## INMATE INCIDENTS

### NUMBER OF INCIDENTS

In 2006 there were 14,490 inmate incidents in the California Department of Corrections and Rehabilitation's institutions and camps. The number of incidents increased by 804 from 13,686 in 2005 to 14,490 in 2006. The largest increase was with assault and battery without weapon incidents. Physical assaults without weapon on an inmate seemed to present the largest

increase for incidents. According to Division of Adult Institutions, the largest increase in incidents from 6,868 in 1996 to 9,784 in 1997 was due to new reporting requirements that began in 1997. In 2006, the increase in the number of incidents could possibly be related to the increase in the institutions and camps population.

### RATE OF INCIDENTS

The rate of incidents per 100 average daily institution population increased from 8.7 in 2005 to 9.2 in 2006.
