Seattle Field Office

FROM:

John P. Torres

Acting Director

SUBJECT:

Northwest Detention Center Annual Review

The Annual Detention Review of the Northwest Detention Center, conducted on July 19 - 21, 2005, in Tacoma, Washington has been received. A final rating of **Good** has been assigned.

The rating was based on the Reviewer-in-Charge (RIC) Summary Memorandum and supporting documentation. The Field Office Director must remedy the deficiencies in the RIC Memorandum, and initiate the following actions in accordance with the Detention Management Control Program (DMCP):

- 1) The Field Office Director, Detention and Removal Operations, shall notify the facility <u>within</u> five business days of receipt of this memorandum. Notification shall include copies of the Form G-324A, *Detention Facility Review Form*, the G-324A Worksheet, RIC Summary Memorandum, and a copy of this memorandum.
- 2) The Field Office Director is responsible for ensuring that the facility responds to all findings and a Plan of Action is submitted to the Review Authority (RA) within 30 days.
- 3) The RA will advise the Field Office Director once the Plan of Action is approved.
- 4) Once a Plan of Action is approved, the Field Office Director shall schedule and follow-up on the above noted deficiencies within 90 days.

SUBJECT:

Northwest Detention Center – Headquarters Detention Review

(b)(6), (b)(7)(C)

The Detention Management Division, Detention Standards Compliance Unit (DSCU) performed a review of the Northwest Detention Center on July 19 - 21, 2005. The facility is operated by Correctional Services Corporation (CSC). This review was performed under the supervision of Reviewer-In-Charge (RIC) with team members and

Reviewer-In-Charge (RIC) with team members (Public Health Services) PHS. (b)(6), (b)(7)(C)

Type of Review:

This review is a scheduled Headquarters Review and was conducted to determine overall compliance with the Immigration and Customs Enforcement (ICE) National Detention Standards (NDS).

Review Summary:

The Northwest Detention Center is not accredited by the American Correctional Association (ACA). The ACA review is scheduled for August 29 - 31, 2005. The facility was recently reviewed by the National Commission on Correctional Health Care (NCCHC) and recommended for accreditation. They will receive their official certificate in October 2005.

Deficiency

Hold Rooms

On several occasions, detainees were held in the hold rooms past the permitted 12 hours. A large amount of detainees arriving from a Justice Prisoner Alien Transportation System (JPATS) flight remained in hold rooms for approximately 16 hours (5/5/2005) and 18 hours (6/2/2005). Additionally, employees are not documenting the time and date in which detainees are fed.

Areas of Concern

Direct Supervision

Approximately 15 detainees were located in the kitchen unsupervised. Employees were discovered throughout the kitchen taking inventory and working on a computer behind closed doors. The kitchen post orders mandate that officers maintain direct supervision of detainees at all times. Employees could not be found for approximately five minutes.

Staff Detainee Communications

(b)(6), (b)(7)(C)

Detainee request forms are not always being addressed or resolved in a timely manner. It was confirmed that detainee sent 3 detainee request forms in an effort to determine the status of his removal. Three weeks elapsed since the date the initial request form was sent without a response. The timeliness or lack there of make it impossible for detainees to meet appeal requirements. It also appears that officers are not logging request forms or documenting that issues have been resolved. The Field Office has implemented a revised schedule mandating that ICE officers are present in detainee living units at least three times per week. The schedule is now posted in each pod. Additionally, a detainee request form log has been implemented to track the status of detainee concerns.

Tool Control

All maintenance workers sign for a tool bag each day utilizing the chit system. The tools are inventoried prior to entering the facility and at the end of each day. However, tools such as drills, wire cutters, screwdrivers, puddy knives and a ladder were observed within the facility without an inventory being completed. Although the tools were signed out at the Maintenance shed and supervised by employees, there is not a written record of each tool once inside of the facility.

Detainee Handbook

The detainee handbook is comprehensive and is tailored to the ICE NDS. It clearly explains the rules, regulations, policies and procedures of the facility.

RIC Observations

Staff Interaction:

(b)(6), (b)(7)(C)

Warden and the staff at the Northwest Detention Center were extremely professional and worked diligently to retrieve requested information or correct minor problems once identified. The staff was well versed in policy and procedure at this location and take pride in their facility. The team observed that the facility operated in a calm and orderly fashion throughout the review. Additionally, Field Office Director (FOD) Neil Clark is present at the facility several times per month and remains involved in the day-to-day activity.

Contracting Officers Technical Representative:

(b)(6), (b)(7)(C)

is currently the Contracting Officer's Technical Representative (COTR) for the facility. He provides excellent oversight of the contract and continues to address and document any concerns/deficiencies he identifies with the Warden or his executive staff. He is present at the facility on weekends, holidays and all shifts. The communication between the contractor and ICE appears to be excellent.

Environmental Health and Safety:

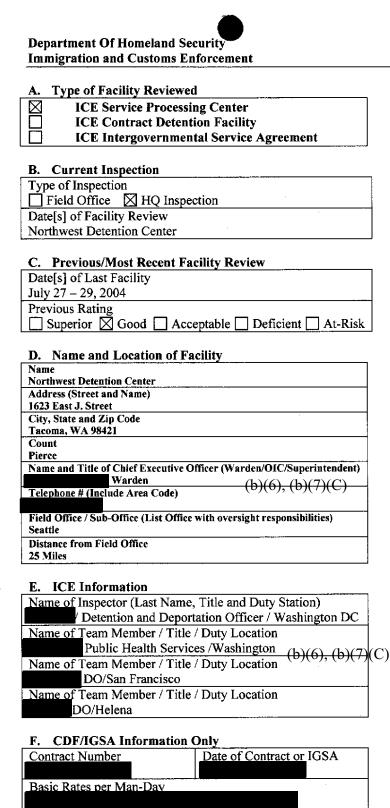

The sanitation of the facility was outstanding. Posted cleaning schedules appear to be followed and detainees were observed continuously cleaning throughout the review. It is apparent the high level of cleanliness is enforced daily. The quality of life for detainees is excellent.

Recommended Rating and Justification:

It is the recommendation of the RIC that the facility receive a rating of "Good." The facility now fully complies with 37 -of -38 standards.

RIC Assurance Statement:

It is the opinion of the RIC that the findings of compliance are documented on the G-324a Inspection Form and that it is supported by documentation in the review file.

Significant Incident Summary Worksheet

For ICE to complete its review of your facility, the following information <u>must be completed</u> prior to the scheduled review dates. The information on this form should contain data for the past twelve months in the boxes provided. The information on this form is used in conjunction with the ICE Detention Standards in assessing your Detention Operations against the needs of the ICE and its detained population. This form should be filled out by the facility prior to the start of any inspection. Failure to complete this section will result in a delay in processing this report and the possible reduction or removal of ICE' detainees at your facility.

TOOL CONTROL	ì

Policy: It is the policy of all facilities that all employees shall be responsible for complying with the tool control policy. The Maintenance Supervisor shall maintain a computer generated or typewritten Master Inventory list of tools and equipment and the location in which tools are stored. These inventories shall be current, filed and readily available for tool inventory and accountability during an audit.

Components	Yes	No	NA	Remarks
The facility has an approved tool storage system. The system ensures that all stored tools are accountable. Commonly used tools (tools that can be mounted) are stored in such a way that missing tool are readily notice.	×			
 Each facility has procedures for the issuance of tools to staff and detainees. Restricted tools are issued only to the individual who will be using it. Detainees are not permitted to use non-restricted tools except under supervision. A metal or plastic chit receipt used to sign out tools. The OIC has established site-specific procedures for the control of ladders, extension cords, and ropes. The CDEO or contract equivalent approves the issuance of tools to a specified project for extended periods. 				When checking Food service they had 15 tools checked out only 5 were chited out. Corrected on the spot. All tools were logged out properly in the tool book and all tools were accounted for on food service.
The facility has policies and procedures to address the issue of lost tools. The policy and procedures include: • Verbal and written notification. • Procedures for detainee access. • Necessary documentation/review for all incidents of lost tools.	×			
Broken or worn out tools are surveyed and disposed of in an appropriate and secure manner.	\boxtimes			F/S lost two tools on 2-1-05
All private or contract repairs and maintenance workers under contract to the ICE, or other visitors, submit an inventory of all tools prior to admittance into or departure from the facility.	×

TRANSPORTATION (Land Transportation)

Policy: The Immigration and Customs Enforcement will take all necessary precautions to protect the lives, safety, and welfare of our officers, the general public, and those in ICE custody during the transportation of detainees. Standards have been established for professional transportation under the supervision of experienced and trained Detention Enforcement Officers or authorized contract personnel.

Components	Yes	No	NA	Remarks
Transporting officers comply with applicable local, state, and federal motor vehicle laws and regulations. Records support this finding of compliance.	×			
Every transporting officer required to drive a commercial size bus has a valid Commercial Driver's License (CDL) issued by the state of employment.			×	No bus.
Supervisors maintain records for each vehicle operator.	×			
Officers use a checklist during every vehicle inspection. Officers report deficiencies affecting operability. Deficiencies are corrected before the vehicle goes back into service.	\boxtimes			
 Transporting officers: Limit driving time to 10 hours in any 15-hour period. Drive only after eight consecutive off-duty hours. Do not receive transportation assignments after having been on duty, in any capacity, for 15 hours. Drive a 50-hour maximum in a given work week; a 70-hour maximum during eight consecutive days. During emergency conditions (including bad weather), officers may drive as long as necessary and safe to reach a safe area—exceeding the 10-hour limit. 	×			
Two officers with valid CDLs required in any bus transporting detainees. When buses travel in tandem with detainees, there two qualified officers per vehicle. An unaccompanied driver transports an empty vehicle.			×	No bus.
Before the start of each detail, the vehicle is thoroughly searched.	×			
Positive identification of all detainees being transported is confirmed.	×			
All detainees are searched immediately prior to boarding the vehicle by staff controlling the bus or vehicle.	×			
The facility ensures that the number of detainees transported does not exceed the vehicles manufacturers occupancy level.	×			
Protective vests are provided to all transporting officers.	\boxtimes			
The vehicle crew conducts a visual count once all passengers are on board and seated. • Additional visual counts are made whenever the vehicle makes a scheduled or unscheduled stop.	×			
Policies and procedures are in place addressing the use of restraining equipment on transportation vehicles.	Ø
