, of any police incident in which they are involved.

NOTE: Effective January 1, 1996, the Criminal Procedure Law mandates that an arrest be made when an officer establishes probable cause that any family offense misdemeanor has been committed, unless the victim, on his/her own volition, requests that an arrest not be made. The law prohibits a uniformed member of the service from inquiring whether the victim seeks an arrest of such person. In addition, uniformed members of the service are reminded that [P.G. 208-36](#), "Family Offenses/Domestic Violence," sets out a mandatory arrest policy if a uniformed member of the service establishes probable cause that any felony has been committed or an order of protection has been violated.

b. If the offender is not present and further investigation is required, confer with the Internal Affairs Bureau and request assistance if needed.

NOTE: Whenever notification of an incident involving a member of the service (uniformed or civilian) residing outside the City of New York is received, the appropriate duty captain will be responsible for conducting an investigation. City of New York, the uniformed member of the service is to notify the Operations Unit.

FORMS AND REPORTS

COMPLAINT REPORT WORKSHEET (PD313-152A)
New York State Domestic Incident Report (DCJS 3221)

P.G. 208-38 New York State Order Of Protection Registry

Date Effective: 08/01/13

PURPOSE

To establish guidelines to be followed whenever a complainant claims to be the petitioner (possessor) of an active order of protection but is either unable to produce a copy of the order or produces one that is illegible, for the responding officer's review.

PROCEDURE

When a member of the service is informed by a complainant that he/she possesses an active order of protection, which has been violated, but is unable to produce a copy of that order.

UNIFORMED MEMBER OF THE SERVICE

1. Ascertain from the complainant all available information concerning the order (e.g., court of issuance, date of issuance, the names, addresses and dates of birth of all parties concerned, etc.).

NOTE: The above list of information to be obtained, if possible, from the complainant serves to aid the member accessing the system in verifying that the correct order has been located. Failure to obtain certain information from this list will not prevent the locating of a database file; an order can be located merely by entering the petitioner's (complainant's) name and date of birth. However, every attempt should be made to ascertain as much information as possible concerning the order and the parties to whom it pertains.

[I.O. 38 s 03] 2. Telephone Central Records Division, Identification Section at (646) 610-5195 to verify that an Order of Protection was issued, court of issuance, specific conduct prohibited and the expiration date.

3. If the Identification Section reports that there are no Orders of Protection on file pertaining to the complainant/victim, telephone the precinct of occurrence and request a member of the service authorized to operate the FINEST System to conduct an Order of Protection database inquiry.

a. In the event the precinct of occurrence is unable to conduct the inquiry, request the Communications Division dispatcher to conduct the inquiry.

[I.O. 38 s 03] NOTE: The following information is obtainable through the database:

a. Data relating to the person requesting the order of protection (name, address, date of birth, etc).

b. Data relating to the person against whom the order runs (name, address, date of birth, etc).

c. The terms and conditions of the order.

d. Date and court of issuance, and date of expiration.

e. Whether the respondent has been served with a copy of the order.

f. Additional comments regarding the parties involved and unique terms of the order.

It should be noted that the new state database will not contain orders of protection that have been issued prior to October 1, 1995.

The Central Records Division intranet database application will be utilized to access information for all Orders of Protection issued by New York City based courts, as outlined in Patrol Guide procedure [208-36](#), "Family Offenses/Domestic Violence."

WHEN THE COMPLAINANT INDICATES THAT THE ORDER WAS ISSUED PRIOR TO OCTOBER 1, 1995, OR A STATE DATABASE INQUIRY REVEALS THAT THERE IS NO ORDER ON FILE RELATING TO THE PARTIES CONCERNED

UNIFORMED MEMBER OF THE SERVICE

4. Telephone Central Records Division, Identification Section, at (212) 374-5195 to verify the existence of the order.

WHEN A STATE DATABASE INQUIRY REVEALS THAT THERE IS AN ACTIVE ORDER OF PROTECTION IN EFFECT

5. Verify that the order relates to the parties involved, naming the complainant as petitioner and the offender as the respondent.

6. Verify that the respondent has been previously served with a copy of the order.

NOTE: In order to effect an arrest for violation of an order of protection, the member must have probable cause to believe the order was effectively served upon the respondent PRIOR to its violation. While a notation in the database file will provide the member with sufficient probable cause to believe the order was effectively served, the absence of such information in the database file will not automatically prevent the member from making the arrest. If the member, through alternative means, can verify that the order was properly served (e.g., an affidavit of service, an admission by the respondent that he/she was properly served, etc) then the arrest can be effected.

7. Determine whether there exists probable cause to believe that the terms of the order have been violated by the respondent. If probable cause does exist, comply with the applicable provisions of [P.G. 208-36](#), "Family Offenses/Domestic Violence."

ADDITIONAL DATA

The fact that the order has not been properly served or that the specific terms of the order have not been violated will not prevent the member from effecting an arrest if the underlying conduct constitutes a crime.

RELATED PROCEDURE

Family Offenses/Domestic Violence ([P.G. 208-36](#))

P.G. 208-39 Family Offenses/Domestic Violence (Digital Photography Of Visible Injuries/Damaged Property)

Date Effective: 08/01/13

PURPOSE

To capture, catalog, store and maintain digital photographic evidence of visible injuries and/or damaged property as a result of domestic violence.

SCOPE

All precinct and police service area commands citywide are now able to digitally capture domestic violence photos and transmit them as a permanent record into the Domestic Violence Digital Photo Database. These images may then be instantly viewed by prosecutors at each borough's District Attorney's Office and the New York Law Department (Corporation Counsel) who will have access to the Domestic Violence Digital Photo Database. Prosecutors may then present digital images of domestic violence to judges at the time of arraignment, thereby strengthening the District Attorney's case. In addition, uniformed members acting in investigatory and support roles (Detective Bureau personnel, domestic violence prevention officers, etc.) will be able to view these photos prior to making further contact with the victim and/or offender.

PROCEDURE

Upon responding to the scene of a reported domestic violence incident:

UNIFORMED MEMBER OF THE SERVICE

1. Comply with [P.G. 208-36](#), "Family Offenses/Domestic Violence."
2. Determine if photographs must be taken.
3. Ascertain if the victim is willing to be photographed.
 - a. Advise the victim that photographable evidence is crucial to future prosecutorial efforts and/or civil process such as divorce and child custody proceedings.
 - b. If victim is not willing to be photographed, note refusal in ACTIVITY LOG (PD112-145), and if possible, have victim sign entry.
4. Notify the patrol supervisor and request that the domestic violence digital camera be brought to location.

NOTE: Only the domestic violence digital camera should be used to capture domestic violence evidence. No other cameras are compatible with the domestic violence capture station located in the area of the precinct desk. PERSONAL PHOTOGRAPHIC EQUIPMENT (CAMERAS, CELL PHONES, HANDHELD COMPUTERS, ETC.) SHOULD NEVER BE USED TO CAPTURE DOMESTIC VIOLENCE EVIDENCE. The Domestic Violence Digital Photo Database will be the sole repository for photographs of all domestic violence evidence.

PATROL SUPERVISOR

5. Respond to requested location with domestic violence digital camera and direct photographs be taken of complainant/victim (if willing) and scene, if appropriate.

NOTE: Domestic violence prevention officers are also equipped with a digital camera. When working in the field, domestic violence prevention officers should respond to the scene where a domestic violence digital camera has been requested.

UNIFORMED MEMBER OF THE SERVICE

6. Take digital photographs as necessary, including but not limited to:

a. Visible injuries

NOTE: Injuries may not be initially prominent, therefore it is crucial for domestic violence prevention officers and investigators to take follow-up photographs for bruises that appear at a later time. When a victim makes a complaint of substantial pain (Assault 3rd Degree), and there are no visible injuries, do not take photos.

b. Damaged property

c. Weapons

d. Overall scene to illustrate items in disarray, indicating domestic violence or distress in home

e. Other types of evidence (i.e., pictures of caller-id box for aggravated harassment or flowers/notes for stalking, blood on the clothes/hands or ripped clothing of the victim/perpetrator, etc.)

f. Both pages (Data Sheet and Statement of Allegations written and signed by victim) of the completed New York State Domestic Incident Report (DCJS 3221-6/05)

g. Photo of the victim from the waist up, providing context for the series of photos.

NOTE: The digital camera is to be set at the highest resolution setting to maximize the quality of the photo with minimal file size. Each photo takes approximately one megabyte of data storage. Therefore, memory cards containing 256 megabytes of memory will be able to hold approximately 256 photos; those with 512 megabytes will hold around 512 photos, etc. The storage capacity of the camera enables members of the service to take as many photos as needed to depict any evidence and/or violence in the home. There is no longer a limit to the number of photos or "sets" of photos that can be taken in domestic violence cases. Do not set the digital camera memory to "internal memory." The camera must be set to capture photos on a memory card. Photos saved on the internal memory mode cannot be uploaded into the Domestic Violence Digital Photo Database.

7. Ensure that the phrase "DIGITAL PHOTOS" is documented on the "Evidence Collection" portion of the COMPLAINT REPORT WORKSHEET (PD313-152A) and the "Incident #" obtained from the first caption on the initial screen in the Domestic Violence Digital Photo Database is documented in "Invoice #" caption.

a. This "Incident #" is used by personnel at the District Attorney's Office

to retrieve digital photos during pre-arraignment.

NOTE: Polaroid film will no longer be used to capture domestic violence evidence. Therefore, PROPERTY CLERK INVOICES (PD521-141) will no longer be used to voucher domestic violence digital photos. Domestic violence digital photos will be uploaded into the Domestic Violence Digital Photo Database and NOT vouchered. Members are reminded that the photographing of evidence does not substitute for the collection and invoicing of physical evidence (i.e., weapons, clothing, etc.). Members will adhere to Patrol Guide 218-01, "Invoicing Property - General Procedure" when invoicing physical evidence.

Therefore, arresting/assigned officers MUST upload any domestic violence photos from the camera into the database during arrest processing (arrest evidence) or prior to the end of their tour (non-arrest/investigatory evidence), whichever applies.

The domestic violence camera and capture station must be maintained in the vicinity of the command desk. Commanding officers will ensure that digital cameras are accessible at all times. Desk officers will allow access to uniformed members of the service to upload/host digital photos into the Domestic Violence Digital Photo Database. When not in use, domestic violence digital cameras must be left on the docking station to maintain a charge. The docking station also serves as a conduit to upload domestic violence photos.

The digital cameras assigned to the command are to be included in the commands computer self-inspection worksheet and inventory.
