

See attached Excel spreadsheet submitted in response to your public disclosure request dated Nov. 20, 2007. I appreciate your amendment to the Public Disclosure request today (shown below) but I have just finished the worksheet as originally requested and am forwarding it to you by electronic attachment.

Your Public Disclosure Request asked information for each lawsuit filed against the City of Seattle Police Department after January 1, 1995 to the present alleging police action; case name and court case number; resolution of the lawsuit and any amounts paid by the City of Seattle with respect to the lawsuit.

This spread sheet reflects law suits opened between Jan. 1995 and Dec. 1, 2007 in which Seattle Police Department was a defendant and coded as a Police Action case. It reflects open, closed and resolved cases. See the column headed Status. O = Open C = Closed. R = Resolved. Resolved cases are essentially closed cases but are awaiting an appeal (or not) or the completion of some administrative act before the case files are boxed and sent to storage.

As you requested, the financial/accounting data is inclusive. Accounting adjustments are shown as negative figures. The column "Account" reflects account codes used by the City's accounting system. Many of the accounts and amounts charged to account codes are probably not important to you. (Copying charges, account 744575, for instance) However, account code 744730 is used for payment of Claims-Injury & Damage. Account code 741153 is used for payments to outside counsel and expert witnesses. Account 744590 is used for miscellaneous litigation costs such as filing fees, court fees, medical records. etc. The short name of the payee as reflected in the City's financial system is provided in the column identified as Vendor.

Our case management system does not show the name of the case exactly as shown in the original filing nor does it show the court in which the case was filed or the court case number. However, the name of the case does show the primary plaintiffs name. The column "Description" identifies the type of case per our case management system.

There are over 3000 lines of data in this submittal which was created by combining data from two different data bases (the City Attorney's Office Case Management System and the City of Seattle's financial management and reporting system) since there is not one data base that can provide the information you requested in your Public Disclosure Request.

If you have any questions regarding this submittal, please contact me for assistance.

Jack D. Robinson, Administrator
Seattle City Attorney's Office

This message is from Eric Zubel:

Mr. Robinson:

Thank you for your efforts on our behalf. For the time being, we would be agreeable to you suspending any further work on accumulating data prior to 2002. We are under severe time constraints to complete discovery in a pending case and we would appreciate having this information no later than Friday, December 21, 2007.

Thank you.

Eric Zubel
