Here's today's clips. I don't have a distribution list per se, but I do collect interesting clips. I am out of the office frequently, but will send anything that I get my hands on...  
Here's what came into today for example

Kettering police use taser to subdue suspect  
Dayton Daily News  
08.21.2001

KETTERING | Police used a taser to subdue a man, wanted for assault, who attacked a police cruiser early Sunday.  
John Melke-Allen was charged with domestic violence, felony vandalism and assault after police said he attacked two women and an 11-year-old girl. Kettering police said they responded to the 3000 block of East Stroop Road where a caller to 911 said a man was assaulting someone. Police said they arrived to find a man in the parking lot armed with a 10-inch butcher knife, who jumped onto the hood of a cruiser and hit the windshield with his fists and the knife. Several officers used their cruisers to surround the suspect, who continued to slash at officers and damage the cars, police said.

Sincerely,  
Steve Tuttle  
Director of Government & Law Enforcement Affairs  
TASER International (NASDAQ: TASR)

TASER International, Inc. (NASDAQ: TASR) provides advanced less-lethal weapons for use in the law enforcement, private security, and personal defense markets. Our flagship ADVANCED TASER™ product uses proprietary technology to incapacitate dangerous, combative, or high-risk subjects that may be impervious to other less-lethal means. Our technology reduces injury rates to suspects and officers, thereby lowering liability risk and improving officer safety. The ADVANCED TASER™ is currently in testing or deployment at over 800 law enforcement and correctional agencies in the U.S. and Canada. For more information or to see real world videos of the ADVANCED TASER™, visit our website at [www.TASER.com](http://www.TASER.com)

Hi Steve, Nice meeting you yesterday. Would you please forward me a copy of the article in New Times?

Also, if you have an email distribution list for all the clippings you get on Taser I would appreciate being added to it.

Thank you,

Mark Matheson, CFA
