During court proceedings a judge or assistant district attorney may instruct a member of the service to appear in court at a later time or date. If this occurs, the member of the service must then notify their desk officer/roll call clerk, who in turn will notify the Appearance Control Unit. The member of the service will make such a notification to his/her command, via telephone, immediately upon dismissal from the police sign-in room.

A member of the service must appear in court as directed by the judge or assistant district attorney, whether or not an Appearance Control Unit or CACS notification is received, unless notified that the appearance had been cancelled.

If the requesting party/agency (e.g., assistant district attorney, hearing officer at the Department of Consumer Affairs, etc.) calls a command's roll call or desk officer to cancel an appearance by a member of the service, the requesting party/agency will be reminded to enter such a cancellation into the CACS system. This will prevent the member of the service from being charged with a failure to appear in court.

The CACS is interfaced with the Automated Roll Call System (ARCS). This enables a requesting agency, such as the District Attorney's Office, to tell at a glance if the proposed date selected for a court appearance is the members RDO, annual vacation, etc. This

feature allows the District Attorney to avoid using that date, thereby reducing court related overtime. For this aspect of the system to be effective, commands must ensure that their members vacation schedules, chart changes, etc. are updated in ARCS in a timely fashion.

Every morning at 1000 hours all commands, which use the CACS, receive a computer-generated report listing the names of members who have failed to appear in court by 1000 hours that day. (This report does not include alerts that have not yet been activated.) In precincts, PSAs, Transit Districts, etc., this report prints at the desk's or roll call's terminal. In specialized units, this report prints at the unit's FINEST or LAN printer. The desk officer/supervisor on duty who receives this report must make every effort to ensure that those members who are listed as "no shows" actually appear in court as required.

The commanding officer will use the CACS computer, FINEST or LAN generated report to investigate why each "no show" member failed to appear in court (other than SAP Court) and then take appropriate disciplinary action, as necessary. If negligence or misconduct is found, or court cases are dismissed due to member's absence, the commanding officer will comply with A.G. 316-44, "Supervision of Uniformed Members of the Service at Court." Each business day, the commanding officer will forward a communication to the investigations unit in the overhead command, identifying members of the service who failed to appear in court, including the reasons for the non-appearances and the disciplinary actions taken, if any.

PROCESSING NOTIFICATIONS TO APPEAR AT COURTS AND OTHER GOVERNMENT AGENCIES			
DATE ISSUED: 08/01/13	DATE EFFECTIVE: 08/01/13	REVISION NUMBER:	PAGE: 1 of 8

PURPOSE

To effectively monitor and control, via a formal notification process, appearances by members of the service (uniformed and civilian) at various courts, CCRB, other government agencies and for District Attorney’s assignments. In addition, this procedure takes into account the different command structures within the Department and requires commanding officers to incorporate this procedure into the circumstances of his/her command, ensuring compliance with the notification process.

SCOPE

With the establishment of the computerized Court Appearance Control System (CACS), the Appearance Control Unit’s responsibilities were re-defined in order to more effectively monitor and control the appearance process. Appearance Control Unit functions include:

- a. Processing requests and making notifications for members of the service to appear in court or other governmental agencies. (Appearance Control Unit will only make notifications for commands that have not yet been enabled in the CACS)
- b. Maintaining a liaison between this Department, the District Attorney’s Office and other related agencies
- c. Mediating and resolving conflicting court appearances
- d. Maintaining required records and statistical data.

DEFINITIONS

DISTRICT ATTORNEY’S ASSIGNMENT – Any assignment, including field assignments, requested by the District Attorney’s Office for the purpose of case or trial preparation.

ENABLED COMMAND – Commands with access to the computerized Court Appearance Control System (CACS).

DESIGNATED SUPERVISOR – Supervisor assigned by the commanding officer to ensure notifications are distributed and accounted for.

ROLL CALL CLERK/DESIGNATED MEMBER – Member assigned by the commanding officer to process notifications received from Appearance Control Unit or CACS.

PROCEDURE

When a notification is received at the requested member’s command from the Appearance Control Unit, or the CACS for commands enabled in this system, or by subpoena, or as the result of a verbal instruction given by a Judge, Assistant District Attorney, or Corporation Counsel member to appear at a Grand Jury, Court (Supreme, Civil, Criminal, or Family), for trial preparation, a government agency, or for a District Attorney’s assignment:

SHORT DATE NOTIFICATION

TEMPORARY ASSIGNMENT TO DISTRICT ATTORNEY'S OFFICE

- MEMBER OF THE SERVICE**
37. Process request through appropriate Appearance Control Unit.
- a. Such assignments will not exceed five days
 - b. Requests for temporary assignment of more than thirty days will be processed as per A.G. 320-07, "Temporary Assignments."
38. Forward requests for extension of such assignment and/or requests for temporary assignments of six to thirty days to commanding officer of member concerned.
- COMMANDING OFFICER, MEMBER CONCERNED**
39. Review request and endorse to Chief of Department (through channels) for final determination.

NOTE

A request for extension of a temporary assignment will be reviewed and endorsed by the commanding officer, member concerned. Any further extension will be reviewed by the commanding officer, member concerned, and endorsed with recommendations (through channels) to the Chief of Department for final determination. Uniformed members of the service will not accept a verbal extension of a temporary assignment from an Assistant District Attorney, unless there is an ongoing trial and appearance is for the next day. In that case, the uniformed member of the service will contact his/her commanding officer, who in turn will notify the Appearance Control Unit. The Assistant District Attorney will be advised to request an extension through the CACS, Appearance Control Unit, or if closed, the Borough Court Section.

ADDITIONAL DATA

*A member of the service who must appear in court on a scheduled day off, for an adjourned case, will be assigned to a 0900 x 1700 tour, or as otherwise appropriate for attendance at court. A member of the service who must appear in court on a scheduled day off may be excused from remainder of tour, needs of the service permitting. If excused, the member will enter "Requested Excusal" on the **OVERTIME REPORT (PDI38-064)** submitted.*

A member of the service who becomes unavailable due to a conflicting court appearance, sick leave, or other condition such as new arrest, change in assignment or duty chart, will notify the roll call clerk, designated member, sick desk supervisor, or desk officer. The desk officer/designated supervisor or roll call clerk/designated member will notify the Appearance Control Unit of the member's unavailability by telephone prior to scheduled appearance. The CACS will be updated accordingly. The requesting agency will also be notified.

Uniformed members of the service who are normally assigned to the Fourth Platoon (1800 X 0200 hours) that are subpoenaed, directed by Appearance Control Unit, the CACS or notified by other competent authority, to attend any court, official agency hearing or training session the following day (Second Platoon), will be notified in advance and reassigned to perform duty with the Third Platoon (1600 X 2400 hours).

PATROL GUIDE

PROCEDURE NUMBER:	DATE EFFECTIVE:	REVISION NUMBER:	PAGE:
211-05	08/01/13		7 of 8

**ADDITIONAL
DATA
(continued)**

*Those uniformed members of the service who are **not** notified in advance or who are already performing duty with the Fourth Platoon at the time they receive a notification to attend any court, official agency or training session the following day on the Second Platoon, will be excused from duty, under normal circumstances, at 2400 hours. If the member concerned effects an arrest and the related paperwork is **not** completed by 2400 hours **or** the member concerned is in the process of performing a police function beyond 2400 hours, that member is **not** entitled to be dismissed until all of the police related functions are complete. If the uniformed member of the service continues to work beyond 0200 hours, the member will be entitled to receive appropriate overtime compensation in the normal manner. (The excused member is **not** entitled to receive any overtime compensation for the time period 2400 to 0200 hours.). Desk officer will make appropriate notations in the Command Log, and on the roll call and sign out sheet for those uniformed members of the service who are dismissed at 2400 hours.*

In all cases where an appearance notification falls on a member's regular day off, only that member's commanding officer or designee will be permitted to cancel this notification after personally conferring with and receiving the concurrence of the person who requested the appearance, (i.e. judge, assistant district attorney, assistant corporation counsel member, or their supervisor). This includes all court subpoena and verbal instruction cases. Every effort should be made, with a few rare exceptions, in (RDO) trial preparation and (RDO) Grand Jury appearance cases, and the defendant is no longer in custody, to cancel the notification with the verbal concurrence of the assigned assistant district attorney.

A service by telephone message attempting to cancel the notification on the authorizing person's voice mail, or a request for a return phone call to have a follow up conversation on this matter, does not relieve the command from the responsibility of having this member report to court or other governmental agency as scheduled.

If the requesting agency (e.g. assistant district attorney, assistant corporation counsel), does not concur with the requested cancellation, the member concerned must appear as scheduled.

If the requesting agency concurs with the cancellation, the commanding officer or designee will then notify the Appearance Control Unit for all notifications received from that Unit, including subpoenas and verbal cases that were not initially received from that Unit, or request the assistant district attorney or their supervisor to enter this cancellation data into the CACS for all notification cases received via that computerized system. In addition, in all agreed upon cancellation cases, the member of the service who conferred with the requesting agency will have a telephone message entry made, indicating the details of the canceled notifications.

A Special Narcotics Appearance Control Unit is located in Queen's Special Narcotics Courts. In addition to tasks listed in this procedure, the Special Narcotics Appearance Control Unit will also place uniformed members of the service on telephone alert when requested by the Special Narcotics Assistant District Attorney.

*CACS passwords are issued by the Criminal Justice Bureau, not MISD. Requests for passwords should be sent on **Typed Letterhead** to the Criminal Justice Bureau at One Police Plaza, Room 204. The request should include command code, tax number, as well as, full name and a contact name and phone number.*

TRAFFIC VIOLATIONS BUREAU NOTIFICATIONS			
DATE ISSUED: 08/01/13	DATE EFFECTIVE: 08/01/13	REVISION NUMBER:	PAGE: 1 of 5

PURPOSE

To effectively monitor and control the appearances of uniformed members of the service who are being requested by the Department of Motor Vehicles to appear at the Traffic Violations Bureau (TVB) for summons hearings.

SCOPE

The New York State Department of Motor Vehicles forwards two copies of a computer notification print-out entitled "POLICE APPEARANCE LISTING" to affected commands, via Department mail, each business day. This printout is an appearance schedule designating when and where the officer of record will appear for a summons hearing. It also provides other pertinent information, i.e., summons number, date/type of violation, and the defendant's name.

PROCEDURE

Upon receipt of a **Police Appearance Listing** at a police command:

ROLL CALL PERSONNEL

1. Review **Listing** and enter member's scheduled appearance in the command's court diary.
2. Make immediate notification to the TVB office concerned if a member is unable to appear due to:
 - a. Sickness
 - b. Military leave
 - c. Death in the family
 - d. Conflicting court appearances
 - e. Department related emergency (i.e. mobilization, disorder, etc.)
 - f. Vacation selection (roll call personnel must verify)
 - g. Arrest by member (roll call personnel must notify TVB with an arrest number)

NOTE

Requests for rescheduling must be made at least ten calendar days before originally scheduled hearing date.

3. Prepare **NOTIFICATION (PD406-122)** and comply with *P.G. 211-05, "Processing Notifications To Appear At Courts and Other Government Agencies."*
 - a. If requested uniformed member has been transferred, *immediately* notify that member's new command via telephone, and make an appropriate entry in the Telephone Record.
 - b. If requested uniformed member of the service is retired or no longer employed by this Department, notify Integrity Control Officer for preparation of **AFFIDAVIT OF NO RECOLLECTION / SEPARATION FROM SERVICE (PD360-121)**.
4. Ensure all TVB hearing cases are included in daily roll calls as appropriate.
5. Post a copy of the **Police Appearance Listing** in the muster room of the command.

PROCEDURE NUMBER:	DATE EFFECTIVE:	REVISION NUMBER:	PAGE:

NOTE Under no circumstances will a member report to a TVB hearing on his/her RDO.

**DESK OFFICER/
SUPERVISOR** 6. Ensure that member concerned receives **NOTIFICATION**.

NOTE When notification of appearance is made to a uniformed member of the service, the notifying supervisor will ensure that the issuing officer conducts a warrant check.

**UMOS
CONCERNED** 7. Review copy of **NOTIFICATION** and *immediately* notify roll call of any conflicts with the scheduled date/time of hearing.
a. Notify Integrity Control Officer if the notification received involves a summons issued prior to November 1993 and there is no independent recollection of the case.
b. Request **AFFIDAVIT OF NO RECOLLECTION / SEPARATION FROM SERVICE** be prepared.
8. Sign **NOTIFICATION** and return receipt copy to desk officer/supervisor.

NOTE Members will comply with P.G. 211-01, "Duties And Conduct In Court", and P.G. 211-11, "Traffic Violations Bureau Appearances/Computerized Time Slips," when reporting for a hearing.

**INTEGRITY
CONTROL
OFFICER** 9. Conduct an investigation to ensure that an officer who claims no recollection on a pre-November 1993 case has no independent recollection of the events in question (i.e., request to see officer's memo book entries, etc.).

NOTE In order to establish a charge at the Traffic Violations Bureau (TVB), uniformed members of the service must present clear and convincing evidence. Proof could rest on the recollection of the uniformed member of the service refreshed by contemporaneously made memoranda. Thus, while an individual uniformed member of the service may have no recollection of the facts concerning the summons issuance independent of his or her own memo book entries, if after having read those memo book entries, the uniformed member of the service can speak to the facts from his or her own recollection sufficient to establish the charge by clear and convincing evidence, then the uniformed member of the service should appear and testify at the hearing as scheduled. If even after reading the memo book entries, the uniformed member of the service is still unable to testify from recollection, the memo book entries, if otherwise sufficiently detailed to establish the charge by clear and convincing evidence, may be read into the record at the hearing, if the uniformed member of the service is able to testify that (1) he or she once had knowledge of the entries, (2) the entries were prepared by the uniformed member of the service, (3) the entries were prepared when the knowledge of the contents were fresh in the mind of the uniformed member of the service, and (4) the uniformed member of the service intended when the entries were made, that they be accurate. The role of the Integrity Control Officer is critical in determining whether a member of the service should appear at a Traffic Violations Bureau hearing. Integrity Control Officers should ensure that effective testimony can not be offered by the uniformed member of the service prior to preparation and forwarding of the **AFFIDAVIT OF NO RECOLLECTION / SEPARATION FROM SERVICE**. In instances where the memo book entries of the officer cannot be located and/or are lacking sufficient information, the Integrity Control Officer should take appropriate disciplinary action.

- INTEGRITY CONTROL OFFICER (continued)**
10. Prepare **AFFIDAVIT OF NO RECOLLECTION / SEPARATION FROM SERVICE** and submit to roll call personnel for forwarding if investigation reveals no independent recollection of the events in question can be established or if a member of the service notified to appear is no longer employed by this department.
- DESK OFFICER/SUPERVISOR**
11. Obtain signed receipt copy of **NOTIFICATION** from member concerned and forward to roll call.
- ROLL CALL PERSONNEL**
12. Check notification receipts daily to ensure notifications have been received and acknowledged by members concerned.

17. Document findings and action(s) taken on **NON-APPEARANCE NOTICE** and return to the commanding officer of the borough court section concerned within fourteen days.

- COURT SECTION, INTEGRITY CONTROL OFFICER**
18. Monitor receipt of **NON-APPEARANCE NOTICES** to:
- a. Ensure commands are preparing and forwarding investigations in regards to **NON-APPEARANCE NOTICES** as required.
- b. Ascertain reasons for non-appearances and take appropriate action(s) as necessary.

ADDITIONAL DATA

Whenever it has been determined that a warrant is to be executed at a Traffic Violations Bureau appearance and the issuing member is excused from duty, a replacement member will be sent by the command concerned.

TVB appearances are considered court appearances. Conflicting appearances with the Civilian Complaint Review Board, investigation units, union meetings, training sessions, Medical Division appointments, etc., are not authorized excusals.

ADDITIONAL DATA
(continued)

Commanding officers of non-Automated Roll Call System (ARCS) commands will ensure that roll call personnel forward an updated command roster to the appropriate borough TVB facility on a monthly basis. These rosters will be prepared in alphabetical order, by rank and in the following format:

RANK	NAME	TAX #	STEADY RDO	CHART	PNS/SQD
------	------	-------	------------	-------	---------

TVB Court Section personnel will FAX a copy of the non-ARCS command rosters to the New York State Department of Motor Vehicles in Albany via FAX. In addition, a copy of all non-ARCS command rosters will be kept on file at each TVB office.

ALERT STATUS

TVB is now recognizing an "ALERT" procedure that may be utilized for uniformed members scheduled for TVB hearings. A member will have forty-five minutes to report once TVB has activated that member through their command. A member's operations coordinator may request roll call to place a member on "ALERT STATUS" under the following conditions:

- a. Hearing scheduled for 1030 or 1300 time period and
- b. Hearing appearance scheduled for one motorist only, (regardless of number of summonses issued) and
- c. Member's command is located within the same patrol borough as the TVB hearing location and
- d. The ability of a command to ensure the expeditious appearance of its personnel once an "ALERT" has been activated.

Uniformed members on "ALERT" will not be assigned to any duty that will prevent their immediate dispatch to TVB; nor will members be scheduled for a meal during the "ALERT" period. "ALERT" periods are between the hours of 1030-1200 hours (1030 hour cases) and 1300-1400 hours (1300 hour cases). When notified by TVB to activate member, the desk officer concerned will immediately notify the member to report directly to TVB; both a Telephone Record and Command Log entry are required.

EXTENDED TOURS FOR MEMBERS ASSIGNED TO THE 1ST AND 3RD PLATOONS

Uniformed members assigned to the 1st platoon will report to TVB at 0800 hours. Uniformed members assigned to the 3rd platoon will report direct to TVB at 1415 hours.

The following provisions will apply:

- a. Member must attend in business attire.
- b. This Department reserves the right to reschedule members to the 2nd platoon in appropriate cases as determined by the Department. In this regard, members whose appearances will extend to more than three hours may be rescheduled to the 2nd platoon. These provisions apply only to TVB appearances, and not to other court appearances.
- c. Members must be on a MUST APPEAR status. Members on ALERT STATUS will continue to be rescheduled.
- d. Members are not eligible for portal to portal compensation.
- e. Members on the 1st platoon must notify their commands upon completion of the appearance. Members on the 3rd platoon must return directly to their commands upon completion of the appearance.

Subpoenas for records received directly from the Civilian Complaint Review Board will be accepted and a telephone notification will be made to the Civilian Complaint Review Board Liaison, (212) 741-8409 or 8448. If there is no response, the Internal Affairs Bureau Command Center will be notified, at (212) 741-8401. The subpoena will then be hand delivered to the Civilian Complaint Review Board Liaison in a sealed envelope without delay.

*When records being requested are not available at the command, the specific reason why the request cannot be satisfied must be indicated on Line 16 of the **REQUEST FOR RECORDS** form. For example, if a particular **COMPLAINT REPORT** is requested in connection with an incident, and a comprehensive review of command records indicates that no such report was prepared, the assigned member will indicate "Complaint Report not prepared" on the **REQUEST** form. Similarly, if a document is lost or missing, this finding will likewise be indicated on the form. Generic terms, such as "unable to locate" or "not available" will not be accepted. If a document has been forwarded or is located in another command, this information must be included on the form. The Civilian Complaint Review Board Liaison will redirect all such requests to the appropriate command.*

PROCESSING SUBPOENAS FOR POLICE DEPARTMENT RECORDS AND FOR TESTIMONY BY MEMBERS OF THE SERVICE			
DATE ISSUED: 08/01/13	DATE EFFECTIVE: 08/01/13	REVISION NUMBER:	PAGE: 1 of 10

PURPOSE

To ensure proper compliance by the Police Department and its members with lawful court mandates and subpoenas requiring attendance at court or production of Department records in response thereto.

SCOPE

It is the official policy of this Department that the unit that is the repository of a given Department record has the responsibility to respond in a prompt fashion to a subpoena demanding the record's production. A command will not forward a subpoena to the Legal Bureau, the Central Records Division or to other units within the Department when record(s) requested is/are present in the subpoenaed command.

DEFINITIONS

SUBPOENA - A generic term used in the law to refer to any legal device that compels the appearance of a person at a specific time and place, usually to give testimony in a judicial proceeding, or compels the production of certain documents or items of evidence. A subpoena that compels a person to appear and give testimony is known as a subpoena ad testificandum. A subpoena that compels the production of documents or evidence is known as a subpoena duces tecum.

COMMAND LIAISON OFFICER - Every commanding officer/counterpart within the Department is designated as the command liaison officer who is responsible for the full implementation of and compliance with this procedure. While commanding officers/counterparts may delegate the tasks associated with this procedure to subordinates, they are responsible for their command's compliance with this procedure.

SUBPOENA RECORD BOOK - A permanent bound record book maintained by each command (including commands located within a precinct stationhouse, transit district, police service area, or other Department facility) with the following captions contained therein:

- a. Number (serialized, beginning with 001 each year)
- b. Date and time received
- c. Type of subpoena (e.g., duces tecum or ad testificandum)
- d. Name of member concerned
- e. Brief description of records requested
- f. Return date
- g. Issuing court

- j. Fee receipt issued (indicate "No fee or receipt number)
- k. Date records forwarded
- l. Date court receipt received.

COMMAND SUBPOENA FILE - A file in which photocopies of subpoenas and requests for Department records by assistant district attorneys and assistant corporation counsels are filed chronologically, by year, pursuant to this procedure.

DEFINITIONS (continued)

DOCUMENT PRODUCTION UNIT - A sub-unit of the Legal Bureau charged with the responsibility to ensure that all lawful requests for Department records by courts, prosecutors, government agencies, and private citizens are complied with in a timely fashion. The Document Production Unit also processes all requests under the Freedom of Information Law that are received by the Department. The Document Production Unit is located at One Police Plaza, Room 110-C, New York, NY 10038.

NOTE

Under no circumstances will a subpoena or subpoena duces tecum served or received at a command be forwarded to the Document Production Unit without the express permission of the Supervisor, Document Production Unit.

PROCEDURE

Upon receiving a subpoena that only requires personal appearance by a specific member of the service to appear in court or otherwise give testimony in a legal proceeding:

COMMAND LIAISON OFFICER

1. Record receipt of subpoena in the Subpoena Record Book, ensuring that all applicable captions are completed.
2. Issue **FEE RECEIPT (PD122-017)** in accordance with *P.G. 212-82, "Forwarding of Fees to the Audits and Accounts Unit,"* if a fee is tendered with the subpoena.
3. Photocopy subpoena and deliver ORIGINAL to member of the service concerned.
 - a. Note Command Serial Number, Fee Receipt number (if applicable), date, and time of delivery to member concerned on reverse side of photocopy. Member of the service concerned will sign photocopy, indicating receipt of subpoena.
4. Direct member of the service to comply with subpoena.
5. File photocopy of subpoena in Command Subpoena File.
6. Notify roll call clerk and ensure that entry is made in Command Diary.
 - a. Comply with appropriate procedures concerning notifications to Appearance Control Unit.
7. Ensure that member of the service concerned has appeared in court, or otherwise, as required by subpoena.

NOTE

*If a subpoena is received for a member of the service that also requires that the member concerned produce documents or evidence, other than an **ACTIVITY LOG (PD112-145)**, and the subpoena has not been marked as "SO ORDERED" by a judge, the member of the service concerned will comply with the subpoena only in so far as it relates to making the required appearance. Department records or evidence will not be produced. If the subpoena is "so-ordered," the named member will bring the required documents (see **ADDITIONAL DATA** for further explanation).*

Members receiving a subpoena ad testificandum that requires an appearance to give testimony at other than a trial proceeding are advised that they are not to answer any question without first consulting with the assistant corporation counsel or assistant district attorney assigned to the case. If there is no assistant corporation counsel/assistant district attorney assigned to the particular case, or if the member of the service is unsure regarding such assignment, the Document Production Unit will be consulted.

**COMMAND
LIAISON
OFFICER**

8. Ensure that subpoena duces tecum has been endorsed by judge as “so-ordered.”
 - a. If subpoena duces tecum is not “so-ordered,” make all required subpoena record book entries and indicate in caption marked “Date of Compliance” the fact that the subpoena was not so-ordered. File copy of subpoena in rear of Command Subpoena File.
 - b. If the name and telephone number of the issuing attorney is available, contact the attorney and advise that unless the subpoena is “so-ordered,” it will not be complied with. No further action is required.
9. Complete all applicable captions in Subpoena Record Book.
10. Gather photocopies of all documents requested in subpoena that are maintained at the command (including **ACTIVITY LOG** entries of members of the service concerned, if applicable).

NOTE

*Certain Department records that are subject to subpoena such as a Command Log or member’s **ACTIVITY LOG** may also contain information that is unrelated to the facts and circumstances of the case for which the subpoena was issued. In such a case, unrelated information should be “redacted” (blocked out or deleted in any other suitable fashion that ensures that the unrelated information cannot be discerned by the party issuing the subpoena) from the copy forwarded in compliance with the subpoena. No redactions will be made to any material forwarded to the Legal Bureau, Corporation Counsel or District Attorney. Additionally, prior to forwarding copies of any Departmental records to anyone outside the Police Department other than an assistant district attorney, assistant corporation counsel or other law enforcement agency, the name, addresses, and telephone number, and any other data that identifies a victim or witness will be redacted.*

Immediate telephone notification to the Document Production Unit is to be made if any command receives a subpoena ad testificandum or a subpoena duces tecum for the following Department records:

- a. Confidential records, such as personnel folders, or documents relating to confidential investigations;
- b. Records relating to cases that have been the subject of notoriety or publicity;
- c. Records relating to sensitive or unusual cases and corruption cases.

Such telephone notification will also be made if there is any doubt as to whether subpoenaed records should be released. The telephone notification is to be recorded in the Telephone Record. Instructions received from the Document Production Unit will be strictly complied with.

While requests for records received from an assistant corporation counsel or an assistant district attorney do not require a subpoena, if the material requested is confidential or sensitive as outlined in step a, b or c above, a telephone notification to the Document Production Unit is required.

**ADDITIONAL
DATA**

TYPES OF SUBPOENAS:

Any subpoena, which, by its terms, requires the production of documents or evidence, is a subpoena duces tecum. Under the relevant statutes of this state, a subpoena duces tecum directed to a subdivision of a municipal government, such as the Police Department, must be "so ordered" by a judge. "So ordered" means that the attorney who desires the documents to be produced has obtained judicial approval for the subpoena duces tecum in question. If the judge determines that the attorney has a genuine need for the requested material, the judge will indicate this fact by signing or initialing the subpoena duces tecum at a caption entitled "so-ordered".

PHOTOCOPYING RECORDS:

Under no circumstances will original Department records be removed from any Department facility without the prior approval of a Department attorney or the commanding officer. Photocopies ONLY will be forwarded. The Document Production Unit will be notified and consulted whenever court process compels production of original copies of Department records.

DISTRICT ATTORNEY/CORPORATION COUNSEL REQUESTS:

*Assistant district attorneys and assistant corporation counsels are **NOT** required to issue a subpoena for the production of Police Department records. Accordingly, no member of the service will require or request that a subpoena for records be served by them. Such document requests will be handled in accordance with P.G. 211-18, "Processing Requests For Police Department Documents Received From Assistant Corporation Counsels And Assistant District Attorneys."*

RECORDS UNAVAILABLE AT RECEIVING COMMAND:

If a subpoena is received for records that are not available at the command receiving the subpoena, the subpoena will be forwarded to the command having custody of the record. If the subpoena calls for the production of more than one item, and the receiving command does not have custody of all items requested, the receiving command will comply with that portion of the subpoena for which the command possesses records. A photocopy of the subpoena will be forwarded to the command having custody of the other items requested with a report detailing which portions of the subpoena will be complied with by the original receiving command.

TRANSFERRED MEMBERS:

A process server who appears at a command to serve a subpoena directed to a member of the service who has been transferred from the command will be advised of the member's new command and directed to make service at the member's new command. If the member concerned has retired, the process server will be informed of this fact and service will not be accepted. If a subpoena is received by other than personal delivery, the subpoena will be forwarded to the member's current command. If a subpoena is received by other than personal delivery and the member has retired, the attorney issuing the subpoena will be contacted and informed of such fact.

SUBPOENAS THAT CONCERN PERSONAL MATTERS:

*Circumstances may arise where a member of the service receives a subpoena in his/her capacity as a private individual. This situation frequently arises in the context of civil litigation where the member concerned is involved as a party or as a witness to events, which occurred while off duty. In such a circumstance, a subpoena may be served upon such a member at his/her command and service will be accepted. If service is accepted by someone other than the party named in the subpoena, such as the desk officer, the party that accepts service **must** ensure that the subpoena is actually received by the named party. In such a circumstance, the fee tendered (if any) will be given to the member concerned along with the subpoena. No further processing of the subpoena is required. If a member is required to attend court in response to such a subpoena arising out of his/her private affairs, such appearance will be made on the member's off-duty time. Any questions regarding the applicability of this note may be directed to the Document Production Unit.*

SUBPOENAS ISSUED BY COURTS OUTSIDE NEW YORK CITY			
DATE ISSUED: 08/01/13	DATE EFFECTIVE: 08/01/13	REVISION NUMBER:	PAGE: 1 of 2

PURPOSE

To determine whether a subpoena issued by a court located outside of New York City requires a response by the Police Department and, if a response is required, the nature and extent of such response.

SCOPE

The Police Department is frequently served with subpoenas issued by courts located outside of New York City. Such subpoenas present special problems relating to the nature of response required by this Department. While subpoenas issued by courts located within New York City are valid and must be complied with in accordance with the terms of the subpoena and in the manner set forth in the applicable Department Manual procedures, subpoenas issued by courts outside of New York City require special handling and are subject to different rules regarding compliance.

PROCEDURE

Upon receipt of a subpoena issued by other than a court located within New York City:

MEMBER OF THE SERVICE

1. Issue **FEE RECEIPT (PD122-017)** in accordance with *P.G. 212-79, "Subpoena Fees and Accounting Procedures."*
2. Forward subpoena to command liaison officer.
3. Complete all entries in Subpoena Record Book.
4. Determine the response required by utilizing the following guidelines:

COMMAND LIAISON OFFICER

SUBPOENA ISSUED BY A NEW YORK STATE COURT:

COMMAND LIAISON OFFICER

- a. When no personal appearance is required by a member of the service:
 - (1) Such a subpoena will be complied with in accordance with *P.G. 211-15, "Processing Subpoenas for Police Department Records and Testimony by Members of the Service."*
- b. When a personal appearance is required by a member of the service:
 - (1) The Legal Bureau - Document Production Unit should be consulted.
 - (a) Instructions received from the Document Production Unit will be complied with.
 - (b) Comply with *P.G. 212-83, "Leaving City on Police Business."*

SUBPOENA ISSUED BY FEDERAL COURTS:

COMMAND LIAISON OFFICER

- a. **CRIMINAL CASES** - Valid from any Federal Court in the United States. Subpoena will be complied with in accordance with *P.G. 211-15, "Processing Subpoenas for Police Department Records and Testimony by Members of the Service"*, if **DOCUMENTS ONLY** are required. If an appearance by a member of the service is required, the Document Production Unit will be notified and in addition to any directions received from the Document Production Unit, the member of the service who is the subject of the subpoena will prepare a report, on **Typed Letterhead**, in duplicate, addressed to the Police Commissioner, including the following information:
 1. Name and location of court
 2. Type of proceeding
 3. Name of person concerned

4. Date of receipt of subpoena
5. Reason Police Commissioner was not notified prior to testimony, if applicable.
6. Forward REPORT as follows:
 - (a) Original to Police Commissioner, direct
 - (b) Duplicate to Police Commissioner, through channels.
- b. CIVIL CASES - VALID ONLY WHEN:
 1. Served within the district where the court sits, OR
 2. Served within one hundred miles of the place of hearing or trial specified in the subpoena, OR
 3. Issued by a Federal Court located within New York State and served within New York State, OR
 4. The subpoena is endorsed by the judge authorizing the extraordinary service and served in conformance with the endorsement.

SUBPOENA ISSUED BY COURTS OF OTHER STATES:

**COMMAND
LIAISON
OFFICER**

- a. CRIMINAL OR CIVIL CASES - NOT VALID:
 1. Such subpoenas have no force and effect in the State of New York UNLESS the subpoena has been presented to a New York State judge and endorsed by the New York State judge for service in New York.

NOTE

While the Department has no legal obligation to respond to these subpoenas unless they are endorsed by a New York State judge, the Department should make every reasonable effort to assist law enforcement agencies from other jurisdictions. For example, Department personnel may provide testimony that will be helpful to a criminal prosecution outside the City of New York. Permission to appear and give such testimony must be obtained through channels, and all relevant Department procedures regarding leaving the city on official business must be complied with.

Any time a subpoena is received which requires a member of the service to appear at a hearing or other judicial proceeding outside the City of New York, the member is required to comply with P.G. 212-83, "Leaving City On Police Business." In addition, if the member is required to appear in court outside of the City, prepare and forward the REPORT to the Police Commissioner, as outlined above under "CRIMINAL CASES".

ADDITIONAL DATA

Any time a member has a question concerning the validity of a subpoena, the Legal Bureau - Document Production Unit will be consulted.

PROCESSING LEGAL BUREAU REQUESTS FOR DEPARTMENT RECORDS INCLUDING REQUESTS UNDER THE FREEDOM OF INFORMATION LAW			
DATE ISSUED: 08/01/13	DATE EFFECTIVE: 08/01/13	REVISION NUMBER:	PAGE: 1 of 3

PURPOSE

To ensure prompt, efficient response by the Department to lawful subpoenas and requests for Department records made by prosecutors, government agencies and private citizens, including requests made under the Freedom of Information Law (F.O.I.L.).

SCOPE

The Department is required by law to comply with statutes such as F.O.I.L. and court orders, including subpoenas, which command the production of certain documents in its custody. The Legal Bureau’s Document Production Unit will assist individual commanding officers/counterparts in fulfilling their responsibility to comply with subpoenas, government requests and lawful demands made by private citizens under the Freedom of Information Law (F.O.I.L.).

DEFINITIONS

FREEDOM OF INFORMATION LAW - The New York State Freedom of Information Law (F.O.I.L.) contained in Section 87 of the Public Officers Law, provides that all records kept by a government agency are presumed to be available for public inspection and/or copying. Exemptions from this public access requirement are very narrowly drawn and are only available when substantial confidentiality interests of law enforcement can be demonstrated.

DOCUMENT PRODUCTION UNIT - A sub-unit of the Legal Bureau charged with the responsibility to ensure that all lawful requests for Department records by courts, prosecutors, government agencies and private citizens are complied with in a timely fashion. The Document Production Unit also processes all requests under the Freedom of Information Law that are received by the Department. The Document Production Unit is located at One Police Plaza, Room 110C, New York, NY 10038.

F.O.I.L. RECORDS ACCESS OFFICER - The F.O.I.L. Records Access Officer is the supervisor in charge of the Document Production Unit of the Legal Bureau, or his designee. Any command receiving a F.O.I.L. request shall immediately forward it to the Records Access Officer and notify the requesting party of this action and the location of the Records Access Officer.

F.O.I.L. APPEALS OFFICER - The F.O.I.L. Appeals Officer is the Deputy Commissioner, Legal Matters or designee.

COMMAND LIAISON OFFICER - Every commanding officer/counterpart within the Department is designated as the official Liaison Officer for the purpose of tracking and expediting requests for records by the Document Production Unit of the Legal Bureau. While commanding officers/counterparts may delegate the gathering of these records to subordinates, they will be responsible for their commands’ compliance with all requests from the Document Production Unit.

NOTE

Subpoenas served directly at individual commands will not be forwarded to the Document Production Unit without the permission of the Supervisor, Document Production Unit. Such subpoenas are handled in accordance with P.G. 211-15, "Processing Subpoenas for Police Department Records and for Testimony by Members of the Service."

PROCESSING REQUEST FOR POLICE DEPARTMENT DOCUMENTS RECEIVED FROM ASSISTANT DISTRICT ATTORNEYS AND ASSISTANT CORPORATION COUNSELS			
DATE ISSUED: 08/01/13	DATE EFFECTIVE: 08/01/13	REVISION NUMBER:	PAGE: 1 of 2

PURPOSE

To ensure prompt and complete compliance with requests made by assistant district attorneys and assistant corporation counsels for any records or reports compiled by the Police Department concerning a case in litigation or being prepared for litigation.

SCOPE

In order to effectively prepare and maintain a criminal case, the prosecutor is required by law to have access to all reports, notes, memoranda, test results, or any forms prepared by law enforcement officers in connection with the facts and circumstances that form the basis of the prosecution. Certain forms and/or reports prepared by law enforcement officers are required by the rules of Criminal Procedure and Case Law to be turned over to the defense at certain points in the course of the prosecution. The failure to turn over such reports, in a case that has proceeded to trial and resulted in a guilty verdict, will result in a reversal of the conviction. This is true even in cases where the prosecutor was not aware of the existence of the report. Courts have held that the possession of such reports by the Police Department is the equivalent of possession by the prosecutor, and therefore, that the failure to turn over the reports possessed by the Police Department must result in a reversal of any conviction obtained. Therefore, it is imperative that any member of the service who is involved in the prosecution of a criminal action inform the assistant district attorney (or the assistant corporation counsel prosecuting a juvenile in Family Court) of all reports or notes made in connection with the case no matter how insignificant the member feels the notes or memoranda might be.

NOTE

Members of the service are advised that a request for records received from an assistant district attorney or assistant corporation counsel does not require an accompanying subpoena. All such requests for records from an assistant district attorney or assistant corporation counsel shall be complied with as expeditiously as possible. Such requests should be on District Attorney's Office or Corporation Counsel letterhead (or other form supplied by District Attorney's Office or Corporation Counsel's Office) and should include the following information:

- a. Name of Case
- b. Name and telephone number of requesting attorney
- c. Date of arrest
- d. Precinct of arrest
- e. Name of arresting officer; and
- f. Docket number assigned to case.

PROCEDURE

Upon receiving a request by an assistant district attorney or assistant corporation counsel to provide copies of Department forms, records, reports, or memoranda:

The member who has possession of the requested material will comply with this procedure.
5. Forward photocopies of records requested to assistant district attorney or assistant corporation counsel without delay.

NOTE

*In cases where a summary arrest has been effected, the arresting/assigned officer will make all reasonable efforts to secure photocopies of all Department forms and reports prepared, and all personal notes or scrap-paper notes and will make such copies available to the assistant district attorney or assistant corporation counsel concerned at the complaint room. Police officers that are normally scheduled to work an eight or nine hour tour of duty may be scheduled for a one hour meal period. Police officers normally assigned to work a twelve hour tour of duty will be scheduled two, non-consecutive, forty-five minute meal periods.

Members are not to be assigned meal periods during the first or last hour and one-half of their tour, except in emergency situations.

A member must be scheduled for eight consecutive hours of duty to be eligible for a meal period. If a police officer is scheduled for a full tour of duty and requests an excusal from duty of three hours or less, that police officer will be eligible for a meal period provided that the police officer requests that partial excusal prior to the start of the scheduled tour of duty.

While on extended tour overtime for an arrest or other police necessity, a meal period may be granted by a supervisor to a uniformed member of the service only if their assigned meal period was denied during their regularly scheduled tour. However, such meal period may not be granted if the meal period interferes with arrest processing or the needs of the service. Under no circumstances will a rescheduled meal period on extended tour overtime be assigned during the last hour of overtime. Once the event that necessitated the extended tour overtime ends, a member who has not yet taken a meal period is precluded from taking any meal thereafter. Absent exigent circumstances during extended tour overtime, uniformed members of the service who had taken their assigned meal period during their regularly scheduled tour may be granted a break or break periods commensurate with the expected duration of overtime.

Uniformed members of the service in the rank of police officer, assigned to outside details (e.g., parades, events, etc.), should be granted a one hour meal period absent exigent circumstances. Police officers assigned to outside details who are denied a one hour meal period are entitled to a credit of one hour compensatory time at straight time. However, this credit is not available to police officers whose meal was denied due to exigent circumstances. Commanding officers of outside details are responsible to ensure that police officers are assigned and granted one hour meal periods absent exigent circumstances. Detail supervisors shall assign meal periods prior to posting the detail. If exigent circumstances prevent the granting of meal periods, commanding officers of outside details are responsible to submit a written communication to the Office of Labor Relations detailing the actual exigent circumstances. The Police Commissioner will then make a final determination if exigent circumstances did exist.

CRIME SCENE INVESTIGATIONS AFFECTING NEW YORK CITY TRANSIT TRAIN SERVICE			
DATE ISSUED: 08/01/13	DATE EFFECTIVE: 08/01/13	REVISION NUMBER:	PAGE: 1 of 2

PURPOSE

To provide procedures for deciding whether a train involved in a serious crime or incident may be moved to another location pending a thorough crime scene investigation.

SCOPE

The Department has a dual responsibility, when a serious crime or incident occurs which may affect train service, to thoroughly investigate the matter as well as expeditiously permit the resumption of normal service.

There are instances in which prematurely moving a train involved in a serious crime or incident would adversely affect the quality of the crime scene investigation, e.g., continuity of blood stain patterns between the train and the platform, shots fired into or from a train, photographs which tend to corroborate or disprove witnesses' statements, ejected cartridge cases that can roll considerable distances on a train which has been moved, etc. However, these cases are rare and trains may be moved, in most cases, to another location where a more extensive crime scene investigation may be conducted. Every effort should be made to quickly ascertain whether a train involved in a serious crime or incident may be moved without jeopardizing physical evidence admissibility.

DEFINITIONS

A SERIOUS CRIME or INCIDENT includes, but is not limited to the following:

- a. Homicide
- b. Felonious assault in which the victim is considered likely to die
- c. Police officer shot or seriously injured
- d. Firearms discharge by a police officer which results in injury.

“POLICE LINE DO NOT CROSS” BARRIER TAPE – a white non-adhesive plastic tape imprinted with blue lettering stating “POLICE LINE DO NOT CROSS.” To be utilized in order to establish and/or create a secure area for police related operations. It can be used to close streets, secure buildings, secure transit facilities, close areas to the public, etc.

PROCEDURE

When a serious crime or incident occurs on the transit system:

UNIFORMED MEMBER OF THE SERVICE

- 1. Detain train involved for further investigation and be guided by instructions of a supervisor.

PATROL GUIDE

PATROL SUPERVISOR

2. Immediately respond to location and determine whether or not train service may be seriously affected.
 - a. Ascertain whether the crime scene will adversely be affected by movement of the train to another location, if train service is seriously affected, especially during rush hours or other such conditions.
3. Confer with the ranking Detective Bureau personnel on the scene and direct the train be moved to another accessible location, if physical evidence will not be jeopardized.
4. Be aware of the exact location where the train is being taken.
 - a. Assign a uniformed member of the service to the train to protect the crime scene.
5. Utilize barrier tape(s), as appropriate.
6. Expedite the crime scene investigation if the train cannot be moved.
 - a. Provide for prompt resumption of service upon completion of investigation.

ADDITIONAL DATA

Only authorized personnel, who are properly trained and equipped, are actively involved in the investigation of the incident, and whose presence is absolutely required, will be permitted to enter the crime scene perimeter, absent extraordinary circumstances and/or circumstances involving the life or safety of incident personnel and/or the public. PROCESSING UNKNOWN SUBSTANCES SUSPECTED OF BEING CHEMICAL, BIOLOGICAL, RADIOLOGICAL, NUCLEAR (CBRN)/HAZARDOUS MATERIALS EVIDENCE			
DATE ISSUED: 10/16/13	DATE EFFECTIVE: 10/16/13	REVISION NUMBER:	PAGE: 1 of 18

DEFINITIONS

CHEMICAL, BIOLOGICAL, RADIOLOGICAL, NUCLEAR (CBRN)/HAZARDOUS MATERIAL Incidents– Intelligence derived from numerous reliable sources indicates that terrorist groups have been trained and directed to:

- Construct improvised weapons from toxic industrial chemicals, radioactive materials commonly found in scientific equipment, illegally obtained pathogenic microorganisms, homemade biological toxins and many other types of common hazardous materials; and,
- Obtain employment driving tanker trucks carrying hazardous materials and use the trucks and their contents as weapons; and,
- Engage in acts of sabotage involving hazardous material manufacturing and storage sites.

Consequently, **any incident** involving an unknown substance suspected of being a (i) biological weapon agent or hazardous biological organism/toxin; or, (ii) military chemical agent or toxic industrial chemical; or, (iii) radiological/nuclear material must be considered a criminal/terrorism incident (even if it appears that the incident may be the result of an accident), an investigation must be conducted, the unknown substance must be assessed in order to identify its hazardous properties and the unknown substance and related property must be evaluated/processed as evidence. A failure to initially treat these types of incidents as terrorism/criminal could delay or prevent the apprehension of the perpetrator(s) and impede or prevent the disruption of one or more subsequent catastrophic attacks.

CITYWIDE INCIDENT MANAGEMENT SYSTEM (CIMS) - The Mayor’s Citywide Incident Management System (CIMS) states that the, “NYPD will be the *Primary Agency* at all CBRN/Haz-Mat incidents, with the responsibility for overall site management, assessment and investigations (crime-scene/terrorism).”

PRIMARY AGENCY – The Agency authorized by Mayoral Directive to have overall responsibility of an incident. The Primary Agency will coordinate with Support Agencies to mitigate the incident.

INNER PERIMETER – Area surrounding all of the locations that may have been contaminated by the unknown substance suspected of being a Chemical, Biological, Radiological, Nuclear (CBRN)/Hazardous Material. Absent emergency circumstances, only authorized and necessary personnel who are properly trained and wearing the appropriate type of Personal Protective Equipment (PPE) will be allowed to enter the Inner Perimeter. The establishment of an appropriately sized Inner Perimeter is a component of the NYPD responsibility for providing “overall site management.”

212-101	10/16/13		2 of 18

DEFINITIONS (continued)

CRIME SCENE - Area surrounding all of the locations that may contain physical evidence that may have forensic, investigative, demonstrative, etc, value. The size of the Crime Scene will depend upon the circumstances of the incident. Initially the size of the Crime Scene should be large and as time progresses and additional facts are discovered, it may be reduced in size. Initially, the size of the Crime Scene should be no smaller than the size of the Inner Perimeter. In order to minimize or avoid the alteration, loss, contamination, degradation, destruction, etc., of physical evidence, civilians and city, state, federal agency personnel who are unauthorized or unnecessary, including unnecessary NYPD personnel, will not be allowed access within the Crime Scene. The establishment of an appropriately sized Crime Scene is a component of the NYPD responsibility for providing “overall site management.”

OUTER PERIMETER- Area sufficiently removed from the inner perimeter or the crime scene if larger, so as to ensure that only authorized and necessary personnel are allowed access and that they enter in a controlled and coordinated manner. Civilians and city/state/federal agency personnel who are unauthorized or unnecessary, including unnecessary NYPD personnel, will not be allowed access within the Outer Perimeter. The Outer Perimeter is established so as to ensure that when necessary: (i) a sufficient level of force protection is provided; (ii) individuals may be safely and expeditiously evacuated; (iii) expeditious access/egress routes are provided for the authorized and necessary responding emergency vehicles; (iv) pedestrian, vehicular and mass transit traffic is appropriately controlled; (v) witnesses and investigative evidence are expeditiously identified and secured/safeguarded; (vi) crowds are properly managed; and, (vii) the affected area, buildings, property, etc, are appropriately secured. The establishment of an appropriately sized Outer Perimeter is a component of the NYPD responsibility for providing “overall site management.”

NYPD EMERGENCY SERVICE UNIT - The Emergency Service Unit will be the lead unit in the NYPD with respect to assessing an unknown substance suspected of being a CBRN/Hazardous Material and will be assisted at the incident site by the NYC Department of Environmental Protection.

NYC FIRE DEPARTMENT – The Mayor’s City Wide Incident Management System states that the core competencies of the NYC Fire Department include fire suppression; patient care and transport; search and rescue; and, CBRN/Hazardous Material life safety and mass decontamination. The Mayor’s City Wide Incident Management System also states that at a CBRN/Haz-Mat incident the NYC Fire Department, “will be responsible for life safety operations and mass decontamination.”

DEFINITIONS (continued)

NYC DEPARTMENT OF ENVIRONMENTAL PROTECTION – Personnel are engineers/scientists who are experts regarding military chemical agents, toxic industrial chemicals, and other types of chemical compounds. Personnel are also highly trained and experienced CBRN/Hazardous Materials first responders who utilize scientific instruments and laboratory techniques in the field to identify the chemical composition of unknown substances; and, they are supported by a New York State accredited Hazardous Materials laboratory. Personnel also perform air, water and soil sampling/analysis; conduct air plume dispersion modeling; identify/monitor contamination zones; determine the appropriate mitigation, containment, collection, disposal, decontamination, remediation, etc, plans, procedures and methods; and perform or direct the appropriate governmental and/or private assets to perform all or part of the required mitigation, containment, collection, disposal, decontamination, remediation actions.

NYC DEPARTMENT OF HEALTH AND MENTAL HYGIENE – Personnel are medical doctors, scientists, health care providers and public health professionals who are experts regarding biological weapon agents and hazardous biological organisms/toxins, communicable diseases, epidemiology, radioactive materials/contamination, laboratory sciences, environmental science/engineering, poisons, contaminated food/water, veterinary/pest control, decontamination plans/methods, and other public health related subjects. Personnel are supported by a nationally accredited “Bio-Threat Response” Public Health laboratory whose function is to determine whether an unknown substance is a biological weapon agent or hazardous biological organism/toxin. Personnel will provide assistance and/or respond to an incident scene when specifically requested or when particular pre-designated circumstances exist.

PROCEDURE

Upon discovering or being called to the scene of an incident involving an unknown substance suspected of being a Chemical, Biological, Radiological, Nuclear (CBRN)/Hazardous Material other than an explosive substance or a conventional, radiological or nuclear explosive device:

UNIFORMED MEMBER OF SERVICE

1. Interview complainant(s) and other involved persons, conduct preliminary investigation, evaluate the totality of the circumstances and utilize common sense standards to determine if the nature of the unknown substance can be readily identified as non-hazardous, e.g., packaging materials, cleaning/detergent products, pesticides, insecticides, insulation materials, garden products, dried food products, controlled substances, pet care items, sweeteners, pharmaceuticals, cooking/baking products, candy, tea/coffee, hygiene/grooming products, stuffing/filler items, etc.
 - a. Many jobs may be properly classified as unfounded or unnecessary based upon an evaluation of the totality of the circumstances and the application of common sense standards to the facts discovered during the preliminary investigation.

PROCEDURE NUMBER:	DATE EFFECTIVE:	REVISION NUMBER:	PAGE:
212-101	10/16/13		4 of 18

NOTE *If a member of the service suspects that an explosive substance or any type of conventional, radiological or nuclear explosive device may be present, follow P.G. 212-40, "Bomb Threats/Unattended Articles - Suspected/Reported Explosive Devices and Post Explosion Bomb Scenes."*

- UNIFORMED MEMBER OF SERVICE (continued)**
2. Confer with the patrol supervisor regarding the nature of the unknown substance.
 - a. Comply with the directions provided.

NOTE *Communications Division will automatically dispatch the patrol supervisor to the scene of an incident involving an unknown substance suspected of being a CBRN/Hazardous Material.*

*The Mayor's City Wide Incident Management System (CIMS) states that the NYPD will be the "Primary Agency" at **all** CBRN/Haz-Mat incidents, with the responsibility for overall site management, assessment and investigations (crime-scene/terrorism). Furthermore, **ALL** incidents that involve an unknown substance suspected of being a CBRN/Hazardous Material must be considered a criminal/terrorism incident (even if it appears that the incident may be the result of an accident), an investigation must be conducted, the unknown substance must be assessed in order to identify its hazardous properties and the unknown substance and related property must be evaluated/processed as evidence. Therefore, the patrol supervisor or highest-ranking uniformed member of the Patrol Services Bureau at the scene will be the NYPD Incident Commander, who will be responsible for ensuring overall site management and will take appropriate action to ensure that only authorized and necessary personnel are allowed access within the Outer Perimeter and that they enter within the Outer Perimeter in a controlled and coordinated manner.*

The life and safety of all involved persons and the public is of paramount concern. The CIMS states that, "life safety operations are the highest priority Incident Objectives and will be initiated by the first responding resources capable of performing rescue." Therefore, when necessary, all appropriate agencies will be notified, resources requested, and access of all required personnel to the incident scene will be permitted in order to ensure that the life and safety of all involved persons are protected.

*In the event that there is an ongoing uncontrolled release/leak **or** a functioning device is actively "disseminating" an unknown substance, the first appropriately trained and equipped personnel will be allowed access to the incident/crime scene to stop/control the release/leak or deactivate the dissemination device. Absent extraordinary circumstances, an envelope or parcel containing an unknown substance is NOT considered an uncontrolled release/leak or a functioning/active "disseminating" device. If a member of the service suspects that the dissemination device may be "booby trapped" and/or may be some type of explosive device and/or may contain an explosive substance, follow P.G. 212-40, "Bomb Threats/Unattended Articles - Suspected/Reported Explosive Devices and Post Explosion Bomb Scenes."*

3. If the nature of the unknown substance cannot be determined:
 - a. Notify the Communications Division dispatcher and request the response of the Emergency Service Unit.

PERSONAL RADIATION DETECTION PAGER ALARMS			
DATE ISSUED: 10/16/13	DATE EFFECTIVE: 10/16/13	REVISION NUMBER:	PAGE: 1 of 3

PURPOSE

To investigate personal radiation detection pager alarms emanating from radiological materials that may endanger the public, and to establish a process to record occurrences of radiation alerts for the purpose of:

- a. Investigating elevated readings
- b. Determining if further investigation or action is warranted
- c. Documenting locations where activations have occurred.

SCOPE

Personal radiation detection pagers, designed as early warning devices, will be issued **ONLY** to trained supervisors/designated members in order to detect/investigate the presence of hazardous radiological materials that may endanger the public and members of the service.

DEFINITIONS

For the purpose of this procedure, the following definitions will apply:

PERSONAL RADIATION DETECTION PAGER ALARM - A sensitive search device, usually pager sized, designed to alert increased levels of gamma radiation. The alerts allow the wearer to track, isolate and identify sources emitting gamma radiation. Personal radiation detection pager alarms are designed as interdiction tools alerting officers to the presence of radiation fields that they would not normally be aware of.

NOTE

Personal radiation detection pager alarms shall be deployed in accordance with P.G. 219-27, "Issuance and Maintenance of Radiation Detection Pagers Assigned to Commands."

HOSTILE ALARM – Through investigation, interview, and/or personal experience, the trained supervisor/designated member determines that the alarm activation resulted from a reading emanating from a substance or device that is suspicious or criminal in nature or if the member cannot identify the source of an alarm.

IDENTIFIED ALARM – Through investigation, interview and/or personal experience, trained supervisor/designated member identifies alarm as both non-criminal and non-threatening. Examples of sources that may cause an identified alarm include, but are not limited to: licensed medical transporters, power plants, research/medical facilities, naturally occurring background radiation and common construction materials.

INNOCENT ALARM – Through investigation, trained supervisor/designated member determines that the alarm activation was due to the proximity to an individual following, or who is in the course of receiving medical radiation treatment.

The impairment is to such a degree that it will be readily apparent to a member of the service that the individual has difficulty understanding what is communicated orally.

AUXILIARY AIDS – In addition to the services of a qualified sign language interpreter, the use of gestures or visual aids to supplement oral communication, use of a notepad and pen/pencil to exchange written notes, use of an assistive listening system or device to amplify sound or other effective methods of delivering information or communicating with an individual who is hearing impaired. Auxiliary aids may also include the use of text telephones or other devices, accessed via use of a Telecommunications Relay Service (TRS), or an individual’s personal communication device (such as a personal digital assistant [PDA], telephone with text capability, etc.).

NOTE

The type of aid that will be required for effective communication will depend on the hearing impaired person’s usual method of communication. To serve each individual effectively, primary consideration should be given to providing the type of communication aid or service requested by the individual. Persons with hearing impairments must not be charged for the cost of an auxiliary aid or service which is needed for effective communication.

QUALIFIED SIGN LANGUAGE INTERPRETER – A qualified sign language interpreter is one who is able to interpret effectively, accurately and impartially, both receptively and expressively, using any necessary specialized vocabulary. A qualified interpreter must be able to interpret impartially, therefore, under some circumstances (e.g., a domestic dispute, etc.), a family member, child or friend of the individual with a hearing impairment may not be qualified to render the necessary interpretation.

NOTE

Every effort should be made to have a person not connected with the incident serve as an interpreter. In exigent circumstances, the need to immediately communicate may take precedence over the effort to secure an interpreter not involved in the incident.

DEFINITIONS (continued)

TELECOMMUNICATIONS RELAY SERVICE (TRS) – The Federal Communications Commission (FCC) has adopted use of the “711” dialing code for access to TRS. This permits persons with a hearing or speech disability to use the telephone system via a telephone typewriter (TTY) or other device to call persons with or without such disabilities. Conversely, voice users can also dial “711” to be connected to a TRS operator, who will then relay the message to a person with a hearing or speech disability via a TTY or other device.

311 SYSTEM FOR INDIVIDUALS WITH HEARING IMPAIRMENTS – The City of New York also maintains a “311” non-emergency system for individuals with hearing impairments. Persons with hearing impairments who wish to inquire about City services or make complaints regarding a specific City agency or service, can be directed to TTY number (212) 504-4115. The “311” operator will then direct the inquiry/complaint to the appropriate City agency.

PROCEDURE

When a member of the service has cause to interact with an individual who is hearing impaired:

MEMBER OF THE SERVICE

1. Ascertain from the person with the hearing impairment the type of auxiliary aid or services he/she requires.
2. Utilize appropriate auxiliary aids to facilitate communication.
3. Contact the desk officer if the services of a qualified sign language interpreter are needed.
4. Follow *P.G. 208-03, “Arrests – General Processing”* in arrest situations where probable cause has been established.

NOTE

In cases where probable cause has been developed, the arrest of a hearing impaired person shall proceed in accordance with standard arrest and safety procedures. Should communication with a hearing impaired suspect be necessary to establish probable cause, or for a pre-arrest interview, etc., the appropriate auxiliary aid should be employed. When dealing with hearing impaired arrestees, auxiliary aids will be used to communicate with the arrestee (e.g., informing arrestee of charges and nature of the offense, interrogation, etc.). In situations where an arrestee would be permitted use of a telephone, a qualified sign language interpreter can be used to communicate for a hearing impaired arrestee, and the use of the TRS can be employed where the recipient of a call uses a TTY.

5. Document in detail any auxiliary aids utilized in **ACTIVITY LOG (PD112-145)**.

DESK OFFICER

6. Ensure that auxiliary aids are utilized, if necessary.
7. Evaluate whether the services of a qualified sign language interpreter are necessary.

NOTE

In cases where the services of a qualified sign language interpreter are needed, the Operations Unit should be contacted.

However, should a specific legal concern arise with respect to entering search warrant information into the database, the member concerned shall confer with the Legal Bureau prior to contacting the Intelligence Bureau, Public Security Section. In the event the advice is provided by the Legal Bureau not to make data entry, such consultation shall be noted in the case file along with the specific basis for the advice, e.g., Grand Jury action. Additionally, in situations where a search warrant is based on extremely sensitive information, e.g. counterterrorism, internal investigations, etc., in order to exclude the search warrant from inclusion in the database, the member of the service must receive written permission from the Bureau Chief/Deputy Commissioner concerned. This documentation will be included in the case file.

In instances where a member of this Department, assigned to specialized units including but not limited to a Joint Task Force or a District Attorney's Office Squad, may participate in the execution of a search warrant but not be an affiant to a search warrant application affidavit, such member is required to follow the contents of this procedure. If a member of this Department, assigned to a Joint Task Force, etc., is directed by a supervisor from another agency not to make the notifications required by this directive, such member shall immediately notify the Bureau Chief/Deputy Commissioner concerned.

PROTOCOL FOR EXECUTING WARRANTS OUTSIDE OF COMMAND OF ORIGIN

Whenever a unit from any bureau executes a search warrant, the precinct commander (and P.S.A. commander if a Housing Authority location is involved) having geographical jurisdiction where the warrant is being executed, must be notified at least 24 hours prior to the tactical briefing. **ADDITIONAL
DATA
(continued)**

If warrant is to be executed by a Patrol Services Bureau command in another patrol borough, the approval of both borough Commanding Officers is necessary. In the event of a disagreement, the Chief of Patrol will make the final determination. When a command in any other bureau is applying for a search warrant to be executed in another jurisdictional borough, the executive officer/counterpart of that borough must be consulted with, e.g., Manhattan North Narcotics applying to execute a search warrant in the Bronx, the executive officer/counterpart of Manhattan North Narcotics will consult with the executive officer/counterpart of Bronx Narcotics.

In all cases, specialized units such as the Narcotics Division, Firearms Investigation Unit, etc. will be conferred with prior to the execution of a warrant when the subject of the warrant falls within their functional jurisdictions.

When a search warrant is executed by a unit outside its normal geographical area of responsibility, the command where the search warrant is being executed will provide liaison personnel to assist in the planning and execution of the search warrant.

DAMAGED DOORS

The commanding officer leading the warrant execution will ensure that any door damaged during the course of a warrant execution is secured/repared prior to the release of the premises from police custody. This requirement applies to ALL search warrant entries, regardless of outcome.

INVESTIGATIONS UNITS

All Patrol Boroughs, Transit Bureau, Housing Bureau, Detective Bureau and Organized Crime Control Bureau will ensure their respective investigations units conduct periodic inspections of pre-operational tactical meetings to assess their adequacy and completeness.

SECURE AUTOMATED FAST EVENT TRACKING NETWORK (SAFETNET)			
DATE ISSUED: 10/16/13	DATE EFFECTIVE: 10/16/13	REVISION NUMBER:	PAGE: 1 of 4

PURPOSE

To standardize the procedure regarding notifications to the Secure Automated Fast Event Tracking Network (SAFETNet).

DEFINITIONS

SECURE AUTOMATED FAST EVENT TRACKING NETWORK (SAFETNet): This system was established to integrate enforcement efforts between various Department enforcement commands, as well as other law enforcement agencies within the City and State of New York. Formerly called U.D.E.C.S. (Unified Drug Enforcement Coordination System), the purpose of SAFETNet is to ensure the safety of law enforcement personnel and to prevent two or more agencies from simultaneously pursuing investigations against common subjects, by automatically recognizing and notifying investigators of conflicting interest in subjects, locations, telephone numbers, motor vehicle license plates, internet addresses, events and financial accounts.

SAFETNet BUREAU COORDINATORS: Uniformed member of the service authorized by bureau chief/deputy commissioner concerned who is responsible to act as a liaison between investigators and the Intelligence Bureau, Public Security Section. In order to ensure integrity and maintain control of SAFETNet, bureau chiefs/deputy commissioners will only authorize the minimum amount of coordinators necessary to properly accommodate the operation on a twenty-four hour, seven days a week basis. Coordinators are designated *only* through the submission of **Coordinator Registration Form (HIDTA)** and subsequent approval of Commanding Officer, Public Security Section.

INVESTIGATOR: Uniformed member of the service designated *only* through the submission of **Requestor Registration Form (HIDTA)** and subsequent approval of Commanding Officer, Public Security Section, who initiates investigative target into the SAFETNet system by submitting request forms to their respective coordinator.

PRIMARY INVESTIGATOR: Uniformed member of the service who currently holds an active SAFETNet number for a specific target (i.e., person, address, vehicles, telephone, internet address, critical event and/or financial account).

SECONDARY INVESTIGATOR: Uniformed member of the service who submits a **Request Form (HIDTA)** for a target which is actively held by the Primary Investigator.

PROCEDURE

When a notification and/or submission to SAFETNet is required:

INVESTIGATOR

1. Submit SAFETNet **Request Form (HIDTA)** to SAFETNet bureau coordinator concerned with all the necessary information regarding the following:

PATROL GUIDE

- h. Any investigation that may cross jurisdictional boundaries.

NOTE

Jurisdictional boundaries, in this context, are defined two ways. First, in the traditional sense as occurring between law enforcement agencies at the federal, state, or local level. Secondly, in a narrower sense as occurring between NYPD bureaus, boroughs, divisions, precincts, and units. This second definition is intended to facilitate communication and cooperation between NYPD investigators to enhance investigative results and ensure investigator safety.

SAFETNet submissions will be accepted for:

- a. *Any identified person (at a minimum provide last name, first name and date of birth)*
 - (1) *SAFETNet submissions should also include an identified person's Social Security number, NYSID #, and FBI # if known. These identifiers are a key identifier when available.*

PROCEDURE When a member of the service makes a computerized query (FINEST, WINQ, NYSPIN, etc.) of a person or vehicle registration for an official law enforcement purpose (e.g. arrest, warrant check, driver's license/motor vehicle check, summons, etc.) and receives a response from NCIC that the individual that they have queried matches data contained in NCIC/VGTOF files, in addition to other required actions, will comply with the following:

QUERIES CONDUCTED THROUGH THE COMMUNICATIONS DIVISION

RADIO DISPATCHER

1. Conduct query and read the NCIC/VGTOF hit information *verbatim* to the requesting member of the service in the field.
2. In all cases of terrorism alerts/hits received from NCIC/VGTOF, immediately notify the patrol supervisor concerned of the handling codes and their accompanying instructions.

Civilian members of the service also have an important role in obtaining information and intelligence. Should they become aware of such information in the course of their duties or while off-duty, the civilian member should relay his/her observations, suspicions, and other information to the Intelligence Bureau by following the guidelines outlined in P.G. 212-12, "Citywide Intelligence Reporting System."

RESPONSE TO TWO ALARM FIRES			
DATE ISSUED: 08/01/13	DATE EFFECTIVE: 08/01/13	REVISION NUMBER:	PAGE: 1 of 1

1. To ensure the appropriate level of inter-agency coordination between the New York City Police Department and the New York City Fire Department, as well as to provide the highest level of service to the community at major fires, a protocol has been developed regarding two alarm fires and above.

2. A second alarm occurs when the Fire Department dispatches four additional engine companies, two additional ladder companies, and other necessary resources beyond the deployment of a full-scale first alarm response. While it is recognized that, in most instances, members of the N.Y.P.D. are already at the scene of such fires and are aware of the second alarm, the Fire Department will notify the Operations Unit, directly, when a fire reaches a second alarm. Upon notification of a two alarm fire, the Operations Unit will direct both the patrol supervisor and the duty captain to the scene.

3. The patrol supervisor on the scene will designate a uniformed member of the service as a liaison with the Fire Department. The designated member must have a Department radio. Said member will report to the Fire Department Command post and will coordinate communications between the two agencies.

4. The duty captain will respond to the scene to ensure that all appropriate coordination and police services are being provided. In addition, the duty captain will give particular attention to ensuring that traffic control is maintained and perimeters are established. When appropriate, the duty captain may direct that a ranking member be designated as the communications liaison.

5. The ranking member of the New York City Police Department on the scene will confer with the ranking fire officer to determine if additional police resources are required, e.g. Aviation Unit, Harbor Unit, etc. Supervisory members should be aware that, when conditions warrant, the Fire Department may request that a fire officer be assigned to an Aviation Unit in order to view the fire. Such requests should be facilitated by promptly notifying the Operations Unit and arranging for the flight, as appropriate.

1. A distraction device is a non-lethal hand-held apparatus which generates startling sound and light energy when deployed into a confined area. Its purpose is to provide short-term tactical cover for officers making high risk tactical entries. These devices are non-lethal and are only authorized for use by trained members of the Emergency Services Unit to minimize the risk of physical injuries to all persons present. Use of these devices may be considered during a search warrant execution tactical plan meeting, or may develop ad hoc at the scene of an emotionally disturbed person, a perpetrator search, etc. Circumstances which may support the use of these devices include but are not limited to; the possible presence of firearms, dangerous animals, known violent subjects, multiple subjects and/or the history of the location.

2. Effective immediately, distraction devices may only be utilized upon the specific approval of the Chief of Department. There are NO exceptions to this requirement.

3. A distraction device will not ordinarily be employed during search warrant executions or similar tactical entries, except in those situations where its use is clearly necessary. When the Captain or above concerned believes that ensuring the safety of all persons concerned requires the use of a distraction device, the following approval process will be adhered to:

4. Situations involving the execution of Search Warrants:

a. The Captain or above concerned will contact the Borough Executive Officer and request permission to utilize the device.

NOTE *If the Borough Executive Officer is unavailable, information will be forwarded to the Borough Commanding Officer. When exigent circumstances exist, the Duty Chief may be contacted for approval.*

b. Borough Executive Officer will review request and if he/she concurs, will confer with the Chief of Department for final approval.

NOTE *In those exigent circumstances involving the execution of search warrants, where conditions exist that would preclude the notification and approval process, the Captain or above contemplating the use of a distraction device will request the approval of the Chief of Department direct, via the Operations Division.*

5. Situations involving emotionally disturbed person(s), perpetrator searches or other exigent circumstances:

a. The captain or above concerned will notify the Duty Inspector regarding the situation and request approval.

b. If the Duty Inspector concurs, he/she will request the approval of the citywide Duty Chief.

- c. If the Duty Chief, after considering all available alternatives, agrees that the use of the device is necessary, he/she will contact the Chief of Department via Operations Division for final approval of the use of a distraction device.

AT EVERY LEVEL, THE CIRCUMSTANCES SUPPORTING THE PROPOSED USE OF THIS DEVICE WILL BE EXAMINED AND ALL OTHER ALTERNATIVES WILL BE CONSIDERED BEFORE RECOMMENDING APPROVAL OF ITS USE.

A DISTRACTION DEVICE MAY NOT BE UTILIZED WITHOUT THE PRIOR DIRECT KNOWLEDGE AND APPROVAL OF THE CHIEF OF DEPARTMENT.

6. Upon conclusion of the incident during which a distraction device was used, the Captain concerned will notify the Emergency Service Unit (E.S.U.) Desk Officer and obtain a Distraction Device Utilization Control Number. He/she will prepare a *Typed Letterhead* report outlining the circumstances, which justified the use of this device and the names of all persons notified. USE OF CONDUCTED ENERGY DEVICES (CED)			
DATE ISSUED: 08/01/13	DATE EFFECTIVE: 08/01/13	REVISION NUMBER:	PAGE: 1 of 8

PURPOSE

To inform members of the service of circumstances under which a Conducted Energy Device (CED) may be intentionally used and to record instances when a Conducted Energy Device has been used. CEDs will only be used by authorized uniformed members of the service. Additionally, all patrol supervisors and platoon commanders performing patrol duty assigned to the Patrol Services, Housing and Transit Bureaus will be required to carry a CED in a Department issued holster as authorized.

SCOPE

A Conducted Energy Device (CED) can be an effective means of subduing suspects and emotionally disturbed persons (EDP's) in a safe manner. A CED is classified as a less lethal device and is intended to augment and provide a greater margin of safety for officers who might otherwise be forced to physically subdue a dangerous subject. The use of a CED is within the range of use of less lethal devices such as pepper spray or a baton on the force continuum due to its effectiveness at a distance and at close range.

A CED should only be used against persons who are actively physically resisting, exhibiting active physical aggression, or to prevent individuals from physically injuring themselves or other person(s) actually present. In many cases, a CED will reduce or eliminate the need for deadly physical force. It will often reduce the potential for injuries to members and suspects that may result from physical restraint and should be regarded as a possible alternative to such force and restraint, where practical. It is prohibited to use a CED in situations that do not require the use of physical force.

DEFINITIONS

CONDUCTED ENERGY DEVICE (CED) - a device primarily designed to disrupt a subject's central nervous system by means of using electrical energy sufficient to cause uncontrolled muscle contractions and override an individual's motor responses.

ACTIVATE (ACTIVATION) – To cause the CED to arm by releasing the safety, thereby causing the CED laser sight to operate.

CARTRIDGE – a replaceable cartridge which discharges two darts on connecting wires sending a high voltage/low current signal into a subject.

DARTS – probes that are discharged from a CED and are designed to penetrate the skin; wires are attached to the probes leading back to the CED.

DISCHARGE – To activate a CED, depress the trigger and cause an electric current to flow. Discharge will result in arcing (no cartridge is present) or darts being fired (cartridge is present).

TOUCH STUN – To use the CED and discharge the device in a manner such that the hand-held unit makes direct contact with an intended subject's body. Touch stun mode should only be used in exceptional circumstances and not as a primary method of use. Therefore, when touch stun mode is used, an investigation will be conducted by the commanding officer/duty captain to determine if the CED was properly used.

PATROL GUIDE

PROCEDURE NUMBER:	DATE EFFECTIVE:	REVISION NUMBER:	PAGE:
212-117	08/01/13		2 of 8

DEFINITIONS (continued)

AUTHORIZED UNIFORMED MEMBER OF THE SERVICE – A uniformed member of the service who has received authorized Department training in the use of the CED.

INVESTIGATING SUPERVISOR - As used in this procedure will be as follows:

- a. The next highest ranking supervisor in the chain of command of the member who discharged the CED,
- b. The commanding officer/duty captain for instances of touch stun incidents, when CED is used on a person in police custody or an accidental discharge of a CED has occurred resulting in an injury to any person.

NOTE

If the investigating supervisor is from a command other than Patrol Services Bureau, Housing Bureau or Transit Bureau and is not available, the investigating supervisor will be the next higher ranking supervisor from the Patrol Services Bureau. (e.g., If a sergeant assigned to a Highway Unit discharges a CED and a lieutenant is unavailable from that Unit to investigate the discharge, a PSB lieutenant or duty captain will conduct the investigation.)

PROCEDURE

To provide for control, accountability, issuance, use and investigation of the use of Conducted Energy Devices (CEDs):

COMMANDING OFFICER

1. Designate a secure area under the control of the desk officer or appropriate supervisor for the storage of CEDs and cartridges.
2. Ensure availability, operability, and distribution of CEDs assigned to the command on all tours.
3. Ensure that all supervisors performing patrol duties in the command are trained in the use of CEDs.
 - a. ONLY authorized uniformed members of the service will be assigned to carry CEDs.

NOTE

*When requesting a replacement or loaner of a CED, replacement of batteries, chargers, or holsters, commanding officers are required to prepare and deliver a **Typed Letterhead** with item(s) needing replacement, to the Commanding Officer, Firearms and Tactics Section.*

*When requesting replacement cartridges, commanding officers shall prepare and deliver a **Typed Letterhead** to the Commanding Officer, Firearms and Tactics Section and shall attach a copy of the related **LESS LETHAL/RESCUE EQUIPMENT USE REPORT (PD 320-151)**.*

DESK OFFICER/ UNIT SUPERVISOR

4. Account for all CEDs and cartridges assigned to the command at the commencement of each tour.

14. Assess situation and determine if the use of a CED would be appropriate.
15. Consider the totality of the circumstances when deciding the minimum amount of force necessary to overcome resistance when effecting an arrest or when taking mentally ill or an emotionally disturbed person into custody. Some factors to consider when determining the appropriate use of force include but are not limited to:
 - a. officer/subject size disparity
 - b. officer/subject strength disparity
 - c. officer/subject age disparity
 - d. officer's perception of the subject's willingness to resist
 - e. officer's perception of the immediate threat to the subject, members of the service and bystanders
 - f. suspect's violent history, if known
 - g. officer's location is a hostile environment
 - h. officer's perception of the subject being under the influence of a stimulant/narcotic which would effect pain tolerance and violence.

NOTE

CEDs should only be used against persons who are actively physically resisting, exhibiting active physical aggression or to prevent individuals from physically injuring themselves or other person(s) actually present. Members of the service are reminded of the availability of Emergency Service Unit.

16. Issue an appropriate warning, consistent with personal safety, to the intended subject and other members of the service present prior to discharging the CED.

NOTE

The recommended point of aim is lower center mass for frontal discharges (below the chest) and below the neck area for discharges at a suspect's back. Avoid discharging at an individual's head, neck and chest, if possible. When practical, discharge the CED at the subject's back. The CED should not be intentionally aimed at an individual's groin.

Members will not discharge two CED's simultaneously on a subject.

NOTE
(continued)

When a CED is used against a subject it shall be for one standard discharge cycle and the member using the CED must then reassess the situation. Only the minimum number of cycles necessary to place the subject in custody shall be used. In no situation will more than three standard discharge cycles be used against any subject. Members are reminded of other appropriate force options should the CED fail.

It is strictly prohibited to use the CED on persons as a form of coercion or punishment and on persons who passively resist (e.g., going limp, offering no active physical resistance).

When possible, the CED should not be used on children, the elderly, obviously pregnant females, the frail, against subjects operating or riding on any moving device or vehicle (e.g., motorists, bicyclists, skateboarders) where the subject may fall while it is in motion or in situations where the subject may fall from an elevated surface.

The CED should not be used when combustible gases or flammable liquids are present.

PURPOSE

To report traffic conditions that need to be addressed by the New York City Police Department or other outside agencies (i.e., collision-prone locations, chronic traffic congestion-prone locations, double parking, requests for signs or signal lights, pavement markings, construction projects, etc.).

PROCEDURE

Whenever a uniformed member of the service observes a traffic condition that is not immediately correctable and the need for further assistance is required, OR when a collision-prone location is identified by the Traffic Accident Management System (TAMS):

UNIFORMED MEMBER OF THE SERVICE

1. Prepare **TRAFFIC INTELLIGENCE REPORT (PD178-150)** when a traffic condition is observed and is not immediately correctable by available resources.
2. Indicate on **TRAFFIC INTELLIGENCE REPORT**:
 - a. Specific type of condition(s)
 - b. Times
 - c. Place(s) of occurrence
 - d. Any corrective measures taken or recommended.

NOTE

Print clearly and fill in all captions that pertain to the condition. Use common language to describe the condition.

3. Utilize reverse side of **TRAFFIC INTELLIGENCE REPORT** for:
 - a. Detailed description
 - b. Diagram(s), if applicable
 - c. Additional comments.
4. Submit completed **TRAFFIC INTELLIGENCE REPORT** to the traffic safety officer, command of occurrence, before end of tour.

-------------------	----------------	----------	-----------	-------------------------	----------------	-----------------

PATROL GUIDE

PROCEDURE NUMBER:	DATE EFFECTIVE:	REVISION NUMBER:	PAGE:
212-14	08/19/13		2 of 3

NOTE

TRAFFIC INTELLIGENCE REPORTS concerning the same condition, at the same location, during the same week (Monday through Sunday) will be grouped together and given one precinct serial number. The traffic safety officer will forward only one **TRAFFIC INTELLIGENCE REPORT** to the borough traffic safety coordinator, but will indicate how many other **REPORTS** were received to report the same condition.

WHEN A COLLISION-PRONE LOCATION HAS BEEN IDENTIFIED BY TAMS:

TRAFFIC SAFETY OFFICER

7. Conduct a survey of each collision-prone location to determine what specific factors contribute to a location's high collision rate.
8. Prepare **TRAFFIC INTELLIGENCE REPORT** as specified in step 2 above for each collision-prone location.
9. Confer with executive officer regarding conditions that can be corrected at the precinct level through use of available resources.
10. Establish liaison with outside agencies (NYC Department of Transportation, Parks Department, Department of Environmental Protection, Department of Buildings, etc.) to address conditions that cannot be corrected by precinct personnel.

If the **TRAFFIC INTELLIGENCE REPORT** concerns an engineering recommendation, a copy of the **REPORT** will be forwarded to the Department of Transportation borough commissioner's office. A telephone notification will also be made and indicate the date, time, and person notified at the DOT borough office on the **TRAFFIC INTELLIGENCE REPORT**. Indicate the date **REPORT** was forwarded to DOT in the precinct Traffic Intelligence Report Log.

11. Forward copies of **TRAFFIC INTELLIGENCE REPORTS** to the borough traffic safety coordinator WEEKLY and indicate:
 - a. Corrective actions taken and/or recommendations for further measures, if necessary.
 - b. File copies of the **TRAFFIC INTELLIGENCE REPORT** for precinct/highway unit records.

NOTE

Conditions requiring immediate attention such as complaints of potholes, missing traffic signs, inoperable signal lights, etc., will **NOT** be forwarded to the borough traffic safety coordinator. Upon making an observation of a condition requiring immediate attention, corrective action must be initiated by the member of the service at the scene of the condition including a notification to the precinct telephone switchboard operator for entry on the **HIGHWAY CONDITION RECORD (PD311-151)**.

OPERATIONS COORDINATOR

12. Ensure each Monday the **WEEKLY STREET CONDITIONS SURVEY (PD311-150)** is reviewed and appropriate agencies/members notified.

NOTE

Preparation of a **TRAFFIC INTELLIGENCE REPORT** does not relieve precinct personnel from taking other corrective action to expedite the flow of vehicular traffic and ensure pedestrian safety.

A computer check can be made twenty-four (24) hours a day through the Traffic Management Center by telephone.*

A liaison with city, state, and federal agencies must be established at the borough and precinct level to ensure a coordinated effort to correct conditions which are considered outside the Department's purview. The borough traffic safety coordinator will be responsible for maintaining a current list of liaisons with such outside agencies.

LOJACK STOLEN VEHICLE RECOVERY SYSTEM AND MONTHLY REPORT			
DATE ISSUED: 10/16/13	DATE EFFECTIVE: 10/16/13	REVISION NUMBER:	PAGE: 1 of 3

PURPOSE

To provide guidelines for tracking and recovering stolen vehicles when utilizing the Lojack Stolen Vehicle Recovery System (SVRS).

DEFINITION

POLICE TRACKING UNIT (PTU) - a two officer RMP equipped with a Police Tracking Computer (PTC). The RMP Recorder is responsible for recording all tracking incidents.

TRACKING - the process of utilizing a Police Tracking Computer (PTC) in an effort to locate a vehicle emitting an active radio signal (no visual contact made).

PROCEDURE

When an RMP crew is assigned to perform patrol duties in a Police Tracking Unit:

**RMP
RECORDER**

1. Place the locking switch of the Police Tracking Computer (PTC) in the lock position to allow the system to do a complete diagnostics check before starting the RMP.
2. Place the locking switch in the unlock position upon completion of the diagnostics check.
3. Place the locking switch in the lock position immediately upon receiving a signal that a stolen vehicle is within range.

NOTE

The receipt of a Lojack signal by a Police Tracking Unit (PTU) establishes reasonable suspicion that a crime has been committed. Additional information must be obtained to establish probable cause prior to arresting the vehicle occupant(s).

**RADIO
DISPATCHER**

4. Note the five digit alpha numeric code of the vehicle being tracked and transmit that code and your present location to the radio dispatcher.
5. Notify the patrol supervisor of the RMP designation engaged in tracking an active radio signal.
6. Enter the five digit code into NYSPIN and inform the requesting unit of the following vehicle information:
 - a. Registration number
 - b. Make and model
 - c. Color and year
 - d. Other relevant information regarding theft.

**PATROL
SUPERVISOR**

7. Monitor tracking activities of Police Tracking Unit (PTU) and terminate tracking if required by policies of the Department, or when otherwise appropriate.

WHEN A VEHICLE IS BEING TRACKED WITHOUT VISUAL CONTACT**RMP
RECORDER**

8. Advise radio dispatcher when it is necessary to cross precinct boundaries to continue tracking. Police Tracking Units (PTU) shall not track beyond their precinct boundaries without the permission of the patrol supervisor.

PATROL GUIDE

PROCEDURE NUMBER:	DATE EFFECTIVE:	REVISION NUMBER:	PAGE:
212-15	10/16/13		2 of 3

NOTE *Uniformed members of the service are not authorized to track vehicles beyond New York City limits under any circumstances. RMP recorders will request the radio dispatcher to notify the police department concerned about vehicle information and direction of travel when a vehicle leaves the city limits.*

PATROL SUPERVISOR 9. Request the dispatcher to assign a Police Tracking Unit (PTU) in adjoining precinct to continue tracking vehicle if no visual contact has been made, when available. If unavailable, determine whether RMP should continue tracking beyond precinct boundaries.

WHEN VISUAL CONTACT IS MADE WITH A VEHICLE RMP RECORDER

RMP RECORDER 10. Advise dispatcher whether the vehicle is occupied or unoccupied; moving or parked.
11. Take appropriate action (e.g., arrest, notification to adjoining police department, etc.), regardless of precinct boundaries. Members shall be guided by P.G. 212-39, "Vehicle Pursuits", whenever they are in pursuit of a vehicle emitting active radio signals.

NOTE *The patrol supervisor shall ensure that the provisions of P.G. 212-39, "Vehicle Pursuits", are strictly observed. Patrol supervisors must monitor all tracking incidents within their area of assignment and must terminate pursuits/tracking whenever appropriate.*

ALL TRACKING SITUATIONS

RADIO DISPATCHER 12. Notify adjoining precinct when a tracking incident progresses into their boundaries.

NOTE *No other RMP will participate in an on-going track unless directed to do so by the patrol supervisor.*

RMP RECORDER 13. Notify dispatcher when a signal is lost, a vehicle is recovered, or when an arrest is effected.
14. Make an appropriate **ACTIVITY LOG (PD112-145)** entry for each tracking incident.
15. Follow normal Patrol Guide procedures for recovery of stolen/abandoned vehicles.
16. Indicate in the "Remarks" section of the **PROPERTY CLERK INVOICE (PD521-141)** that the vehicle was recovered using the Police Tracking Computer (PTC).

COMMANDING OFFICER 17. Ensure that the **LOJACK MONTHLY REPORT (PD171-152)** is forwarded to the Chief of Patrol, through channels, by the third day of each month.

ADDITIONAL DATA *Deactivation of Radio Transmitter - The radio transmitter in a recovered vehicle will be automatically deactivated when information is received by NYSPIN that the vehicle has been recovered or the alarm is canceled. Thus, an alarm will be canceled whenever a Lojack equipped vehicle is to be safeguarded at the stationhouse as evidence, pending transport to the auto pound.*

PATROL GUIDE

PROCEDURE NUMBER:	DATE EFFECTIVE:	REVISION NUMBER:	PAGE:
212-15	10/16/13		3 of 3

**ADDITIONAL
DATA
(continued)**

*Recovery of Vehicles on Private Property - Police officers shall not enter upon private property to track a vehicle. However, Police Tracking Units (PTU) may enter upon private property if: (1) they are in close pursuit of a vehicle which is attempting to elude apprehension and is emitting a radio signal, or (2) there is an emergency situation, or (3) there are other exigent circumstances, or (4) a search warrant is obtained. The mere fact that a vehicle on private property is emitting a radio signal does not constitute an emergency or exigent circumstances. The patrol supervisor shall notify the Auto Crime Division, if available to determine whether a search warrant should be obtained, or whether a **COMPLAINT REPORT (PD313-152)** should be prepared or the Intelligence Bureau notified. When Auto Crime is unavailable, confer with the Precinct Detective Squad.*

Replacement and Repair of SVRS Equipment - The Fleet Services Division will be notified whenever a Police Tracking Unit (PTU) is expected to be out of service for an extended period of time (e.g., major mechanical repairs, vehicle collision, etc.) or when broken or malfunctioning SVRS equipment needs replacement or repair.

*All commands with vehicles equipped with Lojack Police Tracking Computers (PTC's) will prepare **LOJACK MONTHLY REPORT (PD171-152)**. This report will provide the Department with the information necessary to analyze and assess the Lojack System, as well as track recovery activity. Negative reports will also be forwarded.*

*The **LOJACK MONTHLY REPORT** requires a complete entry by the recovering command whenever a vehicle is recovered using a Lojack Police Tracking Computer. However, the Aviation Unit must report every tracking incident in which the unit is involved. The Aviation Unit will enter only the following information on the **LOJACK MONTHLY REPORT**:*

- a. Alarm number
- b. Date/time of track
- c. Command where Lojack signal was picked up.

*The **LOJACK MONTHLY REPORT** will be forwarded by the third day of each month, for the previous month's activity, through channels, to the Patrol Services Bureau.*

To maximize the effectiveness of the Department's Stolen Vehicle Recovery System, all platoon commanders (or desk officers in their absence) will ensure that at least one Lojack Police Tracking Computer equipped vehicle is on patrol on every tour. Additionally, desk officers will ensure that alarms for all complaints of stolen vehicles are promptly transmitted.

DATA**

All uniformed members of the service, especially those assigned to subway patrol duty, should be cognizant of the New York City Transit (NYCT) procedure for train crews to signal for police assistance.

The train operator and/or conductor may utilize a train horn or whistle to request police assistance, as follows:

LONG SOUND immediately followed by a SHORT SOUND, and then another LONG SOUND immediately followed by a SHORT SOUND.

Members of the service, upon hearing the above sound signals, shall, in a tactically safe manner, immediately respond to the nearest member of the train crew (either the conductor or train operator), to investigate the police condition.

Members of the service are reminded that personal safety is of paramount importance and they always must exercise sound tactics and good judgement whenever they respond to a train signaling for police assistance.

*As always, all police action will be recorded in the member's **ACTIVITY LOG** including any reports prepared and/or notifications made.*

SEARCHES FOR ARMED/DANGEROUS PERSONS ON NEW YORK CITY TRANSIT TRACKS			
DATE ISSUED: 08/01/13	DATE EFFECTIVE: 08/01/13	REVISION NUMBER:	PAGE: 1 of 4

PURPOSE

To provide procedures for searching subway tunnels and other track areas when in pursuit of a person wanted for the commission of a serious crime or armed with a deadly weapon.

SCOPE

In most instances, it is not necessary to remove power or to actually enter the tracks when searching tunnels and track areas. Searches are normally conducted by members riding in the lead cars of trains passing in both directions through the affected area. However, the serious nature of certain incidents may require that a more thorough search be performed.

DEFINITIONS

OUTER PERIMETER - An area sufficiently removed from the actual scene of the incident to ensure safety to all spectators, including representatives of the news media. The establishment of outer perimeters requires the evacuation of all civilians and unnecessary police personnel from this area.

INNER PERIMETER - Frozen area, encompassing the incident location. No one will be permitted in this area without a protective vest appropriate to the level of threat present. No one will be allowed to enter the Inner Perimeter except:

- a. Borough commander or duty chief;
- b. Commanding Officer, Special Operations Division, and personnel under his/her command;
- c. Commanding Officer, Emergency Service Unit, and personnel under his/her command;
- d. Hostage Negotiating Coordinator and personnel under his/her command;
- e. Technical Assistance Response Unit (TARU) supervisor and personnel under his/her command;
- f. Bomb Squad supervisor and one technician, when bomb is present or suspected;
- g. Any other person(s) with the permission of the patrol borough commander or duty chief.

MASS REFLEXIVE RESPONSE - Sometimes referred to as “contagious shooting,” mass reflexive response is the phenomenon which occurs when a shot fired by one officer sets off a chain reaction of shooting by other personnel on the scene. It involves reacting based on one’s instinct rather than on a rational assessment of the situation.

FIREARMS CONTROL - Firearms control requires that no member of the service on the scene will discharge a firearm unless and until directed to do so by the supervisory officer in charge, unless discharging a firearm is absolutely necessary for self-defense or the defense of another and there is no other alternative.

PROCEDURE NUMBER:	DATE EFFECTIVE:	REVISION NUMBER:	PAGE:
212-18	08/01/13		2 of 4

PROCEDURE When there is cause to believe that the perpetrator of a crime has fled into a tunnel, open cut, or other track area and is still therein, and that the perpetrator either:

- a. Used force or threatened the use of deadly physical force, OR
- b. Caused serious physical injury, OR
- c. Is armed with a deadly weapon.

UNIFORMED MEMBER OF THE SERVICE (FIRST ON THE SCENE)

1. Notify radio dispatcher immediately of the incident by radio or telephone, and give full details including description of perpetrator, crime committed, direction of flight, type of weapon used or displayed, subway lines involved, etc.
2. Request response of appropriate patrol supervisor and additional units, as necessary.
3. Remain on the platform and secure the area.
4. DO NOT enter the track area.
5. Maintain continuous surveillance from platform.
6. Be cognizant of the danger of “Mass Reflexive Response.”
 - a. The first members on the scene will immediately establish and maintain firearms control.

NOTE *Uniformed members of the service should be aware that, although New York State Penal Law and Department procedures may authorize the use of deadly physical force in a given situation, they will not be subject to criticism or disciplinary action for choosing not to discharge their firearms.*

7. Coordinate the following measures pending the arrival of a supervisor and ensure that:
 - a. All platforms and points of entry to tunnel are secured
 - b. Exits from the system are secured
 - c. Police lines are established far enough from the incident to protect passersby and to prevent persons from interfering with police operations.

RADIO DISPATCHER

8. Notify the following of the location and type of incident:
 - a. Patrol supervisor, transit district of occurrence and precinct of occurrence

NOTE *The first patrol supervisor to arrive at the scene will assume command of the situation. In addition, the patrol supervisor, transit district of occurrence, will provide expertise in transit system operations, including the location of emergency exits and other escape routes requiring police coverage.*

- b. Canine Team
- c. Emergency Service Unit
- d. District commanding officer or precinct commanding officer/duty captain.

9. Notify Rapid Transit Operations Command Center of the situation and request that trains use caution and not pick up persons from roadbed unless so directed by police on the scene.
10. Dispatch, immediately, additional members or Department vehicles to emergency exits and adjoining stations and direct them to remain at those locations until notified otherwise.

NOTE

This will contain the suspect and improve the probability of apprehension.

11. Notify all personnel to stay off the tracks and out of the tunnel.
12. Notify the district commanding officer/precinct commanding officer or duty captain whenever a request is made to turn power off in order to conduct a tunnel search.

**UNIFORMED
MEMBER OF
THE SERVICE**

13. Notify radio dispatcher, immediately, if an exit is open, when dispatched to an emergency exit.

**PATROL

14. Respond to scene and assume command of the situation.
15. Evaluate the situation pending the arrival of Canine Team and Emergency Service Unit personnel.
16. Ensure that all uniformed members of the service present are directed to maintain firearms control.
 - a. As soon as circumstances permit, designate one or more uniformed members of the service who will act as the designated shooter(s) if the use of deadly physical force becomes unavoidable.
 - b. Designate a uniformed member of the service to maintain radio contact with the Communications Section dispatcher, so that the dispatcher and responding personnel are kept apprised of the situation as it develops.

NOTE

The ranking officer in charge will personally assume responsibility for firearms control. To maintain firearms control, he or she must be able to immediately assess conditions as they develop, and to give appropriate direction instantaneously. Therefore, the ranking officer in charge will assume a position within the inner perimeter, at the focal point of the situation.

17. Ensure that members have been properly deployed to secure platform, points of entry to tunnel and exits from the system, and to establish appropriate police lines.

NOTE

Members of the service in civilian clothes should not ordinarily be used for the securing of tunnels or exits.

18. Confer with Canine Team/Emergency Service Unit personnel on the scene about the feasibility of search, need for establishing inner and outer perimeters, etc.

20. Keep radio dispatcher informed of conditions and of any need for additional personnel.
21. Establish a Command Post.

NOTE

If patrol supervisor/ranking officer in charge determines that a search is to be conducted on New York City Transit facilities, the patrol supervisor/ranking officer in charge and the senior member of the Canine Team/Emergency Service Unit shall be responsible for directing the tactical deployment of personnel. Additionally, members should not enter tunnels or open cuts at any time during searches for armed felons except when absolutely necessary in extreme emergencies.

PATROL SUPERVISOR/RANKING OFFICER IN CHARGE AND SENIOR MEMBER, CANINE TEAM/EMERGENCY SERVICE UNIT

28. Determine whether power should be removed, based upon reported information, seriousness of condition, location, and time of day.
29. Notify Canine Team/Emergency Service Unit personnel when power has been removed from track area and search can commence.
30. Coordinate all activities with units concerned, field personnel, and command post, when search is delayed because of rush hour conditions.
31. Keep the Rapid Transit Operations Command Center Desk Superintendent informed of all conditions, including when the track area is clear for resumption of normal service.
32. Have transit borough commander/duty inspector and patrol borough commander/duty chief notified to respond in verified situations where armed/dangerous person(s) are on New York City Transit tracks.
33. Direct all concerned to resume normal patrol, upon receipt of information from the patrol supervisor/ranking officer in charge that the area search has been completed.

ANIMALS ON NEW YORK CITY PUBLIC TRANSPORTATION			
DATE ISSUED: 08/01/13	DATE EFFECTIVE: 08/01/13	REVISION NUMBER:	PAGE: 1 of 3

PURPOSE

To provide procedures for uniformed members of the service coming into contact with dogs or other animals on the New York City Transit system or aboard New York City Transit buses.

SCOPE

Section 1050.9(h)(1), New York Code Rules and Regulations - "No person may bring any animal on or into any conveyance or facility unless enclosed in a container and carried in a manner which would not annoy other passengers."

The following are exemptions to this section of law:

- a. NYPD Canine Team dogs or other working dogs for law enforcement agencies
- b. Seeing eye dogs or other service animals that are harnessed and trained to assist persons who are visually impaired
- c. Hearing guide dogs or other service animals trained to assist a person with a hearing impairment
- d. Support dogs or other service animals that are trained to assist a person with a physical impairment
- e. Animals used to assist persons with disabilities that are not readily apparent, including epilepsy, heart disease, lung disease, and other medical conditions
- f. Animals which are being trained as service animals and are accompanying persons with disabilities
- g. Service animals undergoing training by professional trainers possessing the necessary identification such as:
 - (1) Training school identification OR
 - (2) Letter from the training school OR
 - (3) A training school collar tag.

NOTE

An individual with a disability who is accompanied by a service animal cannot be required to submit proof of disability or any form of documentation, or to demonstrate or otherwise prove that the animal is a service animal. An officer who is uncertain as to whether the animal is a service animal may inquire regarding whether such animal is providing assistance because of a disability.

Animals whose behavior poses a direct threat to the health or safety of others, or whose presence creates an undue risk to the general public, may be excluded.

Dogs are the most common service animals, but other animals may be utilized as service animals, provided they perform specific functions and tasks pertaining to an individual's disability. However, it should be noted that many service animals are not identified by special or colored collars or harnesses, nor is the owner required to present a license or other identification for the animal. Service animals must be harnessed or leashed (and otherwise within control of the handler).

For further guidance on whether an animal qualifies as a service animal under the disabilities' laws, contact the Legal Bureau.

EJECTION FROM NEW YORK CITY TRANSIT PROPERTY			
DATE ISSUED: 08/01/13	DATE EFFECTIVE: 08/01/13	REVISION NUMBER:	PAGE: 1 of 1

PURPOSE

To provide procedures for uniformed members of the service having occasion to eject a passenger from New York City Transit property.

SCOPE

Any person who violates any portion of NYCRR Part 1050, regardless of whether or not that person has also been issued a Transit Adjudication Bureau/Notice of Violation (TAB summons) or a Criminal Court Summons for that violation, is subject to ejection from New York City Transit facilities. Issuance of a Notice of Violation does not preclude a uniformed member of the service from ejecting a passenger from the transit system, if the member concerned deems it appropriate.

PROCEDURE

When necessary to eject a passenger:

UNIFORMED MEMBER OF THE SERVICE

1. Advise passenger of ejection and reason.
2. Permit passenger, who voluntarily leaves the property or shows a willingness to do so, to leave without interference.
3. Use no more force than is necessary to effect the ejection, if passenger refuses to leave.
 - a. Generally, grasping the upper arm and forearm to escort the person off the system is considered using reasonable force necessary to effect the ejection.

NOTE

If the passenger's conduct is such that it requires more force than is ordinarily needed to assist and guide the passenger out of the transit system, an arrest may be appropriate.

4. Make **ACTIVITY LOG (PD112-145)** entries and prepare a **TRANSIT SYSTEM EJECTION REPORT (PD372-140)** each time an ejection is effected.
5. Submit the completed **TRANSIT SYSTEM EJECTION REPORT** to the district desk officer prior to completion of tour.

2. Ascertain whether or not person has valid press identification issued by the New York City Police Department, if person engaged in photography is using additional equipment such as lights, tripods, or reflectors.

NOTE

If a person using additional photographic equipment does not have valid press identification, or if any person engaging in photographic activity is creating a hazard to public safety or to the efficient operation of the transit system:

- a. Warn person that he/she is in violation of the New York City Transit Rules:
 - (1) Direct person to cease.

 4. Request response of the Patrol Services Bureau and Transit Bureau patrol supervisors, and additional units necessary to secure the platform area and points of entry to the tunnel.
 5. Notify required units, e.g., Emergency Service Units, detective squad, Crime Scene Unit, etc., as necessary.

NOTE *Prompt notification and timely response of specialized units will minimize the duration of the power removal and subsequent disruption.*

- PATROL SUPERVISOR**
6. Make determination whether a search or other police action will be conducted in the tunnel.
 7. Determine the manner in which a police operation is conducted, including the necessity for removal of power.

NOTE *Before requesting the removal of power, consider the wide scale ramifications of this action. Some of the factors to be considered, but not limited to, are:*

- a. *The time of day (rush hour/non-rush hour)*
 - b. *Weather conditions (extreme heat)*
 - c. *Type of station (elevated or below ground)*
 - d. *Location of trains*
 - e. *Extent of injuries in aided cases*
 - f. *Risk to the riding public, if a crime is involved.*
8. Notify the Operations Unit of the time of the request for the removal of power.
 - a. Notify the Operations Unit when power is restored.
 9. Notify and request the response of the district commander/duty captain.

- CONCERNED,** Department, and the Transit Bureau Wheel of any removal of power within
- OPERATIONS** the transit system which occurs as a result of police action.
- UNIT** a. A second notification will be made upon restoration of power.

NOTE Uniformed members of the service will not personally shut off power, unless there is a grave risk of **IMMINENT** danger to the officers concerned or to others and **NO OTHER** safe alternative is available.

WHEN IT IS NECESSARY TO IMMEDIATELY REMOVE POWER FROM TRACK AREA DUE TO IMMINENT DANGER:

- UNIFORMED** 13. Open emergency alarm box and pull lever down as far as it will go and
- MEMBER OF** release the lever (located in subway tunnels, spaced about 400 to 600 feet
- THE SERVICE** apart, beneath the blue light).
- CONCERNED** a. Power on all tracks in the vicinity will be immediately turned off.
14. Use the telephone (located at the alarm box), immediately after removing power, to notify the Rapid Transit Operations Command Center Desk Superintendent of the situation.

NOTE New York City Transit will automatically RESTORE THE POWER if notification is not made immediately.

15. Notify the radio dispatcher via radio, if telephone notification cannot be made, and request that immediate notification be made to the Desk Superintendent concerned.

NOTE The train operator or conductor’s New York City Transit radio can be used by police personnel for conducting direct communications with the Rapid Transit Operations Command Center.

The removal of power may be avoided, in many instances, by obtaining the cooperation of train motormen and riding in the lead cars of trains, in both directions, through the affected area to search for fleeing suspects.

16. Confer with a New York City Transit supervisor on the scene, after ensuring that all personnel are off the tracks, as to whether power can be restored immediately after the condition, which required the removal of power, has been corrected.

**ADDITIONAL
DATA**

Members of the service are reminded that the NYC Transit has the capability of limiting the removal of power to the actual tracks involved in the critical incident. Turning off the power directly from the emergency alarm boxes will remove the power in both directions and on all tracks for several stations. This can cause a major tie-up on the subway system thereby creating other hazards. Therefore, when possible, all requests for the removal or restoration of third rail power will be made directly to the Rapid Transit Operations Command Center Desk Superintendent. This request can be made via the motorman's radio, Rapid Transit Operations Radio or if no other alternative exists by the radio dispatcher in the usual manner. In all cases, an immediate follow-up notification will be made to the Communications Division, Transit Communications Unit.

In cases where a dead human body is found under circumstances indicating an apparent homicide or is otherwise suspicious, the investigating officer from the Crime Scene Unit will photograph and mark the position of the body (head, leg, arm, etc.) and any other items of evidence that must be removed to avoid destruction by passing train traffic. The body will then be removed to an area of safety for further examination so that the power and service can be restored.

If a suspicious death/homicide occurs on a train, the body should remain undisturbed. The car or cars involved shall be secured, and a uniformed member of the service shall be assigned to accompany the car involved as it is removed to the train yard or other place where the investigation will be completed. If the member so assigned is anyone other than the investigating officer, that member shall remain with the removed car until the investigating officer's arrival. Prior to moving the car, the investigating officer will mark its position and note the order and serial numbers of all cars in the make-up of the train. If necessary, investigators may return to the scene to conduct a search for additional evidence.

When a body is found in the track bed and is obstructing passenger train traffic, it will suffice to have the responding detectives photograph the body in place from several angles prior to its removal.

NOTE

Ordinarily, there will be one “finding” per firearms discharge incident and one or more “recommendations” about follow-up action to be taken. However, an incident involving multiple firearms discharges by an individual uniformed member of the service may have more than one “finding.” For example, an incident wherein two rounds are fired may have a “finding” that one discharged round was “No violation of Department firearms guidelines,” and the other fired round was a “Violation of Department guidelines.” In these split “findings” cases, the investigating officer will clearly specify the nature of each fired round.

In many cases the investigating officer’s determination about the shooting being “within/outside” the Department’s guidelines will be reserved for the future when the investigation is completed, e.g., following the interview of uniformed member concerned (see P.G. 206-13, “Interrogation of Members of the Service”, presentation to grand jury, or completion of a criminal trial. However, other co-relative decisions will not be postponed. For example, regarding behavior or violations of Department guidelines, immediate action will be taken when the member’s behavior is erratic, e.g., refer to Psychological Services, if appropriate, or derelictions are uncovered, e.g., initiate disciplinary actions. These actions will be described in the initial report in its “Miscellaneous” section.

*Investigating officers conducting the preliminary investigation will attempt to ascertain and note in the preliminary report on **Typed Letterhead**, any action, statement, clothing or equipment utilized by civilian clothed, uniformed members of the service concerned to identify the uniformed member(s) as police officers (see step 13, “Firearms Discharge Manual,” [M.O.S. Description]). Additionally, the investigating officer preparing the final report on **Typed Letterhead** will include any additional information concerning identification which is obtained during the course of the subsequent investigation, including information obtained through interviewing civilian witnesses and/or the uniformed member(s) concerned, pursuant to the provisions of P.G. 206-13, “Interrogation of Members of the Service.”*

PATROL GUIDE

PROCEDURE NUMBER:	DATE EFFECTIVE:	REVISION NUMBER:	PAGE:

**ADDITIONAL
DATA
(continued)**

If a person is killed as a direct result of police action, the uniformed member of the service involved will not be assigned to identify the body at the morgue. Another uniformed member of the service, who can identify the body, will be assigned.

While a firearms discharge at a safety station within a Department facility does not require a report based on the "Firearms Discharge Manual" as per step 15 of this procedure, it does require a brief report by the uniformed member's commanding officer to the Commanding Officer, Firearms and Tactics Section.

In all cases of firearms discharge, the firearm of the uniformed member concerned will be delivered to and examined by the Firearms Analysis Section. If accidental discharge of a firearm is alleged, the investigating officer will direct that after Firearms Analysis Section examination, the firearm be delivered to the Firearms and Tactics Section, Outdoor Range, at Rodman's Neck for examination by a Department gunsmith. Department gunsmiths are available Monday to Friday, 0730 to 2300 hours. Uniformed member(s) concerned will not use the firearm(s) in question until such examination is completed (see P.G. 204-12, "Repair/Replacement of Authorized Firearms"). If uniformed member's service revolver/pistol has accidentally discharged and the incident occurs when a Department gunsmith is not available, the uniformed member concerned will be assigned to non-enforcement duty pending repair or replacement of the firearm.

*The **FIREARMS DISCHARGE/ASSAULT REPORT** is the primary method used by the Department to gather intelligence information regarding incidents which are life-threatening for police officers. The effectiveness of tactics training in identifying dangerous new criminal practices and in promoting safe new habits by uniformed members of the service depends upon the accuracy and completeness of these reports.*

FIREARMS DISCHARGE INVESTIGATIONS-ACCIDENTAL DISCHARGES AND SELF-INFLICTED WOUNDS

During the initial investigation of an incident involving a firearm discharge by a member of the service), information sometimes indicates that the firearm was discharged under accidental circumstances (with or without injury or death), or may have apparently been a self-inflicted wound. In all such cases, the ranking officer responsible for conducting the investigation must determine whether the firearms removal procedure (P.G. 206-17, "Removal And Restoration Of Firearms) would be appropriate.

All firearms discharge investigation reports under accidental circumstances shall include a finding and recommendation under Miscellaneous Information (Para. 25 - standard format) whether or not the member's firearms should be removed. In all cases of apparently self-inflicted wounds, absent mitigating circumstances, firearm removal is mandatory.

Members do not have to be suspended or placed on modified assignment in order to have their firearms removed. When the ranking member conducting the investigation determines that a firearms removal is appropriate, P.G. 206-17, "Removal And Restoration Of Firearms," shall be followed.

The circumstances of each case shall be judged on their own merit. Factors such as on/off duty status, fitness for duty, contributing circumstances (e.g., struggle with suspect), shooting range incidents etc., shall be considered in making a determination about the necessity of firearms removal.

**ADDITIONAL
DATA
(continued)**

When firearms removal would not be appropriate, if an accidental discharge of a firearm is alleged, the investigating officer will direct that after ballistics examination, the firearm be delivered to the Firearms and Tactics Section, Outdoor Range, at Rodman's Neck for examination by a department gunsmith (gunsmiths are available Monday to Friday, 0730 to 1530 hours). Members concerned will not use firearm in question until such examination is completed (see P.G. 204-12, "Repair/ Replacement of Authorized Firearms"). If member's service firearm has accidentally discharged and the incident occurs when a department gunsmith is not available, such member will be assigned to non-enforcement duty pending repair or replacement of the firearm. In all firearm discharge cases, the ranking investigator shall determine whether a referral should be made to the Early Intervention Unit, Counseling Service, or Trauma Counseling Program. When a member is shot, or causes, accidentally or otherwise, serious injury or death to another, the member will be referred to the Trauma Counseling Program.

All uniformed members of the service who discharge a firearm, on or off duty, at other than an approved firing range, will attend a tactics review session conducted by the Firearms and Tactics Section. The dates, times, locations, required equipment, and other provisions governing the review sessions will be the subject of a yearly Department directive.

The FIREARMS DISCHARGE/ASSAULT REPORT is the primary method used by the Department to gather intelligence information regarding incidents which are life-threatening for police officers. The effectiveness of tactics training in identifying dangerous new criminal practices and in promoting safe new habits by uniformed members of the service depends upon the accuracy and completeness of these reports.

THREATS AGAINST MEMBERS OF THE SERVICE			
DATE ISSUED: 10/16/13	DATE EFFECTIVE: 10/16/13	REVISION NUMBER:	PAGE: 1 of 6

PURPOSE

To ensure that threats against uniformed members of the service are documented and investigated properly.

PROCEDURE

Whenever a uniformed member of the service receives or is notified of a threat to the member concerned or to any other uniformed member of the service:

MEMBER OF THE SERVICE RECEIVING THREAT

1. Attempt to gather as much information as possible regarding the identity of:
 - a. Uniformed member of the service being threatened, and
 - b. Person making the threat.

 - a. Telephone number of the telephone on which the threat has been received
 - b. Exact time the call commenced and terminated.
3. Attempt to obtain from caller as much information as possible, including:
 - a. Name of threatened uniformed member of the service
 - b. All information regarding the member concerned known by the caller

 - d. Manner in which the threat is to be carried out
 - e. Identity of caller (including any nickname or street name)

4. Inquire if threatened uniformed member has arrested the caller and/or if caller has been previously arrested.
 - a. Attempt to ascertain date and place of previous arrest or any incident of contact between the caller contact and threatened member, if applicable.
5. Be alert for any identifiable background noises that may pinpoint the location of the call, while engaged in conversation with the caller.

NOTE

*If available and time permits, recording devices should be utilized to record a threat received by telephone, or any part thereof. In addition, in all cases of threats received by telephone, available features such as “*57” and “*69” should be utilized immediately after contact is broken. The “*57” feature instructs the telephone company computer to “trap” and make a record of the originating telephone number of the immediately preceding call. The number can then be retrieved by an investigator through contact with the NYNEX Security Office. The “*69” feature automatically dials the originating telephone number of the immediately preceding call. This feature allows re-establishment of the connection in the event of a hang-up, thereby providing another opportunity to gather further information from the caller. These features do not operate on telephones that require an access code to obtain an outside line (i.e., dialing “9”).*

**ADDITIONAL
DATA** *The continued safety of the member concerned is the first priority in any case involving a threat to a uniformed member of the service. Therefore, the **COMPLAINT REPORT** will be filed and primary investigative jurisdiction will be vested in the New York City precinct that bears the closest connection to the target of the threat, regardless of the location from which the threat originates or is received. In cases where the threat is not related to the targeted uniformed member's on duty activities, and the targeted uniformed member does not reside within the City, jurisdiction will be placed in the New York City precinct from which the threat originates (i.e., where the telephone call was made or the letter was mailed or in which received (i.e., where the letter is delivered or where the call is received). If both the location of origination and the location of receipt are within the City, the location of origin will take priority.

The assigned member of the precinct detective squad bears the primary responsibility for the continuing investigation of the threat case until closure or referral. Intelligence Bureau, Public Security Section personnel will act in a support capacity with respect to the investigatory aspects of the case, and are available to offer investigative support and expertise.

CONFRONTATION SITUATIONS			
DATE ISSUED: 08/01/13	DATE EFFECTIVE: 08/01/13	REVISION NUMBER:	PAGE: 1 of 4

PURPOSE

To safely resolve confrontations between members of the service, both on and off duty.

SCOPE

The type and circumstances of encounters between members of the service - whether in uniform or civilian clothes, both on and off duty - are so varied that they defy all-encompassing guidelines. In such encounters, the actions of the members in the first few seconds are of vital importance. It must be absolutely clear in the minds of all members of the service that in any confrontation, the burden of proving identity rests on the CONFRONTED OFFICER whether on or off duty. The CHALLENGING OFFICER, however, also has a responsibility to use sound tactics and judgment in approaching the situation.

DEFINITIONS

CHALLENGING OFFICER – For the purpose of this procedure, the uniformed member of the service who comes upon the scene where an unidentified person states he/she is a police officer or whose actions may indicate he/she is taking police action (i.e., on duty or off duty uniformed member of the service or an enforcement officer from an outside criminal justice agency).

CONFRONTED OFFICER – The uniformed member of the service (usually civilian clothed) either on or off duty, who may be armed and taking police action and whose identity and objectives are not immediately apparent to the challenging officer.

ADDITIONAL DATA

TACTICAL CONSIDERATIONS

Members of the service are reminded to deploy proper tactics and to use sound judgment when involved in confrontation situations. Members will remain on heightened alert until the member is completely satisfied as to the person's identity through verification of credentials.

Members of the service are reminded to immediately take cover to the rear, not to the side, of the person being challenged, if possible. A challenge from the rear allows more time for the challenging officer to evaluate the subject's reactions and also gives the challenging officer a tactical advantage. A challenge from the side reduces response time. Civilian clothed uniformed members of the service should make it a practice to carry their shields in a pocket opposite their shooting hands.

HOSTAGE/BARRICADED PERSON(S)			
DATE ISSUED: 08/01/13	DATE EFFECTIVE: 08/01/13	REVISION NUMBER:	PAGE: 1 of 5

PURPOSE

To handle hostage/barricaded persons' situations with maximum safety to all persons concerned.

DEFINITIONS

HOSTAGE SITUATION - A hostage situation begins the moment a suspect takes a person under his or her control and subjects that person to the risk of bodily harm for the purpose of furthering a criminal act or to facilitate escape. There are two broad categories of hostage situations:

- a. The classic hostage situation, in which the hostage-taker is contained within a room, building, store, or other physically segregated area;
- b. The mobile hostage situation, in which the hostage-taker is on the street or another location where he or she is not restricted by clear physical boundaries.

OUTER PERIMETER - Area sufficiently removed from actual scene of incident to ensure the safety of all spectators, including members of the news media. The establishment of outer perimeters dictates the evacuation of all civilians and unnecessary police personnel from this area.

INNER PERIMETER - Frozen area, encompassing the incident location. No one will be permitted in this area without a protective vest appropriate to the level of threat present. No one will be allowed to enter the Inner Perimeter except:

- a. Patrol borough commander or duty chief;
- b. Commanding Officer, Special Operations Division, and personnel under his/her command;
- c. Commanding Officer, Emergency Service Unit, and personnel under his/her command;
- d. Hostage Negotiating Coordinator and personnel under his/her command;
- e. Technical Assistance Response Unit (TARU) supervisor and personnel under his/her command;
- f. Bomb Squad supervisor and one technician, when bomb is present or suspected;
- g. Ranking patrol duty supervisor from affected operational bureau (Patrol Services, Housing or Transit) depending on location of incident;
- h. Any other person(s) with the permission of the patrol borough commander or duty chief.

MASS REFLEXIVE RESPONSE - Sometimes referred to as "contagious shooting," mass reflexive response is the phenomenon which occurs when a shot fired by one officer sets off a chain reaction of shooting by other personnel on the scene. It involves reacting based on one's instinct rather than on a rational assessment of the situation.

FIREARMS CONTROL - Firearms control requires that no member of the service on the scene will discharge a firearm unless and until directed to do so by the supervisory officer in charge, unless discharging a firearm is absolutely necessary for self-defense or the defense of another and there is no other alternative.

PATROL GUIDE

PROCEDURE NUMBER:	DATE EFFECTIVE:	REVISION NUMBER:	PAGE:
212-38	08/01/13		2 of 5

PROCEDURE When responding to the scene of an incident in which persons are being held hostage or barricaded persons will not voluntarily surrender, or when persons are taken hostage during the course of an ongoing police incident, pursuit, etc.

UNIFORMED MEMBER OF THE SERVICE

1. Request through communications dispatcher that the patrol supervisor, Emergency Services Unit (ESU), Hostage Negotiation Team (H.N.T.) and the Technical Assistance Response Unit (T.A.R.U.) respond to the incident.
2. Seek cover and attempt to isolate and contain the subject and the hostage.

NOTE *When there is time to negotiate, all the time necessary to ensure the safety of all individuals concerned will be used. Once a hostage or hostages are taken, all members of the service at the scene will attempt to contain the subject(s) and hostage(s) and implement hostage negotiation procedures. Note that the safety and well-being of the hostage as well as all persons present is our paramount concern. Any action which endangers the hostage will be avoided, if possible.*

3. Be cognizant of the danger of “Mass Reflexive Response.”
 - a. The first officers on the scene will immediately establish and maintain firearms control.

NOTE *Uniformed members of the service should be aware that, although the New York State Penal Law and Department procedures may authorize the use of deadly physical force in a given situation, they will not be subject to criticism or disciplinary action for choosing not to discharge their firearms.*

4. Attempt to slow the pace of the incident and establish a dialogue with the subject while awaiting the arrival of specialized personnel.
 - a. Any action which might agitate or provoke the subject should be avoided.
5. Refrain from any action which would unnecessarily jeopardize the safety of the hostage.
6. Establish police lines to control subject’s mobility and to prevent uninvolved persons from entering the area.

NOTE *Street situations, or mobile hostage situations, present added hazards. The ability to control the subject’s movement, and the prevention of uninvolved persons unwittingly entering the inner perimeter, are limited by the setting in which the incident occurs. The proper deployment of personnel will aim to control access to the inner perimeter as well as to control the subject’s mobility. Natural boundaries, such as fences, building lines, parked cars, and walls, should be used to contain the subject. Department vehicles, strategically placed, can be used to contain the incident or to block escape routes.*

PATROL SUPERVISOR

7. Assume command of the situation.
8. Ensure that all members of the service present are directed to maintain firearms control.
 - a. As soon as circumstances permit, designate one or more uniformed members of the service who will act as the designated shooter(s) if the use of deadly physical force becomes unavoidable.
 - b. Designate a uniformed member of the service to maintain radio contact with the Communications Section dispatcher, so that the dispatcher and responding personnel are kept apprised of the situation as it develops.

PATROL GUIDE

PROCEDURE NUMBER:	DATE EFFECTIVE:	REVISION NUMBER:	PAGE:
212-38	08/01/13		3 of 5

NOTE *The ranking officer in charge will personally assume responsibility for firearms control. To maintain firearms control, he or she must be able to immediately assess conditions as they develop, and to give appropriate direction instantaneously. Therefore, the ranking officer in charge will assume a position within the inner perimeter, at the focal point of the situation.*

PATROL SUPERVISOR

9. Assess situation and ensure sufficient patrol response pending arrival of Emergency Service Unit.
10. Verify through the communications dispatcher that ESU, H.N.T. and T.A.R.U. are enroute to the incident scene and if not, request their immediate response.

NOTE *Only the ranking patrol duty incident commander (i.e., patrol borough commander/duty inspector/duty captain) has the authorization to cancel the services of the H.N.T. and T.A.R.U. via the communications dispatcher. The communications dispatcher is NOT authorized to cancel the services of H.N.T. and/or T.A.R.U. without the aforementioned consent of the ranking patrol duty incident commander on the scene.*

11. Request response of precinct commander/duty captain.
12. Implement hostage negotiation procedures, beginning with the establishment of inner and outer perimeters.
 - a. The inner perimeter should contain only those personnel necessary to accomplish the mission; all others will be directed to the outer perimeter.
 - b. Uninvolved civilians should be evacuated, if safety permits. They should be properly identified and detained for questioning to obtain pertinent information about the incident.
 - c. Once the inner perimeter is established, only authorized personnel will be permitted to enter it.
 - d. An outer perimeter will be established to serve as a staging area for additional police personnel and for other agencies (i.e., Fire Department, Emergency Medical Service, etc.)
 - e. The Communications Section should advise all units responding to the incident to avoid the inner perimeter, and not to use lights and sirens as they approach the scene.
13. Confer with the Emergency Service Unit upon their arrival to evaluate location and coverage of inner and outer perimeters, as well as necessity for evacuation of area.
 - a. Request response of Emergency Service Unit supervisor, if not present.
14. Establish field command post outside of inner perimeter and the potential line of fire.
15. Have desk officer, precinct of occurrence, and Operations Unit apprised of situation and provide telephone numbers of field command post.

NOTE *The ranking patrol supervisor on the scene is in command and will coordinate police operations. If a barricaded person is contained and poses no immediate threat or danger to any person, no additional action will be taken without the authorization of the precinct commander/duty captain at the scene.*

- PRECINCT/ PSA/DISTRICT COMMANDER/ DUTY CAPTAIN**
16. Assume command of the incident.
 17. Ascertain that firearms control has been established.
 18. Confer with patrol supervisor and Emergency Service Unit Supervisor to determine if sufficient personnel are present to maintain inner and outer perimeters.
 19. Ensure that field command post is established outside inner perimeter and potential line of fire.
 20. Assign sufficient personnel to maintain outer perimeter.
 21. Have duty inspector and patrol borough commander or duty chief notified to respond in verified hostage or barricade situation.
- EMERGENCY SERVICE UNIT SUPERVISOR**
22. Ensure that a clearly delineated inner perimeter has been established.
 23. Ensure that only properly equipped and designated personnel enter the inner perimeter.
- PATROL BOROUGH COMMANDER/ DUTY INSPECTOR/ DUTY CAPTAIN**
24. Assume overall command and ascertain that the outer perimeter and inner perimeter have been established.
 25. Ensure through the communications dispatcher that H.N.T. (with coordinator) and T.A.R.U. are enroute to or are already present at the incident scene and if not, then request their immediate response.
 26. Ensure that detective borough commander is notified.
 27. Attempt to establish contact with the person holding hostages or the barricaded person, pending arrival of hostage negotiator(s).
 - a. Determine who may speak to hostage taker or barricaded person.
- HOSTAGE NEGOTIATION COORDINATOR**
28. Report to ranking patrol duty incident commander present.
 29. Commence hostage/barricaded persons procedures.

ADDITIONAL DATA

Although the primary goals in a developing hostage situation are to isolate and contain the subject, the safety of the hostage, and of all persons present, is the overriding concern. The Communications Section must be kept apprised of the situation as it develops so that information can be relayed to personnel at the scene as well as others who may be responding. It is impossible to create a set of guidelines which will cover all potential hostage situations. These basic guidelines must be tailored to the situation at hand. However, in any hostage situation, there are three constants:

- a. *When there is time to negotiate, all the time necessary to ensure the safety of all concerned will be used*
- b. *Deadly physical force will be used only as a last resort to protect the life of persons present*
- c. *The overriding goal is the safe release of the hostage.*

Uniformed members of the service are reminded that, although the New York State Penal Law and Department procedures may authorize the use of deadly physical force in a given situation, they will not be subject to criticism or disciplinary action for choosing not to discharge their weapons. Hostage-takers often maintain close physical proximity to their hostage(s). For that reason, uniformed members of the service must be especially aware of the risk involved in attempting to shoot a small, moving target, and the possibility of further jeopardizing the safety of the hostage.

RESPONSE TO FIREARMS DEALERS LOCATIONS			
DATE ISSUED: 08/01/13	DATE EFFECTIVE: 08/01/13	REVISION NUMBER:	PAGE: 1 of 2

PURPOSE

To establish a proper response to firearms dealer locations after notification via NICS and the New York State Police that a person wanted on a warrant is attempting to purchase a weapon.

SCOPE

Federal law requires that federally licensed firearm dealers in New York City conduct an “instant background check” on any person wishing to purchase a firearm (handgun, rifle, shotgun). To do this the dealer will telephone the Federal Bureau of Investigation’s National Instant Criminal Background Check System (NICS), with the person’s pedigree information. Within a short time NICS will advise the dealer whether or not a firearms sale can be completed. In situations where NICS confirms that there is an outstanding arrest warrant for a person attempting to purchase a firearm, they will notify the New York State Police, who in turn will contact the N.Y.P.D.’s Operations Unit. Operations Unit will then notify both the patrol borough concerned and the Communications Section. Communications Section will advise the patrol supervisor to contact Operations Unit for an appraisal of situation i.e., the location and number of perpetrators. Based on all available information, the patrol supervisor will evaluate the situation and determine if additional resources are required, and if the duty captain should be notified.

PROCEDURE

When a notification is received via the National Instant Criminal Background Check System (NICS) and the New York State Police, that a person attempting to purchase a firearm from a gun dealer is wanted on a warrant:

OPERATIONS UNIT MEMBER

1. Notify Communications Section and patrol borough concerned.

COMMUNICATIONS DISPATCHER

2. Notify patrol supervisor, precinct concerned, to contact Operations Unit.

NOTE

If the patrol supervisor is not available, another supervisor will be directed to respond.

PATROL SUPERVISOR

3. Confer with Operations Unit member regarding situation at gun dealer’s location.
4. Evaluate the situation.
5. Determine if additional resources are required.
6. Notify and confer with duty captain, if necessary.
7. Devise an appropriate tactical plan, giving priority to the safety of the public and responding members of the service.

NOTE

Depending upon the information available, including the seriousness of the offense for which the person in question is wanted, the patrol supervisor will assign sufficient units to respond. In addition, strong consideration will be given to notifying the patrol borough warrant team, Emergency Service Units, etc.

NOTE

9. Have subject removed to stationhouse for either further investigation or arrest processing.

NOTE

*A NICS "hit" on a name check is not considered conclusive and is not sufficient authority to arrest. Further inquiries must be made through the Warrant Section, twenty-four hours a day, seven days a week. In addition, New York City Pistol Permit holders are issued a **PISTOL PURCHASE AUTHORIZATION (PD643-053)** only after a name check is conducted. Section 424, Vehicle and Traffic Law requires agencies who are members of the New York Statewide Police Information Network (NYSPIN) to report the impounding of motor vehicles, trailers or parts thereof to the Network. This is intended to prevent false or erroneous reports of motor vehicle theft by owners who are unaware that their vehicles have been impounded. Reports to NYSPIN shall include if possible:

The term “impound” is defined to mean the taking into possession by an agency of any motor vehicle which has been abandoned, repossessed, seized pending forfeiture proceedings, taken into custody or held as evidence in the course of a police investigation, required to be impounded by law, or held by any agency under circumstances in which the owner might not reasonably know the status of the vehicle.

LABOR DISPUTE			
DATE ISSUED: 08/01/13	DATE EFFECTIVE: 08/01/13	REVISION NUMBER:	PAGE: 1 of 2

PURPOSE

To preserve the peace and protect life and property at the scene of a strike or labor dispute.

DEFINITIONS

PENAL LAW SECTION 240.25, HARASSMENT IN THE FIRST DEGREE - prohibits "stalking" - intentionally and repeatedly harassing another person by following him/her in a public place or by engaging in a course of conduct which places the person in reasonable fear of physical injury. However, this Penal Law section does not apply to conduct which constitutes picketing or other labor-related activity governed by federal labor statutes.

PENAL LAW SECTION 240.26, HARASSMENT IN THE SECOND DEGREE - prohibits harassing a person by following him/her in a public place or engaging in a course of conduct which alarms or seriously annoys someone and has no legitimate purpose. These provisions do not apply to conduct which constitutes picketing or other labor-related activity governed by federal labor statutes. However, the law leaves intact the prohibition against striking, shoving, kicking, or otherwise subjecting another person to physical contact, or attempting to do such acts -- no one, whether picketing or not, is permitted to engage in this behavior, which remains enforceable as Harassment in the second degree.

PROCEDURE

Upon arriving at the scene of a strike or labor dispute:

UNIFORMED MEMBER OF THE SERVICE

1. Take action to preserve the peace and prevent destruction of property.
2. Request response of patrol supervisor.
3. Notify desk officer.

Instead, the victim may be referred to court for an injunction, or to the National Labor Relations Board. The only permissible arrest for harassment in this situation is now where the individual strikes, shoves, kicks, or otherwise subjects the victim to physical contact, or attempts or threatens to do the same. It should also be remembered that no other Penal Law section has been amended in this way, so that a person who violates other provisions such as disorderly conduct, menacing, criminal mischief, etc., will still be subject to arrest even if the violation occurred in a labor demonstration.*

NOTE *If the originating Family Court is located outside the patrol borough, the **STATEMENT OF PERSONAL SERVICE** and/or **WARRANT OFFICER'S REPORT OF INVESTIGATION** will be returned via the patrol borough coordinator in which the Family Court is located.*

The respondent's name shall be entered under the caption "Defendant Surname" and the docket number shall be entered under the caption "Docket/Indict #." Service must be attempted at least once each tour for six consecutive tours, after which the order of protection may be considered undeliverable.*

The assigned uniformed member of the service will inquire of neighbors, superintendent, etc., as to respondent's whereabouts. If respondent has moved, attempt to obtain the new address. If the new address is within the precinct, service of the order of protection will be attempted at the new location for an additional six consecutive tours. A new log entry will be required.

*If the new address is outside the precinct concerned, indicate this on the **WARRANT OFFICER'S REPORT OF INVESTIGATION**. The order of protection will be returned to the patrol borough coordinator for forwarding to the proper patrol borough. Although most of the Family Court or Supreme Court orders of protection will be delivered through the patrol borough coordinator, the petitioner may elect to personally seek police assistance in serving the order of protection. In that instance, the desk officer will inspect the "Order of Protection" log to determine if the order of protection has already been served. If it has not been served, a uniformed member of the service will provide assistance in serving the order and give the original (white copy) of the completed **STATEMENT OF PERSONAL SERVICE** to the petitioner. The petitioner will be instructed to deliver the form to the Family Court or Supreme Court clerk that issued the order of protection. The blue copy of the **STATEMENT OF PERSONAL SERVICE** will be delivered to the desk officer who will indicate in the log that the order of protection was served, and then forward the copy to the domestic violence prevention officer who will process it in accordance with the foregoing procedure.*

When an exclusionary Order of Protection has been served, uniformed members of the service may not assist respondents who wish to remove clothing/property (commonly known as "clothes jobs"), where an exclusionary Order of Protection exists which prohibits contact between the petitioner and respondent and/or excludes the respondent from being present at said location. Instead, the respondent should be advised to return to court to have the Order of Protection amended, so that he/she may remove clothing/personal property from the location, or, so that the items may be delivered to the respondent or a third party.

VERTICAL PATROL			
DATE ISSUED: 08/01/13	DATE EFFECTIVE: 08/01/13	REVISION NUMBER:	PAGE: 1 of 3

PURPOSE

To prevent, detect and take necessary enforcement action regarding illegal activity occurring in lobbies, stairwells, basements and other common areas of multiple dwelling buildings that are not owned by the New York City Housing Authority.

SCOPE

Authorization for vertical patrol, the tactically planned patrol of the interior hallways, stairways and rooftops of multiple dwelling buildings is obtained through the Department's Trespass Affidavit Program. Patrolling multiple dwelling buildings for criminal activity, including trespassing under the Trespass Affidavit Program, is a valuable problem solving tool, as well as an important component of the Department's crime control strategy.

PROCEDURE

To conduct vertical patrol in a residential multiple dwelling building in the Department's Trespass Affidavit Program:

PLATOON COMMANDER/ PATROL SUPERVISOR/ ASSIGNED SUPERVISOR

1. Assign teams of two or more uniformed members of the service to conduct vertical patrol at designated times and locations.
 - a. Schedule vertical patrols based on times when illegal activities are prevalent
 - b. Ensure **TRESPASS CRIMES – OWNER'S AFFIDAVIT(S) (PD651-051)** or New York County District Attorney's supporting affidavits, as appropriate, are current for scheduled locations
 - c. Ensure all vertical patrols are conducted in a satisfactory manner with special attention to:
 - (1) Enforcement action, including proper tactics
 - (2) Radio transmissions
 - (3) Proper documentation (e.g., **ACTIVITY LOG [PD112-145]** entries, **STOP, QUESTION AND FRISK REPORT WORKSHEETS [PD344-151A]**, etc.).

NOTE

A uniformed member of the service may approach and question persons if they have an objective credible reason to do so. However, a uniformed member may not stop (temporarily detain) a suspected trespasser unless the uniformed member reasonably suspects that the person is in the building without authorization.

2. Instruct uniformed members performing vertical patrol that, absent exigent circumstances, teams of two or more uniformed members must remain together at all times.
3. Consider the appropriate number of teams necessary to perform a particular vertical patrol.
 - a. The number of uniformed members that are required to conduct a particular vertical patrol assignment should be based on the size of the building, the number and location of exits, and the nature of the crimes being addressed.

PATROL GUIDE

- UNIFORMED MEMBER OF THE SERVICE**
4. Respond to location at designated time and coordinate activities with other assigned uniformed members.
 5. Notify Communications Section radio dispatcher utilizing radio code signal 10-75V, and make **ACTIVITY LOG** entry of the time and street address upon entering the building.
 6. Inspect front, rear and other exterior doors, and interior of lobby.
 7. Document in **ACTIVITY LOG** that signs stating, “No Trespassing, Tenants and their Guests Only,” are prominently displayed and legible.
 - a. Signs should be prominently displayed in areas where persons entering the building can readily observe them (e.g., vestibule entrance, vestibule, above the elevator, courtyard, roof, etc.).
 8. Proceed to top floor of building by elevator, if operable, and conduct inspection of roof, roof landing, elevator rooms, and any other installations.
 9. Patrol each floor, staircase and hallway within the building from the top floor to the ground floor.
 10. Inspect all accessible basement areas.
 11. Be alert for persons who may be engaged in criminal activity, including potential trespassers, and upon encountering such persons:
 - a. Approach the person(s) and ask:
 - (1) If he or she lives in the building
 - (2) If he or she is visiting someone in the building
 - (3) If he or she has business in the building.
 - b. Take reasonable measures to verify a person’s authority to be present in the building when such authority is in question (e.g., asking for identification, keys to the building entrance doors, etc.).
 - c. When a person refuses to explain or is unable to explain his/her presence in the building, the uniformed member may instruct the person that he or she must leave the building or be subject to arrest for trespass. The uniformed member may then arrest the person for trespass if:
 - (1) The person refuses to exit the building and does not promptly establish a right to be in the building.
 - d. When reasonable suspicion develops that a person has committed, is committing or is about to commit a felony or a Penal Law misdemeanor, take appropriate police action as per *P.G. 212-11, “Stop and Frisk”*
 - e. If probable cause develops that a person has committed or is committing an offense or crime, take appropriate police action as per *P.G. 208-01, “Law of Arrest”*
 - f. When a trespass arrest is made, prepare **TRESPASS CRIMES – FACT SHEET (PD351-144)**
 - g. Copies of the **TRESPASS CRIMES – FACT SHEET** and **TRESPASS CRIMES – OWNER’S AFFIDAVIT** or New York County District Attorney’s supporting affidavit, as appropriate, for the building must be included in arrest package.
 12. Notify Communications Section radio dispatcher upon exiting building and make **ACTIVITY LOG** entry indicating time building inspection was completed and any conditions noted.

PATROL GUIDE

PROCEDURE NUMBER:	DATE EFFECTIVE:	REVISION NUMBER:	PAGE:
212-59	08/01/13		3 of 3

ADDITIONAL DATA

The “**TRESPASS CRIMES – OWNER’S AFFIDAVIT (PD651-051)**,” will be utilized for Department Trespass Affidavit Program buildings in the Bronx, Brooklyn, Staten Island and Queens. The New York County District Attorney’s Office manages a Trespass Affidavit Program in Manhattan and utilizes its own supporting affidavits. The “**TRESPASS CRIMES – FACT SHEET (PD351-144)**,” will be prepared in every instance, including Manhattan, where a uniformed member of the service effects a trespass arrest in a building participating in a Trespass Affidavit Program.

A uniformed member of the service may not stop (temporarily detain) a suspected trespasser unless the uniformed member reasonably suspects that the person is in the building without authority. When reasonable suspicion exists, a **STOP, QUESTION AND FRISK REPORT WORKSHEET** shall be prepared as per P.G. 212-11, “Stop and Frisk.” Some factors which may contribute to “reasonable suspicion” that a person is trespassing, in addition to those factors set forth in P.G. 212-11, “Stop and Frisk,” are contradictory assertions made to justify presence in the building and/or assertions lacking credibility made to justify presence in the building.

A uniformed member of the service may arrest a person for trespass when he or she has probable cause to believe the person is not a resident, is not the invited guest of a resident, and is not otherwise authorized to be in the building. Refusal to answer a uniformed member’s questions alone will not reach the level of “probable cause.”

NOTE

Pattern identification is crucial to a burglary strategy. As part of this strategy, the Detective Bureau will establish burglary patterns in the same manner used to deal with robbery patterns. Where two or more incidents have common traits the Precinct Detective Squad Commander will establish a pattern. Items that should be considered in order to declare a pattern are: similar methods of entry, items stolen, proximity of crimes to each other, time/day of occurrence as well as any other distinguishable common characteristics. The Precinct Detective Squad, in which a pattern has been established, will have the primary responsibility in compiling a pattern folder and documenting their investigative steps to apprehend the perpetrator unless the pattern crosses precinct boundary lines. All information must be disseminated to members of the service in the local and surrounding precincts, detective squads and O.C.C.B. units. The Borough Robbery Squad will assume responsibility for investigation of patterns affecting more than one precinct. The Patrol Borough Commander will oversee the coordination of the plan to address the pattern between Patrol Services, Detective Bureau (detective squad, warrants, gang unit etc.), O.C.C.B. and Intelligence Bureau personnel.

**PDS/BRAM
INVESTIGATOR**

10. Review burglary and robbery complaint reports and assist in identifying any Burglary/Robbery patterns or trends that may arise.
11. Confer with the Precinct Field Intelligence Officer, when assigned, prior to and following the issuance of a pattern.
12. Compile a pattern case folder for all identified patterns, documenting all investigative steps taken.
13. Maintain photo books in accordance with established Legal Bureau guidelines, containing pictures of persons previously arrested for burglary and related crimes.
14. Confer with precinct and borough patrol and investigative units and disseminate all information regarding burglary and robbery trends, patterns and wanted perpetrators.
15. Update and maintain the Precinct Crime Information Center with active **INVESTIGATION CARD (PD373-163)**, Field Information posters, serial burglar lists and photos.
16. Conduct an investigation when the subject of a "Home Visit" cannot be located by the Precinct Burglary Apprehension Team (BAT).
17. Cultivate and maintain sources of information within command (e.g., confidential informants, building superintendents, landlords, block watchers, etc).
18. Debrief all suspects arrested for crimes of burglary/robbery. Seek to:
 - a. Identify accomplices
 - b. Identify fencing locations
 - c. Identify other victims.
19. Be responsible for reviewing the list of persons selling items to pawnshops or secondhand dealers.
 - a. Conduct appropriate investigation, i.e. **INVESTIGATION CARD** check, warrant investigation, criminal record check.
20. Assist the Burglary Apprehension Team with "Fencing Sting Operations."
21. Take major case prints for every person arrested for the crime of burglary.

PDS/BRAM SUPERVISOR

22. Be responsible for the review of all burglary/robbery complaints received at the office to determine case status.
23. Review all **COMPLAINT REPORTS (PD313-152)**, **COMPLAINT FOLLOW-UPS (PD313-081)** and **COMPLAINT FOLLOW-UP INFORMATIONALS (PD313-081B)** prepared to determine whether the cases should remain ACTIVE or CLOSED, and to ensure that all necessary investigative steps have been taken.
24. Assign robbery and burglary cases amongst all detectives in the unit.
25. Ensure the crime information centers are updated accordingly.
26. Ensure pawnshop/secondhand dealer inspections are properly investigated.
27. Verify major case prints are taken for every person arrested for burglary.

ADDITIONAL DATA

Assignment to a Precinct Detective Squad/Burglary Robbery Apprehension Module (PDS/BRAM) will be viewed solely as a Detective Bureau assignment, and not as an "investigative assignment" available to police officers under the "Police Officers Career Program."

Precinct Detective Squad/Burglary Robbery Apprehension Module (PDS/BRAM) team members will be assigned to the Detective Duty Chart. The squad commander, however, will have sufficient flexibility to modify scheduled tours to accommodate the needs of the command and/or for particular investigations.

Key elements which contribute to the success of the BRAM program:

- a. *The creation of a specialized BRAM unit within every Precinct Detective Squad. These units are commanded by, and are accountable to, a Precinct Detective Squad Commander who is responsible for the investigation of all robbery/burglary complaints committed within that precinct (unless another unit has responsibility as per Department directives, e.g., Internal Affairs Bureau - Police Impersonation Investigation Unit).*
- b. *The allocation of Precinct Detective Squad personnel to the BRAM unit, commensurate with the number of reported burglary/robbery cases. Precinct Detective Squad Commanders will determine the exact complement of personnel (supervisors/detectives), in concurrence with the respective Detective Borough Commanding Officer.*
- c. *One member of each PDS/BRAM will be designated as liaison with the Borough Robbery Squad and the Intelligence Bureau for the purpose of identifying emerging patterns and suspects. The Pattern Identification Module will be responsible for identifying, tracking and disseminating information between the precincts and boroughs affected and creating the pattern sheet upon conferral with both the Precinct Squad Commanders and Precinct Commanders involved.*
- d. *Detective Bureau must notify the appropriate Patrol Borough Pattern Identification Module when a pattern is established and provide all relevant details. Patrol Borough Pattern Identification Modules will notify the appropriate Detective Bureau on all alerts. Detective Bureau will prepare an apprehension plan on all patterns and submit it to the Chief of Detectives and forward a copy to the appropriate Patrol Borough Commander.*
- e. *The development and utilization of precinct Photo Books that contain photographs of persons previously arrested for burglary, robbery and grand larceny from the person, as well as all other photographable offenses within the same geographical area. Each PDS/BRAM must regularly review the precinct's arrest records and*

DATA
(continued)**

obtain all such prisoner photographs, including photos listing parolees with robbery/burglary convictions.

- f. *Uniformed members of the service on patrol are required to bring victims of robberies to the precinct in order to view the Photo Books.*
- g. *An innovative Case Management System which ensures prompt, thorough and flexible investigation of burglary/robbery complaints. Every burglary/ robbery complaint, after assignment of a precinct complaint number, will be reviewed and signed-off in the OLCS by the desk officer. Desk officers will closely scrutinize robbery complaints to ensure that procedures were properly followed. An additional copy of the **COMPLAINT REPORT (PD313-152)** will be forwarded to the Precinct Detective Squad. A thorough investigation will be conducted on all burglary/ robbery cases and the case status (open or closed) will be determined by the PDS/BRAM supervisor.*

If a uniformed member of the service apprehends a person wanted by the Precinct Detective Squad, as a result of a photograph placed on the Crime Identification Center's bulletin board, the uniformed officer will deliver the prisoner to any member of that detective unit performing duty at the time of the apprehension. The detective, who assumes responsibility for the prisoner, is required to take all of the follow-up steps, including arranging for and conducting a lineup, as per Patrol Guide 208-24, "Identification Lineups/Showups," booking and arraigning the prisoner.

A uniformed member of the service who apprehends two PDS/BRAM wanted persons may be recommended for Departmental recognition in the appropriate grade by the Precinct Commanding Officer. (If after the first arrest the individual apprehended is of significant value, Departmental Recognition may be recommended).

GOAL

In order to achieve the objectives of community policing, members assigned to the community policing unit are committed to the following goals:

- a. Involving the community in identifying its own public safety concerns and eliciting input in setting the Department’s priorities for addressing same.
- b. Increasing community participation in policing activities and community based public safety programs.
- c. Exchanging information with the community on a regular basis.
- d. Using a problem solving approach to develop strategies for police operations that respond to specific community problems, including non-traditional tactics and strategies.
- e. Coordinating strategies for addressing community problems with other agencies and private organizations.

NOTE

While members assigned to precinct community policing units are specifically charged with the furtherance of the above goals, it should be recognized that ALL members of the service are expected to perform duty in a manner that accomplishes these goals.

- DEPARTMENT VEHICLES**
1. **SCOOTER UTILIZATION** - The primary patrol function of the community policing unit officer is the performance of visible foot patrol in a specified beat area. CPO RESIDENTIAL BURGLARY PREVENTION CHECKLIST (PD351-140)

PATROL GUIDE

Section: Command Operations		Procedure No: 212-64	
VEHICLE CHECKPOINTS			
DATE ISSUED: 08/01/13	DATE EFFECTIVE: 08/01/13	REVISION NUMBER:	PAGE: 1 of 3

PURPOSE

To establish the criteria by which members of the service can conduct a safe, legal, and effective vehicle checkpoint program.

SCOPE

A vehicle checkpoint is a site on a roadway designated by the commanding officer of a patrol borough, Traffic Operations District, precinct, police service area, transit district, highway district/unit, or task force, which is overseen by uniformed personnel. Motor vehicle operators are stopped here in a non-arbitrary manner (e.g., every third vehicle, etc.), as directed by the commanding officer on a **VEHICLE CHECKPOINT FORM (PD371-143)**. Unlike routine car stops, police officers are not required to articulate an individualized suspicion for each vehicle stopped pursuant to a vehicle checkpoint.

Vehicle checkpoints must be set up to include adequate warnings to motorists of their existence. Uniformed members of the service assigned to the checkpoint may lawfully establish reasonable temporary restrictions on movement of vehicles in order to facilitate the flow of vehicular traffic through the checkpoint (e.g., prohibit parking, standing, stopping, or turning, etc.) by such means as signs, barriers, traffic cones, etc. A motorist who violates these temporary restrictions or any other traffic rule may similarly be stopped. An example would be a motorist, who after entering a checkpoint, attempts to avoid it by backing his/her vehicle out.

It should be emphasized that motorists who avoid a checkpoint by lawful means may not be stopped. If police have not blocked off a side street within a checkpoint, and a motorist turns down it, the motorist may not be stopped unless another lawful reason exists to stop the motorist.

PROCEDURE

Whenever a vehicle checkpoint is to be established:

COMMANDING OFFICER CONCERNED

1. Establish vehicle checkpoints for the primary purpose of a DWI check or vehicle safety check. Vehicle checkpoints for all other purposes other than in emergency circumstances cannot be conducted without prior written approval from the Deputy Commissioner, Legal Matters.
2. Prepare **VEHICLE CHECKPOINT FORM**.
3. Ensure the **VEHICLE CHECKPOINT FORM** is affixed to the interior right side of a legal size manila file folder.
4. Give the directive and file folder to the supervisor in charge of the checkpoint and discuss tactics and safety concerns.
5. Ensure that safety equipment is utilized when warranted and ordered from the Quartermaster Section, when necessary.

NOTE *If the vehicle checkpoint is established by a command other than a precinct, the commanding officer concerned shall confer with the precinct concerned before implementing the checkpoint.*

- SUPERVISOR IN CHARGE OF CHECKPOINT**
6. Comply with the captions on the **VEHICLE CHECKPOINT FORM** as completed by the commanding officer.
 7. Discuss tactics, including appropriate and lawful questioning techniques, and apprise personnel of the primary purpose of the operation.
 8. Ensure personnel are familiar with and have reviewed the contents of the **VEHICLE CHECKPOINT FORM** as provided by the commanding officer.
 9. Remain at the checkpoint location for the entire operation.

NOTE *Supervisors in charge of vehicle checkpoints are reminded that the safety of the public and members of the service is paramount. Reflective vests or luminous traffic belts are to be worn during hours of darkness. Additionally; safety equipment, including turret lights, flares, traffic cones, signs, and/or barriers will be utilized to enhance safety and to warn motorists of the existence of the checkpoint.*

10. Utilize at least two Department vehicles while conducting the checkpoint and employ appropriate safety equipment.
11. Assign a "point person", in the rank of police officer, whose sole responsibility is to maintain the commanding officer's established procedure for stopping vehicles and to advise the vehicle operators that their vehicles are being stopped, and the reason why.

- UNIFORMED MEMBER OF THE SERVICE ASSIGNED TO CHECKPOINT**
12. Stop vehicles as directed by the supervisor in charge of the vehicle checkpoint.

NOTE *After stopping a vehicle, it is permissible to request the driver's license, registration, and insurance card. It is also permissible to conduct a license and VIN check. The VIN check must be conducted from the outside of the car. Reaching inside the car to uncover the VIN plate is not permitted even if the VIN plate is covered or obstructed; however, the member may request that the motorist uncover the VIN plate. Additionally, the driver's failure to produce a license or insurance card does not provide the basis to enter the car and conduct a further search. However, the driver's failure to produce a license or insurance card does allow for the issuance of a summons or other appropriate enforcement action. If the documentation produced is appropriate, the driver must be allowed to proceed unless reasonable suspicion is developed during the stop.*

13. Take summary action, when necessary.
14. Record the identity (e.g., name, address, telephone, etc.) and statements of witnesses in **ACTIVITY LOG (PD112-145)**, whenever an arrest is made in connection with a vehicle checkpoint.

PROCEDURE NUMBER:	DATE EFFECTIVE:	REVISION NUMBER:	PAGE:

NOTE *If as a result of the vehicle checkpoint, an arrest is effected, the **VEHICLE CHECKPOINT FORM** prepared for that particular vehicle checkpoint shall be reproduced for the District Attorney's Office.*

SUPERVISOR IN CHARGE OF CHECKPOINT

15. Ensure that a record is kept of:
 - a. The number of summonses issued;
 - b. The number of arrests made;
 - c. The number of vehicles stopped; and
 - d. Any other information relevant to the checkpoint.
16. Complete the remaining sections of the **VEHICLE CHECKPOINT FORM** at the conclusion of the vehicle checkpoint.
17. Record other pertinent information in **ACTIVITY LOG**.
18. Deliver the completed file folder to the commanding officer of command conducting checkpoint.
 - a. Vehicle checkpoints will be sequentially numbered beginning with the number one at the beginning of each calendar year.
 - b. Forward copy of **VEHICLE CHECKPOINT FORM** to commanding officer, precinct concerned.

CLERICAL STAFF

19. Maintain files as per Department retention schedule.

ADDITIONAL DATA

In case of inclement weather the supervisor in charge may cancel the vehicle checkpoint. Furthermore, traffic congestion and other risk factors may also be taken into consideration when determining whether or not a checkpoint should remain in place. In any event, regardless of conditions, a vehicle checkpoint should not exceed two hours at a location. Commanding officers may draft specific procedures for vehicle checkpoints that meet the needs of their command, using this general procedure as a guide. When appropriate, written material such as flyers, or pamphlets related to the purpose of the checkpoint shall be distributed to motorists who are stopped.

*For priority investigations (e.g., homicides, shootings, serious assaults, etc.), a supervisor in the rank of captain or above may request confidential informant and contact information from the Intelligence Bureau directly by telephone. The form **CONFIDENTIAL INFORMANT DATABASE INQUIRY** will also be prepared and forwarded to the Intelligence Bureau within twenty-four hours via Department mail for requests made under these circumstances.*

*A supervisor, preferably the immediate supervisor of the contact, will be physically present at all meetings (e.g., debriefings, controlled buys, payments, etc.) between a confidential informant and a contact. The supervisor will review the **CONFIDENTIAL INFORMANT INFORMATION CHANGE, ACTIVITY AND PAYMENT** report, complete the captions in the "Verifying Supervisor" section and sign the completed report. However, a supervisor will attend such meetings when practicable and in all cases when payment is to be tendered to the confidential informant.*

OPERATIONAL CONSIDERATIONS FOR PATROL, HOUSING AND TRANSIT BUREAU UNITS

Patrol, Housing and Transit Bureau units may register a confidential informant for a period of no more than thirty days, during which time the informant may be used once. At the end of this thirty day period, the confidential informant will be automatically deactivated in the Confidential Informant Database. However, immediately after employing the services of the confidential informant and prior to the lapse of the thirty day activation period, the Patrol/Housing/Transit Bureau contact will notify their respective bureau confidential informant coordinator regarding the confidential informant's possible use by another Department bureau/unit other than Patrol/Housing/Transit Bureau commands. The bureau coordinators will consider each confidential informant's field of knowledge, as well as other relevant factors, when determining the appropriate investigative bureau/unit for possible future use. Every effort will be made to refer potentially useful confidential informants to the appropriate investigative unit for further development and future use. Bureaus or units that subsequently register these Patrol/Housing/Transit Bureau confidential informants will do so in strict compliance with the provisions contained in this procedure.

Patrol/Housing/Transit Bureau commands may not use the field intelligence officer as the registering supervisor solely to circumvent the thirty day activation and single use limitation contained in the paragraph above.

CONFIDENTIAL INFORMANT DATABASE

The Intelligence Bureau will query the Confidential Informant Database. If the confidential informant is already registered with the Department or has previously been disapproved as an informant, the Intelligence Bureau will immediately notify the bureau concerned and the request will be disapproved. If the confidential informant is registered but inactive due to failure to maintain regular or scheduled meetings, the existing contact must deactivate the confidential informant before the request can be approved.

In situations in which a confidential informant's identity may compromise a sensitive investigation, e.g., internal investigation or counterterrorism, the member of the service must receive written permission from the bureau chief to exclude personal identifiers from the Intelligence Bureau Database. This documentation will be included in the case file.

The identity of a confidential informant will be kept confidential and will be divulged only on a need-to-know basis. The Commanding Officer, Intelligence Bureau will institute necessary measures and procedures to limit access to the database and to ensure that confidentiality is maintained. Only members specifically designated by the Commanding Officer, Intelligence Bureau will have access to the Confidential Informant Database. The Commanding Officer, Intelligence Bureau will review the confidential performance indexes of designated members on a semiannual basis and discontinue their designation if they are found unsuitable for any reason.

Accordingly, queries of various offender registries should also be included as part of the process and the appropriate action taken, to ensure that informants are in compliance with federal, state and local laws.

All active confidential informants **MUST** be reviewed, evaluated and **rated** by the designated contact and supervisor on the **CONFIDENTIAL INFORMANT REGISTRATION/REACTIVATION REQUEST** on a quarterly basis. These forms **MUST** be submitted to the bureau coordinator by March 15, June 15, September 15, and December 15. Failure to submit the form in a timely manner could result in disciplinary action. If a quarterly review for a confidential informant is not submitted in a timely fashion, the confidential informant will be automatically deactivated in the Confidential Informant Database and permission to employ that confidential informant will be revoked. The confidential informant can **ONLY** be reactivated by submitting a new **CONFIDENTIAL INFORMANT REGISTRATION/REACTIVATION REQUEST** and **SUPPLEMENTAL**.

Informants play a critical role in crime fighting and intelligence gathering operations, and additional background information supplied by informants could prove useful in the furtherance of investigations conducted by the Department. Types of information considered of value for storage within the Intelligence Data System include but are not limited to:

- Military training
- Language capabilities
- Place of birth (region, village, tribe)
- Gang affiliation
- Education level and related degrees
- Professional licenses/skills
- Marital status and next of kin
- Social networking information

If a potential confidential informant does not want to provide the above information, he or she should still be accepted if he or she passes all other requirements.

MEMORANDUM OF UNDERSTANDING CONSIDERATIONS

Units governed by a memorandum of understanding or similar stipulation between this Department and other law enforcement agencies (e.g., Drug Enforcement Task Force, etc.) are exempt from those provisions of this procedure that are in conflict with the controlling memorandum of understanding. Members assigned to such units will conform to the policies and procedures stipulated within the memorandum of understanding regarding confidential informants. Similarly, Department personnel assigned to contribute to an investigation under the jurisdiction of a federal law enforcement agency may be required to adhere to the confidential informant guidelines of that agency. Written authorization for this exemption must be obtained in advance from the bureau chief concerned.

Commanding officers assigned to task forces that are governed by a memorandum of understanding are to instruct Department personnel on the provisions of the memorandum, as well as the informant related guidelines (e.g., the United States Attorney General's Guidelines, Federal Bureau of Investigation's policies, etc.) of the lead task force agency, if applicable.

GUIDELINES FOR THE USE OF VIDEO/PHOTOGRAPHIC EQUIPMENT BY OPERATIONAL PERSONNEL AT DEMONSTRATIONS			
DATE ISSUED: 08/01/13	DATE EFFECTIVE: 08/01/13	REVISION NUMBER:	PAGE: 1 of 2

PURPOSE

To describe those limited circumstances when operational personnel may use video and/or photographic equipment at demonstrations and to establish procedures for the use of such equipment, when permitted.

SCOPE

Use of video and/or photographic equipment by operational personnel at demonstrations is appropriate only if a permissible operational objective exists. The following constitute permissible operational objectives:

- a. A bona fide need exists to prepare training materials on proper crowd control techniques; or
- b. When it reasonably appears that unlawful conduct is about to occur, is occurring or has occurred during the demonstration; or
- c. A bona fide need exists to continuously assess crowd conditions, through the use of live video transmissions, for the proper deployment of police resources.

PROCEDURE

When ranking personnel of this Department contemplate the use of video and/or photographic equipment at a demonstration for a permissible operational objective:

RANKING OFFICER

- 1. Submit a report, on **Typed Letterhead**, to the Deputy Commissioner, Legal Matters, through channels
- 2. Include in the request the following information:
 - a. Date, time and location of demonstration (if known)
 - b. Specific permissible operational objective to be achieved

DEPUTY COMMISSIONER, LEGAL MATTERS

- 3. Review request for use of video and/or photographic equipment to determine whether videorecording/photography is for a permissible purpose and should be approved.
- 4. If approved, forward copy of approved request to Chief of Department, Bureau or Borough Commander of Ranking Officer making request and Commanding Officer, Technical Assistance Response Unit.

NOTE

Every approved request for the use of video/photographic equipment will be entered into a serially numbered log, maintained solely for this purpose, at the Technical Assistance Response Unit.

COMMANDING OFFICER, TECHNICAL ASSISTANCE RESPONSE UNIT

- 5. Ensure that appropriate entries are made in log upon receipt of request.
- 6. Assign members of TARU to the demonstration to operate video/photographic equipment.

PATROL GUIDE

PROCEDURE NUMBER:	DATE EFFECTIVE:	REVISION NUMBER:	PAGE:
212-71	08/01/13		2 of 2

UPON COMPLETION OF VIDEORECORDING/PHOTOGRAPHING:

COMMANDING OFFICER, TECHNICAL ASSISTANCE RESPONSE UNIT 7. Ensure that all videorecordings/photographs prepared in connection with this procedure are maintained for a minimum of one year from the date the images were recorded.

DEPUTY COMMISSIONER, LEGAL MATTERS 8. Review recorded materials to determine whether they should continue to be preserved:

- a. If the materials contain evidence of unlawful activity, they will be considered evidence, and handled accordingly.
- b. If the materials are deemed valuable for civil litigation, training, or any other specific purpose, they will be similarly preserved in connection with that purpose.
- c. After three years, materials not meeting the criteria in (a) or (b) above shall be destroyed.

ADDITIONAL DATA *Videorecordings/photographs should be consistent with the permissible operational objective. For example, videorecordings/photographs taken for training purposes or to assess crowd conditions should generally not contain close-ups of participants in the demonstration, but should focus on crowd size, police tactics and/or behavior. When the permissible objective is to record unlawful activity and/or arrest activity, videorecording /photography should commence only when there is a reasonable belief that criminal or unlawful activity is about to occur or when spontaneous criminal or unlawful activity actually occurs or has occurred.*

Video and/or photographic equipment authorized to be used pursuant to this procedure may only be operated by TARU personnel. Personnel assigned to other commands, e.g., Borough Task Forces, the Disorder Control Unit, shall not utilize video or photographic equipment at demonstrations pursuant to this procedure.

With the exception of members of the service assigned to or working under the supervision of the Intelligence Division, all personnel who operate video and/or photographic equipment pursuant to this procedure must be clearly identifiable as police personnel. They must wear either a police uniform or a jacket that is clearly marked "POLICE." Displaying a shield on a chain is not sufficient identification.

All videorecordings and photographs pertaining to this procedure, except materials invoiced as evidence, or used in connection with the preparation of training materials, will be stored at TARU. All requests to obtain or view such videorecordings or photographs will be made in writing to the Deputy Commissioner, Legal Matters, detailing the reason for the request. Commanding Officer, TARU shall maintain a record of all such requests and whether any copies were provided.

HANDSCHU CONSENT DECREE; DECISION AND GUIDELINES

Pursuant to a recent court order granting the Department's request to modify those guidelines, the following "Modified Handschu Guidelines" (including the following "Guidelines for Investigations Involving Political Activity") hereby replace the old guidelines, and are now in effect.

3. GUIDELINES

I. GENERAL STATEMENT OF POLICY

B. Authority - A board established pursuant to Section III of these guidelines.

C. Investigation - A police activity undertaken to obtain information or evidence.

There is hereby established an Authority to conduct the review of records described in paragraph IV. - A. *At any time a person or member of a group or organization, having reason to believe that such person, group, or organization has been the subject of investigation of political activity which violates constitutionally guaranteed rights and privileges, may request in writing which sufficiently identifies the requesting party that the Authority make inquiry of the appropriate investigative officer of the NYPD. If the Authority's inquiry reflects that the investigation was conducted in conformity with the Constitution, the Authority shall notify the requesting party that if an investigation was made, it was made in accordance with the Constitution.*
- B. *If the inquiry reveals or if the Authority otherwise becomes aware that an investigation was not conducted in conformity with the Constitution with respect to the requesting party, the Authority shall proceed as follows:*
- (1) The Authority shall obtain all information and documents pertaining to the requesting party developed in the course of such investigation.*
 - (2) The Authority shall conduct or cause to be conducted an inquiry into the circumstances of such investigation with respect to the requesting party.*
 - (3) In the event the inquiry determines that such investigation with respect to the requesting party was not conducted in accordance with the Constitution, the Authority shall so notify the requesting party and submit a report to the Police Commissioner.*

4. DATE OF EFFECT

Effective immediately, no members of the service shall engage in an investigation of political activity except through the Intelligence Division. Requests for such investigations should be on Typed Letterhead addressed to the Commanding Officer, Intelligence Division. Where time is of the essence the request may be by telephone (646) 805-6400 to the Criminal Intelligence Section of the Intelligence Division. In all cases, members of the service concerned shall abide by the direction of the Intelligence Division. Such investigations shall be conducted pursuant to the "Guidelines for Investigations Involving Political Activity" set forth below.

5. INTERPRETATION

Any member of the service who is uncertain whether a particular investigation constitutes an "investigation involving political activity" shall consult with the Legal Bureau.

APPENDIX B GUIDELINES FOR INVESTIGATIONS INVOLVING POLITICAL ACTIVITY

PREAMBLE

Subsequent to the terrorist attacks on the City of New York on September 11, 2001 which resulted in the loss of thousands of lives and the total destruction of the World Trade Center complex, it became apparent that the City faces unprecedented threats to its continued safety and security. In the view of federal, state and local law enforcement agencies, the prevention of future attacks requires the development of intelligence and the investigation of potential terrorist activity before an unlawful act occurs.

As a result of a federal court order entered in 1985, the New York City Police Department was bound by guidelines, known as the Handschu Guidelines, which governed the investigation of political activity. The Handschu Guidelines (i) limited the investigation of political activity to those circumstances when there was specific information of criminal activity and (ii) established the Handschu Authority to oversee compliance.

After evaluating the impact of the Handschu Guidelines on the need to investigate terrorism in a changed world, the City made an application to modify the order so as to eliminate the restrictions contained in the Handschu Guidelines and the oversight of the Handschu Authority with respect to those restrictions. The City did not seek to eliminate the Handschu Authority's role to investigate an individual's complaint that the NYPD had engaged in unconstitutional conduct in the investigation of political activity.

The Court granted the City's application to modify the decree provided the City adopt the internal guidelines set forth below and distribute the guidelines to supervisory personnel who, in turn, were to make them known to those under their command. These guidelines shall remain in effect unless otherwise ordered by the Court.

These guidelines are binding on all members of the service who are engaged in the investigation of political activity. It is the purpose of these guidelines to enable officers to perform their duties with greater certainty, confidence and effectiveness while at the same time protecting the guarantees of the Constitution.

I. STATEMENT OF POLICY

It is the policy of the New York City Police Department that investigations involving political activity conform to the guarantees of the Constitution, that care be exercised in the conduct of those investigations so as to protect constitutional rights, and that matters investigated be confined to those supported by a legitimate law enforcement purpose.

II. GENERAL PRINCIPLES

(1) *In its effort to anticipate or prevent unlawful activity, including terrorist acts, the NYPD must, at times, initiate investigations in advance of unlawful conduct. It is important that such investigations not be based solely on activities protected by the First Amendment. When, however, statements advocate unlawful activity, or indicate an apparent intent to engage in unlawful conduct, particularly acts of violence, an investigation under these guidelines may be warranted, unless it is apparent, from the circumstances or the context in which the statements are made, that there is no prospect of harm.*

(2) *Based upon the circumstances of a given case, investigative action may be required under exigent circumstances. Exigent circumstances are circumstances requiring action before authorization otherwise necessary under these guidelines can reasonably be obtained, in order to protect life or substantial property interests; to apprehend or identify a fleeing offender; to prevent the hiding, destruction or alteration of evidence; or to avoid other serious impairment or hindrance of an investigation. When any investigative action, taken under exigent circumstances, would require an approval under ordinary conditions, such approval shall be obtained as soon as practicable in accordance with the provisions of these guidelines. Where a regular approval or request is required to be in writing, the approval or request following exigent circumstances shall also be in writing.*

(3) *Investigations shall be terminated when all logical leads have been exhausted and no legitimate law enforcement purpose justifies their continuance.*

III. APPLICABILITY

These guidelines apply only to investigations which involve political activity. They do not apply to, or limit, other activities of the NYPD in the investigation or detection of unlawful conduct, the preservation of the peace and public safety or other legitimate law enforcement activities which do not involve political activity.

IV. ROLE OF THE INTELLIGENCE DIVISION

(1) *Investigation of political activity shall be initiated by, and conducted under the supervision of the Intelligence Division. Nothing in this paragraph, however, is intended to prevent any member of the service from reporting his or her observations of suspicious conduct which involves political activity to his or her commanding officer or to the Intelligence Division.*

(2) *The Deputy Commissioner of Intelligence shall periodically inform and advise the Police Commissioner concerning the status of any investigations conducted pursuant to these guidelines.*

V. LEVELS OF INVESTIGATION

These guidelines provide for three levels of investigative activity. They are intended to provide the NYPD with the necessary flexibility to act well in advance of the commission of planned terrorist acts or other unlawful activity. However, if the

PATROL GUIDE

PROCEDURE NUMBER:	DATE EFFECTIVE:	REVISION NUMBER:	PAGE:
212-72	08/01/13		8 of 18

**ADDITIONAL
DATA
(continued)**

available information shows at the outset that the threshold standard for a Preliminary Inquiry or Full Investigation is satisfied, then the appropriate investigative activity may be initiated immediately, without progressing through more limited investigative stages.

A. CHECKING OF LEADS

The lowest level of investigative activity is the “prompt and extremely limited checking out of initial leads,” which should be undertaken whenever information is received of such a nature that some follow-up as to the possibility of unlawful activity is warranted. This limited activity should be conducted with an eye toward promptly determining whether further investigation (either a Preliminary Inquiry or a Full Investigation) should be conducted.

B. PRELIMINARY INQUIRIES

(1) In cases where the NYPD receives information or an allegation not warranting an investigation - because there is not yet a “reasonable indication” of unlawful activity - but whose responsible handling requires some further scrutiny beyond the prompt and extremely limited checking out of initial leads, the NYPD may initiate an “inquiry” in response to the allegation or information indicating the possibility of unlawful activity. Whether it is appropriate to open a Preliminary Inquiry immediately, or instead to engage first in a limited Checking of Leads, depends on the circumstances presented.

Example : If the NYPD receives an allegation that an individual or group has advocated the commission of violence, and no other facts are available, an appropriate first step would be Checking of Leads to determine whether the individual, group, or members of the audience have the apparent ability or intent to carry out the advocated unlawful act.

(2) The authority to conduct inquiries short of a Full Investigation allows the NYPD to respond in a measured way to ambiguous or incomplete information, with as little intrusion as the needs of the situation permit. This is especially important in such areas as where there is no complainant involved or when an allegation or information is received from a source of unknown reliability. Such inquiries are subject to the limitations on duration under paragraph (4) below and are carried out to obtain the information necessary to make an informed judgment as to whether a Full Investigation is warranted.

Example: Officers are not required to possess information relating to an individual’s intended unlawful use of dangerous biological agents or toxins prior to initiating investigative activity. If an individual or group has attempted to obtain such materials, or has indicated a desire to acquire them, and the reason is not apparent, investigative action, such as conducting a Checking of Leads or initiating a Preliminary Inquiry, may be appropriate to determine whether there is a legitimate purpose for the possession of the materials by the individual or group.

A Preliminary Inquiry is not a required step when facts or circumstances reasonably indicating unlawful activity are already available. In such cases, a Full Investigation can be immediately opened.

DATA
(continued)**

(3) *A Preliminary Inquiry may be authorized by the Commanding Officer or Executive Officer of the Intelligence Division, or the Commanding Officer of the Criminal Intelligence Section (“the Authorizing Officials”). The Authorizing Official must assure that the allegation or other information which warranted the inquiry has been recorded in writing. Upon such authorization a notification must be made for final approval by the Deputy Commissioner of Intelligence.*

(4) *Inquiries shall be completed within 180 days after initiation of the first investigative step. The date of the first investigative step is not necessarily the same date on which the first incoming information or allegation was received. An extension of time in an inquiry for succeeding 90 day periods may be granted by the Deputy Commissioner of Intelligence. Any such request for extension shall be in writing and shall include a statement of the reasons why further investigative steps are warranted when there is no reasonable indication of unlawful activity. The action taken on any such request for extension shall also be recorded in writing.*

(5) *All lawful investigative techniques, including the use of undercover operations and the development of sources and informants may be used in an inquiry except:*

- (a) *Mail openings; and,*
- (b) *Eavesdropping and Video Surveillance as those terms are defined in Article 700 of the New York State Criminal Procedure Law.*

(6) *The following investigative techniques may be used in a Preliminary Inquiry without any prior authorization from a supervisor:*

- (a) *Examination of NYPD indices and files;*
- (b) *Examination of records available to the public and other public sources of information;*
- (c) *Examination of available federal, state and local government records;*
- (d) *Interview of complainant, previously established informants, and other sources of information;*
- (e) *Interview of the potential subject;*
- (f) *Interview of persons who should readily be able to corroborate or deny the truth of the allegation, except this does not include pretext interviews or interviews of a potential subject’s employer or coworkers unless the interviewee was the complainant; and*
- (g) *Physical, photographic or video surveillance of any person, provided that such surveillance does not require a warrant.*

The use of any other lawful investigative technique that is permitted in a Preliminary Inquiry shall meet the requirements and limitations of Part VI and, except in exigent circumstances, requires prior approval by a supervisor.

(7) *Where a Preliminary Inquiry fails to disclose sufficient information to justify an investigation, the NYPD shall terminate the inquiry and make a record of the closing.*

(8) *All requirements regarding inquiries shall apply to reopened inquiries.*

C. FULL INVESTIGATION

A Full Investigation may be initiated when facts or circumstances reasonably indicate that an unlawful act has been, is being, or will be committed. A Full Investigation may be conducted to prevent, solve or prosecute such unlawful activity.

(1) *The standard of “reasonable indication” is substantially lower than probable cause. In determining whether there is reasonable indication of an unlawful act an investigator may take into account any facts or circumstances that a prudent investigator would consider. However, the standard does require specific facts or circumstances indicating a past, current, or future violation. There must be an objective, factual basis for initiating the investigation; a mere hunch is insufficient.*

(2) *Where an unlawful act may be committed in the future, preparation for that act can be a current violation of the conspiracy or attempt provisions of state law. The standard for opening an investigation is satisfied where there is not yet a current substantive or preparatory unlawful act, but facts or circumstances reasonably indicate that such unlawful conduct will occur in the future.*

(3) *Any lawful investigative technique may be used in a Full Investigation, subject to the requirements and limitations of Part VI hereof.*

(4) Authorization and Renewal

a. *A Full Investigation may be authorized by the Commanding Officer or Executive Officer of the Intelligence Division or the Commanding Officer of the Criminal Intelligence Section (“the Authorizing Officials”) upon a written recommendation setting forth the facts or circumstances reasonably indicating that an unlawful act has been, is being or will be committed. Upon such authorization a notification must be made for final approval by the Deputy Commissioner of Intelligence.*

b. *A Full Investigation may be initially authorized for a period of up to a year. An investigation may be continued upon renewed authorization for additional periods each not to exceed a year. Renewal authorization shall be obtained from the Deputy Commissioner of Intelligence. All requests for renewal authorization, and action thereon, shall be in writing.*

c. *Authorizations shall be reviewed by an Authorizing Official before the expiration of the period for which the investigation and each renewal thereof is authorized.*

(5) *An investigation which has been terminated may be reopened upon a showing of the same standard and pursuant to the same procedures as required for initiation of an investigation. All requirements regarding investigations shall apply to reopened investigations.*

D. TERRORISM ENTERPRISE INVESTIGATION

A Terrorism Enterprise Investigation is a Full Investigation but differs from a general investigation of unlawful conduct in several important respects. As a general rule, an investigation of a completed unlawful act is normally confined to determining who committed that act and securing evidence to establish the elements of the particular offense. It is, in this respect, self-defining. A Terrorism Enterprise Investigation must determine the identity and nature of the individual, group, or organization involved, its geographic dimensions, its past acts and intended goals, including unlawful goals, and its capacity for harm, among other factors. While a standard investigation of unlawful conduct terminates with the decision to prosecute or not to prosecute, a Terrorism Enterprise Investigation does not necessarily end, even though one or more of the participants may have been prosecuted.

In addition, groups and organizations provide a life and continuity of operation not normally found in other types of unlawful activity. As a consequence, these investigations may continue for several years. Furthermore, the focus of such investigations may be less precise than that directed against more conventional types of unlawful conduct. Unlike the usual case involving unlawful conduct, there may be no completed offense to provide a framework for the investigation. It often requires the fitting together of bits and pieces of information, many meaningless by themselves, to determine whether a pattern of unlawful activity exists. For this reason, such investigations are broader and less discriminate than usual, involving the interrelation of various sources and types of information.

This section focuses on investigations of enterprises that seek to further political or social goals through activities that involve force or violence, or that otherwise aim to engage in terrorism or terrorism-related crimes. It authorizes investigations to determine the structure and scope of the enterprise as well as the relationship of the members.

1. General Authority

a. A Terrorism Enterprise Investigation may be initiated when facts or circumstances reasonably indicate that two or more persons are engaged in an enterprise for the purpose of (i) furthering political or social goals wholly or in part through activities that involve force, violence or other unlawful acts; (ii) engaging in terrorism as defined in N.Y. Penal Law § 490.05, or (iii) committing any offense described in N.Y. Penal Law §§ 490.10, 490.15, 490.20, 490.25, 490.30, or 490.35, or other related statutes currently in effect or subsequently enacted. The standard of “reasonable indication” is identical to that governing Full Investigations generally. In determining whether an investigation should be conducted, the NYPD shall consider all of the circumstances including: (i) the magnitude of the threatened harm; (ii) the likelihood that it will occur; (iii) the immediacy of the threat; and (iv) any danger to privacy or free expression posed by an investigation. In practical terms, the “reasonable indication” standard for opening a Terrorism Enterprise Investigation could be satisfied in a number of ways.

Example: Direct information about statements made in furtherance of an enterprise’s objectives which show a purpose of committing crimes described in N.Y. Penal Law §§ 490.10, 490.15, 490.20, 490.25, 490.30, 490.35 or other related statutes currently in effect or subsequently enacted, would satisfy the threshold.

PATROL GUIDE

PROCEDURE NUMBER:	DATE EFFECTIVE:	REVISION NUMBER:	PAGE:
212-72	08/01/13		12 of 18

**ADDITIONAL
DATA
(continued)**

Example: Activities such as attempting to obtain dangerous biological agents, toxic chemicals, or nuclear materials, or stockpiling explosives or weapons, with no discernible lawful purpose, may be sufficient to reasonably indicate that an enterprise aims to engage in terrorism.

b. While no particular factor or combination of factors is required, considerations that will generally be relevant to the determination whether the threshold standard for a Terrorism Enterprise Investigation is satisfied include, as noted, a group's statements, its activities, and the nature of potential unlawful acts suggested by the statements or activities. Thus, where there are grounds for inquiry concerning a group, it may be helpful to gather information about these matters, and then to consider whether these factors, either individually or in combination, reasonably indicate that the group is pursuing terrorist activities or objectives as defined in the threshold standard. Findings that would weigh in favor of such a conclusion include, for example, the following:

(1) Threats or advocacy of violence or other covered unlawful acts. Statements are made in relation to or in furtherance of an enterprise's political or social objectives that threaten or advocate the use of force or violence, or statements are made in furtherance of an enterprise that otherwise threaten or advocate unlawful conduct within the scope of N.Y. Penal Law §§ 490.10, 490.15, 490.20, 490.25, 490.30, 490.35, or other related statutes currently in effect or subsequently enacted which may concern such matters as (e.g.):

- (i) engaging in attacks involving or threatening massive loss of life or injury, mass destruction, or endangerment of the national security;
- (ii) killing or injuring public officials, or destroying public facilities, or defying lawful authority;
- (iii) killing, injuring or intimidating individuals because of their status as United States nationals or persons, or because of their national origin, race, color, religion or sex; or
- (iv) depriving individuals of any rights secured by the Constitution or laws of the United States or the State of New York.

(2) Apparent ability or intent to carry out violence or other covered activities. The enterprise manifests an apparent ability or intent to carry out violence or other activities within the scope of N.Y. Penal Law §§ 490.10, 490.15, 490.20, 490.25, 490.30, 490.35 or other related statutes currently in effect or subsequently enacted, e.g.:

- (i) by acquiring or taking steps towards acquiring, biological agents or toxins, toxic chemicals or their precursors, radiological or nuclear materials, explosives or other destructive or dangerous material (or plans or formulas for such materials), or weapons, under circumstances where, by reason of the quantity or character of the items, the lawful purpose of the acquisition is not apparent;
- (ii) by the creation, maintenance, or support of an armed paramilitary organization;
- (iii) by paramilitary training; or

**ADDITIONAL
DATA
(continued)**

(iv) *by other conduct demonstrating an apparent ability or intent to injure or intimidate individuals, or to interfere with the exercise of their constitutional or statutory rights.*

(3) Potential Unlawful Act. *The group's statements or activities suggest potential unlawful acts that may be relevant in applying the standard for initiating a Terrorism Enterprise Investigation - such as crimes under the provisions of the N.Y. Penal Law that set forth specially defined terrorism or support of terrorism offenses, or that relate to such matters as aircraft hijacking or destruction, attacks on transportation, communications, or energy facilities or systems, biological or chemical weapons, nuclear or radiological materials, assassinations or other violence against public officials or facilities, or explosives.*

c. *Mere speculation that force or violence might occur during the course of an otherwise peaceable demonstration is not sufficient grounds for initiation of an investigation under this Subpart. But where facts or circumstances reasonably indicate that an individual or group has engaged or aims to engage in conduct described in paragraph 1.a. above in a demonstration, an investigation may be initiated in conformity with the standards of that paragraph. This does not limit the collection of information about public demonstrations by individuals or groups that are under active investigation pursuant to paragraph 1.a. above or any other provisions of these guidelines.*

2. Purpose

The immediate purpose of a Terrorism Enterprise Investigation is to obtain information concerning the nature and structure of the enterprise as specifically delineated in paragraph (3) below, with a view to the longer range objectives of detection, prevention, and prosecution of the unlawful activities of the enterprise.

3. Scope

a. *A Terrorism Enterprise Investigation initiated under these guidelines may collect such information as:*

- (i) *the identity and nature of an individual or group and its members, their associates, and other persons likely to be acting in furtherance of its unlawful objectives, provided that the information concerns such persons' activities on behalf of or in furtherance of the suspected unlawful activity of the individual, group, or organization;*
- (ii) *the finances of the individual, group, or organization;*
- (iii) *the geographical dimensions of the individual, group, or organization; and*
- (iv) *past and future activities and goals of the individual, group, or organization.*

b. *In obtaining the foregoing information, any lawful investigative technique may be used in accordance with the requirements of these guidelines.*

4. Authorization and Renewal

a. A Terrorism Enterprise Investigation may be authorized by the Commanding Officer or Executive Officer of the Intelligence Division or the Commanding Officer of the Criminal Intelligence Section (“the Authorizing Officials”), upon a written recommendation setting forth the facts or circumstances reasonably indicating the existence of an enterprise as described in paragraph 1.a. above. Upon such authorization a notification must be made for final approval by the Deputy Commissioner of Intelligence. When exigent circumstances exist, as described in these guidelines, a Terrorism Enterprise Investigation may be commenced upon the verbal authorization of an Authorizing Official. However, in such cases, the required written recommendation must be submitted as soon as practicable.

b. A Terrorism Enterprise Investigation may be initially authorized for a period of up to a year. An investigation may be continued upon renewed authorization for additional periods each not to exceed a year. Renewal authorization shall be obtained from the Deputy Commissioner of Intelligence. The request for renewal and action thereon shall be in writing.

c. Authorizations shall be reviewed by an Authorizing Official before the expiration of the period for which the investigation and each renewal thereof is authorized. In some cases, the enterprise may meet the threshold standard but be temporarily inactive in the sense that it has not engaged in recent acts of violence or other unlawful activities as described in 1.a., nor is there any immediate threat of harm - yet the composition, goals and prior history of the group suggest the need for continuing law enforcement interest. The investigation may be continued in such cases with whatever scope is warranted in light of these considerations.

d. An investigation which has been terminated may be reopened upon a showing of the same standard and pursuant to the same procedures as required for initiation of an investigation.

VI. INVESTIGATIVE TECHNIQUES

(1) When conducting investigations under these guidelines, the NYPD may use any lawful investigative technique permitted by these guidelines. The choice of investigative techniques is a matter of judgment, which should take account of:

- (i) the objectives of the investigation and available investigative resources;
- (ii) the intrusiveness of a technique, considering such factors as the effect on the privacy of individuals and potential damage to reputation;
- (iii) the seriousness of the unlawful act; and
- (iv) the strength of the information indicating its existence or future commission of the unlawful act.

(2) Where the conduct of an investigation presents a choice between the use of more or less intrusive methods, the NYPD should consider whether the information could be obtained in a timely and effective way by the less intrusive means. The NYPD should not hesitate to use any lawful techniques consistent with these guidelines in an investigation, even if intrusive, where the intrusiveness is warranted in light of the

DATA
(continued)**

seriousness of the crime or the strength of the information indicating its existence or future commission. This point is to be particularly observed in investigations relating to terrorist activities.

(3) *Authorized methods in investigations include, among others, use of confidential informants, undercover activities and operations, eavesdropping and video surveillance (as defined in Article 700 of the NY Criminal Procedure Law), pen registers and trap and trace devices, consensual electronic monitoring, and searches and seizures.*

a. *Undercover Operations*

(i) *Undercover operations, including confidential informants, may be used when such operations are the most effective means of obtaining information, taking into account all the circumstances of the investigation, including the need for the information and the seriousness of the threat. The use of undercovers and confidential informants must be authorized by the Deputy Commissioner of the Intelligence Division prior to commencement of the undercover operation. The request to use undercovers or confidential informants and action taken on the request must be in writing and must include a description of the facts on which the investigation is based and the role of the undercover.*

(ii) *The use of an undercover or confidential informant will be approved for a period of 120 days and may be extended for additional periods of 120 days with the approval of the Deputy Commissioner of the Intelligence Division. Such extensions may be approved for as long as the investigation continues and the use of the undercover is the most effective means of obtaining information. The request to extend the use of undercovers and action taken on the request must be in writing and must include the reason for the extension.*

(iii) *Undercovers are strictly prohibited from engaging in any conduct the sole purpose of which is to disrupt the lawful exercise of political activity, from instigating unlawful acts or engaging in unlawful or unauthorized investigative activities.*

b. *Eavesdropping and Video Surveillance (as defined in Article 700 of the NY Criminal Procedure Law), Pen Registers and Trap and Trace Devices, and Consensual Electronic Monitoring*

(i) *All requirements for the use of such methods under the Constitution, applicable statutes, and NYPD regulations or policies must be observed.*

(4) *Whenever an individual is known to be represented by counsel in a particular matter, the NYPD shall follow applicable law and Department procedure concerning contact with represented individuals in the absence of prior notice to their counsel.*

VII. DISSEMINATION AND MAINTENANCE OF INFORMATION

A. Dissemination

The NYPD may disseminate information obtained during the Checking of Leads, Preliminary Inquiries and investigations conducted pursuant to these guidelines to federal, state or local law enforcement agencies, or local criminal justice agencies when such information:

- (i) falls within the investigative or protective jurisdiction or litigative responsibility of the agency;*
- (ii) may assist in preventing an unlawful act or the use of violence or any other conduct dangerous to human life;*
- (iii) is required to be disseminated by interagency agreement, statute, or other law.*

B. Maintenance

All documentation required under these Guidelines shall be maintained by the Intelligence Division in accordance with general police department practice and applicable municipal record retention and destruction rules, regulations and procedures. Under these rules and practices documents are retained for no less than five years.

VIII. COUNTERTERRORISM ACTIVITIES AND OTHER AUTHORIZATIONS

In order to carry out its mission of preventing the commission of terrorist acts in or affecting the City of New York and the United States and its people, the NYPD must proactively draw on available sources of information to identify terrorist threats and activities. It cannot be content to wait for leads to come in through the actions of others, but rather must be vigilant in detecting terrorist activities to the full extent permitted by law, with an eye towards early intervention and prevention of acts of terrorism before they occur. This Part accordingly identifies a number of authorized activities which further this end, and which can be carried out even in the absence of a checking of leads, Preliminary Inquiry, or Full Investigation as described in these guidelines. The authorizations include both activities that are specifically focused on terrorism and activities that are useful for law enforcement purposes in both terrorism and non-terrorism contexts. The authorized law enforcement activities of the NYPD include carrying out and retaining information resulting from the following activities.

A. COUNTERTERRORISM ACTIVITIES

1. Information Systems

The NYPD is authorized to operate and participate in identification, tracking, and information systems for the purpose of identifying and locating potential terrorists and supporters of terrorist activity, assessing and responding to terrorist risks and threats, or otherwise detecting, prosecuting, or preventing terrorist activities. Systems within the scope of this paragraph may draw on and retain pertinent information from any source permitted by law, including information derived from past or ongoing

investigative activities; other information collected or provided by governmental entities, such as foreign intelligence information and lookout list information; publicly available information, whether obtained directly or through services or resources (whether nonprofit or commercial) that compile or analyze such information; and information voluntarily provided by private entities. Any such system operated by the NYPD shall be reviewed periodically for compliance with all applicable statutory provisions and Department regulations and policies.

2. Visiting Public Places and Events

For the purpose of detecting or preventing terrorist activities, the NYPD is authorized to visit any place and attend any event that is open to the public, on the same terms and conditions as members of the public generally. No information obtained from such visits shall be retained unless it relates to potential unlawful or terrorist activity.

B. OTHER AUTHORIZATIONS

1. General Topical Research

The NYPD is authorized to carry out general topical research, including conducting online searches and accessing online sites and forums as part of such research on the same terms and conditions as members of the public generally. "General topical research" under this paragraph means research concerning subject areas that are relevant for the purpose of facilitating or supporting the discharge of investigative responsibilities. It does not include online searches for information by individuals' names or other individual identifiers, except where such searches are incidental to topical research, such as searching to locate writings on a topic by searching under the names of authors who write on the topic, or searching by the name of a party to a case in conducting legal research.

2. Use of Online Resources Generally

For the purpose of developing intelligence information to detect or prevent terrorism or other unlawful activities, the NYPD is authorized to conduct online search activity and to access online sites and forums on the same terms and conditions as members of the public generally.

3. Reports and Assessments

The NYPD is authorized to prepare general reports and assessments concerning terrorism or other unlawful activities for purposes of strategic or operational planning or in support of other legitimate law enforcement activities.

IX. PROTECTION OF PRIVACY AND OTHER LIMITATIONS

A. General Limitations

The law enforcement activities authorized by this Part do not include maintaining files on individuals solely for the purpose of monitoring activities protected by the First Amendment or the lawful exercise of any other rights secured by the Constitution or laws of the United States. Rather, all such law enforcement activities

must have a valid law enforcement purpose and must be carried out in conformity with all applicable statutes and Department regulations and policies.

B. Construction of Part

This Part does not limit any activities authorized by or carried out under other Parts of these guidelines. The specification of authorized law enforcement activities under this Part is not exhaustive, and does not limit other authorized law enforcement activities of the NYPD.

X. RESERVATION

Nothing in these guidelines shall limit the general reviews or audits of papers, files, contracts, or other records in the possession of the NYPD or City of New York, or the performance of similar services at the specific request of another government agency. Such reviews, audits, or similar services must be for the purpose of detecting or preventing violations of law which are within the investigative responsibility of the NYPD.

Nothing in these guidelines is intended to limit the NYPD's responsibilities to investigate certain applicants and employees, or to pursue efforts to satisfy any other of its legal rights, privileges, or obligations.

These guidelines are set forth solely for the purpose of internal NYPD guidance. They are not intended to, do not, and may not be relied upon to create any rights, substantive or procedural, enforceable at law by any party in any matter, civil or criminal, nor do they place any limitation on otherwise lawful investigative and litigative prerogatives of the NYPD or City of New York.

This notice shall also state that the failure to remove such bicycle within the designated time period will result in the removal and disposal of the derelict bicycle by the DSNY. Once the derelict bicycle has been removed, DSNY will notify the precinct concerned of the removal.

DSNY is not authorized to remove for disposal from public property any "ghost bike" (i.e., a bicycle that has been placed on public property and apparently intended as a memorial for someone who is deceased) or bicycles that do not meet the derelict bicycle criteria (i.e., a bicycle that appears to be crushed or not usable, is missing parts, other than the seat and front wheel, has flat or missing tires, handlebars or pedals are damaged, or the existing forks, frames or rims are bent; or seventy-five percent or more of the bicycle, which includes the handlebars, pedals and frames are rusted, along with any chain affixing such bicycle to public property, etc.). Section: Command Operations		Procedure No: 212-74	
COMMUNITY NOTIFICATION PROTOCOL			
DATE ISSUED: 08/01/13	DATE EFFECTIVE: 08/01/13	REVISION NUMBER:	PAGE: 1 of 2

PURPOSE

To inform community leaders and organizations in the event of an incident of an unusual, newsworthy, or sensitive nature that has the potential for community concern and/or unrest.

SCOPE

Precinct/police service area/district commanding officers are responsible for keeping community organizations and leaders informed of local conditions and occurrences. The commanding officer or designee will be required to notify community leaders of an event as described above, and the police reaction to the event. Said community leaders should include, but not be limited to, local elected officials, community board chairpersons, district managers, precinct community council board members, civic leaders, members of the clergy, superintendents and principals of local schools or school districts, local business leaders or merchant groups, tenant groups, block association leaders, City or State agencies headquartered within the precinct boundaries, etc. The primary responsibility for notifying the community leaders rests with the precinct/police service area/district commanding officer concerned. Although certain incidents may require the involvement of the borough/bureau command, this will not relieve the precinct/police service area/district commander from keeping local community leaders informed.

PROCEDURE

To create a list of community leaders to be notified in the event of an incident of an unusual, newsworthy, or sensitive nature that has the potential for community concern and/or unrest and to perform said notifications, if necessary.

COMMANDING OFFICER

1. Direct the preparation of a roster of community leaders and organizations to be notified in conjunction with this procedure.
 - a. Roster should include the following captions:
 - (1) Name
 - (2) Organization
 - (3) Contact person (if other than “[1]” above)
 - (4) Telephone number (office/home)
 - (5) Pager/beeper/cell phone number
 - (6) Address

NOTE

Copies of the community notification roster should be maintained at the desk, the community affairs office, and the community policing unit office for immediate access. In addition, the commanding officer must have a copy at all times. Copies of the rosters should be forwarded to the borough concerned, and the Operations Unit, as well as to the Office of the Chief, Community Affairs, through channels.

IN THE EVENT THAT COMMUNITY NOTIFICATIONS ARE REQUIRED

MEMBER OF THE SERVICE

2. Notify community leaders/organizations concerned of event and pertinent background information, as directed by the commanding officer/duty captain.

PATROL GUIDE

PROCEDURE NUMBER:	DATE EFFECTIVE:	REVISION NUMBER:	PAGE:
212-74	08/01/13		2 of 2

NOTE

Not all community leaders or organizations need to be notified in all situations. The nature of the event will dictate who is to be notified. In addition, commanding officers concerned will determine the method of notification, e.g., telephone call, page, fax, face-to-face notification, etc., as well as which member of the service will make the notifications. Information that is considered to be confidential will not be divulged.

MEMBER OF THE SERVICE

3. Document time of notification on the community notification roster.
 - a. Utilize the roster prepared as per step 1, above, to document notifications. In addition, note the time notified and the member of the service making the notification on the roster concerned.

ADDITIONAL DATA

Command and borough executives should share information regarding the operation of the precinct/police service area/district. The assignment of new commanding officers, supervisors, and police officers should be publicized to local community leaders.

Commanding officers should encourage community leaders and organizations to share information, such as unscheduled events and demonstrations that are unusual, newsworthy or sensitive in nature, that have the potential for community concern/unrest, and incidents which have occurred in the past without prior knowledge of the local command.

The use of e-mail newsletters, discussion lists, and the Department's web site is encouraged. Their use should also be explored for the dissemination of information and non-emergency notifications to community members. THIS SHOULD NOT TAKE THE PLACE OF PERSONAL CONTACT IN MORE SERIOUS MATTERS.

Commanding officers will ensure that information contained on the community notification roster is updated as needed and updated information is forwarded to the borough concerned, the Operations Unit and the Office of the Chief, Community Affairs.

It is important to maintain regular contact with community leaders regardless of the occurrence of a major event. In the absence of major events, opportunities should be created to interact with community leaders. Non-Department related incidents or minor police incidents can present excellent opportunities to create such interactions and maintain a dialogue with the community.

ADDITIONAL DATA

NOTIFICATIONS TO THE INTELLIGENCE BUREAU, PUBLIC SECURITY SECTION

The notification to the Intelligence Bureau, Public Security Section shall apply to all units obtaining search warrants (Patrol Services, Detective Bureau, O.C.C.B., Joint Task Forces, etc.). However, should a specific legal concern arise with respect to entering search warrant information into the database, the member concerned shall confer with the Legal Bureau prior to contacting the Intelligence Bureau, Public Security Section. In the event the advice is provided by the Legal Bureau not to make data entry, such consultation shall be noted in the case file along with the specific basis for the advice, e.g., Grand Jury action. Additionally, in situations where a search warrant is based on extremely sensitive information, e.g. counter terrorism, internal investigations, etc., in order to exclude the search warrant from inclusion in the database, the member of the service must receive written permission from the Bureau Chief/Deputy Commissioner concerned. This documentation will be included in the case file.

In instances where a member of this Department, assigned to specialized units including but not limited to a Joint Task Force or a District Attorney’s Office Squad, may participate in the execution of a search warrant but not be an affiant to a search warrant application affidavit, such member is required to follow the contents of this procedure. If a member of this Department, assigned to a Joint Task Force, etc., is directed by a supervisor from another agency not to make the notifications required by this directive, such member shall immediately notify the Bureau Chief/Deputy Commissioner concerned.

ROUTINE INQUIRIES:

Many requests, particularly those coming to Patrol Services Bureau commands, are of a routine nature. Local commanders are expected to respond to such requests as directed by this procedure, ensuring that responses are accurate and in accord with Department policy.

UNUSUAL OR TIME CONSUMING REQUESTS:

Some requests involve surveys or samples and may be time consuming; others may be related to business of the entire Department or involve broad policy questions. Local commanders should not ordinarily undertake data gathering research to answer a request from outside the Department when it will impair their ability to perform their primary function. Office of Management Analysis and Planning will confer with Deputy Commissioner - Public Information on matters regarding Department policy on release of information.

Where additional guidance is deemed necessary to classify a particular request as routine or unusual, a commanding officer may contact the Office of Management Analysis and Planning.

A member of the service, active or retired, may obtain information relative to his/her medical record upon written request to the Commanding Officer, Medical Division. No fee will be charged for such information. A person or organization outside the Department may obtain such information, for a fee of \$5.00, if the request is made in writing and is accompanied by a notarized authorization from the member concerned or in the event of his death, from the next of kin or representative of his estate. Requests for such information from other governmental agencies do not require notarized authorization or fee. Requests for payroll records will be directed to Director, Payroll Section for processing in a similar manner.

When advised that an audit of records, procedures or operations of a command is to be conducted by any city, state or federal agency, the desk officer/supervisory head concerned will notify the Office of Management Analysis and Planning, furnishing the time, date, subject of the audit, the identity of personnel who will conduct the audit and the agency to which assigned. Auditors must possess identification cards issued by the auditing agency and/or a letter of introduction from the Commanding Officer, Office of Management Analysis and Planning. All members of the service will cooperate with properly identified auditors; questions concerning identity of auditing personnel will be directed to the Office of Management Analysis and Planning; those concerning confidentiality of records/information requested will be directed to the Legal Bureau.

CONFIDENTIALITY OF THE VICTIM OF A SEX CRIME

The Civil Rights Law, Section 50-B, was amended in 1991 to protect the identity of the victim of a sex crime. The law provides that the identity of a victim of a sex crime be provided to a defendant charged with the crime and their counsel or guardian. It also permits disclosure to public officers and employees investigating, prosecuting and keeping records relating to the offense. A new Section 50-C was also added to the law which allows victims of a sex offense to bring private action to recover for any damage suffered by the disclosure of their identities. Therefore, those members of the service (uniformed and civilian) assigned to units (Public Information Division, Identification Section, Communications Division, etc.) which may, at times, be called upon to provide information from Department records, files, tapes, etc., must ensure that the identity of a victim of a sex offense is not divulged when this information is released.

IDENTITY OF PERSONS WITH COMMUNICABLE DISEASE

It is the responsibility of this Department to protect the civil rights of persons we come in contact with. This includes prisoners, crime victims, aided cases, etc. In keeping with this obligation, any information regarding a person's status in connection with any communicable disease (HIV, AIDS, Tuberculosis, Hepatitis B, etc.) is to be treated as confidential.

Accordingly, members of the service should be made aware of the following guidelines:

Information concerning a prisoner's or a victim's affliction with a communicable disease must be kept confidential. This information generally should not be released to the public, the media, the person's family and friends or to other prisoners. There may be unusual circumstances under which release of this information is warranted. Any such release, however, may only be made with the written consent of the Deputy Commissioner - Legal Matters.

*In some cases, prisoners may volunteer their positive medical status regarding a communicable disease indicating the need to be segregated from general prisoner population or the need for medical treatment. In such cases, isolation cells should be used, if available. This information may be recorded on a Prisoner Movement Slip or on form **MEDICAL TREATMENT OF PRISONER (PD244-150)** in order to alert personnel assigned to Corrections, District Attorney's offices or courts.*

Members of the service who are exposed to a communicable disease should follow the provisions of P.G. 205-10, "Exposure Of Members Of The Service To Infectious Diseases".

GUIDELINES FOR INTERACTION WITH LIMITED ENGLISH PROFICIENT (LEP) PERSONS			
DATE ISSUED: 10/16/13	DATE EFFECTIVE: 10/16/13	REVISION NUMBER:	PAGE: 1 of 6

PURPOSE

To provide interpretation/translation services for members of the service in the field and at Department facilities.

SCOPE

Accurate interpretation/translation of foreign languages is important to providing police services. In furtherance of this, the Department provides two enhanced communication capabilities entitled, “Telephonic Interpretation Service” and “Language Initiative Program” for members of the service to accurately communicate with the diverse non-English speaking communities of New York City and to assist members in criminal investigations and intelligence gathering. This procedure is limited to the use of foreign language interpretation/translation services. When a member of the service has cause to interact with an individual who is hearing impaired, the provisions of *P.G. 212-104, “Interaction with Hearing Impaired Persons,”* should be followed.

DEFINITIONS

BILINGUAL MEMBER OF THE SERVICE – An employee who is able to communicate effectively in a foreign language, or American Sign Language, in addition to English.

CERTIFIED DEPARTMENT INTERPRETER – A member of the service who has been tested and certified as being proficient in a foreign language, or American Sign Language, through the Language Initiative Program.

INTERPRETATION – The act of listening to something in one language and orally translating it into another language.

LIMITED ENGLISH PROFICIENT (LEP) – Refers to those individuals whose primary language is not English and who are unable to effectively read, write, speak or understand English.

TELEPHONIC INTERPRETATION SERVICE – A certified interpreter can be accessed twenty-four hours a day/seven days a week via the telephonic interpretation service equipped Department cellular telephone (available through the patrol supervisor) or the dual handset telephone located in every precinct complaint room, detective squad, police service area (PSA) and transit district complaint room.

LANGUAGE INITIATIVE PROGRAM – A corps of interpreters who can be called upon to interpret or translate in particularly complex cases and/or incidents involving uncommon foreign languages for investigative or other police purposes. Interpreters from the Language Initiative Program may be requested by contacting the Operations Unit. The program is composed of two groups: employees who identify themselves during the hiring process as being able to speak, read and/or write a foreign language and a smaller group of employees who are tested and certified as proficient in a foreign language.

PATROL GUIDE

PROCEDURE NUMBER:	DATE EFFECTIVE:	REVISION NUMBER:	PAGE:
212-90	10/16/13		2 of 6

DEFINITIONS (continued) TRANSLATION - The replacement of a written text from one language into an equivalent written text in another language

PROCEDURE When a member of the service encounters a Limited English Proficient (LEP) person(s) and the services of an interpreter are necessary:

- MEMBER OF THE SERVICE**
1. Determine the primary language of the LEP person(s):
 - a. Present the poster entitled “**FREE INTERPRETATION SIGN (SP 487)**”, the **ACTIVITY LOG (PD112-145)** insert entitled “**PRIMARY LANGUAGE IDENTIFIER (PD312-091)**”, or the card entitled “**PRIMARY LANGUAGE IDENTIFIER – DETECTIVE BUREAU (PD312-091A)**”, as appropriate, to the LEP person(s) and encourage him/her to indicate the language needed.
 - b. Determine the LEP person(s) country of origin, if necessary, and request the Operations Unit research the language spoken in that country.
 2. Ascertain if a bilingual member of the service is readily available (on scene, on duty within command/adjoining command, at stationhouse etc.) to interpret and whether his/her use is appropriate.

NOTE *The Department encourages members of the service who are not certified, but nonetheless possess language skills, to use their ability to speak a foreign language during the course of their work. The use of bilingual members as interpreters allows the Department to provide the public with a more timely and personalized response while simultaneously reducing inconvenience to LEP person(s).*

A non-certified member of the service may interpret if he or she reasonably believes that his or her level of language proficiency is sufficient to accurately interpret given the totality of the circumstances surrounding the LEP person’s interaction with the police. If at any time during the interpretation the member determines that his/her level of language proficiency is insufficient to complete the interpretation, the telephonic interpretation service should be used or a certified interpreter should be requested via the Operations Unit.

3. Ascertain if a bilingual member of the public is readily available, willing to interpret, and whether his/her use is appropriate, if a bilingual member of the service is not readily available.

NOTE *There are many exigent circumstances and emergency situations, including determining if a crime has occurred, rendering/obtaining medical treatment, and apprehending perpetrators of crimes, when the Department may need to utilize bilingual members of the public to assist in providing immediate services to LEP person(s). In addition, it may also be appropriate to use a bilingual member of the public to interpret during a non-emergency encounter if the use of such an interpreter will expedite the delivery of police services without adversely impacting the quality of the services provided. When dealing with an LEP person and a bilingual member of the public is readily available and willing to provide interpretation services, the member of the service must consider three factors to determine if the use of the non-employee interpreter is helpful:*

PATROL GUIDE

PROCEDURE NUMBER:	DATE EFFECTIVE:	REVISION NUMBER:	PAGE:
212-90	10/16/13		3 of 6

NOTE
(continued)

- a. *The nature and importance of the police services being provided*
- b. *The apparent capacity of the interpreter*
- c. *The apparent impartiality of the interpreter.*

During domestic violence situations, members of the service should avoid using family members to interpret because of potential partiality due to fear of arrest of a family member or other personal biases. Family members may be temporarily used for interpretation in domestic incidents in life-threatening situations when there is no other feasible alternative. Interviewees may be more likely to respond if an impartial party interprets. Once the situation is stabilized, a bilingual member of the service or the telephonic interpretation service should be used to verify the details of the domestic incident. The alleged offender in any type of incident, including domestic violence, should not be used as an interpreter. Using an alleged offender to interpret may increase the risk of purposeful misinterpretation and gives him or her control of the situation. As with all interviews, to the extent possible, the victim and offender should be interviewed separately and in a private setting. Victims may be reluctant to reveal details of an incident if the victim believes the offender may overhear the statement.

As possible victims or witnesses to an incident, a child should be interviewed; however, whenever feasible, a child should not be used as an interpreter for any kind of police incident, including domestic violence. Some words and concepts are difficult for a child to understand and translate into another language. Interviewees are not likely to be forthcoming if a child is used to interpret and will be especially hesitant to reveal details of a sexual assault to a police officer through a child.

**MEMBER OF
THE SERVICE**
(continued)

4. Determine if the telephonic interpretation service or Language Initiative Program should be utilized if neither a bilingual member of the service nor a bilingual member of the public is available for interpretation or their use would be inappropriate.

IF THE TELEPHONIC INTERPRETATION SERVICE IS REQUIRED IN THE FIELD:

**MEMBER OF
THE SERVICE**

5. Request patrol supervisor to respond to the scene with the telephonic interpretation service equipped cell phone.

**PATROL
SUPERVISOR**

6. Respond to scene, if available, and utilize the telephonic interpretation service equipped cell phone to aid in interpretation.

NOTE

*In many cases, other than for ongoing investigations and document translation, an efficient method of obtaining interpretation services is through the use of the telephonic interpretation service. Therefore, the patrol supervisor **MUST** have the Department issued cellular telephone easily accessible at all times while on patrol.*

The use of a speaker-phone feature, if available, can enhance the effectiveness of telephonic interpretation and eliminate the need for the LEP individual to handle the telephone. Members of the service are cautioned that utilizing the speaker-phone feature allows other parties in close proximity to hear the conversation. Members of the service should be aware of their surroundings and of who is able to overhear the conversation. Members should also be aware that these calls are not recorded. Telephonic interpreters, if subpoenaed, are available for court testimony.

13. Instruct member of the service selected to call the on-scene supervisor to ensure linguistic ability is adequate for the situation at hand.
14. Notify the Intelligence Bureau, Criminal Intelligence Section of all inquiries made into the Language Initiative Database.

NOTE *Operations personnel should seek to rely on the foreign language skills of those personnel who are certified as being proficient in the foreign language requested.*

Preference shall be given to the use of on-duty members. If no certified Department interpreter is available within the precinct, a certified Department interpreter who is available within the borough should be sought.

In routine or non-emergency situations, the duty captain or commanding officer of the requesting supervisor will review and authorize any request which will result in overtime or recall of an off-duty member of service. In emergency circumstances, overtime or recall of an off-duty member of service will be authorized by the Operations Unit supervisor.

- 18. Submit a brief report, in triplicate, on **Typed Letterhead** to Chief of Personnel, and include the following:
 - a. Identify member of the program utilized
 - b. Describe translation/interpretation duties performed
 - c. Indicate actual time spent on such duties
 - d. Specify any noteworthy performance or initiative, and whether member demonstrated any other special aptitude or ability.

NOTE

A notification to the Operations Unit is required when certified Department interpreters are utilized by their own commands (“in-house” translations) to interpret or translate in the course of police duties.

IN ALL CASES WHEN AN INTERPRETER IS USED:

**MEMBER OF
THE SERVICE**

- 19. Record the identity of an interpreter (bilingual member of the service, bilingual member of the public, telephonic interpretation service, or a certified Department interpreter) utilized during a police incident in **ACTIVITY LOG (PD112-145)**. In addition, indicate the identity of the interpreter on any relevant Department record prepared (**COMPLAINT REPORT WORKSHEET [PD313-152A]**, **ON LINE BOOKING SYSTEM ARREST WORKSHEET [PD244-159]**, **New York State Domestic Incident Report [DIR] [DCJS 3221-02/2010]**, etc.) under the appropriate captions or in the details/narrative section, as appropriate.

**ADDITIONAL
DATA**

When determining whether or not the person is LEP as defined in this procedure, the member of the service must consider both the nature and importance of the police services being provided in addition to the person’s apparent capacity to comprehend and communicate in English. A person who is considered LEP in one situation may not necessarily be considered LEP in a different situation. For example, a person with a limited ability to understand English may be able to interact effectively with the police at the scene of a motor vehicle collision, but not be able to interact effectively with the police during a homicide investigation, due to the complex characteristics and intricacies of such an incident. If doubt exists regarding whether a person is LEP, or if the person requests an interpreter, the person should be considered LEP and this procedure complied with.

Unit commanders should consider the members’ certification or qualification status whenever members are utilized to translate or interpret. Members being assigned to perform interpretation for investigative assignments (e.g., wiretaps, interviews, debriefings,

custodial interrogations, etc.) or translation duties should be certified Department interpreters. Whenever interpretation for an investigative assignment or translation skills are required, supervisors should consult the Department list of certified interpreters through the Operations Unit to determine if a certified member is available to perform the needed duties. It is recommended that certified members of the Language Initiative Program be used for custodial interrogations. However, not every language is represented under the Language Initiative Program. Use of non-certified members for investigative assignments in non-emergency situations must be approved by a uniformed supervisor.

DEPARTMENT REQUESTS FOR NEW YORK CITY TRANSIT BUSES			
DATE ISSUED: 08/01/13	DATE EFFECTIVE: 08/01/13	REVISION NUMBER:	PAGE: 1 of 2

PURPOSE To provide procedures for requesting New York City Transit buses to be used for police purposes.

SCOPE New York Transit makes its buses available to the Department for use in a variety of situations. The assignment of buses may be scheduled ahead of time for use in such planned activities as arrest sweeps or homeless transports. Buses may also be requested as needed for use in responding to an emergency, where they can serve as transportation to hospitals for large numbers of aided suffering from minor injuries, shelter for victims of disasters and staging/rest locations for emergency responders, etc.

PROCEDURE To request the use of New York City Transit buses in future planned operations, or in unplanned emergency operations:

COMMANDING OFFICER/ COUNTERPART 1. Make request to appropriate Patrol, Transit or Housing Borough.

IF FUTURE PLANNED OPERATION

COMMANDING OFFICER/ COUNTERPART 2. Prepare written request to the Commanding Officer of the Operations Unit specifying the following:

- a. The nature of the activity
- b. The time and date of the activity
- c. The location where the bus is to be used
- d. Whether a New York City Transit bus operator is needed or whether the bus will be driven by a member of the service.

3. Forward request to borough commander.

BOROUGH COMMAND CONCERNED 4. Endorse approved request and forward to Operations Unit.

IF UNPLANNED EMERGENCY OPERATION

COMMANDING OFFICER/ COUNTERPART 5. Telephone request to appropriate Borough Command.

- a. Provide the information as described in step 2a., above.

BOROUGH COMMAND CONCERNED 6. Upon approval, forward telephone request directly to the Operations Unit.

- OPERATIONS UNIT MEMBER CONCERNED**
7. Forward requests for New York City Transit buses to the New York City Bus Command Center.
 - a. Provide the information as described in step 2a., above.

NOTE *The New York City Transit Bus Command Center will make the necessary arrangements for securing the requesting bus or buses. The Bus Command Center will notify the Operations Unit when the arrangements are complete, and the Operations Unit will then relay the information to the requesting Borough.*

ADDITIONAL DATA *When possible, requests for buses should be made sufficiently in advance to allow the time necessary for making arrangements, scheduling New York City Transit bus drivers, etc. It is often difficult for New York City Transit to supply buses for use during rush hours without adversely affecting regular bus service. Consequently, when a choice is available, the off-peak usage of buses is recommended.*

USE OF TEAR GAS			
DATE ISSUED: 08/01/13	DATE EFFECTIVE: 08/01/13	REVISION NUMBER:	PAGE: 1 of 2

PURPOSE To provide for the use of tear gas.

SCOPE Tear gas is an effective device when used judiciously in selected tactical situations. Its use by the Emergency Service Unit is designed to minimize, rather than increase, the potential for serious physical injury. However, such use carries with it the danger of physical injury or material damage regardless of the care exercised in its application. Therefore, it is imperative that measures be established for the judicious use of tear gas by members trained for this purpose while at the same time providing for the decontamination of those affected, whether civilian or police personnel.

PROCEDURE When circumstances indicate the use of tear gas may be warranted:

- RANKING UNIFORMED MEMBER OF THE SERVICE AT SCENE**
1. Notify radio dispatcher and request the following to respond to the scene:
 - a. Precinct commander/duty captain
 - b. Borough commander or designee
 - c. Emergency Service REP Unit and truck
 - d. Emergency Service Unit supervisor.

NOTE *The ultimate decision concerning use of tear gas rests with the patrol borough commander or designee. Technical decisions concerning amount of gas and method of application will be made by the ranking member of the Emergency Service Unit at the scene.*

- BOROUGH COMMANDER/DESIGNEE AND EMERGENCY SERVICE UNIT SUPERVISOR**
2. Prior to use of tear gas, develop an operational plan to include, but not be limited to, the following:
 - a. Establish a designated mobilization point.
 - b. Station all police personnel not actively engaged in using the gas at a safe distance from its contaminating effects.
 - c. Evacuation of all civilians from premises and away from areas likely to be affected by police operations, if such can be accomplished safely.
 - d. Request Communications Section to direct the following to respond to the designated mobilization point and stand by thereat:
 - (1) Fire Department company
 - (2) Emergency Medical Service ambulance
 - (3) Emergency Medical Service borough supervisor
 - (4) Hazardous Material Decontamination Trailer and Support Vehicle
 - (5) Department Patrol Wagon.

ADDITIONAL DATA *The use of tear gas generally will result in contamination of persons and clothing to varying degrees. Since tear gas adheres to clothing, persons exposed to the gas may contaminate others in their proximity. Therefore, ALL persons exposed to the gas should be isolated from public contact, if possible, and afforded necessary treatment, including medical evaluation, when indicated.*

PATROL GUIDE

PROCEDURE NUMBER:	DATE EFFECTIVE:	REVISION NUMBER:	PAGE:
212-92	08/01/13		2 of 2

**ADDITIONAL
DATA
(continued)**

First aid procedures call for the immediate removal of persons from the contaminated area to an open and upwind position. Eyes should be kept open and facing the wind and, if feasible, flushing the face, eyes and exposed skin with copious amounts of fresh, cool water is recommended. As noted above and if time allows, the Decontamination Trailer should be activated and brought to the mobilization point for this purpose. When the decision is made to use tear gas, the Decontamination Trailer should be made operative and positioned so that affected individuals can be decontaminated immediately. This method can be used to remove virtually all tear gas residue and should prevent unnecessary contamination of hospital emergency rooms if further treatment is necessary. Contaminated clothing should be removed at the scene, if practicable, and replaced by a disposable poly-laminated tyvek suit, supplied by the Emergency Medical Service, or, if unavailable, a loosely draped blanket. Tight clothing should not be worn. Contaminated clothing or uniforms should be thoroughly aired and washed with soap and water before being worn. Dry cleaning will NOT remove tear gas residue.

If discomfort persists, the person affected should be removed to a New York City hospital designated by the Emergency Medical Service supervisor on the scene for medical attention.

When a person contaminated with tear gas is seriously ill or injured and hospital treatment is indicated, the Emergency Medical Service borough supervisor will direct the ambulance crew to respond to the designated city hospital. As directed by the Emergency Medical Service borough supervisor, on-scene decontamination procedures should be performed to the extent that such are medically feasible. Emergency Medical Service supervisors will be responsible for establishing liaison with the designated hospital administrator or deputy. Members of the service will comply with the directions of the Emergency Medical Service supervisor PRIOR to entering the facility with contaminated persons. If immediate medical attention is necessary, the Emergency Medical Service supervisors may designate any nearby medical facility. The final determination on which medical facility to use rests with the Emergency Medical Service borough supervisor.

If the injured person being removed is under arrest, a uniformed member of the service will accompany the prisoner to the hospital. Patrol Guide procedure 210-04, "Prisoners Requiring Medical/Psychiatric Treatment" and related procedures will be complied with.

11. Determine if request(s) for extra-jurisdictional tactical use of canine teams are proper.
 - a. Request approval of patrol borough commander.
 - b. Make required notifications.

ADDITIONAL DATA

Canine teams will not be used for crowd control or as a deterrent at peaceful demonstrations. Request for use of canine teams at other than peaceful demonstrations requires the prior approval of the Chief of Patrol.

The Canine Program is under the jurisdiction of the Patrol Services Bureau with program staff supervision and training provided by the Commanding Officer, Special Operations Division.

Any requests for canine team services from agencies outside this Department will be directed to the Operations Unit.

AUTHORIZED USES: DEPARTMENT BLOODHOUNDS

A bloodhound has the unique ability to discriminate between scents and usually will not be sidetracked by other scents crossing a search path. When a scent is fresh, a patrol canine will normally be sufficient to perform the search and should be utilized first.

When it is determined that a search for a live person(s) requires the unique scent discrimination ability of a bloodhound and the search cannot be handled by a patrol canine, a request will be made to the Operations Unit which will transmit the request to the bloodhound handler. The determination and request will be made by a supervisor from the Special Operations Division or Emergency Service Unit on the scene after consultation with the duty captain and a uniformed member of the Canine Unit.

Prior to requesting a Department bloodhound, it must be determined that a good, uncontaminated scent article has been identified and will be safeguarded until the arrival of the bloodhound handler. The article is not to be handled by anyone, including members of the service. If it must be moved or collected, consult with a canine handler for instructions prior to removal. Scent articles can consist of any uncontaminated material (blood, clothing, etc.) that has been recently in contact with the person being sought. Washed clothes are not acceptable.

**ADDITIONAL
DATA
(continued)**

A bloodhound will only trail from an uncontaminated scent article toward a person (living or dead). They are not trained to trail from a person (living or dead) to the origin of the trail (backtrack).

Uniformed members of the service requesting a bloodhound should be aware that the bloodhound handler does not have the same protection as a patrol canine handler since a bloodhound is trained to track only, and will not defend the handler or assist in apprehending a subject.

ADDITIONAL DATA

Uniformed members of the service should not unnecessarily display special weapons. Their use should be limited to those situations where the officer would ordinarily carry his firearm in his hand for the purpose of safety and the tactical situation indicates use of a special weapon clearly outweighs the use of the handgun. The actual use of the special weapon should only be in a situation where the circumstances spell out a potential case of justifiable use of deadly physical force, as a last resort after all other means have been exhausted. All provisions of the Patrol Guide and other Department directives regarding the use of firearms are also applicable use of special weapons.

The following additional guidelines regarding the issuance and utilization of special weapons for various Department units are to be complied with in addition to the preceding procedures:

DETECTIVE/ORGANIZED CRIME CONTROL BUREAUS:

Detectives/Organized Crime Control Bureau personnel shall utilize the special weapons and tactical expertise of Emergency Service personnel for pre-planned events. If there is insufficient time or other compelling factors are present, a captain or above may authorize the issuance of special weapons when all the following circumstances exist:

- a. A tactical plan is formulated*
- b. It is a potential arrest situation*
- c. An arrest or search warrant has been issued.*
- d. There is a history of violence on the part of the perpetrator.*

Special weapons may be issued when other circumstances would lead a reasonable person to believe that the use of special weapons would be prudent and necessary. A captain or above must accompany those members issued such weapons on their assignments and maintain firearms control. A captain or above will insure that all members are wearing a protective vest and the special weapon is unloaded, opened and encased while being transported to scene and upon conclusion of assignment. The special weapon will not be loaded until arrival at scene of incident. Special weapons shall not be used without the direction of the captain or above except in those situations which require immediate action to prevent serious bodily injury or death and then only if the lives of innocent people are not unnecessarily endangered.

When services of Emergency Service Unit are utilized in connection with a pre-planned tactical operation, only members of Emergency Service Unit will carry shotguns/special weapons.

EMERGENCY SERVICE UNIT/HARBOR UNIT:

The use of special weapons will be limited to specific instances as outlined below:

- a. When a barricaded criminal, hostage taker or emotionally disturbed person possesses a firearm or the member has reasonable grounds to believe such person possesses a firearm.*
- b. When a hostage taker is armed with a weapon and is threatening the life of a hostage and it may become necessary to use deadly physical force to protect the life of the hostage.*
- c. When conducting searches for armed perpetrators or when it is believed such perpetrators are armed, including the executions of warrants.*
- d. When engaged in VIP escorts and protection.*

- i. Special weapons shall not be utilized in restraining an emotionally disturbed person unless the circumstances of sub-division “a” exist.*

Authorized members of the service assigned to Highway Units can be issued special weapons under circumstances described in sub-divisions “d” and “e” above.

A special weapon is issued to a member for his own protection and will, as a general rule, only be employed in the defense of his own life, another officer’s life, or the life of an innocent civilian.

Solo officers, detectives and members assigned to the Organized Crime Control Bureau have not been trained in the specialized tactics utilized by Emergency Service Unit personnel and should not be used as their replacements.

USE OF PEPPER SPRAY DEVICES			
DATE ISSUED: 08/01/13	DATE EFFECTIVE: 08/01/13	REVISION NUMBER:	PAGE: 1 of 4

PURPOSE

To inform uniformed members of the service of circumstances under which pepper spray may be intentionally discharged and to record instances where pepper spray has been discharged, intentionally or accidentally.

SCOPE

Use of Oleoresin Capsicum (O.C.) pepper spray constitutes physical force under the New York State Penal Law. Use of pepper spray is proper when used in accordance with Article 35 of the Penal Law and Department procedures. O.C. pepper spray may be used when a member reasonably believes it is necessary to effect an arrest of a resisting suspect, for self-defense or defense of another from unlawful force, or to take a resisting emotionally disturbed person into custody. In many cases, pepper spray will reduce or eliminate the need for substantial physical force to effect an arrest or gain custody. It will often reduce the potential for injuries to members and suspects that may result from physical restraint and it should be regarded as a possible alternative to such force and restraint, where practical. Pepper spray shall not be used in situations that do not require the use of physical force. O.C. pepper spray may be used in arrest or custodial restraint situations where physical presence and/or verbal commands have not been, or would not be, effective in overcoming physical resistance.

PROCEDURE

When necessary to use pepper spray device:

UNIFORMED MEMBER OF THE SERVICE

1. Hold pepper spray in an upright position, aim and discharge pepper spray into a subject's eyes for maximum effectiveness, using two one second bursts, at a minimum distance of three feet, and only in situations when the uniformed member of the service reasonably believes that it is necessary to:
 - a. Protect self, or another from unlawful use of force (e.g., assault)
 - b. Effect an arrest, or establish physical control of a subject resisting arrest
 - c. Establish physical control of a subject attempting to flee from arrest or custody
 - d. Establish physical control of an emotionally disturbed person (EDP)
 - e. Control a dangerous animal, by deterring an attack, to prevent injury to persons or animals present.
2. Effect arrest of criminal suspect against who pepper spray was used and charge with crime which initiated use of the pepper spray.
 - a. Add resisting arrest charge, when appropriate
 - b. *P.G. 210-13, "Release Of Prisoners - General Procedure"* will be complied with if it is determined that arrested person did not commit the crime or that no crime was committed.
 - c. *P.G. 216-05, "Mentally Ill Or Emotionally Disturbed Persons,"* will be complied with, when appropriate.

PATROL GUIDE

PROCEDURE NUMBER:	DATE EFFECTIVE:	REVISION NUMBER:	PAGE:

NOTE

Do not use pepper spray on subjects who passively resist (e.g., going limp, offering no active physical resistance). If possible, avoid using pepper spray on persons who appear to be in frail health, young children, women believed to be pregnant, or persons with known respiratory conditions. Avoid discharging pepper spray indiscriminately over a large area for disorder control. (Members who are specifically trained in the use of pepper spray for disorder control may use pepper spray in accordance with their training, and within Department guidelines, and as authorized by supervisors.). In addition, avoid using O.C. spray in small contained areas such as automobiles and closets.

**UNIFORMED
MEMBER OF
THE SERVICE
(continued)**

3. Request response of Emergency Medical Service (EMS) once the situation is under control.
 - a. Advise person sprayed that EMS is responding.
4. Remove the subject from the contaminated area and expose to fresh air while awaiting the arrival of EMS, or transportation to hospital/stationhouse *if tactically feasible*.
 - a. Determine whether the person sprayed is wearing contact lenses. (It is strongly recommended that contact lenses be removed as soon as possible after exposure to O.C. spray.)
5. Position subject on his/her side or in a sitting position to promote free breathing.
 - a. The subject should never be maintained or transported in a face down position.
 - b. Do not sit, stand, or kneel on subject's chest or back.
6. Provide assistance to subject as follows:
 - a. When consistent with member's safety, and provided a source of water is readily available, the uniformed member should flush the contaminated skin area of a subject with profuse amounts of water.
 - b. Repeat flushing at short intervals, if necessary, until symptoms of distress subside.
 - c. Continue flushing the contaminated skin of the subject in custody, at the stationhouse as needed.
 - d. Commence the flushing of a subject's contaminated skin upon arrival at the stationhouse, if this has not already been done.

NOTE

Do not rub or touch skin of contaminated person, as the initial effect of pepper spray does not dissipate for 15 - 20 minutes. Also, do not use salves, creams, ointments, commercial eye washes or bandages. The desk officer will ensure that all prisoners who have been sprayed with pepper spray receive appropriate first aid, if needed, upon arrival at the stationhouse. Desk officers are also responsible for ensuring that prisoners who have been sprayed with pepper spray are properly observed throughout the arrest process, and that they receive prompt medical attention if they need or request it. A Command Log entry will be made stating whether the prisoner has had his/her skin flushed with water, been examined by EMS, or been transported to the hospital.

 - c. Advise hospital staff that pepper spray has been used on prisoner.
8. Prepare **ON LINE BOOKING SYSTEM ARREST WORKSHEET (PD 244-159)** and **MEDICAL TREATMENT OF PRISONER (PD 244-150)** in arrest situations.
9. Complete the **AIDED REPORT WORKSHEET (PD 304-152b)** in non-arrest situations, e.g. EDP, and:
 - a. Check box "O.C. Spray Used"

 - c. List the time, doctor's name, and diagnosis under "Details" caption, when applicable.

SECTION**

11. Analyze situations where O.C. spray was employed to evaluate its effectiveness.
 - a. As appropriate, modify existing training/tactics relative to the use of pepper spray.

**ADDITIONAL
DATA**

The only pepper spray authorized for use is the type issued to all uniformed members through the Firearms and Tactics Section.

In order to maintain the effectiveness of the spray, it is recommended that the device be shaken at the start of each tour. Carrying the pepper spray device during normal patrol duty should be sufficient to keep the solution thoroughly mixed.

Pepper spray will not automatically stop all subjects, and even when it does incapacitate, the effects are temporary. Members should therefore be ready to use other appropriate force options and tactics.

When performing duty in uniform, the pepper spray shall be carried in its holster attached to the non-shooting side of the gun belt. When performing enforcement duty in civilian clothes the pepper spray must be carried, in the holster attached either to a belt or in another appropriate manner. Undercover members may opt not to carry the pepper spray. Members of the service may carry the pepper spray device during off duty hours.

"HANDSCHU" GUIDELINES

Members of the service are reminded about First Amendment political activity and the "Handschu" consent decree (see P.G. 212-71, "Guidelines for the Use of Video/Photographic Equipment by Operational Personnel at Demonstrations"). The intent of the "Handschu" decree, among other things, is to limit unnecessary investigation and maintenance of records relating to lawful political activity. If a spontaneous or scheduled political demonstration takes place on Housing Authority property, the CCTV cameras need not be turned off. Department videotape cameras can remain operational provided that cameras operating do not focus on the activity of the demonstrators unless it is believed that a crime is being committed.

AMBER ALERT SYSTEM			
DATE ISSUED: 08/01/13	DATE EFFECTIVE: 08/01/13	REVISION NUMBER:	PAGE: 1 of 3

PURPOSE

To provide rapid and widespread dissemination of information in the event of child abduction with special circumstances, the Amber Alert program has been adopted.

DEFINITION

AMBER ALERT SYSTEM: Amber Alert is a statewide response program targeting the abduction of children during which life-threatening circumstances are suspected. An Amber Alert may be activated whether the child was abducted by vehicle, on foot, or by any other means. The protocol for determining whether a case qualifies for an Amber Alert is as follows:

- a. The child must be 17 years old or younger, AND,
- b. Police must believe that the child is in imminent danger of serious bodily harm or death, either at the hands of another or due to proven mental or physical disability.

PROCEDURE

When responding to a report of a missing child and information received indicates that the case may qualify for an Amber Alert:

UNIFORMED MEMBER OF THE SERVICE

- 1. Comply with appropriate missing persons procedures.
- 2. Request the response of the Patrol Supervisor.
- 3. Notify Desk Officer and request response of Precinct Detective Squad supervisor.

NOTE

Patrol supervisor will implement Missing Person/Special Category procedure and/or Mobilization as necessary, depending on the details of the situation.

DESK OFFICER

- 4. Request Precinct Detective Squad supervisor to respond to the scene of the abduction.

PRECINCT DETECTIVE SQUAD INVESTIGATOR /SUPERVISOR

- 5. Conduct a preliminary investigation and ascertain if abduction may fit criteria for activation of Amber Alert system.
 - a. Notify Detective Bureau Duty Captain, if abduction meets criteria for the activation of an Amber Alert.
 - b. Request that Detective Bureau Duty Captain respond to the scene.

NOTE

Only a Captain or above from the Detective Bureau may request activation of the Amber Alert System through the New York State Police Communications Section.

DETECTIVE BUREAU, DUTY CAPTAIN

- 6. Notify New York State Police of a possible Amber Alert through the New York State Police Communications Section.
- 7. Notify Operations Unit of details. If it is believed that the abductor and missing child may be traveling via public transportation, request Operations personnel to notify the Transit Bureau Wheel.
 - a. Notify NYPD Communications Section and have description of abducted child disseminated over each Department radio division.

**DETECTIVE
BUREAU,
DUTY
CAPTAIN
(continued)**

- b. Have Communications Section personnel read the following message over each Department radio division if a vehicle is involved in the abduction:
“The following vehicle is wanted in connection with a New York State Amber Alert (*Provide license plate number and description of vehicle*). Personnel assigned to Department vehicles equipped with the License Plate Reader System are instructed to manually enter this plate number in order to expedite the search for this vehicle.” (*Repeat license plate number and description of vehicle*).
8. Notify Major Case Squad.
9. Direct that precinct detective squad member:
 - a. Notify Missing Persons NCIC Unit and request that a NCIC File 6 be completed and transmitted.
 - b. Notify Inter-City Correspondence Unit to generate a NYSPIN File 11A (Abduction Message) to ensure that other law enforcement agencies are aware of the abduction and related details.
 - (1) Fax completed ***Amber Alert Submission form*** along with a cover sheet including the notifying member’s rank, name, tax #, command and callback number.
 - c. Prepare and immediately fax the following form to the New York State Police:
 - (1) ***Amber Alert Submission Form***
 - d. Conduct follow-up phone call to New York State Police to confirm receipt of fax.

**ADDITIONAL
DATA**

When sending photographs via E-Mail to the New York State Police, attach only ONE photograph to each E-Mail. Each additional photograph should be sent in a separate E-Mail.

*The **Amber Alert Submission Form** should also be faxed to the Traffic Management Center, IF a vehicle description and a plate number are available. Once confirmation of activation is received from New York State Police Communications Section, the Traffic Management Center will initiate the use of Variable Message Signs throughout the metropolitan area.*

In the event that the child is recovered or the case is determined to no longer qualify (i.e., false report, determined to be a custodial situation), immediately notify the New York State Police in writing (by fax) so that a cancellation may be broadcast. Cancellations will be broadcast only if requested within eight hours of the original activation request. They will be brief and will not include any information about the status of the child or the case. Cancellations required after the eight hour period can be accomplished via normal media notification through the Deputy Commissioner, Public Information. The Detective Bureau Duty Captain will ensure that Amber Alerts are canceled in the proper manner.

**ADDITIONAL
DATA
(continued)**

*When investigation assistance is requested by another agency concerning an Amber Alert, the requesting agency will be directed to contact the Detective Bureau, Major Case Squad or if unavailable, the Detective Bureau Wheel. **All requests for broadcast of an Amber Alert will be referred to the New York State Police Communications Section.***

While most runaway and abductions by non-custodial parents do not qualify, individual consideration may be given, depending on case circumstances. Activation should be requested within the shortest period of time possible following an abduction, but not before a preliminary investigation has been conducted. In most instances activation will not be practical if an extended period of time has passed since the disappearance. Inter-agency cooperation and assistance will greatly enhance the effectiveness of this tool.

*The office of the Deputy Commissioner, Public Information is available on a 24 hour x 7-day basis concerning cases **NOT ELIGIBLE** for Amber Alerts or as needed by members of the service. D.C.P.I. has the ability to simultaneously notify a variety of local and national media outlets in cases where the immediate assistance of or notification to the public is deemed necessary.*

NOTE

Patrol boroughs/Operations Unit are responsible to reallocate resources within the affected borough or throughout the City to maintain adequate levels of police service and adequate levels of supervision.

ADDITIONAL DATA

PATROL BOROUGH OPERATIONAL COMMAND IN THE EVENT OF AN EMERGENCY RESPONSE PLAN ACTIVATION

1. *Patrol Guide procedure 213-03, “Rapid Mobilization,” states as follows, “At the scene of a large scale unusual disorder or other emergency incident, the highest ranking uniformed police supervisor is in command and will be designated as Incident Commander.” It further states, “In most cases, the designee will be the highest ranking member from the bureau involved (e.g., the Housing Bureau for public housing incidents, the Transit Bureau for subway incidents, the Chief of Transportation for traffic emergencies, etc.)” Designating an Incident Commander provides centralized command at the scene of an emergency.*

2. *We live under the threat of terrorism and the possibility of large-scale disasters. The coordination of resources is a critical aspect of a proper response to such an incident. As such, there may be times when it will be necessary for patrol borough command(s) to operate in a “stand-alone” capacity. Under this concept, patrol borough commander(s) will assume operational command of ALL Department resources within their geographical area of responsibility with the exception of Special Operations Division personnel, and the Transit Bureau, which will initiate citywide “stand-alone” operations at the Transit Bureau headquarters in Brooklyn.*

3. *When it is determined that patrol borough(s) will operate under the “stand-alone” concept, patrol borough commands will activate borough command posts in accordance with standard operating procedures. Additionally, representatives will be assigned from the Detective Borough, Intelligence Bureau, Housing Bureau, Organized Crime Control Bureau, Transportation Bureau, School Safety Division, Special Operations Division and any other unit deemed appropriate by the patrol borough commander. An operational plan should be developed by each patrol borough to facilitate “stand-alone” operations. It should include, at minimum, pre-designated assignments among the borough staff and outside command representatives, identification of necessary equipment and support staff, as well as providing for a relief factor. Since each patrol borough is unique, the borough commander should tailor plans that will address the needs of that particular patrol borough, i.e., potential for civil disorder, public panic, the threat of secondary events, etc. However, patrol borough commanders must recognize that the NYPD Emergency Operations Center retains the authority to direct movement and allocation of resources out of the patrol borough in response to incidents elsewhere throughout the City.*

LARGE SCALE ARREST PROCESSING PROCEDURE			
DATE ISSUED: 08/01/13	DATE EFFECTIVE: 08/01/13	REVISION NUMBER:	PAGE: 1 of 2

PURPOSE

To establish a coordinated arrest processing procedure for situations in which the number of arrests effected is, or is anticipated to be, in excess of twenty persons, (i.e. organized demonstration, large scale disorder, large police enforcement initiatives, etc.).

NOTE

In the borough of Manhattan or Brooklyn North, the former Manhattan Central Booking facility, (enabled with OLBS and Livescan capabilities), is available to process arrests. Commanding officers interested in using this facility must notify the Commanding Officer, Manhattan Court Section.

PROCEDURE

When it is anticipated that a large number of arrests will be effected:

BOROUGH COMMANDER

1. Establish and maintain a list of all the precinct stationhouses within the Patrol Borough, **in priority order**, for utilization to process up to twenty persons in mass arrest situations.

NOTE

Each of the eight Patrol Boroughs will forward an updated copy of this list to the Operations Unit.

2. Establish priority of the stationhouses to be utilized based on each precinct stationhouse's ability to simultaneously process multiple prisoners with minimal interference to that command's day to day operations.

NOTE

When determining the priority in which precinct stationhouses will be utilized first in each Patrol Borough, consideration will be given to the precinct's physical layout, its ability to secure multiple prisoners at one time and the space available for arresting/assigned officers to prepare required arrest related forms and reports, (geographical considerations may also be given at the actual time of the incident before precincts are utilized).

INCIDENT COMMANDER

3. Have groups of no more than twenty prisoners with their arresting/assigned officers and one supervisor from the scene of arrest, transported to designated precinct stationhouse(s) via patrol wagon.

NOTE

Every effort will be made to have arresting/assigned officer's process no more than five prisoners and the arrest supervisors assigned no more than four arresting/assigned officers, when practical.

4. Ensure arresting/assigned officers have definite knowledge of the arrest, and can articulate the factual elements of the offense for which the arrests were effected.
5. Have the desk officer of the processing precinct notified of the number of prisoners that are enroute to their command for processing.

NOTE

Precinct commanders will ensure that their commands have an adequate supply of arrest related forms and reports readily available in the event their stationhouse is utilized.

PATROL GUIDE

PROCEDURE NUMBER:	DATE EFFECTIVE:	REVISION NUMBER:	PAGE:
213-06	08/01/13		2 of 2

ARREST SUPERVISOR

6. Ensure that each prisoner is photographed with their arresting/assigned officer before boarding patrol wagon and affix **MASS ARREST PEDIGREE LABEL (PD244-093)** to back of each Polaroid, with all relevant captions completed.
7. Contact the Incident Commander/Command Post, upon arrival at processing precinct stationhouse, to verify if prisoners will be processed as on-line arrests or be issued **DESK APPEARANCE TICKETS (PD260-121)** and/or Criminal Court Summonses, if qualified.
8. Ensure that city, state and federal warrant checks are performed.
9. Directly supervise all arrest processing, as per that borough's arrest processing procedures.

NOTE

The precinct Arrest Processing Officer (APO), will assist the arrest processing supervisor and arresting/assigned officer in all computer functions and ensure all appropriate forms are prepared so that the District Attorney's Office will be able to prepare a Sworn Complaint. The primary function of the Arrest Processing Officer is to return the arresting/assigned officer to patrol during large scale demonstrations, disorder or enforcement initiatives. The arrest processing supervisor will identify another member of the service, who is qualified in Livescan, to fingerprint ALL prisoners that are required to be fingerprinted.

10. Review and sign, where appropriate, all arrest related documents and forms for accuracy and completeness upon completion of arrest processing, including **DESK APPEARANCE TICKETS** and Criminal Court Summonses issued (ensuring the appropriate return date has been issued).
11. Contact Incident Commander/Command Post to receive approval before releasing any defendant issued a **DESK APPEARANCE TICKET** or Criminal Court Summons, and if applicable, to request transportation to the appropriate Court for prisoners processed as on-line arrests.

ADDITIONAL DATA

When a large scale arrest situation is anticipated, the commanding officer concerned is to notify the concerned borough Court Section supervisor, via telephone message, with all pertinent information, including the date and time of scheduled event and the anticipated number of arrests. The borough Court Section will then make appropriate notifications to the District Attorney's Office and Office of Court Administration to ensure all arrests are processed expeditiously.

If large scale arrest situations are scheduled sufficiently in advance, and the number of anticipated arrests dictate it, a centralized processing area may be utilized and coordinated through the concerned borough Court Section.

UNUSUAL DISORDER MAPS			
DATE ISSUED: 08/01/13	DATE EFFECTIVE: 08/01/13	REVISION NUMBER:	PAGE: 1 of 2

PURPOSE

To provide responding personnel with a graphic representation of possible police deployment and operation during an unusual disorder.

NOTE

Unusual disorder maps are also used to graphically represent actions taken by responding personnel as well as incidents, crimes, protest marches, etc., within the precinct concerned. These maps allow for the cross-referencing of the situation and intelligence logs and the personnel status boards. Additionally, these maps are an invaluable tool for both the incident commander and the command post staff.

COMMANDING OFFICER

1. Procure eight large wall type precinct/police service area/transit district area maps from the Communications Division, Cartography Section.
2. Mark each with sensitive and key locations necessary for operations planning in an unusual disorder.
3. Indicate the following locations by the corresponding colors and symbols:

GUN STORES

RED

UTILITY FACILITIES

BLUE

DIPLOMATIC FACILITIES

ORANGE

RADIO REPEATERS

GREEN

BUSINESS DISTRICTS

OUTLINED IN BLACK

MOBILIZATION POINTS AND LANDING ZONES

BLACK

MISCELLANEOUS AS DETERMINED BY COMMANDING OFFICER

YELLOW

NOTE

These key and sensitive locations will be marked in two ways, as follows:

- a. One by color indicating its location and type, **and**
- b. One by graphic symbol, as indicated above.

Exact locations will be indicated, where possible, by drawing an arrow between the location in the appropriate color and the appropriate symbol on the side of the map.

COMMANDING OFFICER (continued) 4. Prepare an index listing the facilities on the map on separate sheet of paper and permanently attach the index to a non-essential area on the front of the map.

NOTE Utilize a letter and number type index to differentiate between similar locations. For example, if there are three gun stores in the precinct/police service area/transit district area, they are listed on the map index as "A1," "A2," and "A3."

5. Forward all eight maps to the Police Academy, Reproductions Unit, for lamination.

MEMBER CONCERNED, POLICE ACADEMY REPRODUCTIONS UNIT 6. Laminate maps and return them, when completed, to originating command.

COMMANDING OFFICER, CONCERNED 7. Retain two laminated maps at command.
 a. Distribute the remaining six maps, as follows:
 (1) Two each to:

To direct the mobilization of off duty members of the service (uniformed and civilian) during emergencies.

SCOPE

In the event of a mobilization of off duty personnel, members of the service (uniformed and civilian) who are scheduled to report for duty with the next scheduled platoon or are on a scheduled regular day off (RDO), will report to their permanent command or, if directed, an alternate mobilization point. Uniformed members of the service in the rank of captain or above will, in all cases, report to their permanent command. All other members will report as per their regularly scheduled tours. *EXAMPLE* - An off duty mobilization is activated on the third platoon. Those members scheduled to report for duty with the next scheduled first platoon, as well as all members on a regular day off, will immediately report to their permanent commands or mobilization points, as directed. All other members will report for their next scheduled tour of duty. Adhering to this schedule will allow for relief of mobilized personnel if the condition which originally necessitated the mobilization continues over an extended period.

NOTE

Off duty members of the service required to respond as per this procedure are being ordered to report for duty. Activation of this procedure will be transmitted via television, radio, or telephone.

For the purposes of this procedure the standard first, second and third platoon system will be utilized. Members of the service not assigned to tours within this platoon system will be considered assigned to the platoon in which the majority of their tour hours are performed.

OFF DUTY MOBILIZATION PLATOON ASSIGNMENTS

<u>MAJORITY OF TOUR PERFORMED DURING:</u>	<u>PLATOON ASSIGNED TO:</u>
0000 hours - 0800 hours	First Platoon
0800 hours - 1600 hours	Second Platoon
1600 hours - 2400 hours	Third Platoon

The primary mobilization point for all activated off duty members of the service will be their permanent command. However, if circumstances dictate otherwise, the Police Commissioner, First Deputy Commissioner or the Chief of Department may require response to alternate mobilization points. Such alternate response points, determined by the member's residence, will be as follows:

ADDITIONAL DATA

COMMAND POST PROCEDURES - The duty chief will be the overall Incident Commander and will coordinate the activities of the patrol and detective command posts. Each command post should exchange representatives, hold briefings every half hour and maintain a consolidated list of actions taken. The duty inspector and the Detective Bureau duty captain should also hold joint briefings with the incident commander every thirty minutes.

CRIME SCENE - The size of the initial crime scene will depend on the circumstances. Initially, the crime scene should be very large. As time progresses and facts indicate, it may be reduced in size.

- a. If the incident occurred inside one room of a private home, apartment, small business premises, etc., the ENTIRE premises should be considered the crime scene.
- b. The crime scene should not be reduced in size or released without the approval of the Detective Bureau duty captain.
- c. If the crime scene is released before daylight, the Emergency Service Unit will ALWAYS be asked to respond back to the crime scene to perform a daylight search.

INNER PERIMETER - Includes the crime scene, immediate area around the crime scene, and any area requiring the wearing of heavy vests.

OUTER PERIMETER - The purpose of the outer perimeter is to attempt to apprehend perpetrators, identify witnesses, and prevent physical evidence from being inadvertently removed, e.g., garbage trucks collecting garbage, mail boxes, etc. The size of the outer perimeter will depend on the circumstances of the incident and will include potential escape routes. Initially, an outer perimeter of a four block area would not be considered unreasonable. Uniformed members of the service should be posted on this perimeter as well as apartment building lobbies in the immediate area of the crime. If assigned to outer perimeter or lobby, uniformed members assigned should interview person(s) leaving the area and, if possible, identify those persons. Lists of persons interviewed, including the time and date of interviews should be turned over to investigators through the TARU/Detective Bureau Command Post.

VEHICLE PLATE CANVASS - Members assigned to plate canvasses should record the plate number, state of registration, make & model, location of the vehicle, and time of observation. Special note should be made of vehicles with warm engines.

BUREAU PLANS - Each bureau and sub-unit should have a plan in place to deal with incidents as described in this directive. These plans should be simple procedures which allow for a rapid investigation and apprehension of persons responsible for such crimes. Each bureau/unit plan should include a list of key precinct/unit personnel designated to respond to these incidents to offer assistance and local expertise to the investigators.

11. Confer with Operations Unit prior to commencement of event regarding local or citywide conditions or incidents that may affect police operations.

NOTE

In cases in which the special event is a demonstration, information on expected street and sidewalk closings and information on how the public may access a demonstration site will be disseminated to the media and event organizers and should, if possible, be posted on the Department’s website. Officers assigned to such events should be given detailed instructions on such closings and points of access prior to assignment. Detail supervisors should also be advised of street closures and points of access and any changes of points of access which occur during the event and which were not previously anticipated and publicized. Officers assigned to such events shall provide information to the public at the event about available points of access.

Barrier configuration for demonstrations should not unreasonably restrict access to, and participation in, the event. For example, attendees should be permitted to leave a barriered area at any time. In addition, if crowd conditions and other circumstances permit, participants should be permitted to leave and return to the same area. Sufficient openings in the barricades should be maintained for the purpose of permitting attendees to leave expeditiously and return to the event.

Where the use of the Mounted Unit becomes necessary for crowd control purposes, incident commanders are reminded that if Mounted officers are deployed for such purposes, it is important to ensure that a crowd or group to be dispersed has sufficient avenues of egress available to them and has had a reasonable chance to disperse.

INTEROPERABILITY CHANNELS			
DATE ISSUED: 08/01/13	DATE EFFECTIVE: 08/01/13	REVISION NUMBER:	PAGE: 1 of 1

1. There will be times during an emergency situation where it will be necessary for personnel from the New York City Fire Department to communicate directly with a New York City Police Department counterpart. Examples of emergency situations include, but are not limited to, terrorist attacks, major building collapses, and large structural fires. To facilitate this communication, a series of N.Y.P.D. interoperability radio channels are available.

2. In the event of such a situation, members of the New York City Fire Department, at the level of Battalion Chief and above, and Emergency Medical Service (EMS) Chief Officer, have been issued radios that are programmed with all interoperability frequencies. To activate the frequency, the F.D.N.Y. Incident Commander, or Emergency Medical Service, Chief Officer will notify the Fire Department Operations Center (FDOC), and request the activation of an interoperability frequency. The FDOC will then notify the N.Y.P.D. Communications Section and request activation. The Communications Section platoon commander will notify the Operations Unit, the Electronics Section, and the N.Y.P.D. Incident Commander on the scene. The Communications Section platoon commander will then activate the frequency concerned and assign a dispatcher to that position. Should the incident escalate and it is determined that a second frequency is required, an additional interoperability frequency will be utilized. When the need for interoperability capability ceases, the ranking members of each agency on the scene will notify the appropriate dispatcher to terminate. Should the situation be reversed, and the N.Y.P.D. Incident Commander determines that interoperability is needed, the procedure will mirror the above, whereby the N.Y.P.D. Incident Commander will make the request through the Communications Section dispatcher, who will then notify the platoon commander. The platoon commander will notify the Operations Unit, the Electronics Section and the FDOC. The Communications Section platoon commander will then activate the frequency concerned and assign a dispatcher to that position. In that case, the duty captain or above may request activation of the interoperability system.

3. In the event of a second incident, the Communications Section platoon commander may place both incidents on the same interoperability frequency. In such cases, the Incident Commanders shall name each incident so that they are clearly identifiable to the users on the channel. Listed below are the channels as programmed in the portable radios of captains and above.

NARCOTICS EVICTION PROGRAM			
DATE ISSUED: 08/01/13	DATE EFFECTIVE: 08/01/13	REVISION NUMBER:	PAGE: 1 of 4

PURPOSE

To initiate action in civil court towards identified narcotics operations in privately owned buildings, commercial establishments and rental apartments owned by the New York City Housing Authority.

SCOPE

The Narcotics Eviction Program involves a cooperative citywide effort between this Department and the respective District Attorney’s Office with a goal of evicting drug dealers from dwellings and commercial locations through the initiation of proceedings in civil court. In practice, all narcotics related arrests/seizures made inside locations, and effected by members assigned to the Organized Crime Control Bureau, are reviewed by the District Attorney’s Office for potential eviction proceedings. Incidents where there is a summary narcotics related arrest, or incidents of found narcotics/drug paraphernalia, found within a building by patrol personnel, requires the preparation of a precinct **COMPLAINT REPORT (PD313-152)**. This report serves as a mechanism for follow up by the affected community beat officer.

PROCEDURE

When a uniformed member of the service, other than a member assigned to the Narcotics Division, effects an arrest for any narcotics related offense, or finds narcotics/drug paraphernalia within a building:

UNIFORMED MEMBER OF THE SERVICE

1. Comply with appropriate Department procedures, prepare precinct **COMPLAINT REPORT (PD313-152)**, in addition to any other required reports.
2. Include in “Details” section of the **COMPLAINT REPORT** any information or observations that may indicate that a narcotics operation is involved.

COMMUNITY BEAT OFFICER CONCERNED

3. Review Community Policing Unit copy of the **COMPLAINT REPORT** when received.
4. Determine if the presence of a narcotics operation is indicated, based on both the information contained on the **COMPLAINT REPORT**, and the officer’s knowledge of the beat (i.e., previous incidents, community complaints, etc.).
5. Review incident with community policing unit supervisor if the circumstances indicate that a narcotics operation is present.

COMMUNITY POLICING SUPERVISOR

6. Review facts and circumstances of incident.
7. Determine if appropriate for inclusion into the Narcotics Eviction Program.
8. Direct the concerned officer or designee to obtain all related information regarding the incident/location, if incident is determined to be appropriate for inclusion into the Narcotics Eviction Program.
 - a. Include such items as copies of the **COMPLAINT REPORT, ON LINE BOOKING SYSTEM WORKSHEET (PD244-159), PROPERTY CLERK INVOICE (PD521-141)**, community complaints, and any other information that would substantiate the determination and be supportive of civil action.

- COMMUNITY POLICING SUPERVISOR (continued)**
9. Package all related information and forward to the respective county District Attorney's Office, Attention: Narcotics Eviction Program Coordinator.
 - a. Include a short cover letter, briefly describing the incident and location, identity of tenant of record and/or subject, if known.
 10. Maintain file copies at the Community Policing Unit office for reference and future review.

NOTE *The Narcotics Eviction Program Coordinator, Office of the District Attorney, will determine if the facts substantiate action in civil court. Determination of building ownership, along with all notifications required by statute, will be effected by the District Attorney's Office. Copies of all notification letters will be directed to the respective precinct Community Policing Unit for inclusion into the unit's files.*

- COMMUNITY BEAT OFFICER CONCERNED**

 12. Document information in the appropriate file.

- DIRECTOR, POLICE LABORATORY**
13. Ensure that all found/investigatory controlled substances are maintained at the Police Laboratory or Property Clerk's Office for a minimum of three months from the date of the incident.

NOTE *Requests for laboratory analysis pursuant to civil or criminal court proceedings will be effected by the District Attorney's Office, and handled in the normal manner. When such request is made, the Police Laboratory will test up to felony weight, as applicable.*

- COMMUNITY POLICING SUPERVISOR**
14. Ensure that an effective liaison is maintained with the Narcotics Eviction Program Coordinator regarding ongoing efforts in this area.
 15. Maintain appropriate contact with concerned narcotics borough of the Organized Crime Control Bureau regarding locations involved in this initiative.

- COMMUNITY BEAT/SECTOR OFFICER**

19. Include initiatives taken towards these locations as a topic for Precinct Management Team (PMT) meetings as appropriate.
20. Ensure that there is both an effective information exchange and cohesive effort between precinct and Organized Crime Control Bureau Narcotics Division personnel as it relates to this effort.

ADDITIONAL DATA

When considering the circumstances of an incident, it should be noted that an eviction can be brought upon direct or circumstantial evidence that the premise is used for an illegal narcotic business.

EXAMPLES OF DIRECT EVIDENCE include:

- a. *Observations of the direct sale of narcotics, OR*
- b. *Inculpatory statements by occupants regarding the sale of narcotics.*

EXAMPLES OF CIRCUMSTANTIAL EVIDENCE, which supports most eviction proceedings, include:

- a. *Recovery of an amount of narcotics inconsistent with personal use (typically 1/8 of an ounce or more) OR,*
- b. *Recovery of cutting agents, scales, strainers, pestles, empty or new glassine envelopes or vials, plastic bags, rubber stamps, drug records, and other items associated with the preparation, manufacture, packaging, or storage of narcotics.*

Recovery of evidence that lacks indications of a business operation, and is more consistent with mere personal use of narcotics, would not support an eviction and should not be forwarded to the District Attorney’s Office. Cases that pertain to narcotics activity outside of homes and stores (i.e., stairwells, hallways, street, etc.) would not support action unless there is evidence linking the activity to interior premises. Questions regarding this area may be directed to the respective District Attorney’s Office.

SELECTION AND UTILIZATION OF AUXILIARY POLICE OFFICER VOLUNTEERS AS UNDERCOVERS FOR “QUALITY OF LIFE” ENFORCEMENT			
DATE ISSUED: 08/01/13	DATE EFFECTIVE: 08/01/13	REVISION NUMBER:	PAGE: 1 of 3

PURPOSE

To establish guidelines for the utilization of auxiliary police volunteers as undercover for “Quality of Life” enforcement, i.e., Alcohol Beverage Control Law, sale of box cutters, sale of spray paint cans/broad tip markers, etc.

SCOPE

A volunteer auxiliary police officer is eligible to participate in enforcement as an undercover if his/her age is within the limits specified by the statute of law being enforced. Auxiliary police officers will be considered eligible for these assignments ONLY upon the recommendation of their precinct’s special operations lieutenant and after receiving proper training by the borough Vice Module and the Auxiliary Police Section.

PROCEDURE

When considering an auxiliary police officer volunteer for possible use as an undercover in a “Quality of Life” enforcement effort:

SUPERVISOR OF BOROUGH VICE MODULE/ PRECINCT CONDITIONS UNIT

1. Contact borough auxiliary police coordinator.
 - a. Each coordinator maintains a list of the names, dates of birth, and telephone numbers of auxiliary police officers who are eligible for assignment. It is the responsibility of the borough Vice Module or precinct special operations lieutenant to determine whether the volunteer auxiliary police officer is within the age limitation of the “Quality of Life” statute being enforced and confirm reporting location, time and dress code. Each auxiliary police volunteer will report to his/her precinct unit or resident precinct, for pick-up by borough Vice Module or precinct conditions unit and returned to that location upon completion of tour.
 - b. Volunteer auxiliary police officers will never be utilized for undercover operations involving prostitution and/or narcotics enforcement.
 - c. Volunteer auxiliary police officers utilized in undercover capacity will not operate in resident or assigned precinct.

NOTE

Only auxiliary police officers who are on the list may be utilized as undercovers for “Quality of Life” operations. There are no exceptions. An auxiliary police officer notified for assignment and reporting to the precinct shall receive a minimum of four hours of credited time regardless of the actual extent of the operation.

2. Ensure the auxiliary police officer volunteer has received the training course conducted by the Narcotics Division, and training in safety, tactics and integrity conducted by the auxiliary police section, and has signed the required affidavits at the appropriate time if the “Quality of Life” enforcement concerns underage drinking.
 - a. Ensure a signed parental consent form is obtained if the volunteer auxiliary police officer is under the age of eighteen.

5. Prepare an Auxiliary Police Roll Call APS #10, for the auxiliary volunteer to sign in upon pick-up as “On Duty” and for signing out when dropped off at the end of his/her tour.

**ADDITIONAL
DATA**

While possession of obscene material may be illegal in some cases, an arrest for the violation of any provision of Penal Law Article 235 (Obscenity) can only be made following a judicial determination that the item is obscene. Subject items would need to be purchased, or otherwise obtained lawfully, and presented to a judge for review. Members of the service must not take any enforcement action in incidents involving the possession of suspected obscene materials or suspected obscene or offensive performances. In those circumstances the members concerned should notify the Legal Bureau.

While no summary enforcement action can be taken pursuant to Penal Law Article 235 (Obscenity), members of the service, under appropriate circumstances, may take summary enforcement action for the PUBLIC DISPLAY of offensive sexual material (Penal Law Section 245.11, entitled "Public Display Of Offensive Sexual Material", a class A misdemeanor). When contemplating enforcement of this penal law section, members of the service are to strictly adhere to the above guidelines.

ADDITIONAL DATA

If offense was committed in the presence of officer, the officer will sign the "Complaint/Information" section of the summons. When not committed in officer's presence, the officer must ascertain that a crime was committed and request complainant to sign the "Complaint/Information" section. If complainant refuses, officer may sign, "based on information and belief," provided all details as related to the officer by the complainant are included in the "Complaint/Information" section.

If a civilian is the complainant, draw a line through the words "Complainant's" and "Complainant" and substitute the words "Officer's" and "Officer," as applicable, on the front of the summons. In addition, draw a line through the words, "I personally observed the commission of the offense charged herein" immediately above the "Complainant's Full Name Printed" caption. In addition, IN EVERY CASE IN WHICH A CIVILIAN COMPLAINANT IS INVOLVED, THE NAME, ADDRESS, AND TELEPHONE NUMBER OF THE COMPLAINANT WILL BE ENTERED ON THE BOTTOM REVERSE SIDE OF THE "ORIGINAL" SUMMONS UNDER THE CAPTIONS "COMPLAINANT'S FULL NAME PRINTED," "RANK/FULL SIGNATURE OF COMPLAINANT," "DATE AFFIRMED."

In Family/Household situations, members of the service are to follow Department domestic violence guidelines.

EVICCTIONS, REPOSSESSIONS AND OTHER CIVIL PROCESS			
DATE ISSUED: 08/01/13	DATE EFFECTIVE: 08/01/13	REVISION NUMBER:	PAGE: 1 of 2

PURPOSE

To protect life and property and preserve the peace when involved in the enforcement of eviction warrants or other civil process.

SCOPE

Uniformed members of the service should be cognizant that incidents to which they respond may be the outgrowth of a civil process. The authority to break and enter pursuant to purely civil process such as repossessions, evictions and civil commitments is given to the city marshal/sheriff. The only assistance which the police must render to a marshal is the general mandate of the New York City Charter to preserve the peace and protect life and property.

PROCEDURE

When requested to assist in the execution of an eviction warrant or other civil process:

DESK OFFICER

1. Assign uniformed member of the service to assist at location involved.

UNIFORMED MEMBER OF THE SERVICE

2. Respond to location and examine identification of city marshal/sheriff and if eviction is involved, examine warrant.

NOTE

The role of a uniformed member of the service when called to the scene of an eviction or other civil process situation is to preserve the peace and prevent the commission of a crime. The execution of a warrant of eviction is the sole responsibility of the city marshal/sheriff. Where a forced entry is authorized, a city marshal/sheriff is required to do so in the least disruptive way. Uniformed members of the service will not assist in breaking a door or damaging other property to effect a warrant of eviction. The city marshal is responsible for this action, when necessary and authorized.

IF SUBJECT OF AN EVICTION OR OTHER CIVIL PROCESS REFUSES TO ALLOW ENTRY OR LEAVE VOLUNTARILY:

UNIFORMED MEMBER OF THE SERVICE

3. Notify desk officer and request response of a patrol supervisor, before any further action is taken.

PATROL SUPERVISOR

4. Respond to scene and assess situation.

NOTE

If subject of eviction warrant or other civil process appears to be emotionally disturbed comply with P.G. 216-05, "Mentally Ill or Emotionally Disturbed Persons."

DRIVEWAY TOW PROGRAM			
DATE ISSUED: 08/01/13	DATE EFFECTIVE: 08/01/13	REVISION NUMBER:	PAGE: 1 of 4

PURPOSE

To permit owner or lessee of residential property, containing no more than two dwelling units, to have unoccupied vehicle(s) blocking entry or exit to their driveway towed by either licensed tow car of their choice or next available tow company in Rotation Tow Program.

PROCEDURE

Upon being directed to respond to a blocked driveway assignment:

UNIFORMED MEMBER OF THE SERVICE

4. Adhere to applicable provisions of *P.G. 218-21, "Rotation Tow."*

NOTE

The owner/lessee has the option of removing a vehicle by a licensed tow operator of own choice after a summons has been issued. In such cases, the provisions of the Rotation Tow procedure will not apply, including the transfer of the vehicle from the private tow to the Property Clerk's Auto Pound on weekdays commencing on the eighth day and ending on the thirtieth day, even when the private tow selected by the owner/lessee is a participant in the Rotation Tow Program. As per the State Lien Law, the private tow company is entitled to a lien against the unclaimed vehicle.

 - a. If vehicle is locked and secure, do not attempt to enter vehicle. In such cases, the responsibility for safeguarding property within vehicle rests with tow company.
 - b. If property is clearly visible within vehicle and such vehicle is unlocked and entry is easily accessible, invoice property on separate **PROPERTY CLERK INVOICE WORKSHEET**.
6. Deliver **WORKSHEET(S)** to desk officer, precinct of occurrence.

DESK OFFICER

7. Notify the Stolen Property Inquiry Section for each vehicle removed under the provisions of Administrative Code 19-169.1, whether removed by a rotation tow operator or by a licensed private tow.

NOTE

*If a rotation tow operator unjustifiably refuses a “Driveway Tow” assignment, the desk officer shall forward a **REPORT OF VIOLATION (PD672-151)** to the Department of Consumer Affairs. In the event that a rotation tow operator responds to a location and the vehicle has been removed, the tow operator will not be charged a turn and will be returned to the top of the rotation list.*

**DESK OFFICER
(continued)**

8. Insert the words, “DRIVEWAY TOW” under “Remarks”, in the **ROTATION TOWING LOG (PD571-1412)**, if vehicle is removed under the Rotation Tow Program.
9. Ensure **PROPERTY CLERK INVOICE WORKSHEETS** are entered into the Property and Evidence Tracking System.

**ADDITIONAL
DATA**

A licensed tow operator who removes a vehicle pursuant to this section may collect the appropriate charges from the owner or other person in control of such vehicle, payable before the vehicle is released. If a vehicle was removed under the Department’s Rotation Tow Program and is not claimed, the tow operator is required to bring the vehicle to a Department Auto Pound on weekdays, commencing on the eighth day and ending on the thirtieth day. The owner, the owner’s agent or an insurance company representative must pay the NYPD Rotation Tow fees, in addition their may be third party transfer and storage fees, at the Department Auto Pound concerned in order to reclaim a vehicle. If the vehicle remains unclaimed after fifteen days from its delivery date to a Department Auto Pound, the vehicle will be disposed of according to law. Administrative Code Section 20-519 (c) advises that in no event shall a tow company be entitled to charge the Police Department for storage charges incurred after the tenth day of storage.

*A licensed tow operator may not tow a vehicle pursuant to this law without the express written authorization of the owner/lessee of the property. An authorization form must be carried by the tow operator and shall include the location of the vehicle to be removed, the make, model, color and license plate of the vehicle and a statement that the vehicle was removed pursuant to a notice of parking violation (summons). This form **MUST** be signed by the owner/lessee of the property, prior to removal of the vehicle.*

Administrative Code 19-169.1 does not permit owners/lessees of the same property to have this statute enforced against each other.

If a private tow operator, not in the Rotation Tow Program, removes a vehicle, it must be taken directly to his storage facility. Within thirty minutes of the vehicle’s arrival, the tow operator must notify the precinct in which the storage facility is located, of all information contained on the authorization form, including the name of the person who signed the form. The desk officer will record this information in the Command Log.

If the registered owner or other person in control of the vehicle arrives at the scene prior to the removal of the vehicle, and such vehicle is connected to any apparatus for removal, the vehicle shall be disconnected from such apparatus and such registered owner or other person in control of such vehicle shall be allowed to remove the vehicle from the premises without interference upon payment of a reasonable service fee of not more than one-half of the charge allowed for removal as provided in Administrative Code Section 19-169.1, subdivision (g), for which a receipt shall be given.

DATE ISSUED: 08/01/13	DATE EFFECTIVE: 08/01/13	REVISION NUMBER:	PAGE: 1 of 3

PURPOSE

To enforce provisions of the New York City Administrative Code prohibiting unreasonable noise.

DEFINITIONS

UNREASONABLE NOISE - any excessive or unusually loud sound that disturbs the peace, comfort or repose of a reasonable person of normal sensitivities, or injures or endangers the health or safety of a reasonable person of normal sensitivities, or which causes injury to plant or animal life, or damage to property or business.

SOUND REPRODUCTION DEVICE - A device intended primarily for the production or reproduction of sound, including, but not limited to, any musical instrument, radio receiver, television receiver, tape recorder, phonograph or sound amplifying system.

UNREASONABLE NOISE NOT INVOLVING SOUND REPRODUCTION DEVICES

UNIFORMED MEMBER OF THE SERVICE

1. Interview complainants/violators about noise complaint e.g., people yelling, dogs barking, etc.
2. Determine if the noise is unreasonable.

NOTE

The best guideline to follow in determining whether the noise is unreasonable is to determine whether the ordinary person in the community is actually disturbed by the noise. In addition, the following factors should be considered:

- a. *The character of the neighborhood or area, i.e., residential, commercial;*
- b. *The ordinary noise level of the area, i.e., busy Manhattan streets will likely always have high ordinary sound levels;*
- c. *The time of day;*
- d. *The number of persons complaining about the noise; and,*
- e. *Whether the person responsible for the noise has been asked by others to cease or lower the sound level and has refused to do so.*

3. Attempt to correct the condition by warning violator.
4. Serve Environmental Control Board Notice of Violation for violation of Administrative Code Section 24-218 if unable to correct condition and violator is eligible, (see P.G. 214-24, "Service of Environmental Control Board (E.C.B.) Notice of Violation and Hearing for Vehicle Alarms").
 - a. Report facts to desk officer.

DESK OFFICER

5. Report facts to commanding officer.

7. Serve a summons for violation of Administrative Code Section 24- 244(a) returnable to Criminal Court if unable to correct condition and violator is sixteen years of age or older and otherwise eligible.
 - a. Enter in information section of the summons:

“Respondent did operate sound reproduction device at a level unreasonable under the circumstances thereby causing annoyance to persons in the vicinity.”
 - b. Enter a description of the sound reproduction device, e.g., radio, bullhorn, etc., the distance at which it could be heard and the number of people complaining.
 - c. When appropriate, draw a line through the words above signature line reading, “I personally observed the commission of the offense charged here.”

9. Check “EVIDENCE” box on **PROPERTY CLERK INVOICE (PD521-141)** prepared for sound reproduction device seized.
 - a. Give appropriate copy of **INVOICE** to person from whom the device was seized as a receipt.
10. Inform violator that seized property may be reclaimed at precinct of occurrence or at Property Clerk’s Office by presenting a District Attorney’s Release or Court Disposition Form.

ADDITIONAL DATA

Sound reproduction devices are seized as evidence that the violator possessed the device, that the device was operable and to demonstrate the volume at which it was being operated at the time of the offense. The volume control shall be marked, without damaging the property, to indicate the volume at which the device was being operated. Members of the service shall produce these devices at all court appearances. Sound reproduction devices will not be seized from motor vehicles.

*If violator is a juvenile - at least seven but less than sixteen years of age - a **JUVENILE REPORT SYSTEM WORKSHEET (PD377-159A)** shall be issued instead of a summons and the sound reproduction device will not be seized.*

A uniformed member of the service may legally seize a sound reproduction device from a semi-private premises, i.e., social club, bar, etc., where the general public is invited, or a private home, if the uniformed member is invited inside and sees the device responsible for the noise, after issuing a summons to the operator/owner of the device.

*The decision to forcibly enter into private or semi-private premises to correct noise complaints will **ONLY** be made by a precinct commander/duty captain and **ONLY** as a last resort, after requests to stop the noise have been ignored. Some of the factors going into the decision to forcibly enter such premises are:*

- a. Time of day
- b. Type of neighborhood (commercial/residential)
- c. Number of complaints
- d. The ambient noise level of the area generally.

**ADDITIONAL
DATA
(continued)**

While sound reproduction devices may be seized as evidence, there is also authority to allow for the seizure of such equipment to “abate a nuisance,” i.e., the loud noise. This may be done without seizing the entire sound device system for evidence. Careful seizure of parts of the system in order to abate the noise is permissible and steps 8 through 10 of the procedure will be complied with.”

ACCESS TO 311 ANONYMOUS CALLER INFORMATION

The 311 System was designed to allow callers to remain anonymous and the Department has a responsibility to protect this anonymity. However, the Mayor's Department of Information Telecommunications and Technology (DoITT) has a confidentiality policy that allows the Department access to anonymous caller information when there is a bonafide reason to do so. Accordingly, when there are instances where additional caller information is necessary to properly address and/or correct a condition, the commanding officer, executive officer, and the special operations lieutenant of a precinct, PSA, or transit district will have the authority to access the 311 System and retrieve additional caller information.

The circumstances under which a command may access anonymous caller information are limited to and will only be utilized when all other means to investigate and/or correct the condition have been exhausted and there is a demonstrable need to gather additional information or intelligence to address a condition. Instructions on how to use the 311 terminals to access anonymous caller information can be obtained from the Patrol Services Bureau, Housing Bureau, and Transit Bureau.

*Steps will be taken by commanding officers to ensure that the identity of the caller is **not, under any circumstances, revealed or provided to any individual or parties against whom the Quality of Life concern is directed.** Access to anonymous caller information must be for legitimate purposes, as outlined above, by the authorized members of the service listed within this procedure. Any member of service who knowingly or willingly violates the confidentiality of an anonymous 311 caller will be subject to disciplinary action.*

*Command Integrity Control Officers will submit a **Typed Letterhead** to the Chief of Patrol's Resource Management Section in order to obtain passwords for the 311 terminals. If there are any questions, the Resource Management Section can be contacted.*

RESPONSE TO COMPLAINTS OF VIOLATION OF NEW SMOKING BAN IN NEW YORK CITY			
DATE ISSUED: 08/01/13	DATE EFFECTIVE: 08/01/13	REVISION NUMBER:	PAGE: 1 of 2

PROCEDURE

When a member of the service is advised by a member of the public that the new Smoke-Free Air Act is being violated.

MEMBER OF THE SERVICE

1. If there are no other violations involved, direct complainant to call 311 to have complaint forwarded to the Department of Health.
 - a. Violations of this chapter are only enforced on a “Notice of Violation Returnable to the Department of Health” to be issued by agents from The Department of Health, Department of Consumer Affairs, Department of Environmental Protection, Fire Department, Sanitation Department and The Buildings Department.

NOTE

If a person in charge of a public premise has ordered a person to leave and such person refuses, members of the service may take proper enforcement action (i.e. Trespass). Uniformed members of the service may encounter situations in which a person in charge of a public premise seeks assistance in preventing person(s) from violating the Smoke-Free Air Act. In such situations, uniformed members of the service should take appropriate enforcement action under the trespass statues (i.e., Penal Law Sections 140.05 and 140.10) if the person in charge of the public premise orders the violator to leave the premise and the violator refuses to leave.

ADDITIONAL DATA

With respect to public places, smoking is prohibited in all enclosed or indoor areas of public places, defined as any area to which individuals other than employees are invited or permitted. Smoking is also prohibited in specified outdoor locations: playgrounds; day care centers; children's institutions; and sports and recreation areas where outdoor seating or viewing areas are assigned by issuance of tickets.

The smoking ban does not apply to: hotel and motel rooms, private vehicles, private homes (except homes in which a day care or health care facility is being operated), and retail tobacco stores. Separate smoking rooms may be established in residential health care or day treatment facilities for use by patients only, with the approval of the Fire Commissioner. If approved by the Health and Mental Hygiene Department, smoking is permitted in membership associations (where the members themselves provide all services without compensation) and tobacco bars.

Smoking is permitted in sidewalk cafes with no roof or other ceiling enclosure, in an area no larger than 25% of the total outdoor seating capacity, at least three feet away from the non-smoking outdoor area, where the area is clearly marked as a smoking area.

Enactment of this local law was subsequently complicated by the enactment of a similar State law, Chapter 13 of the Laws of 2003, which takes effect July 24, 2003. Where the State law is more restrictive, it preempts the local law. Therefore, although the local law allows separate smoking rooms in bars and makes an exception for owner operated bars, as of July 24, 2003 they are both prohibited by the State law. Both laws allow a facility to permit smoking at an event for promoting and sampling tobacco products where service of food and drink is incidental. Local law set the limit at five days per year; effective July 24, 2003 the state law lowers that limit to two days per year.

**ADDITIONAL
DATA
(continued)**

With respect to any workplace, smoking is prohibited in indoor areas to which the general public does not generally have access. An employer no longer has the option of establishing smoking rooms, and employees no longer have the ability to smoke in a private enclosed office. Smoking is prohibited in company vehicles occupied by more than one person whether or not the occupants consent. Smoking is also prohibited in all vehicles owned by the City.

DATE ISSUED: 08/01/13	DATE EFFECTIVE: 08/01/13	REVISION NUMBER:	PAGE: 1 of 3

SECOND-HAND DEALER - Any person who in any way or as a principal broker or agent deals in the purchase or sale of second-hand articles of any nature.

Pawnbrokers and second-hand dealers participating in, and actively uploading transactions to, this Department's authorized Electronic Reporting System are exempt from the requirement of manually filling out and preserving logs for inspection. By actively uploading their transactions on a daily basis, participating stores are allowing their records to be inspected via the Electronic Reporting System. Stores are requested to upload the day's transactions by the close of business each day.

**ADDITIONAL
DATA**

OPERATIONAL CONSIDERATIONS

Pawnbrokers and second-hand dealers are legitimate businesses that provide a service to the city. However, a pawnbroker or second-hand dealer can sometimes unknowingly be serving as a “fence” for unscrupulous criminals to sell their stolen products. Members assigned to perform functions relating to pawnbroker and second-hand dealer inspections are reminded that, while these inspections are designed to uncover administrative violations and are not for the purpose of uncovering criminal activity, any suspected criminal intelligence regarding a pawnbroker or second-hand dealer should be reported as per P.G. 212-12, “Citywide Intelligence Reporting System,” in addition to notifying the special operations lieutenant and precinct detective squad commander.

By conducting visits of pawnbrokers and second-hand dealers at least once every ten days, the respective precinct detective squad is provided the minimum amount of time required to conduct a follow-up investigation on select items before the items can be lawfully transferred. Precinct detective squad members will follow existing protocols regarding online follow-up inquiries.

The precinct detective squad commander will ensure that intelligence which may affect another precinct (i.e., recently arrested burglary parolee residing in another command) is brought to the attention of the applicable precinct detective squad commander and detective zone commanding officer.

LEGAL CONSIDERATIONS

Both pawnbrokers and second-hand dealers are licensed by the New York City Department of Consumer Affairs. Additional licenses may be required based on the nature of the business contained therein.

The focus of inspections is to ensure compliance with current administrative rules and regulations, and to encourage the development of a mutually cooperative relationship between pawnbrokers/second-hand dealers and this Department.

The Legal Bureau can be consulted for a complete list of licenses required for a particular location.

DEFINITIONS (continued)

- f. Are not related by consanguinity (blood) or affinity (marriage) and who are, or have been, in an intimate relationship regardless of whether such persons have lived together at any time.

NOTE

A common sense standard regarding the totality of the circumstances involving the relationship should be used to determine if an “intimate relationship” exists. Factors a member of the service may consider in determining whether a relationship is an “intimate relationship” include but are not limited to: the nature or type of relationship (the relationship between the involved parties does not have to be sexual in nature to be considered “intimate”); the frequency of interaction between persons; and the duration of the relationship. Neither a casual acquaintance nor ordinary fraternization between two individuals solely in a business, educational, or social context shall be deemed to constitute an “intimate relationship.” If unable to determine if the relationship in question is an “intimate relationship,” the member of the service concerned will request the response of the patrol supervisor.

Additional factors that may assist in determining the intimacy of a relationship include, but are not limited to: amount of time spent together in either a work or leisure related capacity, shared expenses and/or finances, extent of interaction with family members, etc.

All members of the service are reminded that their primary responsibility is to ensure the immediate and future safety of all parties involved in domestic violence incidents.

FAMILY/HOUSEHOLD (EXPANDED DEFINITION) INCLUDES SUBDIVISIONS “A” THROUGH “F” ABOVE, AND PERSONS WHO:

- g. Are currently living together in a family-type relationship.
h. Formerly lived together in a family-type relationship.

A family/household thus includes: “common-law” marriages, same sex couples, registered NYC domestic partners, different generations of the same family, siblings, in-laws, persons involved in “intimate relationships”, and persons who live or have lived together in a family-type relationship.

PROCEDURE

Upon making a reasonable determination that a child has been, is believed to be, or may be abused, neglected or maltreated:

WHEN IMMINENT DANGER TO CHILD’S LIFE OR HEALTH EXISTS:

UNIFORMED MEMBER OF THE SERVICE

1. Request response of patrol supervisor.

NOTE

Uniformed members providing a police escort for ACS caseworkers to households where guns, drugs, etc. may be present and/or violent incidents have been reported, must request the response of the patrol supervisor to their location.

3. Direct member to take the child into protective custody without permission if reasonable cause to believe that continued presence of the child in the home is imminently dangerous to life or health and there is not sufficient time to apply for a court order.

NOTE

An emergency removal without a court order may be performed by the following persons: peace officer, police officer, an agent of a duly incorporated Society for the Prevention of Cruelty to Children, a designated employee of a city or county Department of Social Services. The Family Court Act Sec. 1024 and Social Service Law Sec. 417 give ACS the same powers of removal as police officers. Once any authorized person decides to conduct an emergency removal, no member of this Department will revoke that decision.

IF PROBABLE CAUSE EXISTS THAT A CRIME HAS BEEN COMMITTED AGAINST A CHILD BY A FAMILY MEMBER:

UNIFORMED MEMBER OF THE SERVICE

4. Arrest perpetrator, if present, for appropriate offense(s) and comply with the pertinent provisions of P.G. 208-36 “Family Offenses/Domestic Violence.”

NOTE

*The perpetrator arrested will not be eligible for a **DESK APPEARANCE TICKET (DAT) (PD260-121)** or stationhouse bail. The non-abusing parent/legally responsible person will be encouraged to contact Safe Horizon for services to assist child. Members of the service should recognize that there is a strong correlation between child abuse and domestic violence; therefore, when a uniformed member of the service responds to the scene of suspected child abuse, the member of the service will look for indicators of domestic violence or other family offenses such as an existing order of protection, abuse of spouse, parent, etc. If an existing order has been violated, the member will take appropriate action i.e., effect an arrest or prepare **COMPLAINT REPORT WORKSHEET (PD313-152a)**.*

5. Prepare a **N.Y.S. Domestic Incident Report (DCJS 3321)** in ALL cases in which a member of the service responds to OR is apprised of an offense, altercation, disturbance, conflict, or dispute involving members of the same family/household, including any allegation of child abuse, neglect or maltreatment.
 - a. If prepared in response to a radio run, include SPRINT job number on form.
 - b. Give the **N.Y.S. Domestic Incident Report** (pink and gold copies), to the complainant/victim if present.

Police personnel will continue to notify the State Central Registry in accordance with step 13 of this procedure.*

8. Prepare and submit following forms to desk officer with the **N.Y.S. Domestic Incident Report:**
 - a. **AIDED REPORT WORKSHEET (PD304-152b)**

 - (2) Any allegation that a child **LESS THAN THIRTEEN YEARS OF AGE** is the victim of any sex crime or attempted sex crime committed by any person.

NOTE

In the Boroughs of Brooklyn and Queens, the appropriate Child Abuse Squad will be notified instead of the Special Victims Squad for cases that fit the criteria above.

*In all the above cases, enter the name of the detective notified and the log or case number assigned, under “DETAILS” on the **COMPLAINT REPORT**.*

If upon investigation it is determined that the incident involves the commission of a violation by the juvenile and not the commission of a felony or a misdemeanor, the juvenile shall not be removed from the school and transported to a Department facility.

SCOPE The Department's policy, for the safety of all concerned, will be to rear handcuff students who are arrested in a school facility unless mitigating circumstances dictate not to.

DEFINITIONS CONSTRUCTIVE RESTRAINT – Physical control, with no restraining device employed, using the minimal amount of physical force that is necessary to control movement in order to ensure the safety of the child (i.e., for use on a child who is obeying all commands).

ALTERNATIVE RESTRAINT – Nylon/Velcro restraining device for use on a child (based on factors in ADDITIONAL DATA statement) who poses a possible safety risk, risk of flight and/or non-compliance.

PROCEDURE Whenever effecting an arrest of a student inside a school facility within New York City:

- UNIFORMED MEMBER OF THE SERVICE**
1. Notify, confer, and coordinate actions with School Safety Division personnel prior to taking police action in a public school facility, unless exigent circumstances exist.
 2. Remove student, if possible, to a semi-private location (e.g. principal's office, school security office).
 3. Inform student of authority and cause, unless physical resistance, flight or other factors render such procedure impractical.
 4. Use appropriate level of restraint when applicable (e.g., handcuffs, constructive restraint, alternative restraint, etc.) based on factors described in ADDITIONAL DATA statement under heading, "OPERATIONAL CONSIDERATIONS."
 5. Request precinct school safety sergeant or, if unavailable, patrol supervisor to respond to the scene, if an arrest is effected.
 6. Inform school personnel of the decision to effect an arrest and the basis of that decision.

- PRECINCT SCHOOL SAFETY SERGEANT/PATROL SUPERVISOR**
7. Respond to school and verify that probable cause exists to support the arrest.
 8. Advise school personnel that an arrest will be effected.
 - a. Advise objecting school administrators within Department of Education facilities to contact their Legal Division.

OPERATIONAL CONSIDERATIONS

Constructive restraint or alternative restraints may be utilized when it is necessary to take a child into police custody.

The safety of all persons involved is the predominant factor in determining if a child should be restrained, and if restrained, which method is utilized. It is incumbent upon the member of the service (i.e., precinct school safety sergeant/patrol supervisor and/or designated school safety personnel) to use a reasonable belief standard in determining the level of restraint. Factors which may be considered in making this determination include the following:

- a. *Age of the child (generally a child who is less than twelve years of age; however, any child less than sixteen years of age is eligible for alternative restraint, dependent upon circumstances)*
- b. *Physical stature of the child*
- c. *Type of offense/nature of incident (including use of weapons)*
- d. *Presence of child’s parent/guardian*
- e. *The number of children being taken into custody*
- f. *The reputation of the child with school authorities (including whether the child has a history of emotional or behavioral difficulties)*
- g. *The child’s demeanor and compliance with instructions given by school staff, parents and members of the service*
- h. *Whether the child is demonstrating behavior that may cause imminent harm to himself/herself or others*
- i. *Whether there is possible risk of escape*
- j. *Medical, mental, physical and/or emotional condition/limitation of the child, if known.*

While restraining devices generally are not required when taking elementary school aged children into custody, if it has been determined by on-scene personnel that the use of a restraining device would be appropriate, the use of a nylon/Velcro device may be considered, in lieu of handcuffs. It should be noted that nothing in this directive would preclude the precinct school safety sergeant/patrol supervisor or school safety personnel from utilizing handcuffs, if deemed necessary for safety reasons. Handcuffs should only be used on children after other alternative methods of restraint are considered to be inadequate given the circumstances.

**ADDITIONAL
DATA
(continued)**

If upon investigation it is determined that the incident involves the commission of a violation by the juvenile and not the commission of a felony or a misdemeanor, the juvenile shall not be removed from the school and transported to a Department facility.

*If a juvenile has been removed from the field and brought to a Department facility, a notification must be made to the Juvenile Crime Desk. The Juvenile Crime Desk will assist supervisors in making a determination whether a juvenile should be released on a **JUVENILE REPORT SYSTEM WORKSHEET (PD377-159A)** or if the juvenile should be processed as a juvenile delinquent as per Patrol Guide 215-09, "Offense Committed by a Child Under 16 Years of Age (Other Than a Juvenile Offender).*

LEGAL CONSIDERATIONS

Whether probable cause to arrest exists will be determined by the Police Department. While the desires of school personnel (principals, teachers, etc.) may be considered by the uniformed member of the service in determining whether an arrest is warranted, the views of school personnel are NOT controlling. In the event a conflict arises between a uniformed member of the service who wishes to effect an arrest of a student and school personnel, the uniformed member of the service will request the response of the precinct school safety sergeant or, if unavailable, patrol supervisor.

Under no circumstances will school personnel be permitted to interfere with an arrest the precinct school safety sergeant or, if unavailable, patrol supervisor has deemed warranted.

DATE ISSUED: 09/06/13	DATE EFFECTIVE: 09/06/13	REVISION NUMBER:	PAGE: 1 of 2

PURPOSE

To establish procedures and guidelines for the confiscation of a New York City Transit Student Metro Card.

SCOPE

If a Student Metro Card is illegally possessed i.e., one which was legally issued to another, it will be confiscated and further police action will be taken depending upon the circumstances. When a student has committed a felony or a misdemeanor against New York City Transit property, employees or passengers, and possesses a Student Metro Card legally, that card will be confiscated and appropriate police action will be taken.

DEFINITION

STUDENT METRO CARDS - Utilized by students going to and from school and school events on New York City Transit subways and New York City/MaBSTOA local buses, as well as Staten Island Railroad trains at St. George Terminal. Student Metro Cards are valid from 0530 to 2030 hours on school days. Night School Student Metro Cards are valid from 1300 to 0100 hours. Student Metro Cards must be swiped in a turnstile and may not merely be displayed to permit entry. New York City Transit encourages students to sign their Metro Cards, but this is not a requirement. An unsigned card is valid, and should NOT be confiscated merely because it is unsigned.

PROCEDURE

When a Student Metro Card is confiscated:

UNIFORMED MEMBER OF THE SERVICE

1. Prepare **SCHOOL TRANSPORTATION PASS CONFISCATION REPORT (PD516-170)**.

IF IT IS SUSPECTED THAT THE CARD MAY HAVE BEEN REPORTED LOST OR STOLEN:

UNIFORMED MEMBER OF THE SERVICE

2. Call the New York City Transit Fare Media Unit for school of issuance.
3. Call the school where the card was issued, to verify if the card has been reported lost or stolen.
4. Indicate on the **SCHOOL TRANSPORTATION PASS CONFISCATION REPORT**, when lost/stolen card verification cannot be made during non-business hours.
5. Prepare other Department reports as required.
6. Record all information in **ACTIVITY LOG (PD112-145)**.

DATA**

Certain categories of Metro Cards produce different colored lights at the turnstile. Student Metro Cards produce an amber light; police and transit employee Metro Cards produce a green light; and half-fare cards (senior citizens, handicapped, etc.) produce a red light. No light is produced by a full fare Metro Card. Police officers may detect the improper use of a Student Metro Card by an adult, or of an adult employee's card by a youth, by noticing the color of light produced when the card is swiped. Questions about the proper use of Metro Cards may be referred to the New York City Transit Fare Media Unit.

POLICE ACTIONS, RELATED QUESTIONING, ARRESTS AND INVESTIGATIONS AT DEPARTMENT OF EDUCATION FACILITIES			
DATE ISSUED: 09/06/13	DATE EFFECTIVE: 09/06/13	REVISION NUMBER:	PAGE: 1 of 2

PURPOSE

To establish the protocols for police actions, related questioning, arrests and investigations at Department of Education facilities.

PROCEDURE

When taking police action at Department of Education facilities:

UNIFORMED MEMBER OF THE SERVICE

1. Coordinate activities with School Safety Division personnel, if practicable, when taking police action on or contiguous to Department of Education property/facilities.
2. Confer with principal/school staff, except if exigent circumstances exist, when entering Department of Education school/facility to take police action.
3. Request precinct school safety sergeant or, if unavailable, patrol supervisor to respond to the scene, if an arrest is effected.

ADDITIONAL DATA

INVESTIGATIVE CONSIDERATIONS

The School Safety Division has at least one school safety agent assigned to every public school in New York City. School safety agents possess a wealth of information regarding schools to which they are assigned (i.e., students, key school staff, and facility layout [locations of entrances and exits, floor plans], etc.). Thus, every effort must be made by members responding to public schools to confer with School Safety Division personnel prior to taking enforcement action, unless exigent circumstances exist.

LEGAL CONSIDERATIONS

WHEN POLICE ACTION INVOLVES QUESTIONING, ARREST, OR INVESTIGATION

When a uniformed member of the service wishes to investigate a school-related crime, the principal/designee must permit the interviewing of school staff, or other non-student witnesses/victims. These individuals, however, may not be compelled to submit to such questioning.

When a uniformed member of the service wishes to question a student in school regarding a school-related crime, the principal/designee will make every reasonable effort to contact the student's parent/guardian. If notification is made, the member of the service shall consult with the parent/guardian about how the parent/guardian wishes to proceed. If the parent/guardian does not object, the principal/designee must allow the student to be questioned. If the parent/guardian cannot be reached, the principal/designee must permit the uniformed member of the service to question the student under the following circumstances:

- a. *If the parent/guardian of a student who is suspected of committing a crime cannot be reached, the uniformed member of the service may not question the student unless the member feels there is a continued threat of imminent danger.*
- b. *If a parent/guardian of a student who is not a suspect (i.e. victim or witness) cannot be reached, a uniformed member of the service may not question the student unless there are exigent circumstances warranting proceeding with the questioning.*

PATROL GUIDE

PROCEDURE NUMBER:	DATE EFFECTIVE:	REVISION NUMBER:	PAGE:
215-17	09/06/13		2 of 2

**ADDITIONAL
DATA
(continued)**

- c. *In cases where questioning is conducted without parental notification, the principal or designee may be present during the questioning. The principal or designee, however, may not compel a student to submit to questioning.*

Imminent danger or exigent circumstances may include, but are not limited to, an active investigation of a violent crime including homicide, arson, robbery, sex offenses, weapons possession, or assault where there are reasonable grounds to believe that a current or former student is a suspect, or has information concerning the investigation, that is necessary to protect the health or safety of students or others.

When a uniformed member of the service wishes to access student information from Department of Education records regarding an investigation or arrest, a court order or subpoena must be obtained unless there is a health or safety emergency, consent of the student's parent/guardian, or consent of the student, if eighteen years of age or older. Absent such court order or subpoena, or exceptions above, principals or other school staff will not release student information. This includes NYPD school safety agents.

A health or safety emergency is a situation which presents imminent danger (as described above) or which requires the immediate need for information to avert or defuse unusual conditions or disruptions.

SEARCH PROTOCOLS FOR SCHOOL SAFETY AGENTS			
DATE ISSUED: 09/06/13	DATE EFFECTIVE: 09/06/13	REVISION NUMBER:	PAGE: 1 of 3

PURPOSE

To establish the protocols for the search of students, their possessions, and their lockers by School Safety Division personnel.

SCOPE

A student’s possessions and person may be searched by a school safety agent provided that school officials have reasonable suspicion to believe that the search will turn up evidence that the student has violated or is violating either the law or school rules and regulations. The extent or the scope of the search must be reasonably related to the objective of the search and not excessively intrusive in light of the age and sex of the student and the nature of the infraction.

PROCEDURE

When conducting searches of students, their possessions, or their lockers:

SEARCH OF STUDENTS AND THEIR POSSESSIONS (BAGS, CLOTHING, ETC.)

SCHOOL SAFETY AGENT

1. Conduct searches of students and their belongings only on behalf of principals or their designee, except if an emergency condition exists. (See ADDITIONAL DATA statement under heading, “EMERGENCY SEARCHES OF STUDENTS AND THEIR POSSESSIONS”).
2. Bring the student to a location designated by the principal or designee, if it is determined that a search is warranted.
3. Inform the student that there are reasonable grounds to believe that they have violated or are violating the law or school rules and regulations.

SCHOOL PRINCIPAL/DESIGNEE

4. Question the student as to whether he/she has anything in their possession **not** permitted in school, prior to conducting the search. If the student acknowledges that he/she is in possession of contraband, ask the student to remove it from their person or belongings.

SCHOOL SAFETY AGENT

5. Remove the item, which is believed to be evidence of the student violating a law or school rules and regulations, if student refuses to remove same when asked by principal/designee.

SEARCH OF LOCKERS

SCHOOL SAFETY AGENT

6. Inform the principal or designee when there is reasonable suspicion that a student’s locker contains contraband.
7. Search locker, only at the direction of principal or designee, except if an emergency condition exists. The principal or designee must be present while the search of the locker is conducted. (See ADDITIONAL DATA statement under heading, “EMERGENCY SEARCHES OF LOCKERS”).

WHEN A STUDENT IS FOUND TO BE IN POSSESSION OF CONTRABAND

SCHOOL SAFETY AGENT

8. Notify the command concerned, if item is a violation of law, and follow appropriate procedure for the invoicing of property and arrest of student(s).
9. In non-arrest circumstances, request precinct personnel to respond to take custody of the contraband and invoice items seized.
10. Take control of and invoice the property under Department of Education procedures, if item is a violation of school rules and regulations **only**.

ADDITIONAL DATA

LEGAL CONSIDERATIONS

Nothing in this procedure supersedes the rights and responsibilities of uniformed members of the service regarding search and seizure under applicable provisions of the Criminal Procedure Law.

SEARCH GUIDELINES

If the student declines to remove the item or denies possession of any contraband, a search may be conducted at the direction of the principal/designee. To the maximum extent possible, if the search involves contact with the student, the search shall be conducted by a school safety agent of the same gender as the student being searched. In situations where a student's gender is not immediately apparent or a student objects to the gender of the school safety agent assigned to perform the search, the school safety agent's supervisor will assign a school safety agent of the gender requested by the student, consistent with school safety agent safety and resource availability. Consistent with the privacy concerns of the student, only those school safety agents reasonably necessary to conduct the search should be present for the search. Under no circumstances shall school safety agents conduct searches for the purpose of determining gender. Additionally, school safety agents shall not ask questions about a student's anatomy without a reasonable basis for doing so. Refer to P.G. 203-10, "Public Contact – Prohibited Conduct."

Under no circumstances will a strip-search of a student be conducted.

EMERGENCY SEARCHES OF STUDENTS AND THEIR POSSESSIONS

An emergency condition is an incident that requires immediate intervention to protect the safety and security of the school community or any person. A search may be conducted if there is reasonable suspicion to believe that a student has violated or is violating the law or school rules and procedures. Once the emergency condition is under control, the school safety agent will immediately take the student to the principal or designee and advise the principal/designee of the situation.

EMERGENCY SEARCHES OF LOCKERS

An emergency condition is one that requires immediate intervention to protect the safety and security of the school community or any person. Once the situation is under control, the principal or designee will be immediately advised of the situation.

ABANDONED INFANTS/OPERATION SAFE HAVEN			
DATE ISSUED: 08/01/13	DATE EFFECTIVE: 08/01/13	REVISION NUMBER:	PAGE: 1 of 3

PURPOSE

To ensure the safety of any abandoned infant and familiarize uniformed members of the service with the provisions of the Abandoned Infant Protection Act.

SCOPE

The Abandoned Infant Protection Act is designed to protect the lives of newly born infants by encouraging that they be left with a responsible person or in a safe, suitable location (a “safe haven”) rather than simply abandoned in a possibly dangerous way. The law establishes an affirmative defense to the crime of Abandonment of a Child (Penal Law 260.00) and Endangering the Welfare of a Child (Penal Law 260.10), in certain circumstances as follows:

- a. The abandoned infant appears to be not more than five days old, and,
- b. The person abandoning the child intends for the child to be safe from physical injury and to be cared for in an appropriate manner, and,
- c. The person abandoning the child indicates such intent by leaving the child with a responsible person or in a safe haven (e.g. hospital, firehouse, police precinct, etc.), and promptly notifies a responsible person of the child’s location.

NOTE

The law does not provide an affirmative defense to other charges such as assault.

PROCEDURE

ADDITIONAL DATA

*The Department must balance the need of the Department of Education to comply with the federal regulations against the privacy rights of the complainant. For this reason, members of the service who process these requests must do so in a thorough and timely manner, but report the results in a way that only relates the facts necessary for school administrators to determine if a qualifying incident has in fact occurred. The sample below provides the format best suited to this end. In the interest of efficiency, commands may utilize a pre-printed letter on **OFFICIAL LETTERHEAD** to prepare the report. Should the principal or designee request information beyond whether a qualifying incident has been reported, such as the alleged details of an incident or the progress of an investigation, the member will confer with both the detective assigned and the Deputy Commissioner, Legal Matters.*

All reports will be formatted with proper date, salutation and signature block in accordance with Department procedure for preparing correspondence. The body of the text will be prepared as such:

SAMPLE

*A search of Department records indicates that a report has/has not [**specify one**] been filed naming [**name specified in request**] as a complainant in an incident.*

ADDITIONAL DATA

Juvenile Desk personnel will make a recommendation whether to remand or release on recognizance a juvenile based on several factors including the age of the juvenile, the offense charged, the information provided by the arresting officer, and the results of comprehensive background checks of the juvenile and their parent(s). The ultimate decision making authority, however, remains with the supervisor at the detention command. This provides the flexibility to respond to information or circumstances known only to supervisors at the field command. However, the discretion to depart from the recommendations of the Juvenile Desk should be founded on the rationale that the Department will act on the principle of “what is best for the child” balanced by appropriate measures to discourage future criminal behavior. Examples of considerations that should not impact discretion are the availability of vehicles for transport or shortage of personnel. In cases where conditions in the field necessitate a departure from the Juvenile Desk recommendation, the desk officer must confer with a Juvenile Desk supervisor. If after conferral with the Juvenile Desk supervisor, the desk officer’s decision is to not follow the recommendation of the Juvenile Desk, the commanding officer of the command of detention, will prepare a report, on Typed Letterhead, to the Assistant Commissioner, Juvenile Justice Division explaining the reason for the non-compliance.

*School safety agents who detain and remove a juvenile to a police facility for arrest processing or for the issuance of a **JUVENILE REPORT SYSTEM WORKSHEET** and **COMPLAINT REPORT WORKSHEET**, as per P.G. 215-08, “On-Line Juvenile Report System,” are also required to comply with the above procedure. When school safety agents have removed a juvenile to a police facility for processing, they will notify the School Safety Division (SSD) Operations Center prior to calling the Juvenile Desk. The SSD Operations Center member will issue the agent a SSD Operations Center serial number for entry on a **SCHOOL SAFETY DIVISION CRIMINAL INCIDENT REPORT (PD313-147)**, if appropriate. When the detention of a juvenile takes place within school grounds, the SSD Operations Center will contact the Juvenile Desk on behalf of the arresting agent, if necessary. This process will ensure that the SSD Operations Center remains aware of all enforcement activity occurring in and around New York City public schools.*

It is not the function of the Juvenile Desk to collect or disseminate statistical data on juveniles and juvenile incidents.

COURT PROCESSING OF ARRESTS OF JUVENILE DELINQUENTS ON WEEKENDS AND COURT HOLIDAYS			
DATE ISSUED: 08/01/13	DATE EFFECTIVE: 08/01/13	REVISION NUMBER:	PAGE: 1 of 4

PURPOSE

To provide for the appearance of arresting officers at the weekend Department of Probation intake location, at the Corporation Counsel office, when a juvenile delinquent has been taken into custody, delivered to Horizon Juvenile Center, and the respective borough Family Court will not be in session due to the weekend or court holiday

DEFINITIONS

BOROUGH FAMILY COURT- A location in the borough of arrest where juvenile delinquents are routinely brought to be arraigned during non-holiday weekdays.

WEEKEND/HOLIDAY COURT PROCESSING – When a juvenile delinquent is taken into custody and does not qualify for personal recognizance and the borough Family Court will not be in session the next calendar day due to the weekend or holiday, the arresting officer will appear at Manhattan Criminal Court to process the arrest.

MANHATTAN CRIMINAL COURT – All weekend/holiday juvenile delinquent court processing will take place at Manhattan Criminal Court. The Manhattan Criminal Court is located at 100 Centre Street.

PROCEDURE

When a juvenile delinquent has been taken into custody and does not qualify for personal recognizance and the borough Family Court will not be in session the next calendar day due to the weekend or court holiday:

DESK OFFICER

1. Notify the Real Time Crime Center Juvenile Desk when juvenile is detained and removed to a police facility.
2. Provide detained juvenile’s pedigree, primary charge and any other information the juvenile crime desk analyst requests.
3. Ensure multiple arrests resulting from one incident, which will be arraigned in Family Court and Criminal Court, are separated and assigned to two different arresting/assigned officers.
 - a. Be guided by *P.G. 208-20, “Turnover Arrests”* when re-assigning an arrest.
 - b. Ensure assigned officer is given arrest(s) which will be arraigned in Criminal Court.

NOTE

Due to the challenges that may occur when processing prisoners in two different courts (Family and Criminal Court), it is mandated that an arrest involving an adult/juvenile offender and juvenile delinquent be separated and assigned to different officers (e.g., juvenile delinquent processed in Family Court; adult prisoner/juvenile offender processed in Criminal Court). The assigned officer given the arrest(s) that will be arraigned in Criminal Court must re-interview the complainant/witness in order to prevent double “hearsay.”

9. Have officer delivering juvenile to Horizon Juvenile Center provide Department of Juvenile Justice intake personnel with one copy of **ON LINE BOOKING SYSTEM ARREST WORKSHEET (PD244-159)**, **COMPLAINT REPORT (PD313-152)**, if prepared, and **JUVENILE ARREST INVESTIGATION/PROBATION INTAKE REPORT (PD277-151)**.

17. Inform court section supervisor and desk officer of command, if notified by judge or Corporation Counsel, to appear for subsequent hearings.

DESK OFFICER

18. Make entry in Telephone Record pertaining to required uniformed member's appearance for subsequent hearings.
19. Ensure Appearance Control Unit is notified the next business day of requested appearance.
20. Notify the operations coordinator and integrity control officer of any mandatory overtime and/or appearance for members of the service who are required to be present at court on a weekend or court holiday.

NOTE

Due to the possibility of short-date notifications, desk officers should be aware that the Corporation Counsel may contact the command to have a uniformed member notified for a court appearance. When a member of the service is not at the command (i.e., regular day off, at a training session, etc.) the desk officer will attempt to notify the member of the service by telephone. All such attempts must be documented in the Telephone Record.

ADDITIONAL DATA

*Members of the service are reminded to adhere to current Department procedures when obtaining a return date for an **APPEARANCE TICKET-FAMILY COURT (PD277-130)** for juvenile(s) released on personal recognizance. Return dates for juvenile(s) released on personal recognizance do not have to coincide with a Weekend/Holiday Pre-Petition Detention Hearing scheduled for juvenile(s) delivered to Horizon Juvenile Center. Arraignments for juveniles released on personal recognizance can be held at a later date.*

Desk officers are reminded of their obligation to forward DNA, narcotics and firearm evidence to the Police Laboratory in a timely manner as outlined in P.G. 218-04, "Delivery of Evidence to the Police Laboratory" and P.G. 218-49, "Immediate Delivery of DNA Evidence to the Police Laboratory and the Office of the Chief Medical Examiner (OCME)."

Desk officers will ensure uniformed members of the service are provided with a means of transportation to Manhattan Criminal Court. School Safety personnel will contact their Operations Desk in order to coordinate transportation to Manhattan Criminal Court.

If a complainant/victim has difficulty in finding transportation to Manhattan Criminal Court, a reasonable effort should be made by the command to provide transportation. Under no circumstances will such effort take priority over the field operations of the command.

In all cases in which photographs are taken of juveniles as part of this procedure, the newly created "Photograph Background Board" MUST be used. This gray colored board is used to ensure that all juvenile photographs have the same color background.

Should the Photograph Background Board need to be repaired or replaced, notify the Facilities Management Division.

Absent unusual circumstances, the new Photograph Background Boards should also be used for adult digital Prisoner Movement Slip photographs.

4. Direct the arresting officer to photograph the juvenile delinquent or juvenile offender utilizing the command's Digital Camera Capture Station System.

NOTE

The official arrest photograph for juveniles charged as juvenile delinquents will be the photograph taken at the command of arrest utilizing the Digital Camera Capture Station System.

The official arrest photograph for juveniles charged as juvenile offenders will be the photograph taken at the borough court section booking facility. However, if a determination is subsequently made to charge the juvenile as a juvenile delinquent and not a juvenile offender, then the official arrest photograph taken at the borough court section booking facility will be deleted, and the Digital Camera Capture Station System photograph will become the official arrest photograph.

ADDITIONAL DATA

When an aided person is placed in care of ambulance or medical personnel at a hospital, the authority and responsibility for the medical care of the aided rests solely with hospital personnel. Uniformed members of the service concerned shall cooperate with ambulance/hospital personnel in every reasonable manner.

If a person is unconscious in a manhole, the uniformed member of the service concerned should immediately request the services of the Emergency Service Unit. If there is reason to believe that the victim was asphyxiated by lack of oxygen, or toxic gas in the manhole, the member WILL NOT DESCEND into the manhole unless equipped with a self-contained oxygen breathing apparatus such as a Scott Air Pack, NOT a filter mask as used by the military. If a person is unconscious in a manhole and there is reason to believe the atmosphere in the manhole is safe, the member concerned, before descending into the manhole, shall obtain a rope or similar article and tie the rope, etc., securely around his/her body. A capable person outside the manhole should hold the free end.

A member of the service (uniformed or civilian) who receives a report of a crime involving personal physical injury, death or loss of essential personal property to an innocent crime victim will notify the victim, or a dependent or surviving relative, of the State Crime Victim's Compensation Program and that additional information and applications are available at any precinct stationhouse, police service area or transit district.

Whenever a uniformed member of the service is present at the scene of an aided case that is not life threatening, and there is a difference of opinion between the aided, aided's family, or other interested parties and Emergency Medical Service (EMS) personnel relative to the medical treatment or removal of the aided to a hospital, the member concerned will IMMEDIATELY request the patrol supervisor and an EMS supervisor to respond to the scene. If the patrol supervisor is not available, the Communications Section dispatcher will automatically direct the patrol supervisor from the adjoining command to respond without delay.

The patrol supervisor will immediately respond to ascertain the facts, and if the situation is resolved, the request for the EMS supervisor will be canceled. If the situation cannot be properly resolved, the patrol supervisor will make a second request for an EMS supervisor to respond to the scene.

When responding to an aided case, and the aided is the victim of domestic violence, uniformed members concerned will ensure that photographs are taken of the visible injuries, as per Patrol Guide 208-39, "Family Offenses/Domestic Violence (Digital Photography of Visible Injuries/Damaged Property)."

*LifeNet is a treatment referral program for individuals or families in need of counseling assistance outside the purview of this Department, e.g., drug/alcohol abuse, mental health related issues, the lonely and confused, etc. Members of the service responding to aided cases encountering such individuals or families are directed to give to them a **LifeNet Information Card (Misc. 4203)** which contains the program's telephone numbers. LifeNet personnel are accessible 24 hours a day, 7 days a week, 365 days a year. LifeNet is not intended as an alternative means by which to handle mentally ill or emotionally disturbed persons who may pose a danger to themselves or others. In such situations, members will comply with P.G. 216-05, "Mentally Ill or Emotionally Disturbed Persons."*

**ADDITIONAL
DATA
(continued)**

Uniformed members of the service at the scene of an incident at which an aided is acting in a deranged, erratic manner apparently caused by a drug overdose (e.g., cocaine psychosis, angel dust, heroin overdose, etc.) will request the response of the patrol supervisor. If an ambulance is not immediately available, the supervisor will determine if aided should be removed to the appropriate hospital by utilizing an RMP or await the arrival of an ambulance. The aided is not to be brought to a police facility.

*Cocaine induced psychosis or other illegal drug usage may cause violent behavior, which may be a means of self-defense against imagined persecutors. In addition to paranoia, the individual may experience visual, auditory, or tactile (e.g., bugs crawling under the skin, etc.), hallucinations, high body temperature and seizures. Since sudden death may ensue, uniformed members of the service are reminded to have such person brought to an appropriate hospital facility and **NOT TO A POLICE FACILITY**.*

*Pending arrival of an ambulance, the uniformed member should allow a sick/injured person to be treated by a doctor, emergency medical technician or paramedic, if such person volunteers his/her services, and the uniformed member reasonably believes the volunteer is a professional. The medical attention should take place, if possible, under the observation of the member concerned. When the emergency situation is under control, request identification from volunteer, including name and address, and record information in **ACTIVITY LOG** and under "Details" on **AIDED REPORT WORKSHEET**. The volunteer's role is limited to providing medical assistance **ONLY**. Determination regarding removal procedures via ambulance, Medivac, etc., will be determined by Emergency Medical Service personnel.*

MENTALLY ILL OR EMOTIONALLY DISTURBED PERSONS			
DATE ISSUED: 08/01/13	DATE EFFECTIVE: 08/01/13	REVISION NUMBER:	PAGE: 1 of 5

PURPOSE

To safeguard a mentally ill or emotionally disturbed person who does not voluntarily seek medical assistance.

SCOPE

The primary duty of all members of the service is to preserve human life. The safety of ALL persons involved is paramount in cases involving emotionally disturbed persons. If such person is dangerous to himself or others, necessary force may be used to prevent serious physical injury or death. Physical force will be used **ONLY** to the extent necessary to restrain the subject until delivered to a hospital or detention facility. Deadly physical force will be used **ONLY** as a last resort to protect the life of the uniformed member of the service assigned or any other person present. If the emotionally disturbed person is armed or violent, no attempt will be made to take the EDP into custody without the specific direction of a supervisor unless there is an immediate threat of physical harm to the EDP or others are present. If an EDP is not immediately dangerous, the person should be contained until assistance arrives. If the EDP is unarmed, not violent and willing to leave voluntarily, a uniformed member of the service may take such person into custody. When there is time to negotiate, all the time necessary to ensure the safety of all individuals will be used.

DEFINITIONS

EMOTIONALLY DISTURBED PERSON (EDP) - A person who appears to be mentally ill or temporarily deranged and is conducting himself in a manner which a police officer reasonably believes is likely to result in serious injury to himself or others.

ZONE OF SAFETY - The distance to be maintained between the EDP and the responding member(s) of the service. This distance should be greater than the effective range of the weapon (other than a firearm), and it may vary with each situation (e.g., type of weapon possessed, condition of EDP, surrounding area, etc.). A minimum distance of twenty feet is recommended. An attempt will be made to maintain the “zone of safety” if the EDP does not remain stationary.

PROCEDURE

When a uniformed member of the service reasonably believes that a person who is apparently mentally ill or emotionally disturbed, must be taken into protective custody because the person is conducting himself in a manner likely to result in a serious injury to himself or others:

UNIFORMED MEMBER OF THE SERVICE

1. Upon arrival at scene, assess situation as to threat of immediate serious physical injury to EDP, other persons present, or members of the service. Take cover, utilize protective shield if available and request additional personnel, if necessary.
 - a. If emotionally disturbed person’s actions constitute immediate threat of serious physical injury or death to himself or others:
 - (1) Take reasonable measures to terminate or prevent such behavior. Deadly physical force will be used only as a last resort to protect the life of persons or officers present.

PATROL GUIDE

PROCEDURE NUMBER:	DATE EFFECTIVE:	REVISION NUMBER:	PAGE:
216-05	08/01/13		2 of 5

NOTE *Damaging of property would not necessarily constitute an immediate threat of serious physical injury or death.*

UNIFORMED MEMBER OF THE SERVICE (continued)

- b. If EDP is unarmed, not violent and is willing to leave voluntarily:
 - (1) EDP may be taken into custody without the specific direction of a supervisor.
- c. In all other cases, if EDP's actions do not constitute an immediate threat of serious physical injury or death to himself or others:
 - (1) Attempt to isolate and contain the EDP while maintaining a zone of safety until arrival of patrol supervisor and Emergency Service Unit personnel.
 - (2) Do not attempt to take EDP into custody without the specific direction of a supervisor.
- 2. Request ambulance, if one has not already been dispatched.
 - a. Ascertain if patrol supervisor is responding, and, if not, request response.

NOTE *Communications Section will automatically direct the patrol supervisor and Emergency Service Unit to respond to scene in such cases. Patrol supervisors' vehicles are equipped with non-lethal devices to assist in the containment and control of EDP's, and will be used at the supervisor's direction, if necessary.*

- 3. Establish police lines.
- 4. Take EDP into custody if EDP is unarmed, not violent and willing to leave voluntarily.
- 5. Verify that Emergency Service Unit is responding, if required.
 - a. Cancel response of Emergency Service Unit if services not required.
- 6. Direct uniformed members of the service to take EDP into custody if unarmed, not violent, and willing to leave voluntarily.

PATROL SUPERVISOR

NOTE *When aided is safeguarded and restrained comply with steps 25 to 32 inclusive.*

WHEN AIDED IS ISOLATED/CONTAINED BUT WILL NOT LEAVE VOLUNTARILY:

PATROL SUPERVISOR

- 7. Establish firearms control.
 - a. Direct members concerned not to use their firearms or use any other deadly physical force unless their lives or the life of another is in imminent danger.
- 8. Deploy protective devices (shields, etc.).
 - a. Employ non-lethal devices to ensure the safety of all present (see "ADDITIONAL DATA" statement).
- 9. Comply with provisions of P.G. 212-38, "Hostage/Barricaded Person(s)," where appropriate.

EMERGENCY SERVICE UNIT SUPERVISOR

15. Report to and confer with ranking patrol supervisor on scene.
 - a. If there is no patrol supervisor present, request response forthwith, and perform duties of patrol supervisor pending his/her arrival.

HOSPITAL TRANSPORTS

If the patient is initially treated in a hospital other than the one cited in the Removal Order and later released, he or she must still be transported to the hospital named in the Order. When the assigned member is informed by hospital staff that the patient is ready to be transported, he/she will notify the desk officer concerned. The desk officer will then request that an EMS ambulance be dispatched to the hospital where the patient is located for a “Kendra’s Law” transfer. EMS will transport the patient and the assigned member to the hospital named on the Removal Order.

However, if the patient is admitted to the initial hospital, even though it is not the hospital named in the Order, NYPD personnel will no longer be required to accompany the patient. The assigned member will notify the desk officer of the circumstances, and that the patient has been admitted. The borough command and Operations will be notified in turn, as noted above. Operations will notify the appropriate AOT Team of the circumstances, and the AOT Team will seek to have the Removal Order vacated.

Sheriff’s Department or NYPD personnel may be required to return at a later time to assist in the transport of the subject to another hospital.

Due to the medical conditions of the patient and the Department's responsibility to minimize exposure of the patient to others, it is imperative that they be transported only to the designated Health and Hospitals Corporation facility. This includes those situations where the subject to be removed engages in conduct where an arrest is effected for other than refusal to comply with the DOHMH physician/peace officer's order. **ADDITIONAL
DATA
(continued)**

When making a determination as to when an extended roadway closure should be placed into effect in order to assist in a collision investigation (including the length of time a closure will remain in effect and whether or not to partially or fully close the roadway), the severity of injuries sustained by the individual(s) involved should be weighed versus other contributing factors (i.e., the time and day of occurrence, the specific type of roadway involved [e.g., arterial highway, major thoroughfare, etc.], the ability to effectively detour traffic and the need to preserve evidence at the scene). Operations Unit personnel will ensure that the Traffic Management Center is aware of any closures involving an arterial highway.

If a moving violation summons is issued and the violation resulted in a collision that caused the death or serious physical injury of someone other than the violator, the summoning officer must write “D” for death or “SPI” for serious physical injury in the “Description/Narrative” section of the summons.

LEGAL CONSIDERATIONS

In accordance with Vehicle and Traffic Law, Section 1194.1 subsection (b), when requested to do so, all operators of vehicles involved in motor vehicle accidents are required to submit to a breath test for alcohol.

*If Department vehicle involved in collision is not permanently assigned to precinct of occurrence, send duplicate copies of **Police Accident Report** and **COLLISION REPORT - POLICE DEPARTMENT VEHICLE** to commanding officer concerned.*

All Bureaus (OCCB, Transit, Housing, etc.,) should designate a supervisory member of the service to review reports involving members of their command.

All Bureaus executive officers should review the semi-annual Department Vehicle Collision Summary report prepared by the Personnel Bureau and, where needed, develop appropriate collision reduction programs specific to their bureaus.

Operators of Department vehicles involved in a collision are advised to stop the vehicle immediately; extinguish any cigarettes; utilize four-way flashers; raise the vehicle’s hood; and utilize flares or any other warning devices. The vehicle should be moved only if its location is hazardous and likely to cause additional collisions.

*When deemed appropriate, if collision involves death or injury, the responding precinct commander/duty captain may immediately direct that the operator and/or recorder not be assigned to duty in a Department vehicle, if such action is based upon his/her determination, after investigation at the scene. This immediate action, as well as any further action, will be subject to review by the member(s) precinct/unit commander. All proposed disciplinary action will be indicated on the **COLLISION REPORT - POLICE DEPARTMENT VEHICLE** as a recommendation.*

**ADDITIONAL
DATA
(continued)**

If the need to interview a member of the service under the provisions of P. G. 206-13, "Interrogation of Members of the Service" becomes apparent and a serious violation is alleged or sufficient justification is present, although the violation is minor, a member will be permitted sufficient time to have a representative respond prior to start of interview.

Members of the service who were involved in Department vehicle collisions in which it has been determined that the member's driving ability was a contributory factor to the incident would benefit from the Driver Training Unit's "Collision Retraining Course." However, depending upon the circumstances, other corrective measures such as disciplinary action may be more appropriate. Therefore, to insure that only those members who would benefit are scheduled for retraining, the following guidelines are offered.

Driver retraining should be implemented only if the operator of a Department vehicle is determined to be at fault due to a driving deficiency, based on factors such as:

- a. weather conditions which affect the road surface*
- b. loss of control*
- c. backing*
- d. fender judgment*
- e. mirror usage (vans)*
- f. avoiding obstructions, debris, potholes*
- g. braking*
- h. turn negotiation*

*The precinct/unit commander will be responsible for ensuring that appropriate individuals attend collision retraining within **ninety days** of the collision. These provisions will be strictly adhered to absent exigent circumstances, i.e., extended sick leave or other valid reasons preventing timely retraining.*

Commanding officers are reminded that the Driver Training Unit is a tool best utilized to improve a member's overall driving performance. It should not be viewed as disciplinary action. The Commanding Officer, Driver Training Unit, is available to all commanders for conferral whether scheduling a specific member for retraining would be appropriate.

New York State Vehicle and Traffic Law (Section 1104 A - V.T.L.) allows the driver of an authorized emergency vehicle, when involved in an emergency operation, to disregard regulations with certain conditions. These conditions include proceeding past a steady red signal, but only after slowing down as may be necessary for safe operation, or exceeding the maximum speed limits as long as life and property are not endangered. However, it should be noted that disciplinary action would be more appropriate than driver retraining for those members who are involved in vehicle collisions which occurred as a result of their unsafe disregard of such regulations, as opposed to the member merely having deficient driving skills.

*Report vandalism to a Department vehicle on **Typed Letterhead** to Fleet Services Division and deliver report to borough service station with vehicle.*

Commanding Officer, Personnel Safety Desk, will forward a copy of reports received to Police Academy, Driver Training School.

Amounts of property damage sustained are often unable to be determined in a timely fashion, and whether an injury has in fact occurred, or will be claimed at a future date, is often undetermined. Therefore, investigating supervisors of uniformed members of the

service involved in a Department vehicle collision will prepare a **MV104L**. The **MV104L** will be prepared at the time of the collision and attached to the **Police Accident Report (MV104AN)** prior to forwarding. Civilian members of the service involved in a Department vehicle collision will prepare **MV104**. The **MV104** will be prepared at the time of the collision and should the member of the service involved be incapacitated and unable to complete the form, the investigating supervisor will do so. (This is in addition to the **Police Accident Report [MV104AN]** prepared by the investigating supervisor). Failure to report a collision by a civilian member of the service to the Commissioner of Motor Vehicles, by not forwarding a copy of a **MV104**, is a misdemeanor and shall constitute grounds for the suspension or revocation of the member of the service driver's license.

In accordance with New York State Insurance Department Regulations, the operator of a Department vehicle may not be penalized (charged) by a private insurance company for a Department vehicle collision that occurred during the performance of duty. Likewise, insurance companies may not cancel a member of the service's personal automobile insurance policy on the basis of such collisions.

In the event that a member of the service's private automobile insurance policy is surcharged, cancelled, or not renewed unjustifiably as a result of a Department vehicle collision, such member should notify his/her commanding officer. The commanding officer concerned will prepare an **OFFICIAL LETTERHEAD (PD158-151)** to the insurance company concerned, (see Sample). The member concerned should also contact:

- a. Different property types
- b. Different property categories
- c. Different owners
- d. Property that will be delivered to different locations (e.g., Police Laboratory, Property Clerk, Bomb Squad, OCME, etc.).

When preparing a **PROPERTY CLERK INVOICE** where the items invoiced will be sent or have the potential to be sent to the Police Laboratory for laboratory analysis, the **INVOICE** will not exceed twenty line items.

Uniformed members of the service who do not have a username and/or password and members of other police agencies will sign **PROPERTY CLERK INVOICE** utilizing the digital signature device.

When a vehicle removed by the Sanitation Department or invoiced by this Department has obvious fire damage, the invoicing member will notify Fire Department borough dispatcher; however no **COMPLAINT REPORT (PD313-152)** will be prepared. A Fire Marshal will determine if arson occurred and prepare a **COMPLAINT REPORT**, if necessary.

To avoid confusion, do not use the terms "pairs" or "sets" when invoicing property (e.g., a "pair" of trousers, scissors, etc., refers to one item while a "pair" of shoes, gloves, etc., refers to two items). The term "set" (e.g., chess set, golf set, etc.) does not specifically indicate how many items within the "set." Therefore, when invoicing property, the actual number of items will be entered in the box captioned "quantity" on the **INVOICE** and no reference will be made to "pairs" or "sets."

When members of the service are invoicing items due to a large scale/bulk seizure (arrest related) or investigatory/operational purchases (UC or CI) and there are two or more cases/boxes which contain several items, the invoicing member will ensure a Property and Evidence Tracking System bar-coded label is affixed to the upper right corner of each case/box as well as the **INVOICE** number related to the bar-coded label. The invoicing member will ensure that the actual number of items contained in each case/box is properly entered on the **INVOICE**.

OPERATIONAL CONSIDERATIONS

*Most mistakes or errors on **INVOICES** should be corrected utilizing the “Update Invoice” function instead of the “Void Invoice” function in the Property and Evidence Tracking System. *If a pre-printed serial numbered **PROPERTY CLERK INVOICE** or **PROPERTY CLERK’S MOTOR VEHICLE/BOAT INVOICE (PD571-147)**, prepared prior to the implementation of the Property and Evidence Track System, is to be voided, mark the **INVOICE** “VOIDED” and file the **INVOICE** at the command. The property listed on the “VOIDED” pre-printed serial numbered **INVOICE** will then be invoiced utilizing the Property and Evidence Tracking System.*

*Commanding officer concerned will investigate circumstances of missing **INVOICES** and take appropriate action.*

When an investigation is being conducted, property invoiced pertaining to the case will not be released to a claimant without authorization of investigating officer.

Stamped or perforated currency will never be returned to a claimant or deposited in the Property Clerk’s account in any bank under any circumstances. This currency will be forwarded to the Property Clerk who will arrange for reimbursement of the claimant.

*Each July, the operations coordinator will ensure that the previous calendar year’s filed **INVOICES** are placed in a box, labeled to identify contents, and forwarded to the Property Clerk’s warehouse where they will be maintained for the remainder of the retention period (six years).*

ADDITIONAL DATA

OPERATIONAL CONSIDERATIONS

Due to the danger in handling and analyzing hypodermic needles, they will be delivered directly to a Property Clerk facility and not delivered to the Police Laboratory for analysis unless there is a serious felony charge associated with such evidence other than Criminal Sale or Possession of a Controlled Substance. The Police Laboratory's Evidence Control Supervisor is available twenty-four hours a day, seven days a week to provide guidance to members of the service regarding this matter.

Due to a limited amount of storage space at the Police Laboratory and to ensure the safety of all members concerned, cases involving large seizures of Marijuana or any other unusual or potential harmful material, such as large containers of liquids (e.g., PCP, acids, etc.), a Police Laboratory Evidence Control Supervisor must be conferred with for direction prior to the evidence being delivered to the Police Laboratory.

Unless there are exigent circumstances, desk officers must ensure that Controlled Substances/Marijuana evidence and Firearms/Firearms related evidence and DNA evidence and Criminalistics evidence are delivered to the patrol borough each day on the first platoon prior to 0100 hours. If exigent circumstances exist, the desk officer must obtain the approval from the commanding officer / duty captain to not comply with this procedure.

*Each day, at 0100 hours the patrol borough "Wheel Officer" will call **ALL** of the desk officers who failed to notify them regarding the delivery of Controlled Substances / Marijuana evidence, Firearms / Firearms related evidence, Criminalistics evidence or DNA evidence from their commands to the patrol borough, and will determine if there will be a delivery to the patrol borough. If the desk officer informs the patrol borough clerical officer that there are exigent circumstances and there will be no delivery of Controlled Substances / Marijuana evidence, Firearms / Firearms related evidence, Criminalistics evidence or DNA evidence to the patrol borough, then the borough clerical officer will immediately notify the commanding officer / duty captain. The commanding officer / duty captain will contact the involved desk officers and determine whether there are exigent circumstances to justify non compliance with this procedure, and will confer with the patrol borough clerical officer. If there are exigent circumstances to justify non compliance with this procedure, the commanding officer / duty captain will prepare a report on **Typed Letterhead** to the Chief of Patrol through channels describing the facts regarding the exigent circumstances and explaining why the forensic evidence could not be delivered to the patrol borough in compliance with this procedure.*

PURPOSE

To allow for field testing of marijuana by selected uniformed members of the service assigned to the Patrol Services Bureau and Housing Bureau.

SCOPE

Authorized uniformed members of the service assigned to precincts and Housing Bureau Police Service Areas, who have been trained in marijuana field testing, will conduct marijuana field tests in the command when an arrest is made for a misdemeanor or violation involving marijuana.

 - d. Only use the loading device that is provided with the field test to load a small sample of marijuana into the field test kit.
3. Perform the field test, sign and seal procedure in the presence of a trained supervisor.
4. Perform a separate field test on marijuana seized from each prisoner.
 - a. If four persons are arrested and marijuana is seized from three of these persons, then ALL three marijuana seizures will be field tested.

 - c. If more than one container/cigarette of marijuana is seized from a specific person and the first container/cigarette is field tested with negative results, then field test subsequent container(s)/cigarette(s) until a positive result is obtained OR five container(s)/cigarette(s) have field tested negative.

Zip-lock bags and field testing kits can be obtained from the Quartermaster Section.

DEPARTMENT POLICY

Only uniformed members of the service who have received field testing training are authorized to conduct and supervise this testing procedure. BLOODSTAINS/SEROLOGY//DNA/OTHER BIOLOGICAL EVIDENCE

*Bloodstains, DNA, serology, or other biological evidence, **EXCEPT FIREARMS** (e.g., blood, semen, saliva, tissue etc.) should be delivered to the Police Laboratory for examination.*

Firearms evidence that requires bloodstain, DNA, serology, or other biological evidence analysis should be processed in accordance with the guidelines contained in Patrol Guide 218-23, "Processing Firearms and Firearm-Related Evidence."

BLOODSTAIN, DNA, SEROLOGY, OR OTHER BIOLOGICAL EVIDENCE AND ANY OTHER BODY FLUID/BIOLOGICAL EVIDENCE SHOULD BE PACKAGED IN PAPER BAGS OR BOXES. Do not seal in a plastic security envelope. Additionally, an orange bio-hazard sticker must be affixed to the package.

*Items being delivered to the Police Laboratory for fingerprint analysis should be placed in a plastic bag, not a paper bag. However, if an item must be analyzed for BOTH fingerprint and bloodstain/serological/DNA/other biological evidence, then it should **NOT** be placed in a plastic bag; it should be placed in a paper bag.*

ADDITIONAL DATA

OPERATIONAL CONSIDERATIONS

*Plastic Security Envelopes may be used for all small property items except evidence requiring serological examination, (e.g., blood, semen, and other body fluids). Controlled substances/marijuana are to be placed into a **Narcotics Evidence Envelope** (security lock-type envelope) and sealed. The sealed security lock-type envelope will then be placed into a Plastic Security Envelope and sealed for added protection. Controlled substances that contain phencyclidine (Angel Dust) will be put in a Plastic Security Envelope, and sealed, prior to being placed in the **Narcotics Evidence Envelope** (security lock-type envelope). Jewelry items must be placed in a separate Jewelry Security Envelope. This does not apply to members of the Police Laboratory.*

If it becomes necessary to open a sealed Plastic Security or Jewelry Security Envelope, a new envelope will be prepared in the command which the envelope is opened OR the Property Clerk's borough office, as appropriate. In all such instances, the opened envelope(s) will be placed into the new envelope(s) and entered into the Property and Evidence Tracking System, utilizing the "Update invoice" and "Packaging" functions. Plastic Security or Jewelry Security Envelopes will not be used for items which can readily puncture or tear the envelope, (e.g., screwdrivers, knives with exposed blades, etc.). Items which cannot be placed in Security Envelopes will be tagged for identification and safeguarded in other than a Plastic Security Envelope.

Cash and jewelry will continue to be placed in individual Security Envelopes and will not be placed in the same envelope with other small items.

When it becomes necessary to invoice hypodermic needles, syringes, and other sharp narcotics paraphernalia:

- a. Utilize hypo container which comes in a plastic bag containing full instructions
- b. Voucher hypo container on a separate **PROPERTY CLERK INVOICE** apart from other property/evidence involved in same occurrence
- c. Place hypo container in a serialized Plastic Security Envelope
 - (1) Multiple hypo containers will be placed in same Plastic Security Envelope, if involved in the same occurrence.*(No other evidence [e.g., glassine envelopes, etc.] will be placed in same Plastic Security Envelope.)*
- d. Store **INVOICE** and Plastic Security Envelope containing hypo container in property locker to be forwarded to appropriate Property Clerk facility.

The operations coordinator will request additional lead seals and prenumbered/barcoded security envelopes from the Property Clerk Division.

OPERATIONAL CONSIDERATIONS

*When a member of the service conducts a computer check of an occupied vehicle and the response reads **ILLEGAL REGISTRATION**, the New York State Department of Motor Vehicles has determined that the vehicle was improperly registered to someone who was the victim of a fraud and the victim never owned the vehicle nor gave anyone permission to register the vehicle in the victim’s name. Accordingly, when a uniformed member of the service encounters a motorist during a vehicle stop whose registration comes up on the computer as **ILLEGAL REGISTRATION**, then this motorist will be arrested and charged with Vehicle and Traffic Law Section 401(1)(a), Operating an Unregistered Vehicle. An immediate investigation should simultaneously be undertaken to determine if probable cause exists that the motorist or any other person has committed the crimes of Criminal Impersonation 2nd degree P.L. 190.25(1), Forgery 2nd degree, P.L. 170.10(2), Offering a False Instrument for Filing 2nd degree P.L. 175.30, or any robbery or larceny charge, if appropriate. If Penal Law arrests are to be made, the vehicle will be taken into custody as arrest evidence; if only a Vehicle and Traffic Law arrest is to be made, the vehicle will be taken into custody to determine its true owner.*

*Whenever an arrest is effected involving a vehicle for a charge **OTHER THAN** those enumerated in step “10” above, the arresting officer will consult with his supervisor to determine whether the vehicle should be seized. The supervisor will communicate with an Assistant District Attorney and request an opinion to determine if the vehicle should be seized as arrest evidence. If an Assistant District Attorney is not available, the vehicle will be invoiced and secured at the stationhouse. However, no category of property will be checked, pending a determination by the Assistant District Attorney. If the Assistant District Attorney advises that the vehicle is not required as evidence, it will be released to the registered owner or his representative. If the owner cannot be located, the vehicle will be sent to the Property Clerk Auto Pound for safekeeping. If it is determined that the vehicle is to be held as evidence, the name and telephone number of the Assistant District Attorney who made the recommendation **MUST** be entered in the appropriate captions listed immediately above the “Remarks” section on the **PROPERTY CLERK INVOICE**.*

If a vehicle is to be safeguarded at the Property Clerk Auto Pound, the following documents will be forwarded with the vehicle:

OPERATIONAL CONSIDERATIONS

An OWNER WILL NOT BE NOTIFIED NOR WILL AN ALARM BE CANCELLED on the recovered vehicle until the tow operator has advised that the vehicle has been removed to storage facility.

*If the envelope with the **ROTATION TOW - OWNER NOTIFICATION** and attached copy of the **PROPERTY CLERK INVOICE** is returned by the Postal Service as non-deliverable, attach the unopened envelope to the “Property Clerk Copy” of the **PROPERTY CLERK INVOICE**. A notation will then be made on the duplicate **ROTATION TOW-OWNER NOTIFICATION** that the original was returned undelivered.*

Rotation tow operators will deliver motor vehicles and motorcycles to a designated Department auto pound. Motorcycles are stored and can be reclaimed at a designated Department auto pound. When motor vehicles are delivered to a Department auto pound, the auto pound will immediately notify an authorized third party storage facility to remove and store the motor vehicles. Claimants must initially pay, at the auto pound concerned, the NYPD Rotation Tow and storage fees, in addition to third party transfer and storage fees, to reclaim a motor vehicle/motorcycle, or to obtain a release authorization pass, PRIOR to reclaiming a motor vehicle from the third party storage facility. If a vehicle/motorcycle remains unclaimed after fifteen days, from its delivery date to a Department auto pound, the vehicle/motorcycle will be disposed of according to law.

Department of Sanitation personnel affix a numbered sticker with red lettering and red border to the outside rear of vehicles deemed eligible for Rotation Towing. Therefore, upon notification from the Department of Sanitation of the location of a vehicle eligible for Rotation Towing, the member of the service receiving the notification will immediately notify the desk officer of the following:

- a. Time and date of notification

PROCESSING FIREARMS AND FIREARM-RELATED EVIDENCE			
DATE ISSUED: 08/01/13	DATE EFFECTIVE: 08/01/13	REVISION NUMBER:	PAGE: 1 of 11

PURPOSE

To ensure that all firearms and firearm-related evidence coming into possession of the Department is properly marked, packaged, sealed, and invoiced in order to maintain a continuous chain of custody.

DEFINITIONS

FIREARM - The Department’s definition of a firearm includes:

- a. Any rifle, shotgun, pistol, revolver, derringer, machine gun, etc., WITH OR WITHOUT a rifled bore.
- b. Any starter’s pistol, zip gun, air gun, CO2 hand/long gun, etc.
- c. Any type of homemade, modified, converted, etc., weapon.
- d. Any type of simulated firearm such as a toy gun, imitation pistol, etc.

CARTRIDGE - Live ammunition. A cartridge consists of a bullet (projectile), and a shell casing together as one unit. Cartridge(s) will be distinguished based upon the location from which the cartridge was recovered:

- a. Cartridge removed from the chamber of a firearm.
- b. Remaining cartridge(s) removed from a firearm other than the cartridge removed from the chamber (i.e., removed from magazine or removed from cylinder).
- c. Cartridge(s) NOT removed from a firearm but seized in connection with the recovery of a firearm from a person, object, or location AND there is no need to establish a crime scene (for example: cartridge(s) seized from a person’s clothing in connection with an arrest where a firearm is recovered; OR, cartridge(s) seized from a home during an investigation where a firearm is recovered AND there is no need to establish a crime scene because all of the perpetrators are identified).
- d. Cartridge(s) NOT removed from a firearm but recovered from a crime scene where a firearm may or may not have been recovered (for example: cartridge(s) found lying in the street after a shooting; OR, cartridge(s) found lying on the floor in an apartment or automobile after a robbery).

FIRED BULLET - That part of a cartridge which has been fired though the barrel of a firearm (usually lead, metal-jacketed lead or coated lead). A fired bullet may break into pieces of lead, coated lead, metal jacketing, metal jacketing attached to lead, etc.

SHELL CASING - Metal casing part of the cartridge remaining in or ejecting from a firearm after the fired bullet leaves the firearm’s barrel.

PROPERLY “MARKING” FIREARMS AND FIREARM-RELATED EVIDENCE - Members of the service will utilize a scribe or other sharp writing instrument to scratch their initials and a unique consecutive number on each firearm and each item of firearm-related evidence. For example, if at a crime

PATROL GUIDE

PROCEDURE NUMBER:	DATE EFFECTIVE:	REVISION NUMBER:	PAGE:
218-23	08/01/13		2 of 11

DEFINITIONS (continued)

scene 1 fired bullet and 3 shell casings and a semiautomatic pistol with 1 cartridge in the chamber and 4 cartridges in the magazine are recovered; then the firearm would be numbered 1, the magazine numbered 2, the cartridge in the chamber numbered 3 and the cartridges in the magazine would be numbered 4 through 7, the fired bullet would be numbered 8 and the 3 shell casings would be numbered 9 through 11. It does not matter what particular number a firearm or item of firearm-related evidence is assigned provided the same number is not used more than once. Therefore, in the above example, it also would be proper to have the fired bullet numbered 1, the 3 shell casings numbered 2 through 4, the firearm numbered 5, the magazine numbered 6, the cartridge in the chamber numbered 7 and the 4 cartridges in the magazine numbered 8 through 11.

PROPERLY "SEALING" A CONTAINER - In order to properly seal a container (other than NYPD Plastic Security Envelope), a member of the service must:

- a. Fasten the container securely with EVIDENCE TAPE in a manner to prevent loss/contamination of the evidence and to ensure that if the container is opened there would be obvious damage to the container and/or evidence tape AND sign name legibly across the border between the evidence tape and the container.
- b. An NYPD Plastic Security Envelope has adhesive on the envelope flap and does not have to be fastened with evidence tape; however, name must be legibly signed across the border between the flap and the envelope.

PROCEDURE

Whenever a firearm as defined above, and/or firearm-related evidence comes into the possession of a member of the service, in addition to other required actions:

UNIFORMED MEMBER OF THE SERVICE

1. DO NOT touch, move or disturb any firearm and/or firearm-related evidence that may become part of a crime scene except when absolutely necessary, e.g., large crowd gathering, rendering aid to a victim, etc.
2. Unload cartridge(s) from cylinder, chamber, and/or magazine of a firearm.
 - a. To prevent possible destruction of fingerprints or other forensic evidence, DO NOT handle unnecessarily.
 - b. If a firearm is unfamiliar or it appears to be difficult to unload, safeguard in original condition and notify desk officer.
3. Mark, package and seal the cartridge removed from the chamber of the firearm.
 - a. Mark the bullet portion of the cartridge; do not mark the metal shell casing portion. Do not mark the cartridge if it is too small/deformed.

ADDITIONAL DATA

OPERATIONAL CONSIDERATIONS

*Members should be aware that firearm accessories (e.g., holster, sling, gun case, etc.), that are not affixed to the firearm AND are not needed to make the firearm operable, will not be listed on the same **INVOICE** as the firearm(s) and firearm-related evidence. Instead, the accessories will be listed on a separate WORKSHEET and will be delivered direct to the Property Clerk Division. If there is more than one accessory, invoice all of the accessories on one **INVOICE** if possible, and list each accessory as a separate item on the **WORKSHEET**.*

*Members are reminded that a **PROPERTY CLERK INVOICE** will not exceed twenty line items if the **INVOICE** is being sent or has the potential to be sent to the Police Laboratory for laboratory analysis.*

FIREARMS INVOICED FOR SAFEKEEPING

*Certain firearms coming into possession of members of the service, which are categorized for "Safekeeping", should be listed on one **INVOICE** and must be delivered DIRECT to the Property Clerk Division.*

Firearms within this category are:

- a. *Property of retired, resigned, dismissed, suspended, sick or hospitalized uniformed members of the service.*
- b. *Lawfully possessed property of a deceased person.*
- c. *Obtained from a licensed dealer when license is revoked, suspended or expired.*
- d. *Lawfully possessed and removed by court order, order of protection, etc.*
- e. *Obtained from permit holder during renewal, expiration or cancellation of permit.*

*If any of the above described firearms were obtained under circumstances that indicate a valid reason for examination, **ONLY** the firearms that require examination will be forwarded to the Firearms Analysis Section. All of the firearms that require examination*

will be listed on one **INVOICE**, if possible. The reason for the examination will be specifically explained on the **REQUEST FOR LABORATORY EXAMINATION REPORT**.

DO NOT invoice firearms categorized for safekeeping that are being delivered to the Firearms Analysis Section on the same **INVOICE** as the firearms that are being delivered DIRECT to the Property Clerk Division.

BIOLOGICAL EVIDENCE

If firearms and/or firearms-related evidence also have bloodstains, DNA, serology, saliva, body fluids, tissue, or any other biological evidence thereon, they will be processed according to the following guidelines:

- a. *DO NOT* package biological evidence if it is wet; it must be air-dried before it is packaged.
- b. *DO NOT* package biological evidence requiring examination/analysis in a plastic security envelope or any other type of plastic bag/container. Package and properly seal **EACH** individual item of biological evidence requiring examination/analysis in a separate paper bag/container. Affix an orange Biohazard label to each paper bag/container.
 - (1) Write command and invoice number on the outside of each bag/container. If more than one bag/container is used, also write corresponding item number on the outside of each bag/container and mark each bag/container as "Bag 1 of __," "Bag 2 of __," etc.

FIREARMS TRACES

All firearms that are delivered to the Firearms Analysis Section (FAS) are automatically traced by the Bureau of Alcohol Tobacco and Firearms (BATF), unless there is a specific request/directive that a firearm(s) trace not be conducted. The results of the automatic firearm(s) trace are not communicated/forwarded to the invoicing member. Consequently, in a routine situation, an investigator who must obtain trace information regarding a firearm should request the firearm trace information from the BATF Regional Crime Gun Center approximately two weeks after the date that the firearm(s) was delivered to FAS. Requests to trace specific firearm(s) are **NOT** made to the Firearms Analysis Section. During the course of an investigation, search/seizure, arrest, etc., if there is an urgent/immediate need to trace a firearm(s), the request to trace the firearm(s) should be made **DIRECT** to a supervisor assigned to the Organized Crime Control Bureau, Joint Firearms Task Force (JFTF). If a JFTF supervisor cannot be contacted, contact the JFTF supervisor through the Organized Crime Control Bureau, Field Operations Desk.

*In certain situations, an investigating officer may not want a firearm to be automatically traced by BATF because it might jeopardize an investigation or endanger someone. For example, the firearm may have been purchased by an undercover officer and the investigation is ongoing. A member of the Narcotics Division who obtains controlled substances/ marijuana contraband without effecting an immediate arrest (undercover buy), will mark, seal and tag contraband in the presence of the covering field team and process it through the Police Laboratory.

*If an undercover buy occurs and the purity of the narcotic is needed to be reported, the member of the service will use a black permanent marker and write "PURITY" on the side of the **PROPERTY CLERK INVOICE** that is attached to the evidence.*

Members of the service are reminded that at NO time will the controlled substance Khat be placed in a command's controlled substance locker. The active ingredient in Khat quickly dissipates if not properly and expeditiously handled. Members of the service should make every reasonable attempt to keep the substance in a cool environment while transporting it to the Police Laboratory.

Members of the service will use hypo containers for the safe and proper handling of hypodermic needles, syringes and other sharp narcotic items. Therefore, the following procedures will be complied with when invoicing needles, syringes, and other sharp narcotics paraphernalia:

- a. Utilize hypo container which comes in a plastic bag and follow enclosed instructions. Labels affixed to the hypo containers provide spaces for the invoicing member's name, date, tax registry number and command

PROCESSING COMPUTER EVIDENCE			
DATE ISSUED: 08/01/13	DATE EFFECTIVE: 08/01/13	REVISION NUMBER:	PAGE: 1 of 4

PURPOSE

To process and safeguard computer related evidence coming into the custody of this Department.

DEFINITIONS

CENTRAL PROCESSING UNIT (CPU) - A box shaped unit that houses the computer's internal hard drive, memory and central processor, commonly referred to as the "brains" of the computer. The CPU processes all of the work done by the computer, and usually is the terminus for all associated cables. The CPU generally has a numeric descriptor (i.e., 386, 486, Pentium, etc.), which represents the computing power of the unit.

MONITOR - The television type instrument on which the operations and output of the computer are displayed.

KEYBOARD - An input device resembling a typewriter.

MOUSE - A pointing device, which is also used to control the actions of the computer. It is connected to the CPU by way of a cable, and because of its shape and "tail," is commonly referred to as a "mouse."

PRINTER - Another output device that will print, similar to a typewriter, pages from the CPU. Many different types of printers exist, including dot matrix, ink-jet, and laser printers.

PERIPHERALS - There are other types of devices, which can be connected to a computer, for example, scanners, tape drives, modems, speakers, sound cards, etc. In addition, there are other types of electronic equipment that can store valuable evidentiary information. These include personal digital assistants, pocket organizers, and lap top computers.

SCOPE

The Computer Crimes Squad will provide technical assistance in properly securing computer evidence, conducting computer forensic examinations and preparing warrants. The Computer Crimes Squad will make a determination as to whether a response to the scene is required, based on the totality of circumstances presented in each case.

PROCEDURE

Whenever a uniformed member of the service seizes, or expects to seize, evidence consisting of a computer used to commit a crime, or the computer is suspected of being a device that stores evidence.

UNIFORMED MEMBER OF THE SERVICE

1. Notify the Computer Crimes Squad between 0600 and 2000 hours, Monday through Friday.
 - a. At all other times, contact the Office of the Chief of Detectives.

3. Properly mark all computer evidence.
 - a. Affix identifiable mark to hardware (i.e., monitor, CPUs, printers, etc.).

 - c. Count and package similar floppy disks (i.e., 3.5", 5.25", tapes, etc.) in paper envelopes and have them itemized on **PROPERTY CLERK INVOICE (PD521-141)**. However, do not remove any floppy disks, compact disks, or any other such items from computer's disk drives. These items will be secured in the drives by affixing a strip of masking tape across the drive's opening. The invoicing officer will initial the masking tape. The "Remarks" section of the **INVOICE** will contain a statement concerning the presence or absence of a disk in any of the computer's drives.
 - (1) Plastic Security Envelopes should NOT be used to package floppy disks because they can cause a discharge of static electricity, which can destroy data on the disk. In addition, DO NOT write on floppy disks using ballpoint pens because doing so can result in the destruction of data. Utilize labels or felt tip markers.
4. Invoice computers, floppy disks and related peripherals, which are to be delivered to the Computer Crimes Squad for examination, separately from other property being invoiced.
 - a. Non-computer items are to be processed in conformance with existing Department guidelines.
5. Deliver "Property Clerk" copy of **INVOICE** with computer evidence to the Computer Crimes Squad.

ADDITIONAL DATA

OPERATIONAL CONSIDERATIONS

Members of the service will not search any hard drives, floppy disks, CD-ROMS or other data storage devices. These items will be examined only by members assigned to the Computer Crimes Squad. Members of the service should be aware that searching directories, or perusing the computer's hard drive, may inadvertently alter or destroy important evidence.

The computer, recovered at a crime scene, may be a valuable source of evidence. To protect the evidence, and to ensure that the information retrieved from the computer can be introduced in court, the following guidelines must be followed:

- *Safeguard the computer's evidence; do not touch the keyboard, or search the hard drive, or execute any of the programs at the scene.*
- *If a modem or other telecommunications device is attached to the computer, unplug the telephone cord from the wall jack immediately to prevent access to the computer and possible destruction of evidence.*
- *If you must power the system off, do not use the on/off switch. Unplug the computer from the wall outlet only. Prior to removing the plug from the outlet, photograph the monitor screen.*
- *When transporting, be aware that data, stored on computers and floppy disks, is extremely sensitive and can be easily damaged. Package these items carefully to avoid inadvertent damage.*
- *Do not write on floppy disks with ballpoint pens. Use labels or felt tip markers.*
- *Do not place floppy disks in plastic security envelopes. This could cause a discharge of static electricity and damage the data on the disk.*

ADDITIONAL DATA

OPERATIONAL CONSIDERATIONS

There is no medical or legal reason for a uniformed member of the service, male or female, to be present in the examining room during the medical examination or evidence collection procedure. Maintenance of the chain of custody of the evidence during the examination is the sole responsibility of attending medical personnel.

If the sexual offense occurred within the previous seventy-two hours, a Sexual Offense Evidence Collection Kit should be used. Not all hospitals may use Sexual Offense Evidence Collection Kits. In such cases, take possession of any other evidence gathering container used and process in accordance with this procedure.

*A Drug Facilitated Sexual Assault Blood and Urine Specimen Collection Kit will be utilized for the collection of blood and urine when it is suspected that the victim of a sexual assault was drugged. This kit is separate from the Sexual Offense Evidence Collection Kit. The kit is composed of two gray-topped blood tubes and a urine container for the collection of specimens, and must be vouchered, on a separate **PROPERTY CLERK INVOICE**, with a separate **REQUEST FOR LABORATORY EXAMINATION REPORT** (for toxicology). If a UMOS suspects a drug facilitated sexual assault based on victim or witness statements or other evidence, inform hospital personnel and request that a kit be used. Hospital personnel will collect the blood and urine for the kit when it is suspected that it is drug facilitated, within 96 hours of when the victim last remembers having a drink. The blood and urine collected in these kits will degenerate after 24 hours, so immediate delivery to the Police Laboratory and the Office of the Chief Medical Examiner, Evidence Unit is imperative.*

*Members will ensure a copy of the **COMPLAINT REPORT** is sent to the Police Laboratory with a Sexual Offense Evidence Collection Kit or any other sexual offense evidence. The Police Laboratory will not accept a Sexual Offense Evidence Collection Kit or any other sexual offense evidence without a copy of the **COMPLAINT REPORT**.*

*Members are reminded that a **PROPERTY CLERK INVOICE** will not exceed twenty line items if the **INVOICE** is being sent or has the potential to be sent to the Police Laboratory for laboratory analysis.*

HANDLING OF RED DYE MARKED CURRENCY AND INTACT "EXPLODING" CURRENCY PACKETS			
DATE ISSUED: 08/01/13	DATE EFFECTIVE: 08/01/13	REVISION NUMBER:	PAGE: 1 of 2

PURPOSE

To safely handle red dye marked currency or intact “exploding” currency packets.

PROCEDURE

When currency marked with a red dye must be handled or an intact “exploding” currency packet is found:

UPON LOCATING AN INTACT PACKET OF CURRENCY

UNIFORMED MEMBER OF THE SERVICE

1. DO NOT handle the packet.
2. Evacuate the immediate area.
3. Request the patrol supervisor, Emergency Services Unit and Bomb Squad to respond.

HANDLING OF RED DYE MARKED CURRENCY

UNIFORMED MEMBER OF THE SERVICE

4. Wear disposable gloves.
5. Work in a ventilated area.
6. Wash hands thoroughly after handling currency.
7. Indicate clearly on **PROPERTY CLERK INVOICE (PD521-141)** and Plastic Security Envelope that currency may be contaminated with CS Tear Gas.

ADDITIONAL DATA

OPERATIONAL CONSIDERATIONS

Members of the service responding to a bank robbery, or discovering a packet of banded currency thereafter, should consult with bank employees to determine if an “exploding” money packet was passed.

Do not open property envelopes containing contaminated currency unless absolutely necessary. Sealed plastic envelopes prevent dissipation of contaminated residue. Therefore, follow safety precautions if the envelope must be opened, even after long periods of time have elapsed.

Exploding currency packets release tear gas, which may result in contamination of persons and clothing to varying degrees. Since tear gas adheres to clothing, persons exposed to the gas may contaminate others in their proximity. Therefore, all persons exposed to the gas should be isolated from public contact, if possible, and afforded necessary treatment, including medical evaluation, when indicated.

FIRST AID PROCEDURES FOR EXPOSURE

SKIN

Remove the affected persons from the contaminated area to an open, upwind position. Remain calm and restrict activity. Major discomfort should disappear in fifteen to thirty minutes.

PATROL GUIDE

PROCEDURE NUMBER:	DATE EFFECTIVE:	REVISION NUMBER:	PAGE:
218-37	08/01/13		2 of 2

**ADDITIONAL
DATA
(continued)**

If stinging or burning sensation on moist skin areas occurs, sit and remain quiet to reduce sweating. Expose affected areas to the air. In cases of gross contamination:

- a. Remove all contaminated clothing immediately*
- b. Irrigate affected areas with copious amounts of water (at least two liters)*
- c. Wash with soap and water to remove all residue*
- d. Washable clothing may be laundered with soap and water*
- e. Non-washable clothing may be air dried for a two-day period.*

EYES

*If there is burning sensation of the eyes, heavy flow of tears, or involuntary closing of eyes, keep eyes open, facing wind. **DO NOT** rub eyes. Tearing helps clear the eyes. If necessary, wash out eyes with cold water. Tears can be blotted away.*

INHALATION

If a burning sensation or irritation of the nose occurs, breathe normally. Blow nose to remove discharge. Nasal decongestants should help if discomfort is severe. Breathing difficulties (burning sensations, chest tightness) are often accompanied by a feeling of panic. In this event, the affected person (s) should be made to relax and kept calm. Talk reassuringly to the person(s) to prevent panic. If discomfort persists or other symptoms occur, the affected person should be removed to the hospital for medical evaluation.

RESTRICTED STREETS – THIRTY FOOT RULE

Title 6, Chapter 6, Section 2-310 of the Rules of the City of New York (RCNY) prohibits General Vendors, Food Vendors and Food Truck Vendors from operating on an intersecting street with thirty feet of a cross-street during the dates and at the times a “Restriction on the Cross-Street” is in effect. This prohibition applies to thirty feet of street and sidewalk in each direction along the cross-street, measured from the building lines closest to each designated street at each cross-street corner. The thirty foot rule DOES NOT apply to Disabled Veteran Vendors (BLUE and YELLOW) and to First Amendment or Expressive Matter Vendors.

Violators may be issued an Environmental Control Board Notice of Violation under Section 2-310 of the RCNY. Members of the service are instructed to check off “Box 10 (Other)” on the ECB/NOV under caption “NYC Administrative Code/Rules of the City of New York,” located in the middle of the ECB/NOV. Members are further instructed to insert the phrase “RCNY” immediately beneath the above described “Box 10.”

Such items should not be stored in a Department facility. In these circumstances, members of the service are instructed to photograph such items and invoice the photographs on a separate **PROPERTY CLERK INVOICE** with cross-references to other **INVOICES** prepared in the incident. The First Amendment or Expressive Matter Vendor may not operate on a RESTRICTED STREET on the days, or at the time, the Restriction is in effect. However, the Restriction must be a blanket Restriction. The Restriction must apply to both Food and General Vendors. If any type of vendor is permitted on a street at a particular time, then the First Amendment or Expressive Matter Vendor must also be permitted to operate. However, regardless of any Restriction that may be in effect, a First Amendment or Expressive Matter Vendor may only operate to the extent they may display their wares without the use of a table, cart or other device. For example, the First Amendment or Expressive Matter Vendor may display their wares by carrying them in their hands.

Such property shall be returned whether or not the underlying summons or ECB/NOV has been adjudicated. Under no circumstances shall the property of a First Amendment or Expressive Matter Vendor be disposed or otherwise discarded. Disabled Veteran Vendors:

Disabled Veterans are permitted to operate on City streets under a provision of New York State Law. These street vendors usually operate as General Vendors, however, on occasion, members of the service may find them operating as licensed Food Vendors. These Food or General Vendors may hold a Yellow or Blue license. The holders of these licenses are subject to the provisions of New York State General Business Law Section 35-a. Enforcement action against these vendors may not be taken under the usual street vendor provisions of the New York City Administrative Code.

The holders of the Blue license, or as it is also known, a Midtown Specialized license, may operate on most streets in the City except for those streets listed in the State General

*Business Law Section 35-a. Additionally, holders of the Blue license may operate within the Midtown Core Area**.*

The holders of the Yellow and Blue licenses may operate on any street in the City outside of the Midtown Core Area. However, the holders of the Yellow license may not operate within the Midtown Core Area.

***Midtown Core Area – The area of Manhattan bounded by 2nd Avenue to 9th Avenue and 30th Street to 65th Street.*

It is important to note that, other than the streets listed in the General Business Law Section 35-a, the World Trade Center Area, and the two specific locations in lower Manhattan within the confines of the 1st Precinct, there are NO other streets in the City that are restricted to holders of Blue or Yellow licenses.

Members of the service are encouraged to call the Legal Bureau for guidance when contemplating enforcement action regarding the holders of a Blue or Yellow Disabled Veteran License.

Green Cart Vendors:

Fruit and vegetable vendors are subject to the same rules as other food vendors, including street restrictions and the provisions regarding confiscation for Seizure and Removal.

However, there is a special category of fruit and vegetable vendors known as Green Cart Vendors. This group of vendors was created to make fresh fruits and vegetables more available to disadvantaged communities. They are subject to the same provisions of law, including street restrictions, as food vendors and other fruit and vegetable vendors. Green Cart Vendors, however, are subject to an additional restriction. They are not permitted to operate outside of the boundaries of the NYPD precinct stated on the decal affixed to their cart. Members of the service are encouraged to call the Legal Bureau for guidance should such a vendor be observed operating outside of the precinct designated by his cart decal.

Food Trucks:

Food Trucks are motor vehicles bearing a permit issued by the City's Department of Health to dispense food on City streets. The operators of these enterprises must possess a food vendor's license. Food Trucks are subject to the same provisions for confiscation for Seizure and Removal procedures discussed above, including the Restricted Street provisions of Administrative Code Sections 17-315(k) and 17-315(l).

Food Trucks are subject to the same provisions of the New York State Vehicle and Traffic Law and the City Traffic Rules, as other motor vehicles. However, there are additional parking restrictions on Food Trucks as follows:
